New Books on Women and Feminism

In this heartfelt tribute to the spirit and people of Oklahoma, one of the state's most distinguished photo-journalists shows that he is equally talented as a photographer and writer. Showcasing black-and-white photographs and fifty short essays, *Shooting from the Hip* portrays Oklahoma's people, animals, lifestyles, landscapes, and weather in all their diversity. Cowboys, kids, tornados, trucks, rattlesnakes, fiddlers—J. Don Cook has seen them all, and through his poignant essays, he allows us not only to see them but to understand them as he does. After a hardscrabble boyhood, Cook became a photographer at the age of twenty when he took a job with the *Ada Evening News* in southern Oklahoma. His first assignment was to photograph six abandoned puppies at the city dump—an apt foreshadowing of his career, for he has always been drawn to the poor, the disenfranchised, and the downtrodden. In addition to the brief essays that accompany his photographs, Cook shares some of his own life experiences in a moving introduction and epilogue. His unsparing account of some of the worst moments of his difficult youth and his meditations on how he used these hardships to become an artist can only be called inspirational. "At seven I didn't know any better," he writes, "and believed I had few choices. But I quickly learned to cope—to feint, to dodge, to hide, to read, to run, to survive, to make art—and I did it all, shooting from the hip." J. Don Cook, a resident of Oklahoma City, is an award-winning photojournalist, artist, poet, and business entrepreneur. Nominated three times for a Pulitzer Prize and named *News Photographer of the Year* seven times by the Oklahoma Press Association, his photographs have appeared in such magazines as *National Geographic* and *Time*. James Garner, the acclaimed film and television actor, is best known for his leading roles in the television series *Maverick* and the *The Rockford Files*. He is a native of Norman, Oklahoma.

Shooting from the Hip

Unsafe Attachments explores the relationships of a loosely interlinked group of Londoners. Caught off guard at key points, they face moments of sudden temptation in their busy, established lives, as well as increasingly difficult choices. Dinah, harried and pregnant, is haunted by images of death on

her way to Heathrow. Abi, a senior civil servant, embarks upon an affair with a Nigerian journalist as her teenage daughter 'kind of shags' her teacher. Alex, increasingly keen to settle down, numbly accompanies his ex-girlfriend to an abortion clinic. A glance at a party turns into a fumbling grope and then a guilty hangover for Roger, whose live-in girlfriend is smugly satisfied that her life is on course. Lonely café-owner Carey spots his married shrink passionately kissing another woman in a park while Tina's desperate wish for a child jeopardises everything that is important to her. Relationships are acutely observed - the delights and tensions of living together, cheating on one another and trying to make lasting connections in this vast modern city. Love - real or imaginary - causes hearts to crack and lives to crumble but there is also hope, and sometimes there are second chances.

First in the series to wet your appetite is Stardom Kills. A flowing page-turner intertwined with a plot mix of engrossing characters: Hollywood's Elite, Celebrities, Media Hounds and Shady Mortals-will all keep you enthralled and guessing. Henry Tyler and his wife Barbara, who reside in La Jolla, CA since Henry's retirement, are back in L.A. vacationing with their son and daughter-in-law at the famous Beverly Hills Hotel. Famous guests in the hotel include Pop Diva Alicia Hill, who is relaxing while promoting her newest smash album. On Alicia's big night of jubilation sponsored by her record company, cameras are flashing, applause is plentiful and the party is in full swing until evil intervenes. Henry is nearby and hears a shrilling scream drawing him to the catastrophe. Alicia Hill has collapsed to her death. While LAPD's finest detectives labor the perplexing homicide, Henry is powerless at getting the cold-blooded homicide out of his mind and does some snooping and analytical investigating on his own. With little to go on, the challenging chase is on. Is an 'Ulterior motive' involved, or was there an 'Ax to grind?' Hang on, it will be a wild ride.

Much has been written about World War II, but not often do we hear about the immeasurable suffering of the Germans who wanted no part of Hitler's regime. Abandoned and Forgotten is the memoir of a young girl growing up in the then-German province of East Prussia by the Baltic Sea. Orphaned at the age of nine and left to fend for herself in a hostile world, Evelyn Tannehill witnessed firsthand what happens when law and order break down and self-preservation becomes the only thing that matters. Her journey is a poignant example of how resilient the human spirit can be, even in the face of war's greatest horrors.

David is a great writer' Paula Hawkins, *Good Housekeeping* 'A riotously good novel, witty and earnest, brimming with sharply drawn characters and creeping suspense. David Thewlis is a fabulous writer' Anna Bailey, Sunday Times bestselling author of *Tall Bones* 'A deliciously smart, hilarious human drama with the pace and intrigue of a gripping thriller. When Jack sees Betty Dean - actress, mother, trainwreck - playing the part of a crazed nun on stage in an indie production of *The Devils*, he is struck dumb by her resemblance to Martha. Desperate to find a way to complete his masterpiece, he hires her to go and stay in his house in France and resuscitate Martha in the role of 'loving spouse'. But as Betty spends her days roaming the large, sunlit rooms of Jack's mansion - filled to the brim with odd treasures and the occasional crucifix - and her evenings playing the part of Martha over scripted video calls with Jack, she finds her method acting taking her to increasingly dark places. And as Martha comes back to life, she carries with her the truth about her suicide - and the secret she guarded until the end. The Men Who Shot Liberty: 60 Rip-Roaring Westerns in One Edition

I have recorded in this book happenings and encounters in the first 33 years of my life. I am half expecting that they are, for the most part, of interest only to me, the curious members of my family, and friends, who are either nosy of what I had gone through, or just evoking memories of their own youthful past in 20th Century Philippines. These memories are mostly fragmented recollections of what I heard and saw when growing up in a small village, and while going to school and starting life, after the end of the 2nd World War and the start of Philippine independence. This book is about the unadorned simple life in a village of a newly independent country that was slowly emerging from a backward colonial past and its coming of age after the 2nd World War. At the people level, I have tried to narrate how the young typically responded to the demands of the outside world. Here you will meet family and friends, ordinary people, as well as some of the colorful characters in the 20th century Philippines I encountered from the sidelines of power.

Abandoned and Forgotten

In *A Necessary Evil*, Pulitzer Prize-winning author Garry Wills shows that distrust of government is embedded deep in the American psyche. From the revolt of the colonies against king and parliament to present-day tax revolts, militia movements, and debates about term limits, Wills shows that American antigovernment sentiment is based on a fundamental misunderstanding of our history. By debunking some of our fondest myths about the Founding Fathers, the Constitution, and the taming of the frontier, Wills shows us how our tendency to hold our elected government in disdain is misguided.

Klara and the Sun

The residents of Caxambu, a squatter neighborhood in Rio de Janeiro, live in a state of insecurity as they face urban violence. *Living with Insecurity in a Brazilian Favela* examines how inequality, racism, drug trafficking, police brutality, and gang activities affect the daily lives of the people of Caxambu. Some Brazilians see these communities, known as favelas, as centers of drug trafficking that exist beyond the control of the state and threaten the rest of the city. For other Brazilians, favelas are symbols of economic inequality and racial exclusion. Ben Penglase's ethnography goes beyond these perspectives to look at how the people of Caxambu themselves experience violence. Although the favela is often seen as a war zone, the residents are linked to each other through bonds of kinship and friendship. In addition, residents often take pride in homes and public spaces that they have built and used over generations. Penglase notes that despite poverty, their lives are not completely defined by illegal violence or deprivation. He argues that urban violence and a larger context of inequality create a social world that is deeply contradictory and ambivalent. The unpredictability and instability of daily experiences result in disagreements and tensions, but the residents also experience their neighborhood as a place of social intimacy. As a result, the social world of the neighborhood is both a place of danger and safety.

(Applause Books). Rita Lakin was a pioneer a female scriptwriter in the early 1960s when Hollywood television was exclusively male. For years, in creative meetings she was literally "the only woman in the room." In this breezy but heartfelt remembrance, Lakin takes readers to a long-forgotten time when women were not considered worthy or welcome at the creative table. Widowed with three young children, she talked herself into a secretarial job at Universal Studios in 1962, despite being unable to type or take dictation. With guts, skill, and humor, she rose from secretary to freelancer, to staff writer, to producer, to executive producer and showrunner, meeting hundreds of famous and infamous show biz legends along the way during her long and unexpected career. She introduced many women into the business and was a feminist before she even knew she was one. The general public did not know her name, but Lakin touched the lives of millions of viewers week after week, year after year. The relevance of her personal journey charming yet occasionally shocking will be an eye-opener to present-day who take for granted the abundance of female creative talent in today's Hollywood.

Shooting Martha

Revisiting the Twentieth Century, as the title suggests, is a collection of the author's experiences from his childhood in St. Paul, Minnesota, to those of him and his family before their move to New Jersey from North Carolina in 1955. The story covers amusing anecdotes he experienced in his student years, in a variety of summer laboring jobs, his early days with 3M in St. Paul, his bachelor life in New York, the courtship of his wife, their life in the High Point, NC and his job as salesman and sales manager. These anecdotes illustrate what life was like during this period which was marked by two shooting world wars, a depression and the threat of nuclear destruction. Against this background of international tumult, a great transformation in lifestyle occurred in the United States. At the beginning of the story, no one in his neighborhood has a car or a radio. Even the telephone and the record player were of recent origin. Families or churches took care of relatives and the poor went to the poorhouse. The work week was sixty hours and payment for over-time was unheard of. Unions were fighting to improve the working man's lot in life, but were in their infancy. Neighborhood interdependency disappeared as the automobile shrunk distances and people achieved greater mobility. The change in lifestyle that occurred in this brief period seem somewhat unique in our history.

New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

The Einstein Syndrome is a follow-up to Late-Talking Children, which established Thomas Sowell as a leading spokesman on the subject of late-talking children. While many children who talk late suffer from developmental disorders or autism, there is a certain well-defined group who are developmentally normal or even quite bright, yet who may go past their fourth birthday before beginning to talk. These children are often misdiagnosed as autistic or retarded, a mistake that is doubly hard on parents who must first worry about their apparently handicapped children and then see them lumped into special classes and therapy groups where all the other children are clearly very different. Since he first became involved in this issue in the mid-90s, Sowell has joined with Stephen Camarata of Vanderbilt University, who has conducted a much broader, more rigorous study of this phenomenon than the anecdotes reported in Late-Talking Children. Sowell can now identify a particular syndrome, a cluster of common symptoms and family characteristics, that differentiates these late-talking children from others; relate this syndrome to other syndromes; speculate about its causes; and describe how children with this syndrome are likely to develop.

Expired Getaway

Hidden high in the Sierra de Guatemala mountain range of northeastern Mexico in the state of Tamaulipas is the northernmost tropical cloud forest of the Western Hemisphere. Within its humid oak-sweetgum woodlands, tropical and temperate species of plants and animals mingle in rare diversity, creating a mecca for birders and other naturalists. Fred and Marie Webster first visited Rancho del Cielo, cloud forest home of Canadian immigrant Frank Harrison, in 1964, drawn by the opportunity to see such exotic birds as tinamous, trogons, motmots, and woodcreepers only 500 miles from their Austin, Texas, home. In this book, they recount their many adventures as researchers and tour leaders from their base at Rancho del Cielo, interweaving their reminiscences with a history of the region and of the struggle by friends from both sides of the border to have some 360,000 acres of the mountain declared an area protected from exploitation—El Cielo Biosphere Reserve. Their firsthand reporting,

enlivened with vivid tales of the people, land, and birds of El Cielo, adds an engagingly personal chapter to the story of conservation in Mexico.

It is 1950 in the seaport town of Yarmouth, Nova Scotia. Celeste Alexander, the daughter of a poor lobster poacher, dreams of something more than the life she leads cleaning the houses of her wealthy neighbours. When opportunity comes knocking, she leaps at the chance to take a waitressing job in the nearby town of Kentville, forever changing the arc of her life. Soon after arriving in Kentville to work at Sadie's Restaurant, she meets William Lockhart. An aspiring architect and admirer of Shakespeare, William sweeps her off her feet, and their romance blooms with first-love quickness and intensity. Though they have only been seeing each other for a few months, the lovers envision a future together. But Celeste's bright dreams of a happy life with William are cast under an ominous cloud when he joins the Princess Patricia's Canadian Light Infantry, a regiment of the Canadian army, hoping that a short stint in the military will help him further his career in the future. Celeste's worst fears are realized when William is sent off to fight in the Korean War, and she learns that she is pregnant with his child. Set against the backdrop of small-town Canada and the Korean War, this sweeping family saga gives voice with compelling sensitivity and grace to the cascading effects of loss and hardship across generations—and how hope, love, and the enduring power of family bonds can lift people up in the lowest moments of their lives.

Gothiniad

All the girls like his name: Bramble. It's the kind of name that would make Shirley Temple say "ouch" if she were bad. Eternally part infant, part wily adult, Bramble is a twentieth-century wanderer and adventurer who leads a vicarious, nomadic life across America and ironically finds himself on his way to Mars. Throughout his travels, Bramble becomes entangled in complications that require—and reveal—his sharp intelligence, coupled with an acute sense of absurdity, that enable him to survive. Bramble not only survives his confrontations with adversity, he thrives in his struggles with the realities of contemporary American life. Imbuing a dark sense of irony, Bramble, Infant Martian by author Donald L. Kaufmann, imagines the physical end of American men as the Machine Age wipes them out. Written against the backdrop of America's developing space exploration program, this science fiction novel shares how transformed men migrate beyond earth and use their wits and resources to survive.

The Antioch Review

When a loved one dies we mourn our loss. We take comfort in the rituals that mark the passing, and we turn to those around us for support. But what happens when there is no closure, when a family member or a friend who may be still alive is lost to us nonetheless? How, for example, does the mother whose soldier son is missing in action, or the family of an Alzheimer's patient who is suffering from severe dementia, deal with the uncertainty surrounding this kind of loss? In this sensitive and lucid account, Pauline Boss explains that, all too often, those confronted with such ambiguous loss fluctuate between hope and hopelessness. Suffered too long, these emotions can deaden feeling and make it impossible for people to move on with their lives. Yet the central message of this book is that they can move on. Drawing on her research and clinical experience, Boss suggests strategies that can cushion the pain and help families come to terms with their grief. Her work features the heartening narratives of those who cope with ambiguous loss and manage to leave their sadness behind, including those who have lost family members to divorce, immigration, adoption, chronic mental illness, and brain injury. With its message of hope, this eloquent book offers guidance and understanding to those struggling to regain their lives. Table of Contents: 1. Frozen Grief 2. Leaving without Goodbye 3. Goodbye without Leaving 4. Mixed Emotions 5. Ups and Downs 6. The Family Gamble 7. The Turning Point 8. Making Sense out of Ambiguity 9. The Benefit of a Doubt Notes Acknowledgments Reviews of this book: You will find yourself thinking about the issues discussed in this book long after you put it down and perhaps wishing you had extra copies for friends and family members who might benefit from knowing that their sorrows are not unique...This book's value lies in its giving a name to a force many of us will confront--sadly, more than once--and providing personal stories based on 20 years of interviews and research. --Pamela Gerhardt, Washington Post Reviews of this book: A compassionate exploration of the effects of ambiguous loss and how those experiencing it handle this most devastating of losses ... Boss's approach is to encourage families to talk together, to reach a consensus about how to mourn that which has been lost and how to celebrate that which remains. Her simple stories of families doing just that contain lessons

for all. Insightful, practical, and refreshingly free of psychobabble. --Kirkus Review Reviews of this book: Engagingly written and richly rewarding, this title presents what Boss has learned from many years of treating individuals and families suffering from uncertain or incomplete loss...The obvious depth of the author's understanding of sufferers of ambiguous loss and the facility with which she communicates that understanding make this a book to be recommended. --R. R. Cornellius, Choice Reviews of this book: Written for a wide readership, the concepts of ambiguous loss take immediate form through the many provocative examples and stories Boss includes, All readers will find stories with which they will relate...Sensitive, grounded and practical, this book should, in my estimation, be required reading for family practitioners. --Ted Bowman, Family Forum Reviews of this book: Dr. Boss describes [the] all-too-common phenomenon [of unresolved grief] as resulting from either of two circumstances: when the lost person is still physically present but emotionally absent or when the lost person is physically absent but still emotionally present. In addition to senility, physical presence but psychological absence may result, for example, when a person is suffering from a serious mental disorder like schizophrenia or depression or debilitating neurological damage from an accident or severe stroke, when a person abuses drugs or alcohol, when a child is autistic or when a spouse is a workaholic who is not really 'there' even when he or she is at home...Cases of physical absence with continuing psychological presence typically occur when a soldier is missing in action, when a child disappears and is not found, when a former lover or spouse is still very much missed, when a child 'loses' a parent to divorce or when people are separated from their loved ones by immigration...Professionals familiar with Dr. Boss's work emphasised that people suffering from ambiguous loss were not mentally ill, but were just stuck and needed help getting past the barrier or unresolved grief so that they could get on with their lives. --Asian Age Combining her talents as a compassionate family therapist and a creative researcher, Pauline Boss eloquently shows the many and complex ways that people can cope with the inevitable losses in contemporary family life. A wise book, and certain to become a classic. --Constance R. Ahrons, author of The Good Divorce A powerful and healing book. Families experiencing ambiguous loss will find strategies for seeing what aspects of their loved ones remain, and for understanding and grieving what they have lost. Pauline Boss offers us both insight and clarity. --Kathy Weingarten, Ph.D, The Family Institute of Cambridge, Harvard Medical School

You Feel like this Has Gotten to the Point Where It's Not Something You Can Handle by Yourself and I'M Going To Tell the Birth Partners Often the Mom Is So Exhausted She Can't See this Herself and So She May Need the Birth Partners To Step Forward and Say Hey I Think this Is Something That You Need a Little Bit of Support for that You'Re Not Able To Do on Your Own so if You Do There Is a Maternal Mental Health Line That We Have and There Is a Group That You Can Talk to that Are Very Good at Helping You Transition through that Stage

We Will Often Not Be Able To Answer the Phone Directly because the Same Nurse That Is Answering the Baby Line and Staffing the Baby Line Is Usually Also Seeing Clients That Come In so They Will Maybe Have a Lag Time of When You Leave a Message Getting Back to You but We Will Always Get Back to You before the End of the Day with Whatever Your Questions or Concerns Are if You Call the Baby Line You Can Call the Baby Line Not Just for Lactation Needs but for All Your Maternal Child Health Needs because that Is Staffed by Our Ends and Ibclc Certified Lactation Consultants the Baby Line Is Nine Four Nine Seven Six Four Two Two Two Nine that Baby Line Is Also Something That You Would Call To Schedule an Appointment with the Lactation Clinic

We Expect Them To Lose Weight When They'Re Born a Lot of that Is Water Weight but by 2 Weeks of Age We Want Them To Have Regained Their Weight Back to Their Birth Weight So for At Least the First Two Weeks You'Re Never Going To Let the Baby Go More than Three Hours without Feeding the Baby and if You'Re Breastfeeding You Need To Wake the Baby Up To Breastfeed any Way To Empty the Breasts so a Lot of Times It Depends on the Baby Themselves some of Them Will Continue To Wake To Eat at Six Months
