"Acharnians" is the earliest of the existent comedies of Aristophanes, produced in 425 BCE. It is a direct attack on the folly of war. The story deals with an Athenian farmer, Dikaiopolis, who surprisingly obtains a private peace treaty with the Spartans and enjoys the benefits of peace despite resistance from some of his fellow Athenians. This drama is celebrated for its absurd humor and its innovative appeal for an end to the Peloponnesian War.

The Acharnians

In this analysis of one major philosopher by another, Gilles Deleuze identifies three pivotal concepts - duration, memory, and *lan vital* - that are found throughout Bergson's writings and shows the relevance of Bergson's work to contemporary philosophical debates. He interprets and integrates these themes into a single philosophical program, arguing that Bergson's philosophical intentions are methodological. They are more than a polemic against the limitations of science and common sense, particularly in Bergson's elaboration of the explanatory powers of the notion of duration - thinking in terms of time rather than space.
