

God Does Not Play Dice Could A Higher Ontological Being Be Explained At Hand Of Scientific Phenomena

[#God and science](#) [#ontological being](#) [#scientific explanation of divinity](#) [#cosmology and faith](#) [#higher power through science](#)

Explore the profound question of whether a higher ontological being, often conceptualized as 'God who does not play dice,' can be understood or even explained through scientific phenomena. This discussion delves into the intricate relationship between divine order and empirical evidence, examining how cosmology and physics might offer new perspectives on the nature of divinity and our understanding of a higher power.

We focus on sharing informative and engaging content that promotes knowledge and discovery.

This shows white light passing through a prism.

Light is an example of an electromagnetic wave.

Electromagnetic waves are transverse waves.

A good example is a microwave oven.

If we pass white light through a prism, then it splits into a spectrum.
 Each colour of light has a different wavelength and frequency. You need to know the order.
 On the red end of the spectrum, the waves have a lower frequency and a longer wavelength.
 On the violet end of the spectrum the waves have a higher frequency and a shorter wavelength.
 Visible light is only a small part of the electromagnetic spectrum.
 Visible light is the only part of the electromagnetic spectrum that can be detected by the human eye.
 The electromagnetic spectrum is a continuous spectrum.
 The cut-off point between one type of wave and another is not always clear.
 Electromagnetic waves do not need a medium to travel in.
 Electromagnetic waves can travel through a vacuum (eg in space).
 All electromagnetic waves travel at the same speed in a vacuum.
 Different materials absorb, transmit or reflect electromagnetic waves.
 What happens to the waves depends on the wavelength.
 Microwaves are absorbed by foods which contain water molecules.
 Microwaves are reflected from metals.
 Light waves are absorbed by black surfaces and reflected from shiny, metallic surfaces.

Electromagnetic Waves: Wavelengths and Frequencies - A Level Physics - Electromagnetic Waves: Wavelengths and Frequencies - A Level Physics by Physics Online 88,475 views 9 years ago 5 minutes, 23 seconds - In this video I explain some more properties of **electromagnetic waves**, (electromagnetic radiation): wavelengths and frequencies, ...

Introduction

What is SAP PM

Menu Path

Functional Location Structures

Define Your Own View

Level of Functional Locations

What is the Menu Path

What functions are determined by the category

What are the activities of PM

Explain the meaning of Equipment Master

What fields need to be filled in

How to configure the system to allow notification type change

Why change data do not display in order

How overheads are calculated

Do we need to run the IP transaction code

Can a service order be generated automatically

Where to get the user status with notification number

How to distinguish between equipment being charged and not charged for a service

How do you define the equipment

How can we block service to a customer

Where is a service contract assigned

Purchasing information

Maintenance history

PM FICO integration

PM QA integration

PM and PP integration

electric fields study guide

Electric Fields: Crash Course Physics #26 - Electric Fields: Crash Course Physics #26 by Crash-
 Course 1,491,519 views 7 years ago 9 minutes, 57 seconds - As we learn more about electricity, we
 have to talk about fields. **Electric fields**, may seem complicated, but they're really fascinating ...
 THE FIELD LINES MUST BE TANGENT TO THE DIRECTION OF THE FIELD AT ANY POINT.
 THE GREATER THE LINE DENSITY, THE GREATER THE MAGNITUDE OF THE FIELD.
 THE LINES ALWAYS START FROM POSITIVELY CHARGED OBJECTS AND END ON NEGATIVE-

LY CHARGED OBJECTS.

GCSE Physics Revision "Electric Fields" (Triple) - GCSE Physics Revision "Electric Fields" (Triple) by Freesciencelessons 212,400 views 6 years ago 3 minutes, 53 seconds - In this video, we continue looking at static **electricity**,. We explore the forces between charges and then we look at how these are ...

charge on the sphere

using the idea of an electric field

show an electric field using field lines

show the direction of force

decrease the distance between the object

A Level Physics Revision: All of Electric Fields (in under 30 minutes) - A Level Physics Revision:

Formula the Electric Field

Coulomb's Law - Net Electric Force & Point Charges - Coulomb's Law - Net Electric Force & Point Charges by The Organic Chemistry Tutor 1,726,772 views 3 years ago 35 minutes - This physics video tutorial explains the concept behind coulomb's law and how to use it to calculate the **electric**, force between two ...

place a positive charge next to a negative charge

put these two charges next to each other

force also known as an electric force

put a positive charge next to another positive charge

increase the magnitude of one of the charges

double the magnitude of one of the charges

increase the distance between the two charges

increase the magnitude of the charges

calculate the magnitude of the electric force

calculate the force acting on the two charges

replace micro coulombs with ten to the negative six coulombs q

plug in positive 20 times 10 to the minus 6 coulombs

repel each other with a force of 15 newtons

plug in these values into a calculator

replace q1 with q and q2

cancel the unit coulombs

determine the net electric charge

determine the net electric force acting on the middle charge

find the sum of those vectors

calculate the net force acting on charge two

force is in a positive x direction

calculate the values of each of these two forces

calculate the net force

directed in the positive x direction

(3 Hrs) Reading 1950's Science Comics (Rockets, Atoms, Electricity, Lightbulbs, History) - (3 Hrs)

Reading 1950's Science Comics (Rockets, Atoms, Electricity, Lightbulbs, History) by Let's Find Out 9,888 views 2 days ago 3 hours, 4 minutes - Tonight we're reading four issues of GE's 1940's and 50's "Adventures in Science" comic series. First, we travel almost 300 years ...
