Do you know what research is?

Research is a learning and sharing process.

Start learning about your topic using books, websites and videos.

And don't take any notes.

The next step is to IDENTIFY a specific topic.

Now you're ready for Step 3: GATHER.

A few things to remember: • Take notes in your own words

Gathered all the information you need?

Ask your teacher what options you have to demonstrate your research.

For this step, your notes are raw material

How about a metaphor? Notes — Research Project

Step 5 means it's time to SHARE what you've created!

When the sharing is over, it's time for Step 6: REFLECT.

Consider these questions: • What were the easiest and hardest parts?
