Orcs of Golarion

The vile, hated orcs are the most common, evil, humanoid race of the Pathfinder world, the sword-fodder of countless celebrated heroes and daring adventurers. But they're also among the most populous civilized creatures on the planet, and their centuries-spanning conflicts with dwarves, elves, and humans form the pages upon which the history of mankind is written in blood. Pathfinder Companion: Orcs of Golarion provides Pathfinder RPG players everything they need to fight -- or play -- orc and half-orc characters, bringing this shadowy race to the savage forefront! Learn the secret history of this

brutish race, from their first emergence from the Darklands into the sunlit world to the latest reports from the orcish realm of Belkzen and other important orc strongholds. Discover the physical and mental qualities of orcs and their half-breed kin, explore their unusual culture, and choose an appropriate campaign trait for your orc or orc-slaying player character. With extensive notes on orc religion and worship practices, orc tribal magic, and orc weapons, combat tactics, and rage powers, this Pathfinder Companion is an absolute necessity for any who would battle orcish evil -- or revel in it!

Complete Arcane

Duels, arcane organizations, and other aspects of a campaign world imbued with magic. Book jacket.

Pathfinder: Rise of the Runelords, Part 2

The Rise of the Runelords Adventure Path continues with the second adventure: "The Skinsaw Murders." A sudden string of brutal killings terrorizes Sandpoint, and the killer's mark bears a disturbing similarity to the strange rune the goblins in the previous adventure had taken as their tribal totem. Investigation leads the heroes to confront a sinister murderer who has claimed a notorious haunted mansion as his lair. Yet this murderer is one of many, a member of a group of killers who call themselves the Skinsaw Men and have adopted an ancient magic involving the seven deadly sins. The PCs must travel to the bustling city of Magnimar to unravel the truth behind the rune, but in so doing may become prime suspects in the killings themselves! This volume of Pathfinder includes a detailed description of the city of Magnimar, several new monsters, and rules for new types of wizardly specialists who focus their studies on sin magic.

The Magister

"Now that the bailiwick outbreaks have been handled by Little Blue's all-woman peacekeeping force in Book I, "The Kanshou," a new threat to the planet emerges. The human species may be following in the footsteps of animal life, which deserted the planet on "Empty Monday" in the year 2021. Little Blue's children are dying--in some cases, just after birth. In other cases, the children range from several years old to teenagers and exhibit no apparent signs of illness. In fact, they greet Death as a friend and go willingly, in song, singly or in groups"--

Pathfinder Advanced Player's Guide

Blood of Fiends

They have been shunned and feared by society forever. Born of tainted bloodlines and raised in shameful secrecy, the tieflings of Golarion count among their ancestors some of the greatest evils of the Great Beyond. Yet not all tieflings succumb to the sinister compulsions of their evil blood -- some strive to rise above the stereotype and become heroes in their own right. This Pathfinder sourcebook explores all that it is to be a tiefling, including not only an extensive discussion of tiefling culture and society, but also presenting numerous variations on the standard tiefling character. Rules for tieflings of specific fiendish heritages, new feats and magic, variant tiefling abilities and tiefling appearances, and new options for inquisitors, summoners, sorcerers, clerics and more await discovery in this Pathfinder Player Companion.

Legends of the Twins

One twin plots in a dark tower, mastering the arcane forces of magic and learning the secrets that will allow him to enter the Portal and challenge the gods themselves. The other twin hides from personal demons at the bottom of a bottle, not yet having found the courage and wisdom to become whole. Their legend will change both the history of Krynn and its future. The legends of other heroes stand waiting to be written. Personal journeys, great quests, and heroic sacrifices all lie ahead. Sometimes it is not the world that needs to be saved, but a soul. The River of Time not only provides the chance to find the forgotten history of Krynn, but a chance to visit the world as it might have been. Discover an Ansalon untouched by Cataclysm, where the Godpriest reigns supreme; visit a magocracy, a land in which the Orders of High Sorcery rule through the power of magic; roam the dragonlands, crushed under the terrible might of the Dark Queen and her dragon highlords. Legends of the Twins is a resource for games set in the world of DragonLance. Inside one will find information for players, including variant rules for character traits, new feats, prestige classes. New spells and magic items allow characters to journey across the River to Time. Dungeon Masters will discover an amazing wealth of campaign possibilities, including travel into Ansalon's distant past or many different alternate versions of the world-available to introduce into a current campaign or as a launching point of one that is entirely new. All information within this volume is fully compatible with the revised edition of the d20 System game. Book jacket.

Advanced Dungeons & Dragons, Players Handbook

Presents an introduction to Dungeons and Dragons with information on the rules, characters, weapons and gear, and game etiquette.

Player's Handbook

This companion to the 'Player's handbook' core rulebook introduces the primal power source, which draws on the spirits that preserve and sustain the world. This book includes four classes tied to the primal power source: the barbarian, the druid, the shaman, and the warden. It also presents four new arcane and divine classes: the avenger, the bard, the invoker, and the sorcerer.

War of the River Kings

The War of the River Kings erupts in full fervor across the Stolen Lands, pitting the heroes' forces against an alliance of barbarians, bandit kings, and sinister fey creatures in an all-out clash! Only one ruler can claim the Stolen Lands, and that ruler must earn his prize through the blood of battle! A Pathfinder Roleplaying Game adventure for 13th-level characters, this volume continues the highly anticipated Kingmaker Adventure Path, in which the heroes win and defend a small kingdom from threats foreign and domestic. This volume features an extensive war using streamlined rules to resolve mass combat, a gazetteer of the bandit down of Pitax, and an article exploring the faith and fervor

of Gorum, the god of war! Plus five all-new monsters in the Pathfinder Bestiary, new fiction in the Pathfinder Journal, and more!

Find champions from the island of Iblydos or from far-off Arcadia, discover elemental secrets from the lands of Tian Xia, or learn the secrets of speaking with the monsters of the deserts of Garund in Pathfinder Player Companion: Heroes of Golarion!

Roleplaying Game

"Based on the original roleplaying game rules designed by Gary Gygax and Dave Arneson and inspired by the third edition of the game designed by Monte Cook, Jonathan Tweet, Skip Williams, Richard Baker, and Peter Adkison"--Title page verso.

Blood of Angels

Idolized and adored, but also regarded with jealousy and envy, the aasimars of Golarion count among their ancestors the greatest forces of good throughout the Great Beyond. They are the descendants of majestic angels, beatific celestials, and mysterious but kindly outsiders who have long sought to guide and protect the mortal realm. Yet merely having the blood of angels in your veins does not guarantee security in life, nor does it ensure a kindly soul -- few villains are more despised than those who have wandered so far from grace as the fallen aasimar. A companion volume to Blood of Fiends, Blood of Angels explores all that it is to be an aasimar, including an extensive discussion of aasimar culture and society, but also presenting numerous variations on the standard aasimar character. Rules for aasimars of specific celestial heritages (angels, archons, agathions, azatas, garudas, and peris), new feats and magic, variant aasimar abilities and features, new options for bards, clerics, inquisitors, oracles, sorcerers, summoners, and more await revelation in this Pathfinder Player Companion

Book of Hidden Paths

I talk about this in the Introduction to Book of Hidden Paths, but random encounters in roleplaying games have always fascinated me. I started with Dungeons & Dragons shortly after AD&D became a thing, and the big appendix of random encounters in the AD&D DMG still blows my mind. The fact that encounters could come at you out of nowhere meant that almost anything was possible even if the DM hadn't thought of it, and that appendix demonstrated in graphic form the richness and variety of all the living (and undead) things in the game. All those tables, so many tables.... And yet, I felt - and still feel - that more guidance on how to make random encounters work would be helpful. You get 10 main chapters, each devoted to a particular type of wilderness terrain: Caverns, Desert, Forest, Grasslands, Hills, Littoral, Mountains, Ocean, Tundra and Wetlands. After a brief discussion of that terrain type, each chapter launches into a series of tables and sub-tables outlining possible plausible encounters. They cover most of the creatures included in the Pathfinder Reference Document, from familiar wild animals to exotic monsters like kraken and purple worms, plus humanoids, various vocations/professions, and physical hazards that you can use for petty harassment (just to remind your players that adventuring isn't all fun and glory). In turn, each table entry discusses how that creature reacts - topics range from how to acquire a pet rat to what that ancient red dragon is thinking as it looks down at your party - how many of them are present (scaled to your party's average level), and what treasure might be gained from defeating it. Book of Hidden Paths gives DMs a deep dive into an under-explored aspect of RPGs. Even experienced DMs will find food for thought and fresh ideas about how to make a party food for monsters.

Paleomythic

Paleomythic is a roleplaying game of grim survival and mythical adventures in the land of Ancient Mu, a harsh prehistoric world full of mysterious ruins and temples to explore, huge and terrible creatures that roam and spread fear across the land, and nefarious mystics and sorcerers who plot dark schemes from the shadows. It is a world of biting cold winters, of people hunting and foraging to survive, and tribes that wage relentless war. Taking on the roles of hunters, healers, warriors, soothsayers, and more, players will navigate a world of hostile tribes, otherworldly spirits, prehistoric beasts, and monstrous creatures lurking in the dark places of the world. Players have huge scope in sculpting the game experience that

best suits them, whether it's a gritty survival story without a trace of the mystical or a tale of grand adventure and exploration in a mythic setting.

Test your convictions. In a land without fate and a world too often void of justice, it falls to the gods to make or break the people who call upon them for salvation -- or draw their ire. Swear yourself to the might of the gods and the power of their causes, or reject their offerings to live a life that's yours and yours alone! *Lost Omens Gods & Magic* offers details on major gods found in the Inner Sea region, including what forms their pleasure or wrath might take. It also presents rules for over a hundred other deities and philosophies so you can find the cause that best fits your convictions and take up weapons and magic in its service!

When a fragment of an ancient alien superweapon surfaces in the depths of hyperspace, its discovery sets off a race to find the extraterrestrial doomsday device. Hopping from planet to planet in both the civilized Pact Worlds and beyond, the heroes must contend with both the undead Corpse Fleet and the nihilistic Cult of the Devourer, each of which seeks to acquire the alien artifact for its own purposes. Can the heroes find and destroy the superweapon before their enemies seize control of it, or will the Pact Worlds' sun go dark and cold, a harbinger of dead suns across the galaxy?
