Citizenship in the Community

Outlines requirements for pursuing a merit badge in citizenship in the community.

Citizenship in the World

Citizenship in the World is an Eagle-required merit badge. It is also good knowledge every-one should have about how governments work and what the major international political organizations, such as the UN, are. This short book is written to help merit badge counselors teach the BSA's "Citizenship in the World" merit badge. Because of that, it includes much of the basic text of the merit badge requirements. Not every section of the merit badge is discussed because youth don't have to do every single item. Some are options (e.g., complete two of three items). Scouts will still need to do some research and activities on their own.

Citizenship in the World

In 1948, former Broadway actor and WWII B-17 bomber pilot Garry Davis renounced his U.S. nationality as a personal action for world peace and declared himself a World Citizen. Since then the movement he set in motion has spread around the world. World Citizenship has become central to myriad activities promoting global peace through world law. Passport to Freedom shows how World Citizenship can be a powerful moral and political tool that reveals the living reality of One World. But it is more. It is a sourcebook of theory and practice that can empower the individual citizen allied with humanity. Through numerous examples, Davis proves that world citizenship is not merely a noble theory. It works. Thousands of people have used the tools described in this book to enter and leave more and more countries and successfully challenge national authorities around the world. As an inspiring story and practical guide, this ground-breaking book will provide readers with their own "PASSPORT TO FREEDOM."

"One of the most profound and illuminating studies of this century to have been published in recent decades."—John Gray, New York Times Book Review Hailed as "a magisterial critique of top-down social planning" by the New York Times, this essential work analyzes disasters from Russia to Tanzania to uncover why states so often fail—sometimes catastrophically—in grand efforts to engineer their society or their environment, and uncovers the conditions common to all such planning disasters. "Beautifully written, this book calls into sharp relief the nature of the world we now inhabit."—New Yorker "A tour de force."— Charles Tilly, Columbia University

Scouting

"Stephen Vider considers how the meanings of domesticity shifted for gay men and lesbians from the late 1960s to early 1980s, from a site of supposed isolation or deviance, to a source of identity, community, and pleasure. His manuscript reveals the multiple uses, appeals, and limits of domesticity for LGBTQ people in the post-World War II period, in their efforts to make social and sexual connections, and to appeal for expanded rights and freedoms. For example, the 1970s witnessed an efflorescence of gay communal households that proved to be seedbeds for alternative modes of domesticity, using the privacy of domestic space to achieve broader social and political changes. Vider brings a novel perspective to gay identity and culture, examining domesticity as a meeting point between practices and discourse, the local and national, the private and the public"--

The Queerness of Home

Ollie wants to lead a Boy Scout troop. Wade wants to lead soldiers into combat. Dr. Snider just wants to go home and retire. The three men find themselves taking a group of reluctant teenagers on a campout

in the wilds of Nagorno Karabakh, where they get hopelessly lost. They wander into the no-man's-land between Armenia and Azerbaijan and find themselves caught up in a small war. To make things worse, the US has lost a nuclear warhead in the area and the Russians and Iranians want to find it as badly as the Americans do. The kids come upon it first and only the Baku Boy Scouts and their arch-rivals, the Math Genies, can avert a major international incident.

Scouting

In a timely contribution to current debates over the psychology of boys and the construction of their social lives, *On My Honor* explores the folk customs of adolescent males in the Boy Scouts of America during a summer encampment in California's Sierra Nevada. Drawing on more than twenty years of research and extensive visits and interviews with members of the troop, Mechling uncovers the key rituals and play events through which the Boy Scouts shapes boys into men. He describes the campfire songs, initiation rites, games, and activities that are used to mold the Scouts into responsible adults. The themes of honor and character alternate in this new study as we witness troop leaders offering examples in structure, discipline, and guidance, and teaching scouts the difficult balance between freedom and self-control. What results is a probing look into the inner lives of boys in our culture and their rocky transition into manhood. *On My Honor* provides a provocative, sometimes shocking glimpse into the sexual awakening and moral development of young men coming to grips with their nascent desires, their innate aggressions, their inclination toward peer pressure and violence, and their social acculturation. *On My Honor* ultimately shows how the Boy Scouts of America continues to edify and mentor young men against the backdrop of controversies over freedom of religious expression, homosexuality, and the proposed inclusion of female members. While the organization's bureaucracy has taken an unyielding stance against gay men and atheists, real live Scouts are often more open to plurality than we might assume. In their embrace of tolerance, acceptance, and understanding, troop leaders at the local level have the power to shape boys into emotionally mature men.
