180 Masterpieces You Should Read Before You Die (Vol.2)

Taking the form of two companion volumes, *Police Courts in Nineteenth-Century Scotland* represents the first major investigation into the administration, experience, impact and representation of summary justice in Scottish towns, c.1800 to 1892. Each volume explores diverse, but complementary, themes relating to judicial practices, relationships, experiences and discourses through the lens of the same subject matter: the police court. Volume 1, with the subtitle *Magistrates, Media and the Masses*, provides an institutional, social and cultural history of the establishment, development and practice of police courts. It explores their rise, purpose and internal workings, and how justice was administered and experienced by those who attended them in a variety of roles. Special attention is given to examining how courtroom discourse was represented in print culture, the role of the media in providing a discursive commentary on summary justice, and the ways in which magistrates and the police engaged in a law and order dialogue with the press. Throughout, consideration is given to uncovering the relationship between magistrates, the courts, the police and the wider community, and to charting the implications of the rise of summary justice and the 'police-man' state for the urban masses (as evidenced through prosecution, conviction and punishment patterns). Volume 2, with the subtitle *Boundaries, Behaviours and Bodies*, explores, through themed case studies, how police courts shaped conceptual, spatial, temporal and commercial boundaries by regulating every-day activities, pastimes and cultures.

Police Courts in Nineteenth-Century Scotland, Volume 1

Wilbur Fisk Sanders has been mentioned considerably in many works on Montana history but has never been the subject of a comprehensive individual work. *Order Without Law* is the first and complete work devoted to Montana's first U.S. Senator and introduces never before published aspects to his colorful and important history.

"Great retailers are great at service. No exceptions. This book offers a wealth of insight into delivering excellent retail service." ---Leonard L. Nothing In America Is More Exciting Than College Sports! Each weekend, stadiums and gymnasiums across America are filled with the sound of the band, the smell of nachos and hot dogs, and the roar of the fans. Sports have become an integral part of American life, and college fans are among the loudest and most faithful. These fans lead the cheers, speak the language, and know the history. They attend as many games as possible and want to know all they can about "their" team. Tennessee fans are no exception: just take a look at their T-shirts, pillows, bumper stickers, banners, screen savers, coffee mugs, blankets, license plates, and ringtones -- all designed to declare their loyalty and cheer on their team. This exciting collection of stories from the many sports played at the University of Tennessee is perfect for the Vols fan who is also a fan of God. Each story, while giving accurate information concerning a sporting event, will also lead you into a moment of reflection about God and his greatness. UT fans will have the best of both worlds. This is the ideal book for the faith-filled and faithful Tennessee Volunteers fan!

Since the Camp David agreements of September 1978, the Middle East has experienced a series of major military and political developments that have affected not just the nations of the region and the two superpowers, but the rest of the world as well. The fall of the Shah of Iran, the Soviet invasion of Afghanistan, the Iraqi invasion of Iran, the assassination of Egyptian President Anwar Sadat, and the Israeli invasion of Lebanon—to name only a few events—have had a major impact. In this volume, a group of internationally recognized scholars, many of whom are present and former U.S. government officials, analyze these Middle Eastern developments from the perspectives of the superpowers, the region in general, and the five major actors during this period (Egypt, Israel, the PLO, Syria, and Iran). Although the individual authors speak from differing perspectives and viewpoints in their analyses, the book as a whole presents a balanced examination of the key developments in the volatile Middle East since Camp David.

The Spirit of the English Magazines

The fifth volume of this monumental series chronicles what was perhaps the stormiest period in the history of Marcus Garvey and the UNIA: the aftermath of the tumultuous 1922 convention. Outside the UNIA a growing list of opponents, including the black Socialists A. Philip Randolph and Chandler Owen, and the NAACP's Robert Bagnall and William Pickens, were turning their criticism of the controversial Jamaican into a "Garvey Must Go" campaign. Meanwhile, Garvey's former UNIA ally, Rev. J. W. H. Eason—who had been impeached at the 1922 convention—was emerging as a dangerous rival. Eason was assassinated in January 1923, just as he was to testify against Garvey in the latter's mail-fraud trial. Though it may be impossible to determine if Garvey had a role in the killing, the murder generated negative publicity that did untold damage to Garvey and his organization. Throughout all this, the federal government pressed its case against Garvey and his co-defendants on mail-fraud charges stemming from irregularities in the sale of Black Star Line stock. In June 1923 a jury found Garvey guilty and he was sentenced to five years in prison. Internecine feuds wracked the movement while Garvey languished in New York City's Tombs prison, awaiting bail so that he could mount an appeal. As soon as he was released in September 1923, he turned his energy to reconsolidating the UNIA, while considering the best appeal strategy. For the UNIA Garvey resurrected an old commercial message: that economic salvation was to be found in ships. In March 1924 he reconstituted the defunct Black Star Line as the Black Cross Navigation and Trading Co. and bought a ship, the S. S. General Goethals, in time for a tour of it by convention delegates. The shipboard tour proved to be a highlight of the 1924 convention, during which UNIA leadership was stunned by the Liberian government's formal repudiation of the movement's African colonization plans. Despite the UNIA's unexpected setback in Liberia, the movement continued to spread into new places, particularly in America's southern states. Generously illustrated with photographs and facsimile documents, Volume V of The Marcus Garvey and Universal Negro Improvement Association Papers upholds the impeccable editorial standards of the first four volumes. Once again, a wealth of new sources collected from around the world demonstrates how vitally important Marcus Garvey and the mass movement he controlled were to Afro-American history.
