

il mestiere di vivere diario 1935 1950 cesare pavese

[#Cesare Pavese](#) [#The Business of Living](#) [#Pavese diary](#) [#Italian literature](#) [#autobiographical writing](#)

Explore the profound personal reflections of Cesare Pavese in 'The Business of Living: Diary 1935-1950.' This seminal work of Italian literature offers an intimate glimpse into the mind of one of Italy's most important modern authors, chronicling his struggles, aspirations, and observations on life, art, and society during a tumultuous period. Essential reading for insights into Pavese's creative process and the cultural landscape of the time.

Each article has been reviewed for quality and relevance before publication.

Madol Doova

Study of the characters of the novels of Fyodor Dostoyevsky, 1821-1881, Russian author with special reference to the influence of Jataka stories on these characters.

The Buddhist Jataka Stories and the Russian Novel ; Mysticism of Lawrence

Study with special reference to the novels of Piyad sa Siris na, GuGad sa Amaras kara, and Martin Wickramasinghe, 1891-1976, Sinhalese authors.

The Age of Kali

Fifty-four images and more than ninety classic and contemporary texts introduce Sri Lankas recorded history of more than two and a half millennia.

Selected Short Stories

Discover the blazing debut novel from the Booker Prize winning author. 'A crazy ambidextrous delight' Michael Ondaatje Where is Pradeep S. Mathew - spin bowler extraordinaire and 'the greatest cricketer to walk the earth'? Retired sportswriter W. G. Karunasena is dying, and he wants to know. W.G. will spend his final months drinking arrack, making his wife unhappy, ignoring his son and tracking down the mysterious Pradeep. On his quest he will also uncover a coach with six fingers, a secret bunker below a famous stadium, a Tamil Tiger warlord, and startling truths about Sri Lanka, cricket and himself. 'Bristling with energy and confidence' Sunday Times Winner of the DSC Prize for South Asian Literature

Ap gama

Selvadurai has captured horrifyingly well the airlessness of a society in which only a few are truly able to breathe, and deeply' Mary Loudon, The Times In Shyam Selvadurai's masterful second novel, set in repressive and complex 1920s Ceylon, the Cinnamon Gardens is a residential enclave of wealthy Ceylonese. Among them is Annalukshmi, an independent and high-spirited young teacher intent on thwarting her parents' plans to arrange her marriage. In a parallel narrative, her uncle, Balendran Navaratnam, respectably married but secretly homosexual, has his life disrupted by the arrival in Ceylon of Richard, a lover from long ago. 'Richly rewarding . . . this is, in many ways, an old-fashioned novel, brimming with old-fashioned virtues. The characters and setting are established in a measured, finely judged manner, allowing us to feel at home with them. Annalukshmi's Jane Austen-ish domestic life -- anxious mother, bossy aunt, catty sisters, endless talk of prospective husbands -- is brought to life with glancing humour. Not least of the novel's virtues is the way he seems to conjure up a whole social panorama. With its vivid evocation of time and place, its wise characterisation, its involving emotional dramas, this is a novel that deserves, and will surely gain, a wide readership' Adam Lively, Sunday Times 'Subtle and deeply humane . . . a fine novel that is both delicately written and very, very wise . . . Selvadurai has established himself firmly as an important chronicler of the complexities of social and cultural difference' Books in Canada 'This is a distinctive voice and the author is a talent to be reckoned with' Telegraph, India

Sinhala Novel and the Public Sphere

This book presents software engineering methods in the context of the intelligent systems. It discusses real-world problems and exploratory research describing novel approaches and applications of software engineering, software design and algorithms. The book constitutes the refereed proceedings of the Software Engineering Methods in Intelligent Algorithms Section of the 8th Computer Science On-line Conference 2019 (CSOC 2019), held on-line in April 2019.

Revolution and Evolution

Compelling evidence that life, intelligence, and evolution on Earth were seeded by comets and cosmic intelligence • Explains how life first came from interstellar dust and comets and how later arrivals of cosmic dust and comets spurred evolution • Explores the possibility that universal knowledge may be stored in human DNA and how ancient cultures may have known a way to retrieve this knowledge • Reveals new discoveries about the dimensions of the Great Pyramid of Giza All ancient cultures link humanity's origins to the heavens. The Egyptians, for example, were adamant that their ancestors came from the stars of Orion and Sirius. Today, however, religion and science assert that life arose spontaneously here on Earth. Did the ancients know our true cosmic origins? Have they left us clues? Expanding on the panspermia theory developed with the celebrated astronomer Sir Fred Hoyle--namely that the building blocks of life were imported to Earth by comets in the distant past--Chandra Wickramasinghe and Robert Bauval explore the latest findings in support of a cosmic origin for humanity. They detail the astrobiological discoveries of organic molecules deep in space, how microbes are incredibly resistant to the harshest conditions of space--enabling the transfer of genes from one star system to another, and the recent recovery of microorganisms from comets still in space. They argue that the universe was "born" and preset with the blueprint of life and that the cosmos must be teeming with lifeforms far older and perhaps far more developed than us. They show how life arrived on our planet in the form of interstellar dust containing alien bacteria approximately 3.8 billion years ago and how later comets, meteoroids, and asteroids brought new bacterial and viral genetic material, which was vital for evolution. Using the latest advances in physics, cosmology, and neuroscience, the authors explore how universal knowledge may be stored in human DNA and cells, and they postulate that ancient cultures, such as the pyramid builders of Egypt and the temple builders of India, may have known a way to retrieve this knowledge. Sharing new discoveries from experienced architects, engineers, and mathematicians, they show how the Great Pyramid is a three-dimensional mathematical equation in stone, bearing a potent message for humanity across time and space about who we are and where we come from.

The Sri Lanka Reader

Since the late 1970s civil war has left Sri Lanka in an almost permanent state of crisis; conventional histories of the country by liberal and Marxist scholars in the last two decades have thus tended to focus on the state's failure to accommodate the needs and demands of the minorities. The entire history of the twentieth century has been tied to this one key issue. Sri Lanka in the Modern Age offers a fresh perspective based on new research. Above all, the author has written a history of the peoples of Sri Lanka rather than a history of the nation-state.

Publisher Description

Cinnamon Gardens

For hundreds of years, the island of Sri Lanka was a crucial stopover for people and goods in the Indian Ocean. For the Dutch East India Company, it was also a crossroads in the Indian Ocean slave trade. Slavery was present in multiple forms in Sri Lanka—then Ceylon—when the British conquered the island in the late eighteenth century and began to gradually abolish slavery. Yet the continued presence of enslaved people in Sri Lanka in the nineteenth century has practically vanished from collective memory in both the Sinhalese and Tamil communities. Nira Wickramasinghe uncovers the traces of slavery in the history and memory of the Indian Ocean world, exploring moments of revolt in the lives of enslaved people in the wake of abolition. She tells the stories of Wayreven, the slave who traveled in the palanquin of his master; Selestina, accused of killing her child; Rawothan, who sought permission for his son to be circumcised; and others, enslaved or emancipated, who challenged their status. Drawing on legal cases, petitions, and other colonial records to recover individual voices and quotidian moments, Wickramasinghe offers a meditation on the archive of slavery. She examines how

color-based racial thinking gave way to more nuanced debates about identity, complicating conceptions of blackness and racialization. A deeply interdisciplinary book with a focus on recovering subaltern resistance, *Slave in a Palanquin* offers a vital new portrait of the local and transnational worlds of the colonial-era Asian slave trade in the Indian Ocean.

Software Engineering Methods in Intelligent Algorithms

In the footstep of the Buddha is a collection of letters written whilst the author was based in Sri Lanka from 1986-90. They describe the phenomenon of ethnic Buddhism, as witnessed during the author's visits to temples and forest hermitages and his meetings with monks, laymen and laywomen in town and country. We learn of the author's practicing and teaching the principles of individual spiritual evolution, and meet the flora and fauna of the lush tropical landscape. We catch occasional glimpses of the civil war that sorely troubled the Island during those years. The author also tells of his visits to India during the same period, and of the new Buddhist Movement unfolding there some forty years after the great Mass Conversion to Buddhism inaugurated by Dr Ambedkar in Nagpur in 1956.

Cosmic Womb

From Simon & Schuster, *Evolution from Space* is Sir Fred Hoyle and Chandra Wickramasinghe's theory of cosmic creationism in this daring and fascinating sequel to *Lifecloud* and *Diseases from Space*. *Evolution from Space* presents the revolutionary theory that mathematics can establish the probable existence of God and suggests that life began in space under the direction of a great intelligence.

Sri Lanka in the Modern Age

An exploration of how acceptance of panspermia will soon change history • Offers extensive scientific proof of panspermia--that life arose on Earth via comets and that evolution is seeded by viruses arriving via comets and interstellar dust • Explores the major philosophical, psychological, cultural, religious, and environmental ramifications of the acceptance of this new scientific worldview Main-stream consensus is that life arose on Earth spontaneously out of "primordial soup." Yet this theory, as well as the Darwinian "survival of the fittest" concept as it relates to major steps in evolution, has no scientific basis or proof. Where, then, did life come from? As the authors show, with conclusive scientific evidence, life came from space--a concept known as "panspermia." We humans, and all other life on Earth, evolved over millennia in response to viruses that arrived via comets, and we continue to do so. Exploring the philosophical, psychological, cultural, and environmental ramifications of the acceptance of panspermia, the authors show how the shift will be on par with the Copernican Revolution--when it was finally accepted that the Earth was not the center of the Universe. Explaining the origins of the panspermia theory in the work of the late Sir Fred Hoyle, the authors reveal the vast body of evidence that has accumulated over the past 4 decades in favor of the cosmic origins of life, including viral inserts found in DNA that have shaped our human genome over millions of years. They show how the tiniest of viruses, microscopic animals (tardigrades), and even seeds have been found to be natural cosmonauts. The authors also show how space-borne viruses play a crucial role in the positive evolution of life and that our entire existence on this planet is contingent on the continuing ingress of cosmic viruses. Revealing how panspermia offers answers to some of humanity's longstanding questions about the origins of life, the authors discuss the impact this shift in understanding will have on our relationship with the Earth and on culture, history, and religion. And perhaps the most dramatic ramification of all is that acceptance of panspermia means acceptance that Earth is not unique--that other life-filled planets exist and intelligent life is common in the Universe. Not only did we come from space, but we are not alone.

Literary Cultures in History

The implementation of effective decision making protocols is crucial in any organizational environment in modern society. Emerging advancements in technology and analytics have optimized uses and applications of decision making systems. *Decision Management: Concepts, Methodologies, Tools, and Applications* is a compendium of the latest academic material on the control, support, usage, and strategies for implementing efficient decision making systems across a variety of industries and fields. Featuring comprehensive coverage on numerous perspectives, such as data visualization, pattern analysis, and predictive analytics, this multi-volume book is an essential reference source for researchers, academics, professionals, managers, students, and practitioners interested in the maintenance and optimization of decision management processes.

Amba yahaluwo

Social, political, economic and constitutional developments are considered as well as the evolution of science and arts in the development process. This is in accordance with the Sri Lankan tradition of seeing the world as a connected whole."--BOOK JACKET.

Slave in a Palanquin

For three decades, Spivak has been ignoring the standardized "rules" of the academy and trespassing across disciplinary boundaries. In this new book she declares the death of comparative literature and sounds an urgent call for a "new comparative literature, " in which the discipline is given new life.

Kaliyugya

When each of the umbrellas he brings back to his village disappears, Kiri Mama devises a plan to track down the thief.

Wes marukarana saththu

When factory owner Bernard Morton fires him from his first job, Harry Glass protests by impulsively going off with Morton's car and the intriguing Mrs Morton. Shocked out of the life she has been living, Mrs Morton forms a bond with Harry as they are pursued from one city to another with the Morton brothers in pursuit. Bernard wants his wife back; Norman is more concerned with the contents of a briefcase left in the car boot. When Harry and Mrs Morton are given shelter in a remote house in the Highlands, it seems they have found refuge. But by the time the Morton brothers find them they have been caught up in a world of sexual perversity and fantasy. *My Life as a Man* begins with a nation in the grip of anti-war fever, and ends with an old man's discovery that life can still surprise him.

In the Footstep of the Buddha

DIVERGENT meets *MEMOIRS OF A GEISHA* in this dark YA thriller set within the walls of a lawless slum city, where Jin Ling searches for her lost sister and Dai struggles to complete an impossible mission. There are three rules of survival in the Walled City: Run fast. Trust no one. Always carry your knife. Right now, my life depends completely on the first. Run, run, run. Dai traffics drugs for the most ruthless man in the Walled City. To find freedom, he needs help from someone who can be invisible... Jin Ling hides under the radar, evading the street gangs as she searches for her lost sister. Mei Yee survives trapped in a brothel, dreaming of escape while watching the girls who try fail and die. Damaged and betrayed, can these three find the faith to join forces and escape the stifling city walls? With a fantasy setting inspired by Kowloon Walled City, Hong Kong, Ryan's novel has a rich authenticity and an intense atmosphere, and its pace will enthrall the reader from the very first page.

Evolution from Space

Life story of Prophet Muhammad, d. 632.

Sathwa sannathiya

While technology is developing at a fast pace, urban planners and cities are still behind in finding effective ways to use technology to address citizen's needs. Multiple aspects of sustainable urbanism are brought together in this book, along with advanced technologies and their connections to urban

planning and management. It integrates urban studies, smart cities, AI, IoT, remote sensing, and GIS. Highlights include land use planning, spatial planning, and ecosystem-based information to improve economic opportunities. Urban planners and engineers will understand the use of AI in disaster management and the use of GIS in finding suitable landfill sites for sustainable waste management. Features Explains the process of urban heritage conservation, including the process of urban renewal and its regeneration and the role of citizens in urban renewal, planning, and management. Includes several case studies highlighting urban environmental problems and challenges in developed and developing countries and the ways for converting urban areas into smart cities. Focuses on urban resources, the supply of energy in smart cities, and their proper management practices. Introduces the role of remote sensing, GIS, and IoT in making a smart city and meeting sustainable goals. Analyzes unique case studies, their challenges and obstacles, and proposes a set of factors to understanding smart city initiatives and projects.

Inside Lonely Planet's Sri Lanka Travel Guide: Up-to-date information - all businesses were rechecked before publication to ensure they are still open after 2020's COVID-19 outbreak NEW pull-out, passport-size 'Just Landed' card with wi-fi, ATM and transport info - all you need for a smooth journey from airport to hotel Planning tools for family travellers - where to go, how to save money, plus fun stuff just for kids What's New feature taps into cultural trends and helps you find fresh ideas and cool new areas our writers have uncovered NEW Accommodation feature gathers all the information you need to plan your accommodation Colour maps and images throughout Highlights and itineraries help you tailor your trip to your personal needs and interests Insider tips to save time and money and get around like a local, avoiding crowds and trouble spots Essential info at your fingertips - hours of operation, phone numbers, websites, transit tips, prices Honest reviews for all budgets - eating, sleeping, sightseeing, going out, shopping, hidden gems that most guidebooks miss Cultural insights give you a richer, more rewarding travel experience - history, people, music, landscapes, wildlife, cuisine, politics Over 55 maps Covers Colombo, the West, the South, Nala National Park, hill country, ancient cities, the East, Jaffna & the North and more The Perfect Choice: Lonely Planet's Sri Lanka, our most comprehensive guide to Sri Lanka, is perfect for both exploring top sights and taking roads less travelled. About Lonely Planet: Lonely Planet is a leading travel media company, providing both inspiring and trustworthy information for every kind of traveller since 1973. Over the past four decades, we've printed over 145 million guidebooks and phrasebooks for 120 languages, and grown a dedicated, passionate global community of travellers. You'll also find our content online, and in mobile apps, videos, 14 languages, armchair and lifestyle books, ebooks, and more, enabling you to explore every day. 'Lonely Planet guides are, quite simply, like no other.' – New York Times 'Lonely Planet. It's on everyone's bookshelves; it's in every traveller's hands. It's on mobile phones. It's on the Internet. It's everywhere, and it's telling entire generations of people how to travel the world.' – Fairfax Media (Australia)

Decision Management: Concepts, Methodologies, Tools, and Applications

Lonely Planet Sri Lanka is your passport to the most relevant, up-to-date advice on what to see and skip, and what hidden discoveries await you. Laze on a pristine, undiscovered beach, wander lost cities and ancient ruins, or hit the markets for a rainbow of exotic fruits and rich spices; all with your trusted travel companion.

Kurumini saththu

This book contains a selection of lectures from the first Summer School organized by the Center for Functional nanostructures (CFN) at the University of Karlsruhe. The mission of the CFN is to carry out research in the following areas: nanophotonics, nanoelectronics, molecular nanostructures and nanostructured materials. The aim of the summer schools is mainly to exchange new ideas and illustrate emerging research methodologies through a series of lectures. This is reflected by both the selection of topics addressed in the present volume as well as the tutorial aspect of the contributions.

The Jungle Tide

In this extraordinary debut, Ashok Ferry chronicles, in a gently probing voice, the journeys of characters seeking something beyond the barriers of nations and generations. His tales of social-climbing Sri Lankans, of the pathos of immigration, of rich people with poor taste, of ice-cream karma, of innocent love, eternity, and more take us to Colombo's nouveau riche, hoity-toity returnees, ladies with buttery skin and square fingernails, old-fashioned aristocrats, and the poor mortals trapped between them. Ferry's stories comprise characters that are 'serious and fine and upstanding, and infinitely dull', but also others like young John-John, who loses his childhood somewhere 'high up in the air between Asmara and Rome'; the maid, Agnes of God, whose mango-sucking teeth 'fly out at you like bats out of the mouth of a cave'; Ashoka, the immigrant who embodies his Sri Lankan identity only on the bus ride between home and work; and Professor Jayaweera who finds sterile freedoms caged in the 'unbending, straight lines of Western Justice'. Absurd, sad, scathing and generous, but mostly wickedly funny, *Colpetty People* presents modern Sri Lankans as they navigate worlds between Ceylon and the West.

Sri Lanka's Development Since Independence

This is the first volume to consistently examine Soviet engagement with world literature from multiple institutional and disciplinary perspectives: intellectual history, literary history and theory, comparative literature, translation studies, diaspora studies. Its emphasis is on the lessons one could learn from the Soviet attention to world literature; as such, the present volume makes a significant contribution to current debates on world literature beyond the field of Slavic and East European Studies and foregrounds the need to think of world literature pluralistically, in a manner that is not restricted by the agendas of Anglophone academe.

Death of a Discipline

"A personal account by a world-class ultra-marathon runner chronicles his globe-spanning races, record-breaking run across the Sahara and struggles with drug addiction and wrongful imprisonment, "--NoveList.

The Umbrella Thief

WINNER OF THE INTERNATIONAL DUBLIN LITERARY AWARD WINNER OF THE GOLDSMITHS PRIZE LONGLISTED FOR THE MAN BOOKER PRIZE BGE IRISH BOOK OF THE YEAR 2016 Marcus Conway has come a long way to stand in the kitchen of his home and remember the rhythms and routines of his life. Considering with his engineer's mind how things are constructed - bridges, banking systems, marriages - and how they may come apart. Mike McCormack captures with tenderness and feeling, in continuous, flowing prose, a whole life, suspended in a single hour.
