Stacy always thought her husband Joe was submissive. That was part of why she married him: because she wanted a submissive husband. But Joe could never accept this. He was raised to believe that being a man meant being in charge. To get the submissive husband she always wanted, Stacy sought the help of Dr. Miranda Klein, a reputed expert in handling the exact situation Joe and Stacy face. What Stacy did not know, however, was that Dr. Klein had developed a crush on Stacy the moment she saw her, and that Klein wanted Stacy for herself as her own submissive lover. In this concluding Part Two, Stacy and the newly feminized Joe make their way to Dr. Klein's mansion for two weeks of intensive training which is supposed to teach Stacy how to dominate her husband. In reality, however, this is a trap. And if the trap works, then Stacy will belong to Dr. Klein forever and Joe will be sent to serve one of Dr. Klein's wealthy clients. Can they escape? Will they want to? For Adult Audiences Only. This 17,500 word erotic story includes female domination, forced feminization, spanking, pegging, shemales, sissy maids, erotic humiliation, and more.

Madness in the Family

Madness in the Family traces the history of how family became crucial in the care of those considered mad, as well as in creating gendered explanations of madness, in turn-of-the-twentieth-century Japan. As women and families navigated a shifting therapeutic landscape of madness, they produced their own understandings and approaches to madness that, like elsewhere in the world, would take precedence over the claims of psychiatry, the law, and the state in everyday life.

How I Feminised My Husband

This is the true story of how Alexa Martinez transformed her marriage by feminising her loving husband. The book explains how she took an already wonderful relationship and moved it to a different level by taking control and introducing a reluctant husband to a life of femininity. What began as an exciting bedroom game exploded into a programme of gradual enforced feminisation. The book describes the reasons and beliefs that guided her to take this path and the tactics she had to employ to turn an unknowing and unaware masculine man into a submissive housewife called Alice. Their marriage continues to be loving and affectionate but with Alexa in complete control and with her needs paramount. Although Alice has come to accept her new status as a girl, they haven't yet come out of the closet entirely and so she also write about some of the barriers they continue to face in how she plans overcome them and also how to deepen Alice's feminisation and submission further still. She describes what it is that she expects from a femdom relationship and why she believes that males need to be feminised. Alexa Martinez is a writer who has produced several novels on the topic of femdom and forced feminisation under the pen name of Lady Alexa as well as a blog which covers the weekly life of living in a femdom relationship.

The Church Impotent

The current preoccupation with the role of women in the church obscures the more serious problem of the perennial absence of men. This provocative book argues that Western churches have become women's clubs, that the emasculation of Christianity is dangerous for the church and society, and that a masculine presence can and must be restored. After documenting the highly feminized state of Western Christianity, Dr. Podles identifies the masculine traits that once characterized the Christian life but are now commonly considered incompatible with it. He contends that though masculinity has been marginalized within Christianity, it cannot be expunged from human society. If detached from Christianity, it reappears as a substitute religion, with unwholesome and even horrific consequences. The church, too, is diminished by its emasculation. Dr. Podles concludes by considering how Christianity's virility might be restored. In the otherwise stale and overworked field of gender studies, *The Church Impotent* is the only book to confront the lopsidedly feminine cast of modern Christianity with a profound analysis of its historical and sociological roots.

Sissy Feminization - Exposing His Secret

What Betty Friedan, Simone de Beauvoir, Susan Faludi and Naomi Wolf did for feminism, senior editor of The Atlantic Hanna Rosin does for a new generation of women: an explosive new argument for why women are winning the battle of the sexes and why men are no longer top dog. Women are no longer catching up with men. By almost every measure, they are out-performing them. We are at an unprecedented moment in history. In 2010, for the first time, the balance of the British workforce tipped towards women, who now hold around half of the nation's jobs. In the US, meanwhile, for every two men that receive a BA, three women will achieve the same. Not only do women now dominate colleges and professional schools on every continent except Africa, young single women in the US now earn more than their male counterparts, and more than a third of mothers in the UK and the US are their family's main breadwinner. The tides have turned. The 'age of testosterone' is decisively over. At almost every level of society women are proving themselves far more adaptable and suited to a job market that rewards people skills and intelligence, and a world that has a dramatically diminishing need for traditional male muscle. In this landmark, once-in-a-generation book, Hanna Rosin reveals how this new world order came to be and its profound implications for marriage, sex, children, work, families and society. Unhampered by old assumptions and ideologies and drawing on examples from across the globe, *The End of Men* helps us see how both men and women can - and must - adapt for a radically new era. 'In this bold and inspired dispatch, Rosin upends the common platitudes of contemporary sexual politics with a deeply reported meditation from the unexpected frontiers of our rapidly changing culture' Katie Roiphe, author of *The Morning After* and *Uncommon Arrangements* 'The End of Men describes a new paradigm that can, finally, take us beyond 'winners' and 'losers' in an endless 'gender war.' What a relief! Ultimately, Rosin's vision is both hope-filled and creative, allowing both sexes to become far more authentic: as workers, partners, parents...and people' Peggy Orenstein, author of *Cinderella Ate My Daughter* and *Schoolgirls* Hanna Rosin is a senior editor at The Atlantic magazine and a founder and co-editor of DoubleX, Slate's women's section. She has written for the New Yorker, The New York Times, GQ, and The New Republic, and for a number of years covered politics and religion for the Washington Post. In 2009 she was nominated for a National Magazine Award, and in 2010 she won one. She is the author of a previous book, *God's Harvard: A Christian College on a Mission to Save America*. Rosin lives in Washington, DC, with her husband, Slate editor David Plotz, and their three children.

The Marriage Bargain

The sociological study of organizations encompasses both planned and formal organizations as well as spontaneous and informal ones. Sociologists examine organizations with attention to structure and objectives, interactions among members and among organizations, the relationship between the organization and its environment and the social significance or social meaning of the organization. The ways of defining and examining organizations vary depending on the theoretical emphasis. This book focuses on three things: * providing a wide and historically accurate portrait of the diversity of sociological theories and their application to organizational studies * updating selections that reflect a variety of ways that new technology affects methods of organizing and types of organizations * including readings that examine a range of both formal and informal structures, and both deliberate and impromptu interactions. Lively and provocative, this textbook is theoretically rigorous, disciplinarily informed and representative of heterogeneity within organizational studies.

Emasculating My Husband

In sub-Saharan Africa, older people make up a relatively small fraction of the total population and are supported primarily by family and other kinship networks. They have traditionally been viewed as repositories of information and wisdom, and are critical pillars of the community but as the HIV/AIDS pandemic destroys family systems, the elderly increasingly have to deal with the loss of their own support while absorbing the additional responsibilities of caring for their orphaned grandchildren. Aging in Sub-Saharan Africa explores ways to promote U.S. research interests and to augment the sub-Saharan governments' capacity to address the many challenges posed by population aging. Five major themes are explored in the book such as the need for a basic definition of "older person," the need for national governments to invest more in basic research and the coordination of data collection across countries, and the need for improved dialogue between local researchers and policy makers. This book makes three major recommendations: 1) the development of a research agenda 2) enhancing research opportunity and implementation and 3) the translation of research findings.

The #1 Sunday Times and International Bestseller from 'the most influential public intellectual in the Western world right now' (New York Times) What are the most valuable things that everyone should know? Acclaimed clinical psychologist Jordan Peterson has influenced the modern understanding of personality, and now he has become one of the world's most popular public thinkers, with his lectures on topics from the Bible to romantic relationships to mythology drawing tens of millions of viewers. In this book, he provides twelve profound and practical principles for how to live a meaningful life, from setting your house in order before criticising others to comparing yourself to who you were yesterday, not someone else today. Drawing on vivid examples from the author's clinical practice and personal life, cutting edge psychology and philosophy, and lessons from humanity's oldest myths and stories, 12 Rules for Life offers a deeply rewarding antidote to the chaos in our lives: eternal truths applied to our modern problems.

The book brings together a brilliant synthesis of history, case studies, ideas and positions as they have emerged over the past thirty years, and brings together a rich but always grounded account of this field, providing a state of the art of critical concepts and ideas to take this field further during the twenty first century." - Ken Plummer, University of Essex "An outstanding survey of the evolution of trans phenomena, splendidly written, highly informative, scholarly at its best, yet easy to read even for those neither trans nor sociologist. Ekins and King, experts in the field, unroll the panoramas of sex, gender, and transgenering that have evolved during the last decades. For everyone wanting to understand the interaction of women and men and of those who cannot or will not identify with either of these two categories, reading this book is a must, and a real pleasure." - Friedmann Pfaefflin, University of ULM This groundbreaking study sets out a framework for exploring transgender diversity for the new millennium. It sets forth an original and comprehensive research and provides a wealth of vivid illustrative material. Based on two decades of fieldwork, life history work, qualitative analysis, archival work and contact with several thousand cross-dressers and sex-changers around the world, the authors distinguish a number of contemporary transgenering 2stories2 to illustrate: The binary male/female divide The interrelations between sex, sexuality and gender The interrelations between the main sub-processes of transgenering.
