Teaching Academic Writing in the Digital Age with Andrea Lunsford - Teaching Academic Writing in the Digital Age with Andrea Lunsford by Macmillan Learning 628 views 8 years ago 55 minutes - Andrea Lunsford, shares strategies on teaching academic **writing**, to students in the contemporary era.

Intro

Teaching Academic Writing in the Digital Age

What is Academic Writing? "School writing" or "Essayistic" • Uses clear patterns of organization; marks logical relationships; states claims explicitly, follows traditional conventions; documents sources; uses standard edited English.

One student rejects such writing In a Ted-X talk on why more young women aren't interested in science, she describes the academic discourse of science as "old, dry, and moldy."

Paragraphs are getting shorter, less dense • Writers are using still and moving images, sound, color, and more in their academic writing • Others are making their academic discourse interactive, inviting immediate response . Conventions are less formal-opening sentences with "And" or But now generally OK • Tone is often more conversational

Doctors are adopting medical narratives • Scientists are delivering academic discourse in sometimes playful ways • Social scientists use case studies to let subjects speak for themselves, in everyday language . In many fields, formal documentation is giving way to links

In our field writers are pushing boundaries • Early on, Bob Connors and presented research data in the guise of Maand Pa Kettle . Geneva Smitherman has led the way in code- switching in academic discourse. See also Vershawn Young Suresh Canagarajah has described and illustrated code-meshing • Lee Tonouchi writes academic articles in Hawaiian Pidgin

So what's a poor writing teacher to do? • Decide what of the old literacy or academic discourse we want to hold on to • Make room for students to engage the "new" literacies, including distributed collaboration as well as the use of multimedia • Engage students in redefining academic discourse today
