You Can't Sleep Here

You Can't Sleep Here is a story of being homeless. It is not a typical homeless tale, however, depicting disheveled men wandering the streets and begging for money. Rather, it concerns the hidden homeless--those we see perhaps every day yet never really see. You Can't Sleep Here is about mothers who, with their children, abruptly find themselves without a place to stay, a roof over their heads, or a place to sleep. With sheer determination, these women face the unimaginable and, while fighting to survive, discover their inner strengths and the power of friendship.

The definitive guide to working with -- and surviving -- bullies, creeps, jerks, tyrants, tormentors, despots, backstabbers, egomaniacs, and all the other assholes who do their best to destroy you at work. "What an asshole!" How many times have you said that about someone at work? You're not alone! In this groundbreaking book, Stanford University professor Robert I. Sutton builds on his acclaimed Harvard Business Review article to show you the best ways to deal with assholes...and why they can be so destructive to your company. The No Asshole Rule

The first book to explore the meaningful dreams and visions that bring comfort as death nears. Experiences at the end of life testify to our greatest needs: to love and be loved, to be nurtured and feel connected, to be remembered and forgiven. Christopher Kerr is a hospice doctor. All of his patients die. Yet he has tended to thousands of patients who, in the face of death, speak of love, meaning and grace. They reveal that there is hope beyond cure as they transition to focus on personal meaning. In this extraordinary and beautiful book, Dr. Kerr shares his patients' stories and his own research pointing to death as not purely the end of life, but as a final passage of humanity and transcendence. Drawing on interviews with over 1,200 patients and more than a decade of quantified data, Dr. Kerr reveals why pre-death dreams and visions are remarkable events that bring comfort and exemplify human resilience. These are not regular dreams. Described as "more real than real," they frequently include loved ones long gone and mark the transition from distress to acceptance. These end-of-life experiences help patients restore meaning, make sense of the dying process and assist in reclaiming it as an experience in which they have a say. They also benefit the bereaved who get relief from seeing their loved ones pass with a sense of calm closure. Beautifully written with astonishing stories, this

book, at its heart, celebrates the power to reclaim how we die, while soothing the bereaved who witness their loved ones go with unqualified grace.

From the same brains who brought you The Encyclopedia of Immaturity comes The Klutz Book of Inventions, a 200-page catalog of never-before-seen contraptions that are equal parts brilliant, useful, and ridiculous. None of them exist as actual products, but in a better world, a funnier world, they would all be household essentials. One of the most ambitious projects we've ever undertaken, this compendium was created over the course of hundreds of brainstorm hours by an all-star team from Klutz and IDEO, the world's foremost product design firm.
