Consulting Editor: Shalom Lerner. This volume contains the text of the papers and principal commentaries delivered at the 8th Biennial Conference of the IACCL held at Bar Ilan University in August 1996. The papers include original and practical papers on banking law, secured financing, securities regulation, the international sale of goods, competition law, electronic fund transfers, transnational commercial law, commercial law in Central and Eastern Europe, international demand guarantees, the UNIDROIT principles of international commercial law, company charges, consumer bankruptcies, European consumer rights, products liability, and international commercial arbitration. Contributors: James E. Byrne, R.C.C. Cuming, S.K. Date-Bah, Louis F. del Duca and Patrick del Duca, Anthony J. Duggan, Raúl Etcheverry, Benjamin Geva, Roy Goode, Laureano F. Gutiérrez-Falla, Attila Harmathy, Rafael Illescas-Ortiz, Donald B. King, Shalom Lerner, Ricardo Sandoval Lopez, Patrick Osode, Uriel Procaccia, Arcelia Quintana-Adriano, Jerzy Rajski, Arie Reich, Norbert Reich, Harry C. Sigman, Catherine Walsh, Jacob S. Ziegel.

Proceedings of the ... Biennial Conference Convention ...and the County Assessors

The VALA Conference is the Australian forum where the use of technology in libraries is discussed.

Proceedings of the 9th biennial conference

Between the Civil War and the Great Depression, twin revolutions swept through American business and government. In business, large corporations came to dominate entire sectors and markets. In government, new services and agencies, especially at the city and state levels, sprang up to ameliorate a broad spectrum of social problems. In *The Price of Progress*, R. Rudy Higgins-Evenson offers a fresh analysis of the relationship between those two revolutions. Using previously unexploited data from the annual reports of state treasurers and comptrollers, he provides a detailed, empirical assessment of the goods and services provided to citizens, as well as the resources extracted from them, by state governments during the Gilded Age and Progressive Era. Focusing on New York, Massachusetts, California, and Kansas, but including data on 13 other states, his comparative study suggests that the "corporate state" originated in tax policies designed to finance new and innovative government services. Business and government grew together in a surprising and complex fashion. In the late nineteenth century, services such as mental health care for the needy and free elementary education for all children created new strains on the states' old property tax systems. In order to pay for newly constructed state asylums and schools, states experimented for the first time with corporate taxation as a source of revenue, linking state revenues to the profitability of industries such as railroads and utilities. To control their tax bills, big businesses intensified lobbying efforts in state legislatures, captured important positions in state tax bureaus, and sponsored a variety of government-efficiency reform organizations. The unintended result of corporate taxation—imposed to allow states to fulfill their responsibilities to their citizens—was the creation of increasingly intimate ties between politicians, bureaucrats, corporate leaders, and progressive citizens. By the 1920s, a variety of "corporate states" had proliferated across the nation, each shaped by a particular mix of taxation and public services, each offering a case study in how the business of America, as President Calvin Coolidge put it, became business.

Proceedings of the ...

This book continues the series *Select Proceedings of the European Society of International Law*, containing the proceedings of the Fourth Biennial Conference organised by ESIL and the University of Cambridge in 2010. The title of the conference was 'International Law 1989-2010: A Performance Appraisal'. The highlights, selected for publication in this volume, cover a wide spectrum of topics in international law.

Eleventh Biennial Convention of the Eastern Conference of Home Teachers

February issue includes Appendix entitled *Directory of United States Government periodicals and subscription publications*; September issue includes *List of depository libraries*; June and December issues include semiannual index

Literacy and Pacific Women

Unlike some other reproductions of classic texts (1) We have not used OCR(Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.

New Developments in International Commercial and Consumer Law

This text provides a history of property tax in America, revealing the fundamental difficulties confronting all past attempts at designing an equitable and efficient system of property taxation during the past two centuries.
