The Case of the Purloined Pyramid

An ancient mystery. A modern murder. Sir Augustus Wall, a horribly mutilated veteran of the Great War, has left Europe behind to open an antiquities shop in Cairo. But Europe's troubles follow him as a priceless inscription is stolen and those who know its secrets start turning up dead. Teaming up with Egyptology expert Moustafa Ghani, and Faisal, an irritating street urchin he just can't shake, Sir Wall must unravel an ancient secret and face his own dark past.

Great Map Mysteries

This book is designed to help students learn the basic skills of map reading. It provides 18 lessons which can be used in a traditional classroom setting or in a cooperative learning environment.

Catalog of Copyright Entries

Draws on the works of theologians, art historians, and other experts to explore the sources, ideas, and major themes of the novel "The Da Vinci Code."

Dramas and Works Prepared for Oral Delivery

When cultural critics with such wildly divergent views as Jacques Barzun, Christopher Hitchens, Joseph Epstein, Dana Gioia, and Morris Dickstein all agree about the merits of one contemporary essayist, shouldn't you find out why? "I never think except when I sit down to write." -- Attributed to Montaigne by Edgar Allan Poe From Montaigne in the sixteenth century to Orwell, Eliot, and Trilling in the twentieth, the best literary essayists combine a gift for observation with an abiding commitment to books. Although it may seem that books are becoming less essential and that a revolution in sensibility is taking place, the essays of Arthur Krystal suggest otherwise. Companionable without being chummy, engaged without being didactic, erudite without being stuffy, he demonstrates that literature, even in the digital age, remains the truest expression of the human condition. Covering subjects as diverse as aphorisms, dueling, the night, and the 1960s, the essays gathered here offer the common reader uncommon pleasure. In prose that is both vibrant and elegant, Krystal negotiates among myriad subjects—from historical writing as exemplified by Jacques Barzun to the art of screenwriting as not so happily represented by F. Scott Fitzgerald. His cardinal rule as a writer? William Hazlitt's "Confound it, man, don't be insipid." No fear of that. *Except When I Write* is thoughtful in the most joyful sense—brimming with ideas in order to give us the flow and cadence of someone actually thinking. Keenly observant and death on pretension, Krystal examines the world of books without ever losing sight of the world beyond them. Literature may be the bedrock on which these essays rest, but as F. R. Leavis aptly noted, "One cannot seriously be interested in literature and remain purely literary in interests." *Except When I Write* is a reminder of both the pleasure and the power of a well-tuned essay.

Catalog of Copyright Entries. Fourth Series

The Book of Lies was written by English occultist and teacher Aleister Crowley under the pen name of Frater Perdurabo. As Crowley describes it: "This book deals with many matters on all planes of the very highest importance. It is an official publication for Babes of the Abyss, but is recommended even to beginners as highly suggestive." The book consists of 91 chapters, each of which consists of one page of text. The chapters include a question mark, poems, rituals, instructions, and obscure allusions and cryptograms. The subject of each chapter is generally determined by its number and its corresponding Qabalistic meaning.

Analog Science Fiction/science Fact

How can we develop a cultural theory starting with the basic insight that human beings are "storytelling animals"? Within literary studies, narratology is a highly developed field. However, literary historians have not paid much attention to the large and small stories abounding in everyday discourse, guiding all kinds of social activity, and providing common ground for whole societies—but also fueling controversies and hostilities. Moreover, "narrative" is not only a scholarly category but has come into use in many fields of social activity as a tool for cultural self-fashioning. This book is based on the assumption that to a large extent, social dynamics is modeled in an aesthetic manner via narratives. It explores the narrative organization of cultural spaces and time-frames, the mythological shaping of communities and adversaries, and the co-production of narratives and institutions aimed at stabilizing social life. In this framework, the epistemological problem looms large of how an instrument as unreliable as narrative can participate in the creation of a social consensus regarding truth. This problem endows the general topics explored in this book with a particularly contemporary dimension.

Secrets of the Code

Taking on a role with the Cairo Police force places Inspector Rowan Pierce into a completely foreign environment. His first case is the murder of the beautiful young Egyptian woman found floating in the Nile, and without Captain Salid, he'd be utterly lost, with the unfamiliar customs and language, not to mention the city itself. As the British Protectorate gives power over to the Egyptian Government, the shift is not happening as fast or as completely as some would like. The political situation in the tense city makes news and crime political in nature, especially if there are foreigners involved. Jurisdictions complicate investigations, particularly those that veering into the British class, who are used to their power and privilege protecting them. Important people would benefit by the murder of this unfortunate

young woman to be swept out of sight, but attention is too intense to bury the investigation. Friends and enemies are formed every step of the way.

Art Index

"The first time I saw a play was when I was twelve and a nerdy math major in junior high. Our class went to downtown Los Angeles and saw a Shakespeare play. I forget which one we saw (I only remember it was about a king), but I fell in love with theater right then and there. They were talking in some weird variation of English to my mind, but the actors were so good, I could immediately understand what they meant. I came from a working-class family, and the only thing I'd watched until then was TV or a movie. I probably developed a neural network at that time, which connected the scientific part of my brain to my artistic part"--

Except When I Write

A study that is less concerned with detective fiction's overt manifestations in African-American literature, such as the works of Chester Himes and Walter Mosley, than in its transformation in the work of Ishmael Reed, Toni Morrison, and Ralph Ellison, among others, where a pattern of detection emerges which has its roots in African mythology and aesthetics. Annotation copyright by Book News, Inc., Portland, OR

The Book of Lies

A scandal in America. A murder in Cairo. Sir Augustus Wall, antiquities dealer and amateur sleuth, is hired to track down a blackmailer who threatens the reputation of an American millionaire. When blackmail turns to murder, he must travel up the Nile by steamboat to find the killer. Joining him are Faisal, a street urchin who makes himself equally useful and troublesome; Heinrich Schäfer, a leading Egyptologist; and Jocelyn Montjoy, an adventurous woman who has captured his heart. But complications set in before the hunt even begins. Unwelcome fellow passengers threaten to derail the investigation, and Augustus has fallen out with his right-hand man, Moustafa Ghani. Can a new team of investigators help him solve his most challenging case yet?

Fact and Fiction

How were huge stones moved from quarries to the sites of Egyptian pyramids? How did the cathedral builders of the Middle Ages lift blocks to great heights by muscle power alone? In this intriguing book John Fitchen explains and illustrates the solutions to these and many other puzzles in preindustrial building construction. This is the first general survey of the practices and role of the builder (as opposed to the designer) in constructing an array of structures. Fitchen's approach gives a valuable hands-on feel for what it's like to work with ropes and ladders, wedges and slings; with crews engaged in well digging, bridge building, and the transporting of obelisks hundreds of miles by water and over land. The buildings discussed range from the tents, tepees, and igloos of nomadic tribes to the monumental pyramids of Egypt, the temples of Greece, the aqueducts of Rome, and the cathedrals of medieval Europe.

Psychiatry on the Stage

Like its wildly popular predecessors Cabinet of Mathematical Curiosities and Hoard of Mathematical Treasures, Professor Stewart's brand-new book is a miscellany of over 150 mathematical curios and conundrums, packed with trademark humour and numerous illustrations. In addition to the fascinating formulae and thrilling theorems familiar to Professor Stewart's fans, the Casebook follows the adventures of the not-so-great detective Hemlock Soames and his sidekick Dr John Watsup (immortalised in the phrase 'Watsup, Doc?'). By a remarkable coincidence they live at 222B Baker Street, just across the road from their more illustrious neighbour who, for reasons known only to Dr Watsup, is never mentioned by name. A typical item is 'The Case of the Face-Down Aces', a mathematical magic trick of quite devilish cunning... Ranging from one-liners to four-page investigations from the frontiers of mathematical research, the Casebook reveals Professor Stewart at his challenging and entertaining best.

A Case of Mis-taken Identity

For over forty-five years, Paul Bowles has been one of this century's most enigmatic and intriguing writers, best known for his novel The Sheltering Sky. This striking collection highlights Bowles's undeniable virtuosity and brings together for the first time his finest work including a new unpublished novella, Too Far From Home, and previously unpublished letters.

The Case of the Karnak Killer

An application of the classical figures of speech to the criticism of the motion picture. The author defines and illustrates each figure by literary analysis, then presents the filmic analogies. The occurrence in film of fantasy, allegory, and abstraction are also discussed.

Proceedings of the Society of Antiquaries of London

Love, hate, slavery, torture, addiction and death - as this book shows, only psychoanalysis can speak well of such matters. Psychoanalysis was the most important intellectual development of the 20th century, which left no practice from psychiatry to philosophy to politics untouched. Yet it was also in many ways an untouchable project, caught between science and poetry, medicine and hermeneutics. This unsettled, unsettling status has recently induced the philosopher Alain Badiou to characterise psychoanalysis as an 'antiphilosophy', that is, as a practice that issues the strongest possible challenges to thought. Justin Clemens takes up the challenge of this denomination here, by re-examining a series of crucial psychoanalytic themes: addiction, fanaticism, love, slavery and torture. Drawing from the work of Freud, Lacan, Badiou, Agamben and others, Psychoanalysis is an Antiphilosophy offers a radical reconstruction of the operations and import of key psychoanalytic concepts and a renewed sense of the indispensable powers of psychoanalysis for today.

Proceedings of the Society of Antiquaries of London

An Old Kingdom coffin. A body from yesterday. Sir Augustus Wall had seen a lot of death. From the fields of Flanders to the alleys of Cairo, he'd solved several murders and sent many men to their grave. But he's never had a body delivered to his antiquities shop encased in a 5,000 year-old coffin. Soon he finds himself fighting a vicious street gang bent on causing national mayhem while his assistant, Moustafa Ghani, faces his own enemies in the form of colonial powers determined to ruin him. Throughout all this runs the street urchin Faisal. Ignored as usual, dismissed as usual, he has the most important fight of all.

Building Construction Before Mechanization

A supernatural mystery set in Singapore featuring a “detective whose beat reaches to the fringes of Heaven and Hell,” by the author of *Snake Agent* (Booklist). No mortal has ever heard of the Book, and few in Heaven even believe it is real. Instead, they regard the stories of a bound volume older than time itself as something of a creation myth. But Mhara, the Emperor of Heaven, knows the Book is very real, very powerful, and very much missing. It has a mind of its own, and it appears to have wandered off—taking the secrets of the universe with it. To find it, Mhara calls Detective Inspector Chen, a supernatural sleuth with previous experience in saving the universe. Chen has a lot on his plate at the moment: His wife is pregnant, his demonic partner is tracking the movement of an immortal horde, and he hasn’t had a vacation in years. But for the sake of the Emperor, he’ll do his best to return order to the cosmos. If he doesn’t, who will? *The Iron Khan* is the final volume of the Detective Inspector Chen Novels, which begin with *Snake Agent* and *The Demon and the City*.
