Dashenka - Or, The Life of a Puppy

This book tells the whimsical story of Dashenka, a fox terrier puppy with wiry hair who brings both joy and distress to all those around him as soon as he arrives. A delightfully sentimental tale narrated through a combination of words, drawings and photographs, this beloved children's classic has proven to be timeless tale enjoyed by children across the globe to this day. Delightfully simple to read and enjoy, this is a wonderful book to recount to children before bedtime and is sure to be a family favourite. Karel apek was a Czech writer best known for his science fiction, notably War with the Newts (1936) and his play R.U.R. - famous for containing the first use of the word 'Robot'. This scarce book was first published in 1933 and is now republished with an additional biography of the author.

Dashenka : the Story of a Puppy

The author describes the growth and naughty but endearing behavior of his fox terrier Dashenka during her first year of life.

Dashenka, Or, The Life of a Puppy

A new translation of Karel apek's play R.U.R.—which famously coined the term “robot”—and a collection of essays reflecting on the play's legacy from scientists and scholars who work in artificial life and robotics. Karel apek's “R.U.R.” and the Vision of Artificial Life offers a new, highly faithful translation by Št pán Šimek of Czech novelist, playwright, and critic Karel apek's play R.U.R.: Rossum's Universal Robots, as well as twenty essays from contemporary writers on the 1920 play. R.U.R. is perhaps best known for first coining the term “robot” (in Czech, robota means serfdom or arduous drudgery). The twenty essays in this new English edition, beautifully edited by Jitka ejková, are selected from Robot 100, an edited collection in Czech with perspectives from 100 contemporary voices that was published in 2020 to celebrate the hundredth anniversary of the play. apek's robots were autonomous beings, but biological, not mechanical, made of chemically synthesized soft matter resembling living tissue, like the synthetic humans in Blade Runner, Westworld, or Ex Machina. The contributors to the collection—scientists and other scholars—explore the legacy of the play and its connections to

the current state of research in artificial life, or ALife. Throughout the book, it is impossible to ignore Capek's prescience, as his century-old science fiction play raises contemporary questions with respect to robotics, synthetic biology, technology, artificial life, and artificial intelligence, anticipating many of the formidable challenges we face today. Contributors Jitka Ječková, Miguel Aguilera, Iñigo R. Arandia, Josh Bongard, Julian Cartwright, Seth Bullock, Dominique Chen, Gus Eiben, Tom Froese, Carlos Gershenson, Inman Harvey, Jana Horáková, Takashi Ikegami, Sina Khajehabdollahi, George Musser, Geoff Nitschke, Julie Nováková, Antoine Pasquali, Hemma Philamore, Lana Sinapayen, Hiroki Sayama, Nathaniel Virgo, Olaf Witkowski

R.U.R. and the Vision of Artificial Life

And although originally written in Czech, the book was commissioned by Catbird Press and was therefore written with foreign readers in mind; in other words, no prior knowledge of Capek's writings or his milieu is required."--BOOK JACKET.

Karel Capek

Capek's best plays, stories, and columns take us from the social contributions of clumsy people to dramatic meditations on mortality and commitment. The Reader includes a new and, at last, complete English translation of R.U.R., the play that introduced the literary robot.

Toward the Radical Center

Though animal stories and fables stretch back into the antiquity of ancient India, Persia, Greece and Rome, the reasons for writing them and their resonance for readers (and listeners) remain consistent to the present. This work argues that they were essential sources of amusement and instruction—and were also often profoundly unsettling. Such authors in the realm of the animal fable as Tolkien, Freud, Voltaire, Bakhtin, Cordwainer Smith, Karel Capek, Vladimir Propp, and many more are discussed.

The Animal Fable in Science Fiction and Fantasy

In *The Winter's Tale*, Shakespeare gave the landlocked country of Bohemia a coastline—a famous and, to Czechs, typical example of foreigners' ignorance of the Czech homeland. Although the lands that were once the Kingdom of Bohemia lie at the heart of Europe, Czechs are usually encountered only in the margins of other people's stories. In *The Coasts of Bohemia*, Derek Sayer reverses this perspective. He presents a comprehensive and long-needed history of the Czech people that is also a remarkably original history of modern Europe, told from its uneasy center. Sayer shows that Bohemia has long been a theater of European conflict. It has been a cradle of Protestantism and a bulwark of the Counter-Reformation; an Austrian imperial province and a proudly Slavic national state; the most easterly democracy in Europe; and a westerly outlier of the Soviet bloc. The complexities of its location have given rise to profound (and often profoundly comic) reflections on the modern condition. Franz Kafka, Jaroslav Hasek, Karel Capek and Milan Kundera are all products of its spirit of place. Sayer describes how Bohemia's ambiguities and contradictions are those of Europe itself, and he considers the ironies of viewing Europe, the West, and modernity from the vantage point of a country that has been too often ignored. *The Coasts of Bohemia* draws on an enormous array of literary, musical, visual, and documentary sources ranging from banknotes to statues, museum displays to school textbooks, funeral orations to operatic stage-sets, murals in subway stations to censors' indexes of banned books. It brings us into intimate contact with the ever changing details of daily life—the street names and facades of buildings, the heroes figured on postage stamps—that have created and recreated a sense of what it is to be Czech. Sayer's sustained concern with questions of identity, memory, and power place the book at the heart of contemporary intellectual debate. It is an extraordinary story, beautifully told.

The Coasts of Bohemia

I Had a Dog and a Cat is a delightfully charming book, originally written in Czech. Featuring gorgeous black-and-white illustrations, this is the perfect storybook to share with little ones who love animals. First published in 1940, this wonderful volume is a collation of short children's stories about our most beloved pets: cats and dogs. *I Had a Dog and a Cat* was written and illustrated by Czech brothers Josef and Karel Capek. The comic storybook was then translated into English by Czech couple Marie

and Robert Weatherall. The stories featured in this volume include: - Minda, or the Breeding of Dogs - Ben, Benji, Blackie and Bibi - Iris - Dashenka - The Dog Show - More About Dogs and About Cats Too

The Journal of Education

This Oxford companion provides an authoritative reference source for fairy tales, exploring the tales themselves, both ancient and modern, the writers who wrote and reworked them and related topics such as film, art, opera and even advertising.

The National Union Catalog, Pre-1956 Imprints

"This trilogy of novels was the culmination of Karel Capek's career. The novels share neither characters nor events; instead, they approach the problem of knowing people--of mutual understanding--in a variety of ways. Detectives faced with a murder reconstruct the crime, but not the character of the man who was murdered. Three people tell stories about a dying pilot they know almost nothing about; each story is as full of truth as it is devoid of facts. And one man looks back on his life and discovers all the people he might have been." -- back cover.

The New York Times Book Review

This reference work is comprised of two volumes treating the Middle Ages and the Renaissance, three volumes on the Romantics, and four volumes dealing with twentieth century authors. Scholar's new to literary history and criticism should find the balanced, well written essays on included authors a solid introduction.

I Had a Dog and a Cat - Pictures Drawn by Josef and Karel Capek

Excerpts from and citations to reviews of more than 8,000 books each year, drawn from coverage of 109 publications. Book Review Digest provides citations to and excerpts of reviews of current juvenile and adult fiction and nonfiction in the English language. Reviews of the following types of books are excluded: government publications, textbooks, and technical books in the sciences and law. Reviews of books on science for the general reader, however, are included. The reviews originate in a group of selected periodicals in the humanities, social sciences, and general science published in the United States, Canada, and Great Britain. - Publisher.

Publishers' Circular and Booksellers' Record of British and Foreign Literature

Over 3,200 entries An essential guide to authors and their works that focuses on the general canon of British literature from the fifteenth century to the present. There is also some coverage of non-fiction such as biographies, memoirs, and science, as well as inclusion of major American and Commonwealth writers. This online-exclusive new edition adds 60,000 new words, including over 50 new entries dealing with authors who have risen to prominence in the last five years, as well as fully updating the entries that currently exist. Each entry provides details of a writer's nationality and birth/death dates, followed by a listing of their titles arranged chronologically by date of publication.

The Duality of Vision

A visionary work of science fiction that introduced the word "robot" Written in 1920, premiered in Prague in 1921, and first performed in New York in 1922—garnered worldwide acclaim for its author and popularized the word robot. Mass-produced as efficient laborers to serve man, Capek's Robots are an android product—they remember everything but think of nothing new. But the Utopian life they provide ultimately lacks meaning, and the humans they serve stop reproducing. When the Robots revolt, killing all but one of their masters, they must strain to learn the secret of self-duplication. It is not until two Robots fall in love and are christened “Adam” and “Eve” by the last surviving human that Nature emerges triumphant. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

The Oxford Companion to Fairy Tales

Devoted to those practitioners of the art of short fiction, this new 2nd edition offers thorough coverage of approximately 375 authors and 400 of their works. In a single volume, Reference Guide to Short Fiction features often-studied authors from around the world and throughout history, all selected for inclusion by a board of experts in the field. Reference Guide to Short Fiction is divided into two sections for easy study. The first section profiles the authors and offers personal and career details, as well as complete bibliographical information. A signed essay helps readers understand more about the author. These authors are covered: -- Sandra Cisneros -- Nikolai Gogol -- Ernest Hemingway -- Langston Hughes -- Gabriel Garcia Marquez -- Salman Rushdie -- Jean-Paul Sartre -- Edith Somerville -- Eudora Welty -- And others Section two helps readers gain deeper understanding of the authors and the genre with critical essays discussing 400 important works, including: -- "The Hitchhiking Game"

Three Novels: Hordubal, An Ordinary Life [and] Meteor

Reference Guide to Short Fiction provides study and commentary on the most instrumental writers of short fiction through the 20th century. International in scope, this single scholarly volume includes 779 entries on 377 authors and 402 short stories.

European Writers

Karel Capek Fairy Tales is a delightful collection of ten classic children's stories, written by Karel Capek. It is beautifully illustrated throughout, with striking black-and-white images of Karel's brother; Josef Capek. The narratives of 'Capek Fairy Tales' include: 'A Long Tale about a Cat', 'The Dogs' Tale', 'The Birds' Tale', 'The First Bandits' Tale', 'The Water Sprites' Tale', 'The Long Police Tale', and many more. Karel Capek (1890 - 1938) was a Czech writer, best known for his science fiction, including his novel War with the Newts and the play, R. U. R, which introduced the word, 'robot'. He maintained a close relationship with his brother Josef (1887 - 1945), and the two lived and worked together for most of their adult life. Together, the Capeks produced books and plays on themes as diverse as detective stories, full-novels, philosophy, fairy tale collections, theatre plays, and even a book on gardening.
