Moon Handbooks Pennsylvania

From the urban hubs of Philadelphia and Pittsburgh, and excursions through historic war battlefields to hiking through scenic river towns, this third edition features suggested travel strategies and lists of must-see sights, plus essentials on dining, transportation, and accommodations for a range of budgets.

Moon Pittsburgh

Former music editor for the Pittsburgh City Paper, Dan Eldridge provides a quirky look at Pittsburgh, from visiting the Andy Warhol Museum to grabbing a beer at a hipster bar in South Side. Eldridge includes unique trip ideas like "Go Where the Locals Go," "Fun and Cheap," and "Out with the Parents." Packed with information on dining, transportation, and accommodations, Moon Pittsburgh has lots of options for a range of travel budgets. Every Moon guidebook includes recommendations for must-see sights and many regional, area, and city-centered maps. Complete with details on the best insider spots in the city and how to make the most of two days in Pittsburgh, Moon Pittsburgh gives travelers the tools they need to create a more personal and memorable experience. With expert writers, first-rate strategic advice, and an essential dose of humor, Moon guidebooks are the cure for the common trip.

Moon Pittsburgh

Take in the young, vibrant scene of a city on the rise and learn what it really means to be a Yinzer with Moon Pittsburgh. Inside you'll find: Strategic itineraries for history buffs, families, budget travelers, and more, all accessible by bus, train, or public transit The Top Sights and Unique Experiences: Get up close and personal with dinosaurs at the Carnegie Museum of Natural History, check out art and artifacts in Frick Park, and ponder iconic paintings at the Andy Warhol Museum. Take the incline train up Mount Washington or kayak along any of its three rivers. Explore the Cathedral of Learning at the University of Pittsburgh or cheer on the Steelers at Heinz Field Get a Taste of the City: Feast on affordable Asian cuisine in the East End, eat a famous sandwich with fries inside at Primanti Bros, and try pierogis for a taste of traditional Pittsburgh Bars and Nightlife: Sample a flight of craft brews under the stars at rooftop hotspot Biergarten, sip cocktails at a speakeasy, or rub elbows with regulars at a dive bar Local insight from born and bred Pittsburgher Emily B. King Day trips from Pittsburgh: Tube down the Youghiogheny River, explore vestiges of the Underground Railroad in southeastern Pennsylvania, or dig into apple pie in a backwoods diner Maps and Tools like background information on the history and culture of the city, easy-to-read maps and neighborhood guides from the trendy Strip to high-end Shadyside With Moon Pittsburgh's practical tips and local know-how, you can experience the best of the city. Looking to experience more of America's city life? Try Moon Boston or Moon Philadelphia. Exploring the area? Check out Moon Pennsylvania.

Moon Handbook

A fictional guidebook to tours on the moon--rooted solidly in fact.

Checking on the Moon

While spending the summer helping her grandmother run a small restaurant in a decaying and dangerous neighborhood on the edge of Pittsburgh, thirteen-year-old Cab meets many colorful characters and helps with the neighborhood crime watch.

Lunar Sourcebook

The only work to date to collect data gathered during the American and Soviet missions in an accessible and complete reference of current scientific and technical information about the Moon.

The Moon

This extraordinary book details how the Moon could be used as a springboard for Solar System exploration. It presents a realistic plan for placing and servicing telescopes on the Moon, and highlights the use of the Moon as a base for an early warning system from which to combat threats of near-Earth objects. A realistic vision of human development and settlement of the Moon over the next one hundred years is presented, and the author explains how global living standards for the Earth can be enhanced through the use of lunar-based generated solar power. From that beginning, the people of the Earth would evolve into a spacefaring civilisation.

Moon Pittsburgh

Long-time Pennsylvania resident Dan Eldridge provides a quirky look at Pittsburgh, from riding up the Duquesne Incline to grabbing a beer at a hipster bar in South Side to visiting the Andy Warhol Museum. Dan includes unique trip ideas like Out with the Parents, Fun and Cheap, and Go Where the Locals Go. Packed with information on dining, transportation, and accommodations, this guide provides options for a range of travel budgets. Complete with details on the best insider spots and how to make the most of two days in the city, Moon Pittsburgh gives travelers the tools they need to create a more personal and memorable experience.

On the Moon with Apollo 15

Historical maps and rare photographs illustrate four centuries of mapping the Moon.

Mapping and Naming the Moon

Visit historic battlefields, share the road with horse-drawn buggies, and explore two vibrant cities on the rise. Inside Moon Pennsylvania you'll find: Strategic itineraries like a 7-day spin through the

best of the state, weekend trips, and tips for history buffs, families, and outdoor adventurers The top sights and unique experiences: Sneak a peek at the Liberty Bell and museum-hop in Philadelphia and Pittsburgh. Hike, camp, or show off your snowboarding skills in the Poconos, spot roaming elk in the Pennsylvania Wilds, and relax on the shores of Lake Erie. Learn about American history at Gettysburg, marvel at Frank Lloyd Wright's masterpiece in the Laurel Highlands, or take a horse-drawn buggy through Amish country. Find the best Philly cheesesteak, indulge in all that Hershey has to offer, and try a "Pittsburgh-style" sandwich stuffed with fries Suggestions for day trips from Philadelphia and Pittsburgh, including Bucks County, Amish Country, Moraine and McConnells Mill State Parks, Fallingwater, and Cook Forest State Park Local tips from Philadelphia local Rachel Vigoda on when to go, how to get around, and where to stay Thorough background information on the landscape, wildlife, climate, and local culture Focused coverage of Philadelphia, Pennsylvania Dutch Country, the Pocono Mountains, Pittsburgh, the Alleghenies, the Lake Region, and Pennsylvania Wilds With Moon Pennsylvania's practical tips and local insight, you can experience the best of the Keystone State. Staying in the city? Try Moon Pittsburgh or Moon Philadelphia. Exploring more of the East Coast? Try Moon Virginia & Maryland or Moon Washington DC.

Moon Pennsylvania

Here men from the planet earth. First set foot upon the moon - July 1969 A.D. We Came in peace for all mankind. From the plaque on the Eagle, Apollo 11, which landed on the moon on July 20, 1969.

Apollo Expeditions to the Moon

Discusses the history of the moon and its relation to the Earth, offering information about its geological origins, potential future uses, and ancient beliefs regarding the moon.

A Hand-book, Describing Objects in the Telescopic Pictures of the Moon

Explains in simple terms all about the moon.

The Moon and the Condition and Configurations of Its Surface

Secrets of the Moon: Understanding and Analysing the Lunar Surface provides a unique account of the origin of key features on the lunar surface. Containing historical accounts and the latest observations from the field, in addition to exciting data from the Apollo manned missions, it describes the development of our current understanding of our Moon. It also explores the fracturing of the Moon, a topic not explored in other literature in the area, and contains a statistical treatment of the smaller craters of the Moon, as well as a geological treatment of the larger craters. This moderately technical account is designed to clarify and update the general thinking on the nature and origin of the most important lunar surface features for both undergraduate and research students. It may also be read by the professional scientist, especially the astronomer and the geologist who has found little time to study the Moon's topography, in addition to the lunar amateur astronomer and even the dedicated layman with a keen interest in lunar science. The book excludes nearly all mathematical symbols in order to remain accessible to those without a formal education in the area. Key Features: Authored by an expert in the area Presents a comprehensive account of the lunar surface, from historical observations to the NASA Apollo manned missions and the latest observations and data in the field Includes a statistical and geological treatment of the craters Dr. Gilbert Fielder is Reader Emeritus at Lancaster University, United Kingdom. He performed extended teaching at Lancaster University on Planetary Science and introduced a new degree course on Remote Sensing. Prior to this, he was Principal Investigator in NASA's Heat Capacity Mapping Programme, while continuing to head the Lunar and Planetary Unit at Lancaster until retirement. Dr. Fielder has authored several books, and presented many BBC and ITA television news programmes, as well as popular programmes with Sir Patrick Moore (on the BBC's "The Sky at Night") and, on the occasion of the first landing of astronauts on the Moon, with David Frost as Chairman in a special programme.

The moon, a full description and map of its principal physical features

Unlike some other reproductions of classic texts (1) We have not used OCR(Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain

imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.

Patrick Moore on the Moon

As one of the seven original townships of Allegheny County, Moon Township has a long and rich history. From the humble home of Joshua, John, and Jacob Meek in what is now Crescent Township to the Stoops House, owned by 19th-century riverboat captain William Stoops, today's Moon Township is a byproduct of these modest roots. Formed in 1788, Moon Township's history crosses borders into neighboring Findlay and Crescent Townships, which once comprised Moon. Today Moon Township is recognized as one of the most bustling and vibrant communities in the suburbs of Pittsburgh. Home to portions of Pittsburgh International Airport, a growing commercial corridor, and hundreds of new families each year, Moon Township is a major player in the future of western Pennsylvania. Through vintage photographs, Moon Township chronicles how this area has changed with the times while preserving as much of its history as possible.

Geology of the Moon

Providing an evenhanded chronicle of the fluctuating fortunes of the U.S. space program, this book presents as well a rational plan for humanity's return to the Moon.

Weekly Reader Books Presents What is the Moon?

In 'Paving the Way for Apollo 11' David Harland explains the lure of the Moon to classical philosophers, astronomers, and geologists, and how NASA set out to investigate the Moon in preparation for a manned lunar landing mission. It focuses particularly on the Lunar Orbiter and Surveyor missions.

The Moon

Unique atlas with 144 maps covering the entire Moon. Indispensable reference for planetary and space scientists, lunar enthusiasts and astronomers.

The Moon Considered as a Planet, a World, and a Satellite

This is a map of the near side of the moon, with more than 500 physical features named and indexed, as well as landing sites of unmanned and manned spacecraft. The chart also includes a small map of the far side of the moon and a text about the geology of the moon.

Secrets of the Moon

While the Moon was once thought to hold the key to space exploration, in recent decades, the U.S. has largely turned its sights toward Mars and other celestial bodies instead. In *The Value of the Moon*, lunar scientist Paul Spudis argues that the U.S. can and should return to the moon in order to remain a world leader in space utilization and development and a participant in and beneficiary of a new lunar economy. Spudis explores three reasons for returning to the Moon: it is close, it is interesting, and it is useful. The proximity of the Moon not only allows for frequent launches, but also control of any machinery we place there. It is interesting because recorded deep on its surface and in its craters is the preserved history of the moon, the sun, and indeed the entire galaxy. And finally, the moon is useful because it is rich with materials and energy. The moon, Spudis argues, is a logical base for further space exploration and even a possible future home for us all. Throughout his work, Spudis incorporates details about man's fascination with the moon and its place in our shared history. He also explores its religious, cultural, and scientific resonance and assesses its role in the future of spaceflight and our national security and prosperity.

The Moon a Full Description and Map of Its Principal Physical Features

Full Moon is a photographic journey to the Moon and back. drawn from NASA's 32,000 pictures from the Apollo missions. For the first time NASA has allowed 900 of the 'master' negatives and transparencies to be taken offsite for electronic scanning so as to produce the sharpest images of space that we have ever seen. From this selection of 'master' photographs Michael Light has distilled a single composite journey beginning with the launch, followed by a walk in space, an orbit of the Moon, a lunar landing and exploration and a return to Earth with an orbit and splash-down. Five enormous gatefold panoramas

show the extraordinary lunar landscape. These photographs reveal not only the hardware of lunar exploration in exquisite detail but also the profound aesthetics of space in what could be described as the ultimate landscape photography. The reader is encouraged to view these pictures as more than a spectacle. You start to experience them with a sense of the accompanying disorientation and excitement that the astronauts themselves would have felt. The Moon's surface and its extraordinary light are presented with awesome clarity. Full Moon was originally published in 1999 to mark the 30th anniversary of the first landing on the Moon. It was a milestone publication for the millennium, greeted with acclaim worldwide and published in eight countries. This new compact edition preserves all the superb quality of reproduction which was so evident in the original and makes this extraordinary work available to a still wider audience.

The Moon

The Moon: considered as a planet, a world, and a satellite., a classical book, has been considered essential throughout the human history, and so that this work is never forgotten we at Alpha Editions have made efforts in its preservation by republishing this book in a modern format for present and future generations. This whole book has been reformatted, retyped and designed. These books are not made of scanned copies of their original work and hence the text is clear and readable.

Moon Township

Pennsylvania resident and voracious traveler Anna Dubrovsky covers the best of the Keystone State, including Philadelphia, Amish country, the Pocono Mountains, Hershey, and Presque Isle. She offers a variety of unique travel strategies—from kid-pleasing getaways to rail fan meccas—and details the most popular sights, including the Liberty Bell, Independence Hall, Gettysburg National Military Park, and Fallingwater. Complete with expert tips on places to dine, sleep, and shop, Moon Pennsylvania gives travelers the tools they need to create a more personal and memorable experience.

The Once and Future Moon

Carpenter James wrote this book in the 90's and it is a classic book about the moon. It was produced from digital images created through the libraries' mass digitization efforts. The digital images were cleaned and prepared for printing through automated processes. Despite the cleaning process, occasional flaws may still be present that were part of the original work itself, or introduced during digitization.

NASA's Moon Program

This is a reproduction of the original artefact. Generally these books are created from careful scans of the original. This allows us to preserve the book accurately and present it in the way the author intended. Since the original versions are generally quite old, there may occasionally be certain imperfections within these reproductions. We're happy to make these classics available again for future generations to enjoy!

The Clementine Atlas of the Moon

Unlike some other reproductions of classic texts (1) We have not used OCR(Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.

Philip's Moon Map

In July of 1969, the human race's fascination with the Earth's moon went into overdrive when Neil Armstrong, Buzz Aldrin, and Michael Collins landed on the surface. To celebrate this significant anniversary, we take an in-depth look at the Apollo program and how it landed man on the Moon as well as all the fascinating facts about the celestial body itself. Find out everything you ever wanted to know about the Moon. How it was formed? What's on the far side? Who owns it? Those wanting to get up close and personal can use our handy tour of its craters and seas before learning how to take your

own photographs and analemmas. Put together by a team of experts in each specific field this book really is everything you need to know about the moon.

When she set off to cross the Atlantic as part of a delivery crew, Jill Dickin Schinas had no idea that she was embarking on a whole new life, but within a week of setting out she and the skipper were making plans for a journey to Cape Horn. One year later the couple were on their way but had detoured up the Amazon to get married. Two years after that they were crossing the Atlantic again, this time from the Caribbean and this time with the ship's company enlarged by the addition of a two year old son and a babe in arms. Together the little family then headed directly for the Falkland Islands and the southern tip of South America - travelling via the Bahamas, the Azores, Portugal, the Canaries, Cape Verde, Senegal, Guinea Bissau, Guinea Conakry, Cote d'Ivoire, Ghana, Sao Tome and Principe, Uruguay, Argentina, and various tenanted and untenanted islets and lumps of rock cast adrift in the Atlantic Ocean. Seven years after setting out, they almost reached their destination... On the face of it, this book is a travelogue, but it is also a portrait of the cruising lifestyle- the hand-to-mouth, alternative lifestyle, not the early-retirement luxury cruise. Yes, we were bound for Cape Horn... in as much as we had a destination, this indeed was it. But we were in no great hurry, and even this goal was viewed as little more than a staging post on our journey, for we meant to journey indefinitely. Truly, it was not a place but a lifestyle which we were setting forth to find. The family's adventures range from fighting gales and battling with immigration officials, to exploring uncharted African waters and abandoning ship to board a chopper via the winch cable. There is much in here that will be of value to other yachtsmen and other travellers, and heaps which will appeal to armchair voyagers and to families seeking to turn away from the nine-to-five motorway and tread a road of their own. Contains 31 pen-and-ink drawings and cartoons. Includes a brief glossary for people not conversant with sailing terminology. By the author of Kids in the Cockpit (a guide to sailing and cruising with children). The Schinas family are talented people. There's nothing on the planet that Nick can't fix, while Jill is an artist of character. The children are developing in the same mould, but the overriding feature of all their lives and the guiding spirit of this book, is their self-sufficiency and courage to make their own choices, come fair weather or foul. Casting fate to the ocean winds without visible means of support in the third millennium demands a lot more guts than ever it did thirty years ago. Keeping going, despite producing three fine children and surviving a capsizing off the Falklands that ended on the winch cable of an RAF helicopter, shows the true spirit of seafaring. TOM CUNLIFFE

A Family Outing in the Atlantic

When she set off to cross the Atlantic as part of a delivery crew, Jill Dickin Schinas had no idea that she was embarking on a whole new life, but within a week of setting out she and the skipper were making plans for a journey to Cape Horn. This is a guidebook to 23 breweries and brewpubs across the Garden State, from corporate giants to the newest brewpubs.

New Jersey Breweries

The essential guide to Jewish family life and fun activities at home and on the road! This celebration of Jewish family life is the perfect guide for families wanting to put a new Jewish spin on holidays, holy days, and even the everyday. Full of activities, games, and history, it is sure to inspire parents, children, and extended family to connect with Judaism in fun, creative ways. With over 85 easy-to-do activities to re-invigorate age-old Jewish customs and make them fun for the whole family, this book is more than just kids' stuff. It's about taking the Jewish family experience to a new educational and entertaining level. The Jewish Family Fun Book details activities for fun at home and away from home, including recipes, meaningful everyday and holiday crafts, travel guides, enriching entertainment, and much, much more! Clearly illustrated and full of easy-to-follow instructions, this lively guide shows us how to take an active approach to exploring Jewish tradition and have fun along the way. Each of The Jewish Family Fun Book's three sections offer dozens of ideas and easy-to-understand instructions: ? ?Holiday Fun? aims to enrich the appropriate seriousness of Jewish holidays with a healthy dose of fun. How about having a Passover seder in a tent, like Israelites in the desert? Or celebrating the harvest holiday of Shavuot by taking your kids strawberry picking? ? ?Fun at Home? features Jewish activities ranging from relaxing (with a guide to Jewish books, music, movies, and websites) to exhausting (instructions for games and other outdoor fun); from creative (ideas for arts and crafts projects and recipes) to unforgettable (mitzvah and volunteer opportunities). ? ?Fun on the Road? is an easy-to-use travel guide, with suggestions for adding a memorable Jewish component to already built-for-fun family vacations. There's information on Jewish museums, historical sites, camps, festivals, and kosher restaurants across the U.S.

The Jewish Family Fun Book

"Hundreds of family attractions less than 10 miles off Interstate 95 from the Mid-Atlantic to Miami"--Page 4 of cover.

Kids Love I-95, 2nd Edition

"Adventure on the High Sea! A Family's Sailing voyage Across the Atlantic" is a true story for young readers ages 8 to 13 but should also appeal to a parent's sense of adventure. A young girl and her family set out for the adventure opportunity of a lifetime. It's an exciting story about a family's life onboard a 38-foot sailboat and their many experiences along the way. They embark on a year-long voyage beginning in England with proposed stops in Spain, the Canary Islands, the Caribbean and Bermuda. Nothing ever goes as planned and their journey detours to Africa and later to America where they eventually settled. susanbarryblair.com

Adventure on the High Sea!

The year is 1966, and a pioneering English yachtsman heads south - alone - towards Cape Horn, and into a territory unknown to yachtsmen. This is the tale of a wilderness cruise on the desert coast of Argentina and in the snowy Chilean fjords, but between the two halves, at the summit of the adventure, is the story of a sailor fighting for his life.

Solo around Cape Horn

Atlantic City Queen of Resorts or America's Playground - you decide. Come inside and take a new look at Atlantic City today, a family destination with something for everyone and more surprises to come.

Atlantic City

Lonely Planet's New England and the Mid-Atlantic States' National Parks is your passport to the most up-to-date advice on what to see and skip. New England & the Mid-Atlantic's National Parks

Separately they were formidable—together they were unstoppable. Despite their intriguing lives and the deep impact they had on their community and region, the story of Richard Joshua Reynolds (1850–1918) and Katharine Smith Reynolds (1880–1924) has never been fully told. Now Michele Gillespie provides a sweeping account of how R. J. and Katharine succeeded in realizing their American dreams. From relatively modest beginnings, R. J. launched the R. J. Reynolds Tobacco Company, which would eventually develop two hugely profitable products, Prince Albert pipe tobacco and Camel cigarettes. His marriage in 1905 to Katharine Smith, a dynamic woman thirty years his junior, marked the beginning of a unique partnership that went well beyond the family. As a couple, the Reynoldses conducted a far-ranging social life and, under Katharine's direction, built Reynolda House, a breathtaking estate and model farm. Providing leadership to a series of progressive reform movements and business innovations, they helped drive one of the South's best examples of rapid urbanization and changing race relations in the city of Winston-Salem, North Carolina. Together they became one of the New South's most influential elite couples. Upon R. J.'s death, Katharine reinvented herself, marrying a World War I veteran many years her junior and engaging in a significant new set of philanthropic pursuits. Katharine and R. J. Reynolds reveals the broad economic, social, cultural, and political changes that were the backdrop to the Reynoldses' lives. Portraying a New South shaped by tensions between rural poverty and industrial transformation, white working-class inferiority and deeply entrenched racism, and the solidification of a one-party political system, Gillespie offers a masterful life-and-times biography of these important North Carolinians.

Katharine and R. J. Reynolds

Every year, U.S. casinos give away more than a billion dollars worth of amenities to customers in return for their gambling action. These giveaways, known as "comps" (short for complimentaries), range from parking and drinks to gourmet meals and airfare. Are you getting your share? From nickel slot players to \$500 a hand blackjack high rollers, Comp City has shown tens of thousands of gamblers how to get free casino vacations.

The Legacy of Zig

First Published in 2004. Volume II provides the hard facts and the history behind the headlines; significant 20th-century events in the evolution of all aspects of business and commerce are described in chronologically-arranged articles. The text of each article is divided into two sections: Summary of the Event describes the event itself and the circumstances leading up to it, and Impact of the Event analyzes the influence of the event on the evolution of business practice or on a major industry in both the short and long terms. Each article concludes with a fully annotated Bibliography.

Comp City

Geared towards parents with children between the ages of two and twelve, Fun with the Family Massachusetts features interesting facts and sidebars as well as practical tips about traveling with your little ones.

Chronology of Twentieth-Century History: Business and Commerce

Fulfilling the need for English-source material on contemporary Spain, this book supplies readers with an in-depth, interdisciplinary guide to the country of Spain and its intricate, diverse culture. Far from a usual reference book, Modern Spain takes the reader through the country's history, economy, and politics as well as topics that address Spain's popular culture, such as food, sports, and sexuality. Because of the interdisciplinary nature of its content, this book differs from the average typical English manuals that very rarely cover in depth the whole array of interesting issues that define Spain in the 21st century. The vast amount of information makes this book the perfect companion for any reader wishing to learn more about Spain. Packed with current facts and statistics, this book offers an unbiased view of a modern country, making it an ideal source for undergraduate students and scholars.

Outing

The Mashantucket Pequots have had a long and proud history, enduring for centuries even after colonists and historians believed them to have been exterminated by the British in 1637. By the early 1970s, however, the legacy of their generations rested on the shoulders of a single elderly

woman, upon whose death the Pequots' reservation would fall into government hands. Her grandson, Richard "Skip" Hayward, and other relatives responded to her pleas and kept alive the tribe and its land by coming to live on the reservation. Journalist Kim Isaac Eisler tells in riveting detail how Hayward and others skillfully manipulated laws, court decisions, and political connections to permit the Mashantucket Pequots to found the Foxwoods Resort and Casino in 1992. Located in Ledyard, Connecticut, Foxwoods today is arguably the world's most profitable casino complex, grossing over one billion dollars annually. The Mashantucket Pequots have become staggeringly rich, their tribal membership has swelled, and they are now an influential force in national politics. Their triumph has not been without controversy: Eisler also examines the volatile issue of racial identity among the Pequots and looks at the negative impact of Foxwoods on those who also make their home in the Connecticut woods.

Fun with the Family Massachusetts, 7th

Now in a revised and expanded 12th edition, New Jersey Day Trips offers everyone a fascinating journey through hundreds of tourist attractions in all corners of the Garden State. Plus, this comprehensive resource explores the most popular points just beyond the state's borders. Patrick Sarver has updated most entries and added more than twenty new points of interest to an already extensive list of destinations, making this the most sought-after guidebook about New Jersey.

Modern Spain

"A lighthearted, entertaining trip down Memory Lane" (Kirkus Reviews), Don't Make Me Pull Over! offers a nostalgic look at the golden age of family road trips—before portable DVD players, smartphones, and Google Maps. The birth of America's first interstate highways in the 1950s hit the gas pedal on the road trip phenomenon and families were soon streaming—sans seatbelts!—to a range of sometimes stirring, sometimes wacky locations. In the days before cheap air travel, families didn't so much take vacations as survive them. Between home and destination lay thousands of miles and dozens of annoyances, and with his family Richard Ratay experienced all of them—from being crowded into the backseat with noogie-happy older brothers, to picking out a souvenir only to find that a better one might have been had at the next attraction, to dealing with a dad who didn't believe in bathroom breaks. Now, decades later, Ratay offers "an amiable guide...fun and informative" (New York Newsday) that "goes down like a cold lemonade on a hot summer's day" (The Wall Street Journal). In hundreds of amusing ways, he reminds us of what once made the Great American Family Road Trip so great, including twenty-foot "land yachts," oasis-like Holiday Inn "Holidomes," "Smokey"—spotting Fuzzbusters, twenty-eight glorious flavors of Howard Johnson's ice cream, and the thrill of finding a "good buddy" on the CB radio. An "informative, often hilarious family narrative [that] perfectly captures the love-hate relationship many have with road trips" (Publishers Weekly), Don't Make Me Pull Over! reveals how the family road trip came to be, how its evolution mirrored the country's, and why those magical journeys that once brought families together—for better and worse—have largely disappeared.

A Family of Six at Sea

An investigation of tourism and its transforming impact on cities, by urban experts from a variety of disciplines. They examine such tourist meccas as Las Vegas, Orlando and Boston, and take up themes such as the marketing of cities and how tourists perceive places.

Comprehensive Calendar of Bicentennial Events

Great Family Trips in New England is full of fascinating and fun things to do -- children's theaters, aquariums, and ice cream parlors are just the beginning. This easy-to-use guide concentrates on the spots children and families like the most.

NAYPYIDAW, MYANMAR IS ARGUABLY THE WORLD'S MOST BIZARRE CAPITAL CITY.

THE COUNTRY'S PARLIAMENT IS A VAST COMPLEX OF 31 BUILDINGS.

ABOUT A DECADE AGO, THERE WAS NOTHING HERE BUT DESOLATE SCRUBLAND.

BUT MYANMAR'S JUNTA WANTED A NEW CAPITAL AWAY FROM YANGON

SOME EVEN SAY AN ASTROLOGER PLAYED A ROLE IN THE DECISION

THE ASTROLOGER PREDICTED A GRAND CAPITAL WOULD EMERGE, AND IT HAS...SORT OF

THE CITY'S FOOTPRINT IS ABOUT 5 TIMES THE SIZE OF BERLIN AND STILL GROWING.

HOTELS ARE LARGELY DESERTED.

INCREDIBLY, THIS IS THE MAIN ROAD TO PARLIAMENT.

SO WHY DID THE MILITARY GOVERNMENT BUILD THE CITY LIKE THIS?

BUT ONE THEORY SAYS THE FORMER MILITARY JUNTA WAS PARANOID ABOUT INVASIONS

THIS ROAD, FOR EXAMPLE, IS RUMORED TO REALLY BE A RUNWAY FOR EVACUATION

AIRCRAFTS.

NEEDLESS TO SAY, NAYPYIDAW IS A STRANGE PLACE.
