Five Views on Law and Gospel

This book explores five major approaches to the relationship between the law and the Gospel, each author presenting his particular perspective on the issue and responding to the other four.

Five Views on Law and Gospel

An introduction to a complex theological issue that impacts our daily lives as believers in Christ: What is the relevance of the Old Testament Law to our understanding of the Gospel and how it should be lived? This book explores five major approaches to this important biblical topic as they've developed in Protestant circles: Non-Theonomic Reformed View – the law is the perfection of righteousness in Jesus Christ. Theonomic Reformed View – the goodness of the law is dependent on how it's used and does not offer a way to salvation. Heavily focused on Paul's discussion of the Law. Law as "Gracious Guidance" View – emphasizes the contrasts between the Mosaic law and the Gospel of grace, while still asserting the Law's value. Dispensational View – approaches the Law from a historical perspective to help us understand its presentation, treatment, and recipients. Modified Lutheran View – the Law of Christ as the fulfillment of the Law of Moses. This book allows each contributor to not only present the case for his view, but also to critique and respond to the critiques of the other contributors, allowing you to compare their beliefs in an open forum setting to see where they overlap and where they differ. The Counterpoints series presents a comparison and critique of scholarly views on topics important to Christians that are both fair-minded and respectful of the biblical text. Each volume is a one-stop reference that allows readers to evaluate the different positions on a specific issue and form their own, educated opinion.

The Law, the Gospel, and the Modern Christian

"The Protestant Reformation sparked an ongoing debate among Christians on the relationship between the Law and the Gospel as part of the discussion of the relationship of the Old and New Testaments. Questions such as these are being asked: Do the Law and the Gospel belong to two separate dispensations? Has the Gospel replaced the Law? What is the relevance of the Old Testament Law to our lives as Christians? Is there continuity between it and what Christ expects of us in the Gospel?" "It is no secret that Christians have differed widely on these questions. This book, using the familiar format of a "Views" book, explores five major approaches to this important biblical topic that have developed in Protestant circles. Each of the five authors presents his particular perspective on the issue and responds to the other four."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Five Views on Biblical Inerrancy

The inerrancy of the Bible--the belief that the Bible is without error--is often a contentious topic among mainstream Christianity. Like other titles in the Counterpoints collection, this volume gives those interested in theology the tools they need to draw informed conclusions on debated issues by showcasing the range of positions in a way that helps readers understand the perspectives--especially where and why they diverge. Each essay in Five Views on Biblical Inerrancy considers: The present context, viability, and relevance for the contemporary evangelical Christian witness. Whether and to what extent Scripture teaches its own inerrancy. The position's assumed or implied understandings of the nature of Scripture, God, and truth. Three difficult biblical texts: one that concerns intra-canonical contradictions, one that raises questions of theological plurality, and one that concerns historical authenticity. Five Views on Biblical Inerrancy serves not only as a single-volume resource for surveying the current debate, but also as a catalyst both for understanding and advancing the conversation further. Contributors include Al Mohler, Kevin Vanhoozer, Michael Bird, Peter Enns, and John Franke.

Baxter's Explore the Book

Explore the Book is not a commentary with verse-by-verse annotations. Neither is it just a series of analyses and outlines. Rather, it is a complete Bible survey course. No one can finish this series of studies and remain unchanged. The reader will receive lifelong benefit and be enriched by these

practical and understandable studies. Exposition, commentary, and practical application of the meaning and message of the Bible will be found throughout this giant volume. Bible students without any background in Bible study will find this book of immense help as will those who have spent much time studying the Scriptures, including pastors and teachers. *Explore the Book* is the result and culmination of a lifetime of dedicated Bible study and exposition on the part of Dr. Baxter. It shows throughout a deep awareness and appreciation of the grand themes of the gospel, as found from the opening book of the Bible through Revelation.

What Does the Bible Really Teach about Homosexuality? (eBook)

In *WHAT DOES THE BIBLE REALLY TEACH ABOUT HOMOSEXUALITY?*, award-winning author Kevin DeYoung challenges each of us – the skeptic and the seeker, the certain and the confused – to take a humble look at God's Word regarding the issue of homosexuality. After examining key biblical passages in both the Old and New Testaments and the Bible's overarching teaching regarding sexuality, this timely book responds to popular objections raised by Christians and non-Christians alike, making this an indispensable resource for thinking through one of the most pressing issues of our day.

Recovering Biblical Manhood and Womanhood (Revised Edition)

A Guide to Navigate Evangelical Feminism In a society where gender roles are a hot-button topic, the church is not immune to the controversy. In fact, the church has wrestled with varying degrees of evangelical feminism for decades. As evangelical feminism has crept into the church, time-trusted resources like *Recovering Biblical Manhood and Womanhood* help remind Christians of what the Bible has to say. In this edition of the award-winning best seller, more than 20 influential men and women such as John Piper, Wayne Grudem, D. A. Carson, and Elisabeth Elliot offer thought-provoking essays responding to the challenge egalitarianism poses to life in the church and in the home. Covering topics like role distinctions in the church, how biblical manhood and womanhood should work out in practice, and women in the history of the church, this helpful resource will help readers learn to orient their beliefs with God's unchanging word in an ever-changing culture.

Beyond Opinion: Living the Faith We Defend

Addresses issues such as the validity of the Bible, the hypocrisy of its followers, and the need to make a new statement on faith, allowing Christians everywhere to simultaneously defend the faith and be transformed by it into people of compassion.

Three Views on the New Testament Use of the Old Testament

Three approaches to questions about the theological connection between the Old and New Testaments. The relationship between the Testaments is not as simple and straightforward as it sometimes appears. When New Testament authors appeal to Old Testament texts to support their arguments, what is the relationship between their meanings and what was originally intended by their Old Testament forebears? Leading biblical scholars Walter Kaiser, Darrel Bock, and Peter Enns present their answers to questions about the use of the Old Testament in the New Testament, addressing elements such as: Divine and human authorial intent. Context of passages. Historical and cultural considerations. The theological grounds for different interpretive methods. Each author applies his framework to specific texts so that readers can see how their methods work out in practice. Each contributor also receives a thorough critique from the other two authors. *Three Views on the New Testament Use of Old Testament* gives readers the tools they need to develop their own views on the meaning, contexts, and goals behind the New Testament citations of the Old. The *Counterpoints* series presents a comparison and critique of scholarly views on topics important to Christians that are both fair-minded and respectful of the biblical text. Each volume is a one-stop reference that allows readers to evaluate the different positions on a specific issue and form their own, educated opinion.

Wonder, Horror, Mystery

Wonder, Horror, Mystery is a dialogue between two friends, both notable arts critics, that takes the form of a series of letters about movies and religion. One of the friends, J.M. Tyree, is a film critic, creative writer, and agnostic, while the other, Morgan Meis, is a philosophy PhD, art critic, and practicing Catholic. The question of cinema is raised here in a spirit of friendly friction that binds the personal with the critical and the spiritual. What is film? What's it for? What does it do? Why do we so intensely love or

hate films that dare to broach the subjects of the divine and the diabolical? These questions stimulate further thoughts about life, meaning, philosophy, absurdity, friendship, tragedy, humor, death, and God. The letters focus on three filmmakers who challenged secular assumptions in the late 20th century and early 21st century through various modes of cinematic re-enchantment: Terrence Malick, Lars von Trier, and Krzysztof Kie[łowski]. The book works backwards in time, giving intensive analysis to Malick's *To The Wonder* (2012), Von Trier's *Antichrist* (2009), and Kie[łowski's *Dekalog* (1988), respectively, in each of the book's three sections. Meis and Tyree discuss the filmmakers and films as well as related ideas about philosophy, theology, and film theory in an accessible but illuminating way. The discussion ranges from the shamelessly intellectual to the embarrassingly personal. Spoiler alert: No conclusions are reached either about God or the movies. Nonetheless, it is a fun ride.

Theonomy in Christian Ethics

CD included with PDF files of the book and other materials. MP3 files of Author's lectures.

How to be a Christian Without Being Religious

Since the days of the early church, Christians have struggled to find a way to be "good"--to please God by their own efforts. They end up carrying a burden God never intended them to bear. And what's more, their brand of Christianity ends up looking like any other religion of the world--bound by joyless rules and rituals. Fritz Ridenour's study of the book of Romans provides an antidote to the pharisaical spirit and shows that Christianity is not a religion but a relationship. It is not people reaching up, but God reaching down. All Christians can enjoy their birthright when they realize who they are in Christ. The result is a life full of hope, joy, power, and potential.

Four Views on Moving Beyond the Bible to Theology

Four Views on Moving Beyond the Bible to Theology evaluates interpretive models of applying biblical texts and provides perspectives on questions of moving from Scripture to theology.

Muslim Perceptions of Other Religions

Since its inception, Islam and its civilization have been in continuous relationships with other religions. The essays collected here examine the many texts that have come down to us about these cultures and their religions, from Muslim theologians and jurists.

Victory Over the Darkness

Ten years ago a breakthrough book launched a ministry that has helped more than one million people overcome this world and win the battle for their hearts and minds. Now Neil Anderson has revised and expanded *Victory Over the Darkness* for a new generation of readers, outlining practical and more productive ways to Christian growth based on Christ's promise, You will know the truth, and the truth will make you free. *Victory Over the Darkness* emphasizes the importance of believing and internalizing the cardinal truths of Scripture as a base from which to renew the mind and fend off the attempts of Satan to convince us that we are less than Christ empowers us to be.

The Battle for the Bible

From the *God and Politics* series by Bill Moyers.

The New Testament Validates Torah

The New Testament Validates Torah is a study that all Messianic Believers need, especially in the current season of considerable growth and expansion in which our broad faith community finds itself. On the whole, today's Messianic movement holds that the Torah or the Law of Moses remains valid instruction for God's people, and that Yeshua the Messiah (Jesus Christ) did not come to abolish or do away with it (Matthew 5:17-19). Yet throughout much of Christian history, many theologians have argued that the Law has been rendered inoperative, and/or that it was only to be followed by those in the pre-resurrection era. Many Messianics are incapable of responding to the common arguments delivered by their Christian family members, friends, acquaintances, or even various pastors and teachers that they know, who quote verses to them from the Apostolic Scriptures (New Testament) which supposedly prove that the Law has been "done away." Has Moses' Teaching been abolished?

This publication is a lengthy study that analyzes and critically examines, in detail, a wide number of New Testament passages that are commonly offered as proof texts to claim that the Torah is not to be followed by those in the post-resurrection era. Statements such as not being “under the Law” (Romans 6:14-15), “Christ is the end of the Law” (Romans 10:4), “All things are lawful” (1 Corinthians 6:12), “abolishing...the Law of commandments contained in ordinances” (Ephesians 2:15), “having nailed it to the cross” (Colossians 2:14), and many more, are considered. Considerable attention is given to the Greek source text of the Apostolic Scriptures, and where translation errors into English appear to have been made by various modern versions. Cross-examination and discussion with a wide number of commentators have also been offered, as well as an exploration of important subjects present within today's Biblical Studies. The New Testament Validates Torah is an important apologetic study that will benefit Messianic Believers and evangelical Christians alike. There is literally nothing in today's Messianic movement that has compiled as much information on Torah relevance for God's people into a single book. Also, unlike some other publications issued on the message of Torah relevance, The New Testament Validates Torah is highly respectful to Christian voices over the centuries who have valued what they have considered to be the "moral law" of the Old Testament, and seeks to honor those who have preceded us in the faith.

Evidence Unseen

Evidence Unseen is the most accessible and careful though through response to most current attacks against the Christian worldview.

Understanding the Difficult Words of Jesus

Understanding the Difficult Words of Jesus “This book will stir the pot of biblical scholarship for years to come. It will force many to rethink the origin of the Gospels and the Jewishness of Jesus. Some may disagree with Bivin and Blizzard at certain points. No one, however, can ignore the soundness of their conclusion: Jesus is a Hebrew...

A Defense Of Calvinism

The most important question For A. W. Tozer, no question is more important than, "What is God like?" The desire to know God consumed his entire life and ministry. That's why those who read him come to know God more intimately. Originally preached as sermons at Southside Alliance Church in Chicago, this first volume of The Attributes of God examines ten attributes of God. It also includes a study guide for an in-depth look at each attribute: Infinite Immense Good Just Merciful Gracious Omnipresent Immanent Holy Perfect Steeped in Scripture and filled with the Spirit, Tozer preached with striking clarity and power. The sense of his sermons comes through on every page, bringing the Word of God to bear upon you. "If a sermon can be compared to light, then A.W. Tozer released a laser beam from the pulpit, a beam that penetrated the heart." — Warren Wiersbe, former pastor of The Moody Church

The Attributes of God Volume 1

The system of theology known as Calvinism has been immensely influential for the past five hundred years, but it is often encountered negatively as a fatalistic belief system that confines human freedom and renders human action and choice irrelevant. Taking us beyond the caricatures, Michael Horton invites us to explore the teachings of Calvinism, also commonly known as Reformed theology, by showing us how it is biblical and God-centered, leading us to live our lives for the glory of God. Horton explores the historical roots of Calvinism, walking readers through the distinctive known as the “Five Points,” and encouraging us to consider its rich resources for faith and practice in the 21st Century. As a companion to Roger Olson’s Against Calvinism, readers will be able to compare contrasting perspectives and form their own opinions on the merits and weaknesses of Calvinism.

For Calvinism

"In The Potter's Promise, Dr. Leighton Flowers reveals, by means of a refreshingly clear and persuasive writing style, the theological and philosophical arguments that compelled him to abandon his previously held Calvinistic convictions. While some Traditionalists have a tendency to avoid certain Bible verses, Dr. Flowers tackles them fearlessly, placing them in their proper context in a manner consistent with the entirety of God's Word. Calvinists have sometimes been known to object to Traditional writers and thinkers by making the claim, 'You just don't understand Calvinism.' Any such charge leveled against Dr.

Flowers rings hollow. Having heard all the arguments Calvinism has to offer, he nevertheless disaffirms it. Every Calvinist needs to read this book to challenge their thinking and consider the other side. Every Traditionalist needs to read this book to become better equipped in defending their own view of salvation doctrine."--Dr. Rick Patrick, Executive Director of Connect 316 and Senior Pastor.

The Potter's Promise

While the canonical scriptures were produced over many centuries and represent a diverse library of texts, they are unified by stories of divine covenants and their implications for God's people. In this book, Scott Hahn shows how covenant, as an overarching theme, makes possible a coherent reading of the diverse traditions found within the canonical scriptures. Biblical covenants, though varied in form and content, all serve the purpose of extending sacred bonds of kinship, Hahn explains. Specifically, divine covenants form and shape a father-son bond between God and the chosen people. Biblical narratives turn on that fact, and biblical theology depends upon it. The author demonstrates how divine sonship represents a covenant relationship with God that has been consistent throughout salvation history. --From publisher's description.

Kinship by Covenant

When He came to earth, Jesus Christ was rejected in every quarter in which He stepped. The Creator was rejected by His own creation. "He came to His own and His own received Him not," said John. For this reason, Jesus Christ had "no where to lay His head." There was one exception, however. A little village just outside of Jerusalem named Bethany. Bethany was the only place on earth where Jesus was completely received. God's Favorite Place on Earth is a retelling of Jesus' many visits to Bethany and a relaying of the message it holds for us today. Frank Viola presents a beautifully crafted narrative from the viewpoint of Lazarus, one of the people who lived in Bethany with his two sisters. This incomparable story not only brings the Gospel narratives to life, but it addresses the struggle against doubt, discouragement, fear, guilt, rejection, and spiritual apathy that challenges countless Christians today. In profoundly moving prose, God's Favorite Place on Earth will captivate your heart with its beauty, charm, and depth. In this book you will discover how to live as a "Bethany" in our world today, being set free to love and follow Jesus like never before.

Chiasmus in Antiquity

This completely new typeset of the monumental 1957 classic contains an extensive historical and theological introduction and detailed notations by George R. Knight, professor of church history at Andrews University.; Originally produced by the Ministerial Association of the General Conference of SDAs, Questions on Doctrine was widely acclaimed and heavily distributed in the late 1950s and early 1960s as a forthright answer to questions from evangelicals about key elements of Adventist doctrine. Controversy regarding the book's position on the nature of Christ and the atonement soon stopped its circulation.; Intended as a complete reference on the book itself, this new edition faithfully reproduces the original text of Questions on Doctrine, with in-text indicators of the original pagings. It includes later important documents that bring the work up to date. The original bibliography is followed by an updated selected bibliography. Commentary on various historical or bibliographic topics is included in new footnotes throughout the text, all while preserving the reading integrity of the original edition.; George Knight's introductory essays provide the background for how the book came about and describe the interaction of the principal players involved in the dispute about a small section of content that shelved this classic work for more than a generation.; This new edition of Question on Doctrine beautifully preserves this outstanding and winsome work of Adventist apologetics to future generations of scholars, laypersons, and critics. It is an essential element of every Adventist library.

God's Favorite Place on Earth

Works in the Museum's collection that embody the Renaissance interest in classical learning, fame, and beautiful objects are illustrated and discussed in this resource and will help educators introduce the richness and diversity of Renaissance art to their students. Primary source texts explore the great cities and powerful personalities of the age. By studying gesture and narrative, students can work as Renaissance artists did when they created paintings and drawings. Learning about perspective, students explore the era's interest in science and mathematics. Through projects based on poetic forms of the time, students write about their responses to art. The activities and lesson plans are designed

for a variety of classroom needs and can be adapted to a specific curriculum as well as used for independent study. The resource also includes a bibliography and glossary.

Long Story Short

The acknowledged masterpiece of one of Spain's most influential thinkers. Between despair and the desire for something better, Unamuno finds that "saving incertitude" that alone can console us.

Seventh-Day Adventists Answer Questions on Doctrine

This wonderful survey of the impact and outworking of God's grace in the life of the believer will revitalize the most threadbare faith.

The Art of Renaissance Europe

In William Golding: Some Critical Considerations, fourteen scholars assess various aspects of the Nobel Prize-winning author's writings. Their essays include criticism of individual works, discussion of major themes and technical considerations, and bibliographical studies. Separately, the essays help us understand the intricacies and impact of Golding's art; together they show the breadth of his purpose.

Tragic Sense of Life

The Discipline of Religion is a lively critical journey through religious studies today, looking at its recent growth as an academic discipline, and its contemporary political and social meanings. Focusing on the differences between religious belief and academic religious discourse, Russell T. McCutcheon argues that the invention of religion as a discipline blurs the distinction between criticism and doctrine in its assertion of the relevance of faith as a credible object of study. In the leap from disciplinary criticism to avowal of actual cosmic and moral meaning, schools of religious studies extend their powers far beyond universities and into the everyday lives of those outside, managing and curtailing specific types of speech and dissent.

God's Lavish Grace

This text provides a comprehensive and definitive introduction to the literature, cultures, and theologies of the early Jewish and Christian traditions. Designed to be read with selected passages from the Bible and the Apocrypha, An Introduction to the Bible offers essential information to students with little or no experience in the academic study of religion. It will help students gain a solid background for future work in biblical studies. The revised edition includes information regarding new directions in biblical studies, a revised bibliography, and a subject index - as well as maps, charts and photographs. "This volume is pedagogically self-aware. Here speak teachers who live close to the teaching environment. The narrative account of a great deal of material is patient, attentive to detail, willing to pause to provide small instructional clues, all the time keeping the big picture in focus. This second edition of the book attests both to the vitality of its authors and to the positive reception the book has already enjoyed. Given the large cultural crisis upon us, such instruction in a context that reaches beyond 'the choir' is welcome and enormously important. Clear, well organized, up to date, and reflective of reliable scholarly consensus. Most important, I suspect, is the likelihood that its student-users will sign up for more scripture study....[The book] will help students generate not only a beginning with the Bible, but a long-term interest." --Walter Brueggemann, Columbia Theological Seminary, Decatur, Georgia. "As most instructors of introductory survey courses in biblical studies will attest, finding a suitable textbook can be quite a challenge. The revised edition of An Introduction to the Bible marks a strong contribution to the field. It is a well-structured, clearly written textbook. The authors incorporate many of the newest discussions regarding the formation and subsequent understandings of both the Hebrew Bible and the New Testament. Students using this book will be exposed to the rich content of ancient Near Eastern studies. They will also find themselves challenged to read these classical texts using some of the most recent hermeneutic arguments in circulation....An Introduction to the Bible provides an excellent entry point for a critical approach to the sacred texts of Judaism and Christianity."---C. Shaun Longstreet, Texas A&M University, excerpted from the Review of Biblical Literature, August 2003.

William Golding

The Journal of Biblical and Theological Studies (JBTS) is an academic journal focused on the fields of Bible and Theology from an inter-denominational point of view. The journal is comprised of an editorial

board of scholars that represent several academic institutions throughout the world. JBTS is concerned with presenting high-level original scholarship in an approachable way. Academic journals are often written by scholars for other scholars. They are technical in nature, assuming a robust knowledge of the field. There are fewer journals that seek to introduce biblical and theological scholarship that is also accessible to students. JBTS seeks to provide high-level scholarship and research to both scholars and students, which results in original scholarship that is readable and accessible. As an inter-denominational journal JBTS is broadly evangelical. We accept contributions in all theological disciplines from any evangelical perspective. In particular, we encourage articles and book reviews within the fields of Old Testament, New Testament, Biblical Theology, Church History, Systematic Theology, Practical Theology, Philosophical Theology, Philosophy, and Ethics.

The Discipline of Religion

The Blessed Virgin Mary is uniquely associated with Catholicism, and the century preceding the Second Vatican Council was arguably the most fertile era for Catholic Marian studies. In 1964, Pope John Paul VI published the Dogmatic Constitution on the Church, or *Lumen Gentium* (LG), the eighth chapter of which presents the most comprehensive magisterial teaching on the Blessed Virgin Mary. As part of its Marian Initiative, the Institute for Church Life at the University of Notre Dame invited scholars to a conference held at Notre Dame in October 2013 to reflect the rich Marian legacy on the eve of the Second Vatican Council. The essays unanimously stress that the Blessed Virgin Mary is not merely a peripheral figure in Christian faith and in the panorama of theology. More than fifty years after *Lumen Gentium*, students of theology as well as Marian devotees take their bearings from this document in order to promote the person of Mary and the study of Mariology, as well as grow in authentic Marian piety. This book will have great appeal to students and scholars of Catholic theology and history, particularly those interested in Mariology. Contributors: Ann W. Astell, Peter Casarella, John C. Cavadini, Lawrence S. Cunningham, Brian Daley, S.J., Peter J. Fritz, Kevin Grove, CSC, Msgr. Michael Heintz, Matthew Levering, Danielle M. Peters, James H. Phalan, CSC, Johann G. Roten, S.M., Christopher Ruddy, Troy Stefano, and Thomas A. Thompson, S.M.

An Introduction to the Bible

Some may consider postmodernities a Western dilemma. The contributions from some writers in the Global South (China, India, Korea) unfold a larger canvas and explore the implications for Christian mission. This focus on mission is central: This is not just a book about the many facets and trends of postmodernities. It is a book about the implications for mission, for what it means to live as Christians and as churches in a terra incognita, in a world where we have not been before.

Journal of Biblical and Theological Studies

This educational resource packet covers more than 1200 years of medieval art from western Europe and Byzantium, as represented by objects in the collection of The Metropolitan Museum of Art. Among the contents of this resource are: an overview of medieval art and the period; a collection of aspects of medieval life, including knighthood, monasticism, pilgrimage, and pleasures and pastimes; information on materials and techniques medieval artists used; maps; a timeline; a bibliography; and a selection of useful resources, including a list of significant collections of medieval art in the U.S. and Canada and a guide to relevant Web sites. Tote box includes a binder book containing background information, lesson plans, timeline, glossary, bibliography, suggested additional resources, and 35 slides, as well as two posters and a 2 CD-ROMs.

Mary on the Eve of the Second Vatican Council

Mathematics from a Christian perspective With respect for the history and ever-changing applications of mathematical principles, James Bradley and Russell Howell, along with a team of fellow scholars, invite readers to consider the rich intersection of mathematics and Christian belief. Citizens of the twenty-first century generally believe that mathematics is all about numbers and formulas, with no religious significance— an attitude that belies the faith-based work of thinkers from Plato to Newton. It is time to reawaken our sensitivity to the vital spiritual matters raised by the study of mathematics, a discipline that demands profound thought and helps us understand the beauty and the order of our physical world. *Mathematics Through the Eyes of Faith* explores questions such as: What is the relationship between chance and divine providence? Do concepts like infinity point beyond themselves to a higher reality? Is mathematics discovered or invented, and why is it effective in the sciences?

This comprehensive work, one in a series of cosponsored by the Council for Christian Colleges & Universities, is designed to help students and teachers understand how mathematics has evolved and how the interplay of mathematics and Christian belief can enrich the study of both.

Mission and Postmodernities

Worldwide Laws of Life is full of wisdom drawn from the major sacred Scriptures of the world and various schools of philosophical thought, as well as from scientists, artists, historians, and others. Its aim is to assist people of all ages to learn more about the universal truths of life that transcend modern times or particular cultures. This treasury of practical morality, personal inspiration, and daily guidance is perfect for people of all persuasions. The organization facilitates group or personal study and spiritual development.
