In the Wild Lands

Peter Storey's second collection of short stories, In the Wild Lands takes the reader beyond the boundaries of the world we know, from the forests of Utah to the moons of Saturn and further. But even under alien skies, the joys, the passions, and the sorrows of mankind remain the same.

Wild lands

Brexley est une survivante. Elle s'est libérée de la Maison de la Terreur, la prison où les Faés torturent et affament les Humains. Pourtant, elle est loin d'être tirée d'affaire, car elle vient d'être capturée par Killian, le roi des Faés qui l'a emmenée dans son château. Le légendaire Killian est redoutable. Envoûtant et séduisant, il est aussi tellement puissant qu'il pourrait tuer Brexley d'un simple geste de la main. Dans la guerre qui oppose les Humains et les Faés, Killian est sans aucun doute l'ennemi qu'il faut abattre ! Pourtant, au fil du temps, Brexley découvre que Killian n'est pas l'homme malveillant qu'elle imaginait, et leur relation commence à changer. Il pourrait même se révéler un précieux allié pour réussir à ramener la paix dans les royaumes. Mais dans la toile mortelle des jeux de pouvoir et de désir, nouer une alliance avec le roi Faé est un pari à haut risque...

Climate Change in Wildlands

Scientists have been warning for years that human activity is heating up the planet and climate change is under way. We are only just beginning to acknowledge the serious effects this will have on all life on Earth. The federal government is crafting broad-scale strategies to protect wildland ecosystems from the worst effects of climate change. One of the greatest challenges is to get the latest science into the hands of resource managers entrusted with vulnerable wildland ecosystems. This book examines climate and land-use changes in montane environments, assesses the vulnerability of species and ecosystems to these changes, and provides resource managers with collaborative management approaches to mitigate expected impacts. Climate Change in Wildlands proposes a new kind of collaboration between scientists and managers--a science-derived framework and common-sense approaches for keeping parks and protected areas healthy on a rapidly changing planet.

The Wild Lands

In Paul Greci's *The Wild Lands*, Travis and his sister are trapped in a daily race to survive—and there is no second place. Natural disasters and a breakdown of civilization have cut off Alaska from the world and destroyed its landscape. Now, as food runs out and the few who remain turn on each other, Travis and his younger sister, Jess, must cross hundreds of miles in search of civilization. The wild lands around them are filled with ravenous animals, desperate survivors pushed to the edge, and people who've learned to shoot first and ask questions never. Travis and Jess will make a few friends and a lot of enemies on their terrifying journey across the ruins of today's world—and they'll have to fight for what they believe in as they see how far people will go to survive. *The Wild Lands* is a pulse-pounding YA thriller full of shocking plot twists. It's the ultimate survival tale of humanity's fight against society's collapse. An Imprint Book "This rugged survival story places a group of teens in a dark, burned-out post-apocalyptic nightmare. Your heart will pound for them as they face terrible dangers and impossible odds. Gripping, vivid, and haunting!" —Emmy Laybourne, international bestselling author of the *Monument 14* trilogy "A compelling story that wouldn't let me stop reading. Greci has created both a frightening landscape and characters you believe in and want to survive it." —Eric Walters, author of the bestselling *Rule of Three* series

THE NEWYORK TIMES BESTSELLER 'A reportorial tour de force ... Heart-rending, appalling and hard to put down' JANE MAYER 'Richly reported, beautifully written ... A riveting tale of dark times, told with a pathos and humanity that prompts hope of something better' MICHAEL J. SANDEL 'Visionary in scope, compassionate in procedure ... Definitive' AYAD AKHTAR Evan Osnos moved to Washington, DC, in 2013 after a decade away from the United States. While abroad, he often found himself making a case for America, urging the citizens of Egypt, Iraq or China to trust that even though America had made grave mistakes throughout its history, it aspired to some foundational moral commitments – the rule of law, the power of truth, the right of equal opportunity for all. But when he returned to the United States, he found each of these principles under assault. In search of an explanation for the crisis, he focused on three places he knew firsthand: Greenwich, Connecticut; Clarksburg, West Virginia; and Chicago, Illinois. Reported over the course of six years, *Wildland* follows ordinary individuals as they navigate the varied landscapes of twenty-first-century America. Through their powerful, often poignant stories, Osnos traces the sources of America's political dissolution. He finds answers in the rightward shift of the financial elite in Greenwich; in the collapse of social infrastructure and possibility in Clarksburg; and in the compounded effects of segregation and violence in Chicago. The truth about the state of the nation may be found not in the slogans of political leaders but in the intricate details of individual lives, and in the hidden connections between them. A dramatic, prescient examination of seismic changes in American politics and culture, *Wildland* is the story of a crucible, a period bounded by two shocks to America's psyche, two assaults on the country's sense of itself: the attacks of September 11 in 2001 and the storming of the US Capitol on January 6, 2021. Following the lives of everyday Americans in three cities across two decades, Osnos illuminates the country in a startling light, revealing how it lost the moral confidence to see itself as larger than the sum of its parts.

Kidnapped by the notorious rebel group, Provstat, Brexley finds her connection goes deeper than she ever imagined. Reunited with old acquaintances and an uncle she never knew, Brexley is thrown into the vicious world of politics, where human and fae leaders will do anything to come out on top. Here dangerous associations and meticulous plots are far more dangerous and cutthroat than any game she survived in Halálház. If her life wasn't complicated enough, her relationship with the infamous legend is growing stronger. The more she tries to untangle the link between Warwick and her, the thicker it wraps around them both, entwining them in a world between life and death, where brutal passion and fury collide. When whispers of a coveted magical substance, called the nectar, start buzzing louder, Brexley's strange bond to the fae book leads her on an unexpected journey. One that brings her closer to the answers she seeks. But once she opens the door, all the secrets and lies of her past come flooding out. Truths she's not ready to face. And betrayals that cut bone deep.

For fans of Jodi Picoult and Anita Shreve comes an exhilarating debut novel of one woman's courage in the face of catastrophe. She'll do anything to save them. But what will she do to save herself? When Kat Jamison retreats to the Blue Ridge Mountains, she's counting on peace and solitude to help her make a difficult decision. Her breast cancer has returned, but after the death of her husband, her will to fight is dampened. Now she has a choice to make: face yet another round of chemotherapy or surrender gracefully. Self-reflection quickly proves impossible as her getaway is complicated by a pair of abandoned dogs and two friendly children staying nearby, Lily and Nirav. In no time at all, Kat's quiet seclusion is invaded by the happy confusion of children and pets. But when lightning ignites a deadly wildfire, Kat's cabin is cut off from the rest of the camp, separating Lily and Nirav from their parents. Left with no choice, Kat, the children, and the dogs must flee on foot through the drought-stricken forest, away from the ravenous flames. As a frantic rescue mission is launched below the fire line, Kat drives the party deeper into the mountains, determined to save four innocent lives. But when the moment comes to save her own, Kat will have to decide just how hard she's willing to fight to survive--and what's worth living for. A heart-pounding novel of bravery, sacrifice, and self-discovery, Wildland will keep you on the edge of your seat to the very last page.

Wild Lands

"From bestselling author Nicole Alexander comes an epic novel of bravery, loyalty and impossible love that takes the reader on a spellbinding journey from the streets of early Sydney to the heart of Australia's wild, untamed lands. New South Wales, 1837, and settlers in search of fertile country are venturing far outside the colony. Literally cutting a swathe through the bush with their bare hands, they lay claim to territory beyond government jurisdiction - and the reach of the law. As she accepts a position on one such farm, seventeen-year-old Kate Carter is unaware she is entering a land of outlaws, adventurers and murderous natives. Because the first people of this new world will no longer accept the white man's advance, and retaliatory attacks on both sides have made it a frontier on the brink of war. Into Kate's path comes Bronzewing, a young white man schooled by a settler family yet raised within an Aboriginal tribe. Caught between two worlds, Bronzewing strives to protect his adopted people and their vanishing civilisation. But as he and Kate will discover, beyond the outer limits is a beautiful yet terrifying place, where it's impossible to know

Regeneration

In 1995 the National Trust for Scotland acquired Mar Lodge Estate in the heart of the Cairngorms. Home to over 5,000 species, this vast expanse of Caledonian woodlands, subarctic mountains, bogs, moors, roaring burns and frozen lochs could be a place where environmental conservation and Highland field sports would exist in harmony. The only problem was that due to centuries of abuse by human hands, the ancient Caledonian pinewoods were dying, and it would take radical measures to save them. After 25 years of extremely hard work, the pinewoods, bogs, moors and mountains are returning to their former glory. Regeneration is the story of this success, featuring not only the people who are protecting the land and quietly working to undo the wrongs of the past, but also the myriad creatures which inspire them to do so. In addition, it also tackles current controversies such as raptor persecution, deer management and rewilding and asks bigger questions about the nature of conservation itself: what do we see when we look at our wild places? What should we see?

Hostile Territory

In Paul Greci's *Hostile Territory*, a catastrophic earthquake strands four teens in the Alaskan wilderness—and leaves them without a civilization to return to. Josh and three other campers at Simon Lake are high up on a mountain when an earthquake hits. The rest of the camp is wiped out in a moment—leaving Josh, Derrick, Brooke, and Shannon alone, hundreds of miles from the nearest town, with meager supplies, surrounded by dangerous Alaskan wildlife. After a few days, it's clear no rescue is coming, and distant military activity in the skies suggests this natural disaster has triggered a political one. Josh and his fellow campers face a struggle for survival in their hike back home—to an America they might not recognize. An Imprint Book “In Greci's intense survival tale with a thriller component, four teens endure a harrowing trek across the Alaskan wilderness . . . It's clear that Greci (*The Wild Lands*) knows his landscape—Alaska's beauty and natural hazards become their own vivid character in his handling.” —Publishers Weekly “Readers will feel like they are in Alaska alongside the characters... Recommended for teenagers who like postapocalyptic adventure or are fans of Gary Paulsen's *Hatchet*.” —School Library Journal

Named one of BuzzFeed's Best Fiction of 2018 "Geni's character-driven environmental thriller—think *Silent Spring* by way of Celeste Ng—centers on the survivors of a tornado that destroys an Oklahoma farm and kills the family's father." —O, The Oprah Magazine When a Category Five tornado ravaged Mercy, Oklahoma, no family in the small town lost more than the McClouds. Their home and farm were instantly demolished, and orphaned siblings Darlene, Jane, and Cora made media headlines. This relentless national attention in the tornado's aftermath caused great tension with their brother, Tucker, who soon abandoned his sisters and disappeared. On the three-year anniversary of the tornado, a bomb explodes in a cosmetics factory outside of Mercy, and the lab animals trapped within are released. Tucker reappears, injured from the blast, and seeks the help of nine-year-old Cora. Caught up in the thrall of her charismatic brother, whom she has desperately missed, Cora agrees to accompany Tucker on a cross-country mission to make war on human civilization. Cora becomes her brother's unwitting accomplice, taking on a new identity while engaging in acts of escalating violence. Darlene works with Mercy police to find her siblings, leading to an unexpected showdown at a zoo in Southern California. *The Wildlands* is another remarkable literary thriller from critically acclaimed writer Abby Geni, one that examines what happens when one family becomes trapped in the tenuous space between the human and animal worlds.

Recreational Use of Wild Lands

This landmark book showcases the eco-heroism of people from all around North America who have protected the natural wildlands. Published with The Foundation for Deep Ecology, *Wildlands Philanthropy* is intended to inspire people to "take matters into their own hands" and save the planet, acre by acre. In *Wildlands Philanthropy*, veteran conservation writer Tom Butler and world-class landscape photographer Antonio Vizcaíno take readers on a visually spectacular tour of natural landmarks from Alaska to Tierra del Fuego and around globe. With more than 350 pages, 175 color photographs, and a large-format design with exquisite production values, *Wildlands Philanthropy* is a book grand enough to tell the inspiring stories of people who saved extraordinary places. From Muir Woods National Monument to Acadia National Park, from beloved icons to obscure natural areas, the forty parks, refuges, and sanctuaries featured in the book represent the incredible diversity of wildlife habitats that have been saved through private initiative during the past century. The amazing people who invested their passion and wealth to secure these scenic treasures come from every walk of life and every corner of the country, suggesting that everyone—regardless of means—can join this great American tradition of individual action on behalf of wild nature.

Wildlands Philanthropy

After decades of operating off-the-backfoot and protecting and conserving nature perceived as under threat, conservationists are becoming proactive and creative in the face of habitat loss, agricultural intensification and climate change. Beyond Conservation offers a revolutionary agenda for both managing existing wildlands in Britain and for expanding and connecting such lands. Central to this strategy is the imperative to 'rewild' or restore and repair damaged habitat and ecosystems, promote existing biodiversity and reintroduce vanished plant and animal species, while working to reconcile human needs and livelihoods and the needs of nature.

The wilderness of the heart may be untamed, but you don't need to go there alone. In *The Wild Land Within*, spiritual companion and podcast host Lisa Colón DeLay offers a map to our often-bewildering inner terrain, inviting us to deepen and expand our encounters with God. Through specific spiritual practices from early desert monastics, as well as Latinx, Black, and Indigenous contemplatives, she guides us in cultivating lives of devotion. In opening ourselves up to God's healing, we will inevitably come across wounds we didn't even know we had. Colón DeLay uses theology and neuroscience to help us work through buried fear or pain and find embodied spiritual healing from trauma. A contemplative map to the wilderness of the heart, *The Wild Land Within* guides us through intimate geography in which God dwells.

What can we learn from the people of the Maya Lowlands? Integrating history, biodiversity, ethnobotany, geology, ecology, archaeology, anthropology, and other disciplines, *The Lowland Maya Area* is a valuable guide to the fascinating relationship between man and his environment in the Yucatán peninsula. This book covers virtually every aspect of the biology and ecology of the Maya Lowlands and the many ways that human beings have interacted with their surroundings in that area for the last three thousand years. You'll learn about newly discovered archaeological evidence of wetland use; the domestication and use of cacao and henequen plants; a biodiversity assessment of a select group of plants, animals, and microorganisms; the area's forgotten cotton, indigo, and wax industries; the ecological history of the Yucatán Peninsula; and much more. This comprehensive book will open your eyes to all that we can learn from the Maya people, who continue to live on their native lands, integrating modern life with their old ways and teaching valuable lessons about human dependence on and management of environmental resources. *The Lowland Maya Area* explores: the impact of hurricanes and fire on local environments historic and modern Maya concepts of forests the geologic history of the Yucatán challenges to preserving Maya architecture newly-discovered evidence of fertilizer use among the ancient Maya cooperation between locals and researchers that fosters greater knowledge on both sides recommendations to help safeguard the future *The Lowland Maya Area* is an ideal single source for reliable information on the many ecological and social issues of this dynamic area. Providing you with the results of the most recent research into many diverse fields, including traditional ecological knowledge, the difficult transition to capitalism, agave production, and the diversity of insect species, this book will be a valuable addition to your collection. As the editors of *The Lowland Maya Area* say in their concluding chapter: "If we are to gain global perspective from the changing Maya world, it is that understanding space and time is absolutely critical to human persistence." Understanding how the Maya have interacted with their environment for thousands of years while maintaining biodiversity will help us understand how we too can work for sustainable development in our own environments.

A new era in wildland fuel sciences is now evolving in such a way that fire scientists and managers need a comprehensive understanding of fuels ecology and science to fully understand fire effects and behavior on diverse ecosystem and landscape characteristics. This is a reference book on wildland fuel science; a book that describes fuels and their application in land management. There has never been a comprehensive book on wildland fuels; most wildland fuel information was put into wildland fire science and management books as separate chapters and sections. This book is the first to highlight wildland fuels and treat them as a natural resource rather than a fire behavior input. Moreover, there has never been a comprehensive description of fuels and their ecology, measurement, and description under one reference; most wildland fuel information is scattered across diverse and unrelated venues from combustion science to fire ecology to carbon dynamics. The literature and data for wildland fuel science has never been synthesized into one reference; most studies were done for diverse and unique objectives. This book is the first to link the disparate fields of ecology, wildland fire, and carbon to describe fuel science. This just deals with the science and ecology of wildland fuels, not fuels management. However, since expensive fuel treatments are being planned in fire dominated landscapes across the world to minimize fire damage to people, property and ecosystems, it is incredibly important that people understand wildland fuels to develop more effective fuel management activities.

"A memoir from a long-time ranger at Baxter State Park in Maine"--

This Wild Land

Perfect for readers of Jon Krakauer and Douglas Preston, this "authentic and encyclopedic" book examines real-life cases of those who vanish in the wilderness without a trace (Roman Dial)—and those eccentric, determined characters who try to find them. These are the stories that defy conventional logic. The proverbial vanished without a trace incidences, which happen a lot more (and a lot closer to your backyard) than almost anyone thinks. These are the missing whose situations are the hardest on loved ones left behind. The cases that are an embarrassment for park superintendents, rangers and law enforcement charged with Search & Rescue. The ones that baffle the volunteers who comb the mountains, woods and badlands. The stories that should give you pause every time you venture outdoors. Through Jacob Gray's disappearance in Olympic National Park, and his father Randy Gray who left his life to search for him, we will learn about what happens when someone goes missing. Braided around the core will be the stories of the characters who fill the vacuum created by a vanished human being. We'll meet eccentric bloodhound-handler Duff and R.C., his flagship purebred, who began trailing with the family dog after his brother vanished in the San Gabriel Mountains. And there's Michael Neiger North America's foremost backcountry Search & Rescue expert and self-described "bushman" obsessed with missing persons. And top researcher of persons missing on public wildlands Ex-San Jose, California detective David Paulides who is also one of the world's foremost Bigfoot researchers. It's a tricky thing to write about missing persons because the story is the absence of someone. A void. The person at the heart of the story is thinner than a smoke ring, invisible as someone else's memory. The bones you dig up are most often metaphorical. While much of the book will embrace memory and faulty memory—history—*The Cold Vanish* is at its core a story of now and tomorrow. Someone will vanish in the wild tomorrow. These are the people who will go looking.

The Cold Vanish

Jay Griffiths describes an extraordinary odyssey, courageous and sometimes dangerous, to wildernesses of earth and ice, water and fire. It is also a journey into that greatest of uncharted lands - wild mind - as she explores the words and meanings which shape our ideas and our experience of our own wildness.

Wildland fires are becoming one of the most critical environmental factors affecting a wide range of ecosystems worldwide. In Mediterranean ecosystems (including also South-Africa, California, parts of Chile and Australia), wildland fires are recurrent phenomena every summer, following the seasonal drought. As a result of changes in traditional land use practices, and the impact of recent climate warming, fires have more negative impacts in the last years, threatening lives, socio-economic and ecological values. The book describes the ecological context of fires in the Mediterranean ecosystems, and provides methods to observe fire danger conditions and fire impacts using Earth Observation and Geographic Information System technologies.

Working the Wilderness: Early Leaders for Wild Lands tells true stories about four men and one woman who established how to work in and be in the wilderness. They were guides for protection of wilderness and for the protectors who followed them. Their lives were immersed in service *ff,ff,,,ff,,f,, "ff,ff,,,ff,,f,, €ff,ff,,,ff,,f,,* to wild land and the American People. They worked for the U.S. Forest Service, centered in the vast Selway-Bitterroot Wilderness of Idaho and Montana. Three were active before and after the Wilderness Act of 1964. The younger two came in at the beginning of the modern wilderness era. They all adapted skills of the pioneers to the new land designation. Their stories celebrate heroes for the enduring resource of wilderness and point to the future to keep their legacies thriving.

Over a lifetime, CNN founder Ted Turner has dedicated two million private acres to a globally unparalleled project to reintroduce and restore the species that once roamed freely there. Ted Turner was for many years the largest private-property owner in America and known for his establishment of the largest bison herds in the world. From this beginning, his holdings have grown to be refuges of biodiversity for some of the most endangered species in the world, from migratory birds to fish and insects, and from wolves to grizzly bears. Rhett Turner explores his father's devotion to leaving nature in better shape than he found it by taking us across nearly two dozen of the Turner family's properties—from the northern Rockies to the prairies of the Dakotas to the southeastern Atlantic coastal plains and pine forests—land equal to the size of Yellowstone National Park.

In *Dip*, Andrew Fusek Peters describes an extraordinary year of wild swimming. He leads us to rivers, lakes, waterfalls and hidden pools, into untamed landscapes that have the potential to surprise and move us in unexpected ways. Following in the wake of great writers such as Richard Jefferies and Edward Thomas, *Dip* combines meditations on place, history and myth with sharp observation and a poet's eye. As he takes the plunge and immerses himself in the elements, Andrew also begins to surface from a deep depression, making *Dip* at once a personal journey and about the many ways in which wild water and nature can restore us to ourselves.

In wild places where nature thrives, humanity prospers; our well-being is inextricably linked with that of the planet's web of life. In fact, one could argue that the state of the world can be measured by the state of the wild. But how do we gauge the state of earth's wildlife, wildlands, and oceans? *State of the Wild* is a new series that brings together some of the world's most renowned conservationists and writers—George Schaller, Alan Rabinowitz, Sylvia Earle, Rick Bass, Bill McKibben, Tom Lovejoy, and many others—to assess wildlife and wilderness, and to provide insights into how humans can become better stewards of the wild. This new series combines evocative writings with a fascinating tour of news highlights and vital statistics from around the world. One-third of each volume will focus on a topic of particular concern to conservationists working to protect wildlife and our last wild places. This 2006 edition explores the impacts of hunting and the wildlife trade through a range of essays: Ted Kerasote traces the history of hunting in North America; Carl Safina, Eric Gilman, and Wallace J. Nichols quantify the toll taken by commercial fishing on seabirds, turtles, and other marine species; James Compton and Samuel K. H. Lee explore the global reach of the wildlife trade for traditional Asian medicine. Contributors also examine other pivotal conservation issues, from the reasons why one in eight of the world's birds are endangered, to the impacts of global climate change, to the complexity of conserving seals, flamingos, zebras, and other wide-ranging species. The book's closing essay, "The Relative Wild," considers what exactly it means for a place to be "wild," where even the most remote corners of the planet have been altered by human activities. Uniquely structured with magazine-like features up front, conservation news in the middle, and essay contributions from eminent authors and biologists throughout, this landmark series is an essential addition to any environmental bookshelf.

State of the Wild

Originally published in 1992 *Economics for the Wilds* argues that an economics that properly values the resources of the wilds offers the best long-term security for their future. Most of the world's wilds have, in fact, always been utilized by local societies who have managed their resources sustainably, and one important guarantee for their preservation is therefore the continued participation of those communities and an adequate reward to them for their management. The book looks at the complexity and global nature of the issues, at the application of economics to the wilds and at the policies for their conservation and sustainable management which then result. It also examines specific forms of utilization of wild species and habitats, both sustainable and unsustainable, and including community-based development, tourism, the use of rainforest products, poaching and the impact of conservation on wildlife use. The book concludes that a comprehensive utilization strategy for wild resources is needed to ensure their continued existence and the continued flow of benefits from them.

Economics for the Wilds

Wildlands and economic development. The need for systematic attention to wildlands. The World Bank and wildland management. Incorporating wildland management components in development projects. Other development activities that benefit wildland management. Wildland management in economic and sector planning. The economic analysis of wildland management. Accommodating the needs and interests of local people in wildland management.

A Candle in the Wind

A telephone call from Sir Jamie O'Laverty sends Jenifer Masters to Ireland to claim her place as the rightful heir of Kilrain Castle.

Candle in the Wind

The fourth book from the collection *The Once and Future King* by T. H. White. It deals with the last weeks of Arthur's reign, his dealings with his son Mordred's revolts, Guenever and Lancelot's demise, and his perception of right and wrong.

The Candle in the Wind

The long-lost conclusion to *The Once and Future King*, in which King Arthur faces his final battle against his son. This magical account of King Arthur's last night on earth, rediscovered in a collection of T. H. White's papers at the Harry Ransom Center at the University of Texas at Austin, spent twenty-six weeks on the *New York Times* bestseller list following its publication in 1977. While preparing for his final, fatal battle with his bastard son, Mordred, Arthur returns to the Animal Council with Merlyn, where the deliberations center on ways to abolish war. More self-revealing than any other of White's books, Merlyn shows his mind at work as he agonized over whether to join the fight against Nazi Germany while penning the epic that would become *The Once and Future King*. The *Book of Merlyn* has been cited as a major influence by such illustrious writers as Kazuo Ishiguro, J. K. Rowling, Helen Macdonald, Neil Gaiman, and Lev Grossman. "Arriving from beyond the curve of time and apparently from the grave, *The Book of Merlyn* stirs its own pages, saying, wait: you didn't get the whole story. . . . It gives us a final glimpse of those two immortal characters, Wart and Merlyn, up close, slo-mo, with a considered and affectionate scrutiny. The book is an elegiac posting from a master storyteller of the twentieth century. Its reissue in our next century is just as welcome as when it first arrived forty years ago. . . . Certainly the moral questions about the military use of force perplex the world still. . . . The efficacy of treaties, the trading of insults among the potentates of the day, the testing of weapons, the weaponizing of trade—these strategies are still front and center. Rather terrifyingly so. We do well to revisit what that old schoolteacher of children, Merlyn, has been trying to point out to us about power and responsibility." —Gregory Maguire, bestselling author of *Wicked*, from the foreword "Such a small thing, *The Book of Merlyn*, to hold so much. Joyful and despairing, heartbreaking, yet full of hope. As wonderful and fearful to read today as it was when I first found it in 1978. And the world has as much need of it today as it did then—more, perhaps. But will the world be ready to listen?" —Mercedes Lackey, *New York Times* bestselling author of the *Valdemar* and *Elves on the Road* series

DigiCat Publishing presents to you this special edition of "*The Once and Future King*" by T. H. White. DigiCat Publishing considers every written word to be a legacy of humankind. Every DigiCat book has been carefully reproduced for republishing in a new modern format. The books are available in print, as well as ebooks. DigiCat hopes you will treat this work with the acknowledgment and passion it deserves as a classic of world literature.

The Book of Merlyn

When Harris Mizuno, a Japanese-American teenager, is shot dead by an elderly white man who mistakes him for an intruder it's up to fifteen-year-old Terry Mizuno to take charge when her family falls apart in grief and anger over the murder of her brother.

The Once and Future King

Aria Brooks is a 17-year old girl in a new town with the weight of the world on her shoulders. Dealing with the recent death of her father while struggling to befriend her new step father, nothing seems to be going her way. Aria is afraid to trust people and is angry at everyone around her. Then Aria meets Matt Lawson, who is unlike anyone she has ever met before; he immediately gets her attention and she slowly starts to let him in. Aria and Matt instantly connect, and they soon become an inseparable pair. Matt helps Aria deal with her buried emotion regarding her father's death and to slowly start to trust the people around her. When a tragic accident shakes Aria's world again, will she be able to persevere or will it close her off from the world even more?

A Candle in the Wind

This is the story of an American actress who uses all of her resources and ingenuity for a year to effect the release of her lover from a German concentration camp. Their's is a deeply moving story of courage, loyalty, and faith played against a somber background of Nazi trickery and betrayal.

Candle in the Wind

"A gripping tale told by a gifted writer."--Beverly Lewis Caroline Fletcher is caught in a nation split apart and torn between the ones she loves and a truth she can't deny The daughter of a wealthy slave-holding family from Richmond, Virginia, Caroline Fletcher is raised to believe slavery is God-ordained and acceptable. But on awakening to its cruelty and injustice, her eyes are opened to the men and women who have cared tirelessly for her. At the same time, her father and her fiance, Charles St. John, are fighting for the Confederacy and their beloved way of life and traditions. Where does Caroline's loyalty lie? Emboldened by her passion to make a difference and her growing faith, will she risk everything she holds dear?

(Faber Piano Adventures). The Popular Repertoire Book combines popular hits with imaginative "Activity Pages" that explore rhythm, note reading, and theory fundamentals. Level 5 includes: Butterfly Kisses * Candle in the Wind * Hedwig's Theme, from Harry Potter and the Sorcerer's Stone * Over the Rainbow * Summertime * Take Five * Tears in Heaven * There You'll Be, from Pearl Harbor * Viewer Mail Theme, from The Late Show with David Letterman * Wind Beneath My Wings.

Candle in the Wind

A CANDLE IN THE WIND focuses on the prominence of the new women working for the Corporate India of 2013. Breaking traditions they have learnt the ropes of pushing through tenders/contracts in a nation cursed for its political corruption and bureaucratic red-tape. Contrary to stereotypes, some who have even surprised the West's perception of women in business, have stormed the male bastion in reading minds with sharp acumen and winning over covert deals for their customers with alacrity and temerity, quite often, at risk to themselves and their family. The 40-year old corporate lobbyist, US/UK educated, wife to a cardiologist and mother of two teen-aged children, based in New Delhi, JSK as she is popularly known, an adept at multi-tasking, balances her official work with that of her family obligations, amidst the venal business climate of a country turning the corner to become a world leader. JSK is seen to be always on the move from East to West, in the corridors of power, putting her feminine wiles to best use. Her life has been like the candle in the open space flickering bright to provide light to many, while always at peril to the fluctuating moods of the wind.

Not illustrated. 1909 edition. Excerpt: ... futility; but the best type of modern parent is chary of needless intrusion into a temple built for two. "Since Gwen has set the example," she said cheerily, " I authorize a 'general post'l It's waste of good material letting you two men drive down together. You come with me in the victoria, and let your nice friend drive Mrs. Videlle in the cart. He won't mind, will he?" "Don't much look as if he would," Finlay remarked drily, with a glance at the two who seemed absorbed in their subject or each other. Then his gaze reverted to Gwen's vanishing figure. "Is that really coming off?" he asked as the curtains fell behind her. "Why? Are people already discussing cheap and effective wedding presents?" Finlay winced. "There or thereabouts. May I discourage them? "Certainly. On principle!" "Not on the strength of facts?" Question and tone seemed to plead for fuller confidence; and this woman of the bravely smiling face was too intimate with the ache of suspense not to respond. "My dear man, I know no more of the facts than you do," she said kindly. "I believe in respecting the reserve of the young; and in some things, my outspoken lass is almost as 'inward' as her own father. What's more, she's got his head on her shoulders; and has been reared not to look upon marriage as an end in itself, but simply as a condition to be accepted for the sake of the one man she could not endure to lose. If she is going to feel that way about Frank Eve-ett, --well--one must put up with it. But at least I have safeguarded her

to the best of my power; and she knows she is supremely needed at home. I couldn't bear that any girl of mine should be driven to accept a man as a means to an end. It is bad enough seeing other people's daughters--" She broke off abruptly;...

Candle in the Wind by T. H. White The fourth book from the collection The Once and Future King by T. H. White. It deals with the last weeks of Arthur's reign, his dealings with his son Mordred's revolts, Guenever and Lancelot's demise, and his perception of right and wrong. We are delighted to publish this classic book as part of our extensive Classic Library collection. Many of the books in our collection have been out of print for decades, and therefore have not been accessible to the general public. The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature, and our view is that this is a significant literary work, which deserves to be brought back into print after many decades. The contents of the vast majority of titles in the Classic Library have been scanned from the original works. To ensure a high quality product, each title has been meticulously hand curated by our staff. Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work. We hope that you will enjoy this wonderful classic work, and that for you it becomes an enriching experience.

A 3 Year Journey of Grief a Daughter, that has written a collection of prose, poetry, texts, and lyrics over the years about her dreams and memories of her mother. This self-help journey may help others going through a similar experience . It is written with authentic feelings in real time including the poetic imperfections of the English language that reflects the time.

Elton John

CANDLE IN THE WIND is a poetry collection about God and love. The poems celebrate the Lord's goodness and show how he guides our lives. The poems show hope and faith that abound with the belief in our Lord. Some poems tell about our angels, our Guardian angels and all Heaven's angels who come to us with help and point the way to enrich our lives. The poems glorify God and give us the hope of the Resurrection and the Second Coming. The poems talk about how the love of the Lord can color and enrich our lives. Like a Candle in the Wind the light of our Lord can show us the path to take. One poem is in praise of the beautiful four seasons of the year that color our world. One poem describes a garden and others speak of hope even in the face of the death and mourning of our departed loved ones. He sports ten authored books, Candle in The Wind translated into Russian and now available on Amazon.com . This collection of Gary Drury's newest poems should not be missed. It will enrich your library of poetry.
