Friedrich Schleiermacher, the "father of modern theology," found his voice first in preaching. This book demonstrates how Schleiermacher moved between the critical reading of Scripture, the proclamation of Christian faith to congregations over a forty-five-year period, and, eventually, the work of theology in all its disciplines. Schleiermacher's Preaching, Dogmatics, and Biblical Criticism is the first work to fully unveil this interaction by focusing on Schleiermacher's 228 known sermons on the Gospel of John. Kelsey shows in detail 1) how the central insights of his theology emerged first in his preaching, and 2) that his dogmatic writings provided a context within which these insights could be related to all the major doctrinal themes of Christian faith. The study concludes by drawing implications for theological reflection and its relation to worship life in our own time.

The question of the 'structure' of the human person is central to many mystical authors in the Christian tradition. This book focuses on the specific anthropology of a series of key authors in the mystical tradition in the medieval and early modern Low Countries. Their view is fundamentally different from the anthropology that has commonly been accepted since the rise of Modernity. This book explores the most important mystical authors and texts from the Low Countries including: William of Saint-Thierry, Hadewijch, Pseudo-Hadewijch, John of Ruusbroec, Jan van Leeuwen, Hendrik Herp, and the Arnhem Mystical Sermons. The most important aspects of mystical anthropology are discussed: the spiritual nature of the soul, the inner-most being of the soul, the faculties, the senses, and crucial metaphors which were used to explain the relationship of God and the human person. Two contributions explicitly connect the anthropology of the mystics to contemporary thought. This book offers a solid and yet accessible overview for those interested in theology, philosophy, history, and medieval literature.

Die dritte Abteilung der Kritischen Gesamtausgabe bietet in vierzehn Bänden sämtliche erhaltenen Predigten Friedrich Schleiermachers (1768-1834). Friedrich Schleiermacher's sämtliche Werke. Abth. 1, Bd. 1-8, 11-13; Abth. ii, Bd. 1-10; Abth. iii. Bd. 1-9

Friedrich Daniel Ernst Schleiermacher (1768–1834) had a remarkable ability to inspire his contemporaries from the pulpit. This volume is an edition of 107 sermons delivered on 100 occasions in the years 1809–1815. 74 of them are published for the first time and they provide a comprehensive insight into Schleiermacher as a preacher in his first 7 years at the Church of the Holy Trinity in Berlin. The volume is supplemented by an appendix containing hymn sheets (text only) from the period 1812 to 1816. These prints, designed and published by Schleiermacher, are undated and have been compiled to correspond to the liturgical year. They are now available to researchers for the first time.

Friedrich Schleiermacher's sämtliche werke: Predigten bd. 1-4. Predigten, 1801-1834. 1843-44

This second tome of the present volume is dedicated to Kierkegaard's main theological influences. In theology as well, the German and the Danish traditions had long been closely connected via their common source: Luther. In Kierkegaard's time the main influence on theology was probably German philosophy and specifically Hegelianism. Most of the German theologians were in some way in a critical dialogue with this movement. Another important influence was Schleiermacher, who visited

Copenhagen in 1833 and was important for several Golden Age thinkers. From his student days Kierkegaard kept abreast of the German theological literature, from which he drew much inspiration.

Der angezeigte Band eröffnet die III. Abteilung („Predigten“) der Kritischen Schleiermacher-Gesamtausgabe, für die die editorischen Grundsätze mitgeteilt werden und zu der eine historische Einleitung gegeben wird. Der Band enthält die ersten vier der insgesamt sieben Predigtsammlungen in Gestalt der Erstauflagen (1801–1820). In einem Variantenapparat sind die Änderungen der von Schleiermachers jeweils überarbeiteten weiteren Auflagen (1806–1826) notiert. Die Texte der im vorliegenden Band dokumentierten 46 Predigten werden durch eine historische Einführung und einen editorischen Bericht sowie mehrere Verzeichnisse erschlossen. In einem umfänglichen Anhang verzeichnet ein Kalendarium die aus mannigfaltigen Quellen ermittelten Predigtermine Schleiermachers. Aufgelistet sind aktuell 3556 überlieferte Predigtermine. Zu 1341 dieser Termine liegen Textzeugen vor, die in der KGA-Abteilung dokumentiert werden; dadurch wird das Predigtkorpus der bisher publizierten 588 Predigten zu 584 Terminen um Predigten zu 757 Terminen vermehrt. Außerdem werden 11 undatierbare Predigtentwürfe publiziert.

Schleiermacher's Preaching, Dogmatics, and Biblical Criticism

Eckhart gehört zu den anziehendsten Gestalten christlicher Überlieferung. Er war Meister der Theologie und hat auf dieses Faktum Wert gelegt. Die Autorin deutet in ihrer Studie seine Texte daher sachgerecht aus der Sicht christlich-katholischer Theologie. Ziel ihres Kommentars ist es, unter ergänzender Einbeziehung des übrigen deutschen und lateinischen Werkes Eckharts, die in den Predigten oft implizite, von ihm andernorts dozierte und vorausgesetzte Theologie und Metaphysik ins Gedächtnis zu rufen sowie die in den Predigten begegnenden grundlegenden Theoreme Eckhartschen Denkens darzulegen, um das Verständnis der Texte zu erleichtern. Die Predigten sind keine theologischen Traktate, die Formulierungen sind gedrängt, zum Teil provokant und gewagt. Aus dem Inhalt: I. Einführung in Leben und Werk Meister Eckharts 1. Leben und Werk 2. Überlieferung, Textgestalt, Echtheit und Editionsfrage der Werke 3. Ein Blick in die Geschichte der Eckhart-Rezeption 4. Meister Eckhart als Theologe, Philosoph, Prediger und Mystiker des 13./14. Jahrhunderts II. Auslegung der Predigten 1. Predigt (DW 1): "Intravit Jesus in templum et coepit eicere vendentes et ementes" (Matth. 21,12) 2. Predigt (DW 22): "Ave, gratia plena" (Luc. 1,28) 3. With its scholarly discussions of myth, German idealist philosophy, negative theology, and mysticism, shot through with reflections on personal religious experiences, *Unfading Light* documents what a life in Orthodoxy came to mean for Sergius Bulgakov on the tumultuous eve of the 1917 October Revolution. Written in the final decade of the Russian Silver Age, the book is a typical product of that era of experimentation in all fields of culture and life. Bulgakov referred to the book as *miscellanies*, a patchwork of chapters articulating in symphonic form the ideas and personal experiences that he and his entire generation struggled to comprehend. Readers may be reminded of St. Augustine's *Confessions* and *City of God* as they follow Bulgakov through the challenges and opportunities presented to Orthodoxy by modernity.

This interdisciplinary study introduces readers to Friedrich Schleiermacher's diverse pathways of reflection and creative practice that are related to the field of translation. By drawing attention to Schleiermacher's various writings on a range of subjects (including philology, criticism, hermeneutics, dialectics, rhetoric and religion), the author makes it clear that the frequently cited lecture *Über die verschiedenen Methoden des Übersetzens* (On the Different Methods of Translating) represents but a fraction of Schleiermacher's contributions to modern-day insights into translation. The analysis of Schleiermacher's various pathways of reflection on translation presented in this book leads to the conclusion that translation is part of the essence of the world, as it is a fundamental tool of our cognition and a foundation of our existence. In Schleiermacher's works, transfer, translation, mediation, and communication underpin our very existence in the world and our self-awareness. At the same time, they represent fundamental categories for a project that focuses on the consolidation and assimilation – through translation – of that which is foreign, different, diverse.

The Hatha Yoga Pradipika

"David Bosch's Transforming Mission, now available in over a dozen languages, is widely recognized as an historic and magisterial contribution to the study of mission. Examining the entire sweep of Christian tradition, he shows how five paradigms have historically encapsulated the Christian understanding of mission and then outlines the characteristics of an emerging postmodern paradigm dialectically linking the transcendent and imminent dimensions of salvation. In this new anniversary edition, Darrel Guder and Martin Reppenhagen explore the impact of Bosch's work and the unfolding application of his seminal vision." --

Transforming Mission: Paradigm Shifts in Theology of Mission

The closest thing to total war before the First World War, the Seven Years' War was fought in North America, Europe, the Caribbean and India with major consequences for all parties involved. This fascinating book is the first to truly review the grand strategies of the combatants and examine the differing styles of warfare used in the many campaigns. These methods ranged from the large-scale battles and sieges of the European front to the ambush and skirmish tactics used in the forests of North America. Daniel Marston's engaging narrative is supported by personal diaries, memoirs, and official reports.

Edible Medicinal and Non-Medicinal Plants

This book chronicles travel writings of Bengali women in colonial India and explores the intersections of power, indigeneity, and the representations of the 'self' and the 'other' in these writings. It documents the transgressive histories of these women who stepped out to create emancipatory identities for themselves. The book brings together a selection of travelogues from various Bengali women and their journeys to the West, the Aryavarta, and Japan. These writings challenge stereotypes of the 'circumscribed native woman' and explore the complex personal and socio-political histories of women in colonial India. Reading these from a feminist, postcolonial perspective, the volume highlights how these women from different castes, class and ages confront the changing realities of their lives in colonial India in the backdrop of the independence movement and the second world war. The author draws attention to the personal histories of these women, which informed their views on education, womanhood, marriage, female autonomy, family, and politics in the late 19th and early 20th centuries.

Engaging and insightful, this volume will be of interest to students and researchers of literature and history, gender and culture studies, and for general readers interested in women and travel writing.

The Hegemony of Heritage makes an original and significant contribution to our understanding of how the relationship of architectural objects and societies to the built environment changes over time. Studying two surviving medieval monuments in southern Rajasthan—the Ambika Temple in Jagat and the Ēkalingji Temple Complex in Kailaspuri—the author looks beyond their divergent sectarian affiliations and patronage structures to underscore many aspects of common practice. This book offers new and extremely valuable insights into these important monuments, illuminating the entangled politics of antiquity and revealing whether a monument's ritual record is affirmed as continuous and hence hoary or dismissed as discontinuous or reinvented through various strategies. The Hegemony of Heritage enriches theoretical constructs with ethnographic description and asks us to reexamine notions such as archive and text through the filter of sculpture and mantra.

This book provides a sustained engagement with contemporary Indian feature films from outside the mainstream, including Aaranaya Kaandam, I.D., Kaul, Chauthi Koot, Cosmic Sex, and Gaali Beeja, to undercut the dominance of Bollywood focused film studies. Gopalan assembles films from Bangalore, Chennai, Delhi, Kolkata, and Trivandrum, in addition to independent productions in Bombay cinema, as

a way of privileging understudied works that deserve critical attention. The book uses close readings of films and a deep investigation of film style to draw attention to the advent of digital technologies while remaining fully cognizant of 'the digital' as a cryptic formulation for considering the sea change in the global circulation of film and finance. This dual focus on both the techno-material conditions of Indian cinema and the film narrative offers a fulsome picture of changing narratives and shifting genres and styles.

Is Buddhism a religion without god(s)? Or is it more of a philosophy than a religion? Renowned Buddhist scholar Bernard Faure answers these and other questions about the basic history, beliefs and nature of Buddhism in easy-to-understand language. It is an ideal introduction for anyone who has unanswered questions about one of the world's largest and most popular religions.

Among the world's myriad cultures and their associated calendars, the idea of a "New Year" is relative and hardly specifies a universal celebration or even a universal point in time. Ways of celebrating the New Year range from the observances of religious rituals and superstitions to social gatherings featuring particular foods, music, dancing, noisemaking, fireworks and drinking. This first encyclopedia devoted exclusively to the New Year includes 320 entries that give a global perspective on the New Year, beyond its traditional Western associations with Christmas. National or regional entries detail the principal traditions and customs of 130 countries, while 27 entries discuss major calendar systems in current use or of significant historical interest. The remaining entries cover a wide variety of subjects including literary works, movies, and television specials; the customs of specific ethnic groups; universal customs such as toasting and drinking; football bowl games and parades; and the New Year celebrations at the White House and the Vatican.

The Hegemony of Heritage

The movement known as Hindu Resurgence, Hindu Awakening or Hindu Renaissance has become increasingly noticeable, and there is a distinct effort to liberate Hinduism from the definitions and limitations imposed by the domination of hostile outsiders. However, confusion and lack of proper information are still serious obstacles on the path of proper understanding and realisation. India, or as it was called in ancient times, Bharata Varsha, has an immense potential that can be materialised simply by returning to the correct original perspective of the golden Vedic civilisation that is the natural heritage of all Indians and in fact of all human beings. The Rig Veda samhita (9.63.5) points us in the correct direction: *Krinvanto visvam aryam*, "Let everyone become arya"

I hope the reader community will appreciate how this suspense thriller gives the glimpses of nature, ecology, social reforms, literature, global/local economies, and many more social dimensions.

Cinemas Dark and Slow in Digital India

This first of three volumes starts with a short introduction to historical metrology as a scientific discipline and goes on with an anthology of ancient and modern measurement systems of all kind, scientific measures, units of time, weights, currencies etc. It concludes with an exhaustive list of references. Units of measurement are of vital importance in every civilization through history. Since the early ages, man has through necessity devised various measures to assist him in everyday life. They have enabled and continue to enable us to trade in commonly and equitably understood amounts, and to investigate, understand, and control the chemical, physical, and biological processes of the natural world. The essence of the work is an alphabetically ordered, comprehensive list of measurement nomenclature, units and scales. It provides an understanding of almost all quantitative expressions observed in all imaginable situations, including spelling variants and the abbreviations and symbols for units, and various acronyms used in metrology. It will be of use not only to historians of science and technology, but also to economic and social historians and should be in every major academic and national library as standard reference work on the topic.

Unmasking Buddhism

Divine Stories is the inaugural volume in a landmark translation series devoted to making the wealth of classical Indian Buddhism accessible to modern readers. The stories here, among the first texts to be inscribed by Buddhists, highlight the moral economy of karma, illustrating how gestures of faith, especially offerings, can bring the reward of future happiness and ultimate liberation. Originally contained in the Divyavadana, an enormous compendium of Sanskrit Buddhist narratives from the early Common Era, the stories in this collection express the moral and ethical impulses of Indian Buddhist thought and are a testament to the historical and social power of narrative. Long believed by followers to be the actual words of the Buddha himself, these divine stories are without a doubt some of the most influential stories in the history of Buddhism.

Palmistry is an integral part of Jyotish practice (astrology) that helps to determine an individual's physical, mental and karmic potential. A full explanation of how to read a palm from the point of view of Vedic wisdom is provided, with tips on how to identify and time those areas impacting on wealth, health and longevity. This book teaches you to analyse the possible implications of life-events as seen from the lines (Rakha) on the palm. This book also offers a number of methods to placate astrological influences via the use of yantra, mantra and gemstones, for example, explaining which gemstones to wear and on which finger. This guide is a thorough introduction to the practice of Vedic palmistry for students and practitioners of the Vedic tradition and those with a general interest in the occult sciences of India, but also for anyone interested in what the hand can tell them about their life potential and circumstances.

Jugari Cross

One of the incidental consequences of the success of British arms in eighteenth-century India was the appearance of a number of publications which reflect the intense curiosity of contemporary Europeans about strange peoples, their manners and religions. Of the three principal religions of India, Hinduism attracted the most attention. European contact with Islam was several centuries old, while few travellers could identify Buddhism with any certainty. This book reprints some of the most significant English contributions to the early European understanding of Hinduism.

Bharatavarsha, the India Narrative

A growing interest in political Islam, also called Islamism, has assumed significant ideological and intellectual dimensions especially in recent years. Rather than viewing it as Islam versus the rest, or tradition against modernity, this volume, without overlooking the tensions, also acknowledges the mutualities. It centres on issues such as the Rushdie affair, conflictive pluralism in South Asia and its linkages with the crucial regional themes like the Kashmir dispute, Iranian revolution, civil war in Afghanistan and Western public diplomacy.
