

Averroes Tahafut Al Tahafut The Incoherence Of The Incoherence Volumes I And II

[#Averroes](#) [#Tahafut al-Tahafut](#) [#Islamic Philosophy](#) [#Al-Ghazali Rebuttal](#) [#Medieval Scholasticism](#)

Averroes's seminal work, *Tahafut al-Tahafut* (The Incoherence of the Incoherence), presented here in two volumes, serves as a powerful philosophical rebuttal to Al-Ghazali's critique of reason and philosophy in his *Tahafut al-Falasifa*. Averroes meticulously defends the methods and conclusions of ancient Greek philosophy within an Islamic context, engaging with complex topics of metaphysics, logic, and epistemology, making it an indispensable text for understanding medieval Islamic thought and the enduring conflict between faith and reason.
