Film – An International Bibliography

By 1915, Hollywood had become the epicenter of American filmmaking, with studio "dream factories" structuring its vast production. Filmmakers designed Hollywood studios with a distinct artistic and industrial mission in mind, which in turn influenced the form, content, and business of the films that were made and the impressions of the people who viewed them. The first book to retell the history of film studio architecture, *Studios Before the System* expands the social and cultural footprint of cinema's virtual worlds and their contribution to wider developments in global technology and urban modernism. Focusing on six significant early film corporations in the United States and France—the Edison Manufacturing Company, American Mutoscope and Biograph, American Vitagraph, Georges Méliès's Star Films, Gaumont, and Pathé Frères—as well as smaller producers and film companies, *Studios Before the System* describes how filmmakers first envisioned the space they needed and then sourced modern materials to create novel film worlds. Artificially reproducing the natural environment, film studios helped usher in the world's Second Industrial Revolution and what Lewis Mumford would later call the "specific art of the machine." From housing workshops for set, prop, and costume design to dressing rooms and writing departments, studio architecture was always present though rarely visible to the average spectator in the twentieth century, providing the scaffolding under which culture, film aesthetics, and our relation to lived space took shape.

Dictionnaire de l'édition de cinéma

"Went to the movies. Wept. Matchless entertainment." So wrote Franz Kafka in one of his diaries, giving us but one hint of his little-known passion for the cinema. Until now, Kafka aficionados have been left to speculate about which films moved Kafka so powerfully and how those films might have influenced his writing. With *Kafka Goes to the Movies*, German actor and film director Hanns Zischler draws on years of detective work to provide the first account of Kafka's moviegoing life. Since many of Kafka's visits to the cinema occurred during bachelor trips with Max Brod, Zischler's research took him not only to Kafka's native Prague but to film archives in Munich, Milan, and Paris. Matching Kafka's cinematic references to reviews and stills from daily papers, Zischler hunted down rare films in collections all across Europe. A labor of love, then, by a true man of the cinema, *Kafka Goes to the Movies* brims with discoveries about the pioneering years of European film. With a wealth of illustrations, including reproductions of movie posters and other rare materials, Zischler opens a fascinating window onto movies that have been long forgotten or assumed lost. But the real highlights of the book are those about Kafka himself. Long considered one of the most enigmatic figures in literature, the Kafka that emerges in this work is strikingly human. *Kafka Goes to the Movies* offers an absorbing look at a witty, passionate, and indulgently curious writer, one who discovered and used the cinema as a place of enjoyment and escape, as a medium for the ambivalent encounter with modern life, and as a filter for the changing world around him.
