The Double Life of Fidel Castro

A revelatory memoir of the 17 years Juan Sanchez spent as one of Fidel Castro's personal soldiers, in his innermost circle

Che Guevara

The controversial life and career of Ernesto Ché Guevara (1928-1967) has earned the revolutionary leader admirers and detractors across the world. In his critical biography, Daniel James penetrates the myths that have grown up around Guevara since his death. The biography carefully analyzes the Cold War situations in which Guevara lived and fought, and which turned the young medical student into a guerilla and political theoretician. Ché Guevara: A Biography includes interviews with Guevara's first wife, and extensive information on the revolutionary's early years and family life lacking in other biographies. James also discusses Guevara's actions in Cuba as a leader in the rebel army of Fidel Castro, covering in detail Guevara's military victories, his post-war executions of anti-Castro prisoners, and his criticism of Soviet Communism. This unique and unsparing portrait of Guevara includes and an in-depth examination of his last guerilla campaign in Bolivia.

The Brazilian Othello of Machado de Assis

In a series of interviews with a European journalist and scholar, the Cuban leader describes his early life, the Cuban Revolution, and his experiences ruling Cuba, and discusses his views on socialism, international affairs, and the future.

My Life

Never before has any biographer had such close access to Fidel Castro as did Tad Szulc. The outcome of a long, direct relationship, this riveting portrait reveals astonishing and exclusive information about Cuba, the revolution, and the notorious, larger-than-life leader who has ruled his country with an iron fist for more than forty years. Only Tad Szulc could bring Fidel to such vivid life--the loves and losses of the man, the devious tactics of the conspirator, the triumphs and defeats of the revolutionary leader who challenged an American president and brought the world to the brink of nuclear disaster. From Jesuit schools to jungle hideouts and the Palace of the Revolution, here is Fidel...The Untold Story. Never before has any biographer had such close access to Fidel Castro as did Tad Szulc. "Imagine if Jane Austen got angry & you'll have some idea of how explosive these works are" (John Freeman). Since the publication of *My Brilliant Friend*, Elena Ferrante has gained admirers among authors—Jhumpa Lahiri, Elizabeth Strout, Claire Messud, to name a few—and critics—James Wood, John Freeman, Eugenia Williamson, for example. But her most resounding success has been with readers, who have discovered in Ferrante a writer who speaks with great power and beauty of the mysteries of belonging, love, family, and friendship. In this third Neapolitan novel, Elena and Lila have become women. Both have attempted pushing against the walls of a prison that would have seen them living a life of misery, ignorance and submission. They are afloat on the great sea of opportunities that opened up during the nineteen-seventies. Yet they are still very much bound to each other by a strong, unbreakable bond.

Those Who Leave and Those Who Stay

Fifteen-year-old Ari Mendoza is an angry loner with a brother in prison, but when he meets Dante and they become friends, Ari starts to ask questions about himself, his parents and his family that he has never asked before.

"The best and the most accessible one-volume history of communism now available . . . A far-reaching, vividly written account." —*Foreign Affairs* In *The Red Flag*, Oxford professor David Priestland tells the epic story of a movement that has taken root in dozens of countries across two hundred years, from its

birth after the French Revolution to its ideological maturity in nineteenth-century Germany to its rise to dominance (and subsequent fall) in the twentieth century. Beginning with the first modern Communists in the age of Robespierre, Priestland examines the motives of thinkers and leaders including Marx, Engels, Lenin, Stalin, Castro, Che Guevara, Mao, Ho Chi Minh, Gorbachev, and many others. Priestland also shows how Communism, in all its varieties, appealed to different societies for different reasons, in some as a response to inequalities and in others more out of a desire to catch up with the West. But paradoxically, while destroying one web of inequality, Communist leaders were simultaneously weaving another. It was this dynamic, together with widespread economic failure and an escalating loss of faith in the system, that ultimately destroyed Soviet Communism itself. At a time when global capitalism is in crisis and powerful new political forces have arisen to confront Western democracy, *The Red Flag* is essential reading if we are to apply the lessons of the past to navigating the future. "Detailed and scholarly but written in lively prose, this is a rich, satisfying account of the most successful utopian political movement in history." —Publishers Weekly, starred review

Fidel

Reinaldo Arenas was born to a poverty-stricken family in rural Cuba. By the time of his death in New York four decades later, he had become one of Cuba's most important poets, an outspoken critic of Castro's regime and one of the leading gay voices of the twentieth century. In *Before Night Falls*, Arenas tells of his odyssey from young rebel fighting for the Revolution, through his suppression as a writer, his disillusionment with Castro, his imprisonment and torture, to his eventual exile from Cuba to New York, where in 1987 he was diagnosed with AIDS. He committed suicide in 1990, ending a life of constant struggle against repression. In a farewell note, Arenas wrote: Due to my delicate state of health and to the terrible depression that causes me not to be able to continue writing and struggling for the freedom of Cuba, I am ending my life ... I do not want to convey to you a message of defeat, but of continued struggle and hope. Cuba will be free. I already am. (signed) Reinaldo Arenas

The Red Flag

This revelatory account of how the Vatican saved thousands of Jews during the Second World War shows why history must re-assess 'Hitler's Pope'.

Before Night Falls

God is not only to be found in majestic cathedrals or supernatural visions, shows best-selling author Yancey, but also and often more powerfully in the unexpected places - the might of a polar bear, the oppression of a Peruvian prison cell or in the broken cry of Shakespeare's *King Lear*. As we discover God's footprints in increasingly unlikely places, so our understanding of his beauty, love and power continues to grow. *Finding God in Unexpected Places* will sharpen your spiritual vision and challenge you to look for God outside the four walls of the church. He may not be as far away as you think. In this updated edition of an already-popular title, Yancey has removed nine of the chapters that he felt had become dated, and added another fourteen brand new chapters.

The Pope's Jews

Carefully revised to take account of new work and trends, this volume includes information on more than 100 documentaries released since the first edition, an expanded treatment of the six documentary modes, new still images, and a greatly expanded list of distributors.

Finding God in Unexpected Places

A new and chilling study of lethal human exploitation in the Soviet forced labor camps, one of the pillars of Stalinist terror. In a shocking new study of life and death in Stalin's Gulag, historian Golfo Alexopoulos suggests that Soviet forced labor camps were driven by brutal exploitation and often administered as death camps. The first study to examine the Gulag penal system through the lens of health, medicine,

and human exploitation, this extraordinary work draws from previously inaccessible archives to offer a chilling new view of one of the pillars of Stalinist terror.

Introduction to Documentary, Second Edition

Over 16 million copies sold worldwide 'Every human being should read this book' Simon Sinek

Illness and Inhumanity in Stalin's Gulag

"This amazing "revolutionary" novel is full of surprises -- not the least being that its author is a middle-aged Brazilian "man of letters" rather than some youthful wild-eyed Maoist. It glides with amazing dash and brio from torture chamber to love affair, more with the elegant grace of a minuet than with the terror of people who almost all lose their lives in failed attempts to reach Che's small guerrilla band in the Bolivian foothills. There's no sense of tragedy, only the offhand, almost humorous, way in which middle-class intellectual revolutionaries are likely to die: a bank robber turning his eye from the cashier at a crucial moment because he spots a friend stuffing stolen money from under the floorboards into a grocery bag. But there is a partial condemnation of this kind of half-hearted commitment when Che stoically nears his end; also a rather joyous vision of the future as the survivors more or less accidentally hijack a plane to transcendental Cuba. The action switches from character to character and not a word is wasted in this razzledazzle masterpiece of understatement. The "historical" sections on Che's capture and death approach grandeur without heaviness, and the clear, functional, completely artless language is admirably translated from the Portuguese by Barbara Shelby."--Kirkus

The Oxford Book of Latin American Poetry

In this volume Rgis Debray sums up over a decade of his research and writing on the evolution of subjects of communication and the technologically transmitted interventions of the modern intelligentsia in France. *Media Manifestos* announces the battle-readiness of a new sub-discipline of the sciences humaines: "mediology." Scion of that semiology of the sixties linked with the names of Roland Barthes and Umberto Eco and affiliated trans-Atlantically to the semiotics of C.S. Pierce and media analyses of Marshall McLuhan ("media is message"). "mediology" is in dialectical revolt against its parent thought-system. Determined not to lapse back into the uncritical empiricism and psychologism with which semiology broke, mediology is just as resolved to dispel the cult or illusion of the signifier as the be-all-and-end-all, slough off the scholasticism of the code, and recover the world in all its mediatized materiality. In this enterprise its ally is the work of French historians of mentalités, of the hard and evolutionary sciences, and of the technologies of transmission (from stylus and clay to

quill and parchment to press and paper to mouse and screen). Written with Debray's customary brio, *Media Manifestos* is no mere contribution to the vogue of "media studies." It remains steeped in the intellectual culture of Louis Althusser and Michel Foucault, indebted to the neolithic anthropology of Leroi-Gourhan and the study of science and technology of Serres and Latour, informed by the material histories of the Annales school, yet plugged into the audiovisual culture of today's "videosphere" (as against the printerly "graphosphere" of yesterday, and the scriptorial "logosphere" of the day before that). Debray's work turns a neologism ("mediology") into a tool-kit with which to rethink the whole business of mediation from the city-state to the internet.

Rosa Luxemburg

In 1939, a young Vilém Flusser faced the Nazi invasion of his hometown of Prague. He escaped with his wife to Brazil, taking with him only two books: a small Jewish prayer book and Goethe's *Faust*. Twenty-six years later, in 1965, Flusser would publish *The History of the Devil*, and it is the essence of those two books that haunts his own. From that time his life as a philosopher was born. While Flusser would later garner attention in Europe and elsewhere as a thinker of media culture, *The History of the Devil* is considered by many to be his first significant work, containing nascent forms of the main themes that would come to preoccupy him over the following decades. In *The History of the Devil*, Flusser frames the human situation from a pseudo-religious point of view. The phenomenal world, or "reality" in a general sense, is identified as the "Devil," and that which transcends phenomena, or the philosophers' and theologians' "reality," is identified as "God." Referencing Wittgenstein's *Tractatus Logico-Philosophicus* in its structure, Flusser provocatively leads the reader through an existential exploration of nothingness as the bedrock of reality, where "phenomenon" and "transcendence," "Devil" and "God" become fused and confused. So radically confused, in fact, that Flusser suggests we abandon the quotation marks from the terms "Devil" and "God." At this moment of abysmal confusion, we must make the existential decisions that give direction to our lives.

Bubble Gum, Bubble Gum

How do Nike or Pepsi ads convince you that you're a rebellious individual-even while they sell you the same sneakers or sugar water bought by millions? How does a company associated with a disaster, Exxon or DuPont, for example, restore its reputation? What gender and racial stereotypes lurk in TV commercials for beer, cars, cologne, and diamond rings? And what is the deeper meaning of living in an ad, ad, ad world? For more than a decade, journalist Leslie Savan exposed the techniques advertisers use to push products and pump up corporate images. In the lively essays in this collection, Savan penetrates beneath the slick surfaces of specific ads and marketing campaigns to show how they both reflect and shape our lives. Savan's pioneering use of advertising as a lens to examine society and politics made her a three-time Pulitzer Prize finalist. "With unerring perception," the 1992 Pulitzer jury in criticism wrote, Savan "has seen advertising, PR and political chicanery as a new field of socio-aesthetic criticism. Her merciless prose impales both the electronic and print media." Though technology and tastes have changed since Savan's essays first appeared in *The Village Voice*, her analysis is timeless. The fundamentals of exploiting desire remain the same: sex and fear, flattery and patriotism, humor and cool still sell.
