## The Rise of the Red Shadow

Every story must begin somewhere. For the warrior who would come to be known as the fearsome Red Shadow, the story began in a forgotten glade deep in the land of Tressor. It was there that a pair of trackers, eager to retrieve a lost slave, instead found an orphaned malthrope. Had it been a human, it might have been treated with compassion, but in the eyes of human society a malthrope was a monster,

a mix of fox and man believed to be a murderer and thief by its very nature. The beast was to be sold for a handful of silver, but fate intervened in the form of an old blind slave named Ben. Under the learned hand of the one human who believed in his potential, the young malthrope would instead be given the wisdom to take his first steps on the long journey to his destiny. The Rise of the Red Shadow chronicles the early life of one of the most mysterious figures of the The Book of Deacon trilogy, the creature called Lain. It tells of his years working and learning on a Tresson plantation until a dark day of vengeance and bloodshed finally set him free. From there you will follow as he finds his place in the world, learning what it is to be a malthrope, and turning to the purpose that will guide him for the rest of his days. It is a story of love, hate, and lessons hard-learned, revealing the painful choices one must make to become the hero the world needs.

### Red Shadows

Red Shadows is a dark adventure story by Robert E. Howard. Howard was an American writer known for his pulp fiction stories. Our protagonist, Solomon Kane, is a somber-looking man who wanders the world with no apparent goal other than to vanquish evil in all its forms.

### The Witchhunter - Red Shadow

Book 3 in The Hidden Harvest. In this concluding novel, three generations of family struggle between the promise of their faith and the sweeping events leading up to Solidarity and the defeat of communism.

The Book of Deacon Saga is the epic tale of a world besieged by war and at the mercy of dark forces who would see the land and its people wither and die. First Published in 2010, the story has grown significantly, expanding the story into earlier and later eras, exploring the lives of characters both minor and major. The Book of Deacon Anthology is a collection of all currently published stories in the setting: The Book of Deacon - The tale of Myranda Celeste, a young woman orphaned by a century long war, and her chance discovery of a fallen soldier's priceless cargo. The find will change her life, sending her on an adventure of soldiers and rebels, wizards and warriors, and beasts both noble and monstrous. Each step will bring her closer to the truth of her potential, of the war, and of the fate of her world. The Great Convergence - The second in the Book of Deacon series, The Great Convergence continues the tale of young Myranda Celeste. With fresh knowledge of magic and steadfast resolve to see the end of the war that plagues her land, Myranda sets out to find and unite the five fated heroes, the Chosen. Each new warrior brings her world a step closer to peace, but does she have the strength to survive the trials ahead? The Battle of Verril - In this, the finale of the Book of Deacon Trilogy, Myranda and the Chosen face their greatest challenges yet. Time is running out, and the Generals are growing desperate. Through victory and defeat, reunion and betrayal, neither the heroes nor their foes will rest until they have seen their task through to the end. The only question is, will it be the end of a war, or the end of times? Jade - This short novel, set after the events of The Book of Deacon, follows the blessed and cursed life of Jade Rinton. Stripped of her family and kept in a tall tower by a fierce dragon due to the scheming of a mysterious stranger, Jade seems to be living in a twisted fairy tale. She soon learns, though, that fate has its own ideas of who should play each part, and that family is where you find it. The

Rise of the Red Shadow - Before he was a legendary assassin and mythic hero, the creature known as Lain was just a simple malthrope, frightened and alone. The Rise of the Red Shadow tells the story of his tragic youth, beginning with his days on a plantation in Tressor and following him through the painful tragedies and thrilling trials that would one day lead him to greatness in the pages of The Book of Deacon. Entweller Origins: Ayna - AVAILABLE FOR THE FIRST TIME. The story of Ayna, a young fairy who is cruelly taken from her family, yet finds that this tragedy may have given her the opportunity to become more than she'd ever dreamed. The Stump and the Spire - Previously only available as part of the Neverland's Library anthology, The Stump and the Spire is the story of two children who gain a dark glimpse into the long forgotten past of their world. --- For fans of the series looking to fill in the gaps, or for new readers hoping to gather the whole series, The Book of Deacon Anthology is a great way to catch up on the whole saga. Each book is updated with improved formatting, as well as a brief foreword by Joseph R. Lallo, and even a message from the mysterious curator who collected the stories. Read it now and be ready for The D'Karon Apprentice, a new Book of Deacon story releasing November 12th, 2015.

### Out of the Red Shadow

The moonlight shimmered hazily, making silvery mists of illusion among the shadowy trees. A faint breeze whispered down the valley, bearing a shadow that was not of the moon-mist. A faint scent of smoke was apparent. FROM THE BOOKS.

### The Book of Deacon Anthology

First published in Weird Tales, August 1928, alternatively titled "Solomon Kane". This was the first Solomon Kane story ever published. In France, Kane finds a girl attacked by a gang of brigands led by a villain known as Le Loup. As she dies in his arms, Kane determines to avenge her death, and the trail leads from France to Africa, ending with Kane's first meeting with N'Longa.

### RED SHADOWS

It struck out of the night, a monster whose blood-red shadow brought death to everyone it touched. What was this weird Thing? Beneath its reign of terror, police were powerless. But grimly, out of the list of victims, rose six men—six men who vowed to track the scarlet killer down a suicide road to a murder showdown!

### Red Shadows (Illustrated)

The Book of Deacon is the first book of The Book of Deacon series by Joseph R. Lallo. Myranda Celeste's world has been built on a legacy of bloodshed. For more than a century, her homeland the Northern Alliance has fought the Kingdom of Tressor in what has come to be known as the Perpetual War. While her people look upon the conflict with reverence, Myranda's hate for the war has made her an outcast. When she finds a precious sword among the equipment of a fallen warrior, she believes her luck may have changed. Little does she imagine that the treasure will draw her into an adventure of wizards and warriors, soldiers and rebels, and beasts both noble and monstrous. The journey will teach her much about her potential, about the origins of the war, and about the threat her world truly faces. Will Myranda unlock the secret of bringing peace once and for all, or will the world be lost to the Perpetual War?

### The Secret 6 #1

Eric Baine is pretty lively for a dead guy. With determination and deadpan wit, he faces down a variety of villains—including vampires, werewolves and ninjas—in Blood and Shadows, Michael E. E. Main's debut novel. The action is fast-paced, the characters individual, interesting and fun. I look forward to many sequels! —Marion Moore Hill, author of Bookmarked for Murder "That's the beauty of my position, Doctor Grimes. I can make a theory go a long way. See, I'm not a cop. The whole 'theory and fact and evidence leading to proof' thing is just one big grey area for me. If I can get a theory to hold together pretty well, then that's really all I need." I cracked my knuckles. "And, if the guy behind all this is a vampire—well, then he's not really alive, is he? So I don't have to worry about the 'legality' of putting a stake through his heart, and then running him through a tree shredder." Grimes stuck his nose in the air again. "How droll." Hard-boiled detective, Eric Baine, and his vampire/assassin sidekick, Azrael, battle ninjas, a vampire High Lord, and shadow demons in this dark, fast-paced fantasy. When Baine's

sarcastic client disappears and he meets a mysterious Chinese woman with psychic powers, the story really heats up.

### The Book of Deacon

It has taken some adjustment, but Nita Graus has made quite a home for herself among the crew of the Wind Breaker. Under her skillful care it has become one of the only airships to stay aloft without the continuous repair and oversight of the vile and manipulative fug folk. Word of her adventures with Captain Mack, Gunner, Lil, Cooper, and Wink has made the whole crew into living legends among the residents of the mountain towns of Rim, but in doing so it has also made finding safe harbor virtually impossible. Agents of the fug folk and those working on their behalf hide in every cloud and skulk in every shadow. Only one town, a place called Lock, is willing to welcome the Wind Breaker into port. Most of the townspeople have already been shunned by the Fug Folk, and as such have little to lose in aiding and abetting the crew. Captain Mack, mindful of his advancing age and the risks he's had to request of his crew time and time again, has begun to plan for his retirement. Plans are swiftly derailed when the fug folk hatch a plan of their own, splitting the crew and locking Nita away in the floating prison known as Skykeep. Skykeep is the second book in the Free-Wrench saga and continues to chronicle the adventures of Nita and her new crew as they continue to clash with the twisted figures who control the destiny of a continent.

### Blood & Shadows

Superpowers have turned out to be a disappointment. Heat vision? Super strength? Flight? They are nowhere to be found. Instead, powers like photosynthesis or the ability to spontaneously change hair color seem to be the best the world can offer. To make matters worse, the gifted individuals tend to suffer from psychological issues. Nonetheless, in hopes of finding enough functional meta-humans to form a squad, in 1965 the US military created The Guardian Project. The head of the Army's current incarnation of the project hires Dr. Adam Aiken, a psychologist specializing in the meta-human condition, to filter out the most dangerously unbalanced of the prospective super-soldiers. The screening process is to be done with all possible secrecy. This proves to be more easily said than done. A misfiring superpower leaks news of the recruitment effort to the public, attracting a flood of misfit meta-humans from around the nation, each hungry for heroic validation. A sleazy PR officer knows publicity when he sees it and converts the secret program into a nationally broadcast competition with all of the dignity and grace of a reality show. The ultimate prize is a coveted spot on a government sanctioned super team. The Other Eight follows the exploits of the applicants deemed sane enough for consideration. On one side are earnest but underpowered heroes like the twitch-inducing Nonsensica or the fluorescent tube-hurling Phosphor. On the other are the better equipped but less dedicated recruits like walking good luck charm Johnny on The Spot and seed-spitting loose cannon The Hocker. Who will win a place on the team, and what will be done about the jilted heroes who didn't make the cut?

### Skykeep

The second in the Book of Deacon series, The Great Convergence continues the tale of young Myranda Celeste. With fresh knowledge of magic and steadfast resolve to see the end of the war that plagues her land, Myranda sets out to find and unite the five fated heroes, the Chosen. Each new warrior brings her world a step closer to peace, but does she have the strength to survive the trials ahead?

### The Other Eight

In a distant future, Trevor "Lex" Alexander was shaping up to be the next great race pilot until a fixed race got him banned from the sport. Reduced to making freelance deliveries, he thinks his life can't get any worse. That's when a package manages to get him mixed up with mobsters, a megacorp, and a mad scientist. Now his life depends on learning what their plans are, and how he can stop them.

### The Great Convergence

Red Shadows is a collection of Fantasy short stories and poems by Robert E. Howard. It was first published in 1968 by Donald M. Grant, Publisher, Inc. in an edition of 896 copies. The stories and poems feature Howard's character, Solomon Kane. Many of the stories first appeared in the magazine Weird Tales.

The Broadway musical has greatly influenced American (and world) culture. Such shows as *Oklahoma!* and *Annie Get Your Gun* are as 'American as apple pie,' while the long runs of imports like *Cats*, *The Phantom of the Opera*, and *Les Misérables* have broken records. Broadway has produced such cultural icons as Ethel Merman, Yul Brynner, and Julie Andrews, and composers and lyricists such as Irving Berlin, George Gershwin, Cole Porter, Richard Rodgers, Oscar Hammerstein, Leonard Bernstein, Stephen Sondheim, Andrew Lloyd Webber, and many others have had their melodies sung on its stages. Visionaries like George Abbott, Agnes de Mille, Jerome Robbins, Bob Fosse, Tommy Tune, and Susan Stroman have brought productions to life through their innovative direction and choreography. Since the latter part of the 19th century, the Broadway musical has remained one of the most popular genres in entertainment and its history is related in detail in *The A to Z of the Broadway Musical*. Through a chronology, an introductory essay, a bibliography, and 900 dictionary entries on Broadway shows, playwrights, directors, producers, designers, and actors, this handy desk reference offers quick information on the many aspects of the Broadway musical.

## Red Shadows

She knows what you're thinking... In a bleak future overrun with crime, psychic powers are a dangerous reality. Cassandra Anderson and the members of PSI Division utilise their extraordinary abilities to protect the city from dangerous psychic criminals. Following a string of grisly murders, Anderson fears that the killer is actually a psychic himself, hunting down those that he sees as "Red". Driven by a near uncontrollable rage, the killer will not stop until all of his prey are dead. When Anderson realises that the "Reds" are in fact psychics, her murder investigation becomes a battle for survival, because the killer is ready to strike again, and he's got Anderson in his sights.

## The A to Z of the Broadway Musical

From their haunts in the shadowy corner of a bar, front and center at a convenience store, or reigning over a massive mall installation bursting with light, sound, and action, arcade games have been thrilling and addicting quarter-bearers of all ages ever since Pong first lit up its paddles. Whether you wanted a few minutes' quick-twitch exhilaration or the taste of three-initial immortality that came with topping the high score screen, you could get it from the diverse range of space shooters, dot-eating extravaganzas, quirky beat-'em-ups, and more that have helped define pop culture for more than four decades. In *Attract Mode: The Rise and Fall of Coin-Op Arcade Games*, author Jamie Lendino celebrates both the biggest blockbusters (*Pac-Man*, *Star Wars: The Arcade Game*) and the forgotten gems (*Phoenix*, *Star Castle*) of the Golden Age of coin-op gaming, and pulls back the curtain on the personalities and the groundbreaking technologies that brought them to glitzy, color-drenched life in the U.S., Japan, and all over the world. You'll start your journey exploring the electromechanical attractions and pinball games of the early 20th century. Next, you'll meet the earliest innovators, who used college computers and untested electronics to outline the possibilities of the emerging form, and discover the surprising history behind the towering megahits from Nintendo, Sega, and others that still inform gaming today. Then you'll witness the devastating crash that almost ended it all—and the rebirth no one expected. Whether you prefer the white-knuckle gameplay of *Robotron: 2084*, the barrel-jumping whimsy of *Donkey Kong*, or the stunning graphics and animation of *Dragon's Lair*, *Attract Mode* will transport you back to the heyday of arcade games and let you relive—or experience for the first time—the unique magic that transformed entertainment forever.

## Red Shadows

When the Jedi Order falls, an Inquisitor Rises. Padawan Iskat Akaris has dedicated her life to traveling the galaxy alongside her master, learning the ways of the Force to become a good Jedi. Despite Iskat's dedication, peace and control have remained elusive, and with each setback, she feels her fellow Jedi grow more distrustful of her. Already uncertain about her future in the Jedi Order, Iskat faces tragedy when her master is killed and the Clone Wars engulf the galaxy in chaos. Now a general on the front lines contributing to that chaos, she is often reminded: Trust in your training. Trust in the wisdom of the Council. Trust in the Force. Yet as the shadows of doubt take hold, Iskat begins to ask questions that no Jedi is supposed to ask: Questions about her own unknown past. Questions the Jedi Masters would consider dangerous. As the years pass and the war endures, Iskat's faith in the Jedi wanes. If they would grant her more freedom, she is certain she could do more to protect the galaxy. If they would trust her with more knowledge, she could finally cast aside the shadows that have begun to consume

her. When the Jedi Order finally falls, Iskat seizes the chance to forge a path of her own. She embraces the salvation of Order 66. As an Inquisitor, Iskat finds the freedom she has always craved: to question, to want. And with each strike of her red blade, Iskat moves closer to claiming her new destiny in the Force-whatever the cost.

divdivHungarian-born composer Sigmund Romberg (1887–1951) arrived in America in 1909 and within eight years had achieved his first hit musical on Broadway. This early success was soon followed by others, and in the 1920s his popularity in musical theater was unsurpassed. In this book, William Everett offers the first detailed study of the gifted operetta composer, examining Romberg's key works and musical accomplishments and demonstrating his lasting importance in the history of American musicals. Romberg composed nearly sixty works for musical theater as well as music for revues, for musical comedies, and, later in life, for Hollywood films. Everett shows how Romberg was a defining figure of American operetta in the 1910s and 1920s (*Maytime*, *Blossom Time*, *The Student Prince*), traces the new model for operetta that he developed with Oscar Hammerstein II in the late 1920s (*The Desert Song*, *The New Moon*), and looks at his reworked style of the 1940s (*Up in Central Park*). This book offers an illuminating look at Romberg's Broadway career and legacy./DIV/DIV

### Attract Mode: The Rise and Fall of Coin-Op Arcade Games

December 1991. South Africa dismantles six thermonuclear devices. July 1994. Weeks after the Government of Reconciliation takes power the newly appointed Director of National Intelligence learns that a nuclear weapon has surfaced in the hands of an international arms dealer. Open for business the country cannot afford anything that would rock the boat. The bomb must be found and nobody must ever know it existed. But who to trust? In charge of the very organisation that put him behind bars, he needs outside help. Enter Harry Dance, ex-special forces and sometime fellow prisoner on The Island. And for insurance he teams him up with his own man and Harry can't stand terrorists, not even newly respectable ones. Soon Harry discovers they are dealing with far more than an old fashioned atom bomb. No problem. But he has never been up against a stone killer who makes death an emotional experience with a silver handled stiletto... The story behind Red Mercury and the race for the ultimate weapon of terror.

### Incidental remarks on some properties of light, part v. of an essay on vision

Luke Skywalker and Lando Calrissian return in this essential novel set between *Return of the Jedi* and *The Force Awakens*. The Empire is dead. Nearly two decades after the Battle of Endor, the tattered remnants of Palpatine's forces have fled to the farthest reaches of the galaxy. But for the heroes of the New Republic, danger and loss are ever-present companions, even in this newly forged era of peace. Jedi Master Luke Skywalker is haunted by visions of the dark side, foretelling an ominous secret growing somewhere in the depths of space, on a dead world called Exegol. The disturbance in the Force is undeniable . . . and Luke's worst fears are confirmed when his old friend Lando Calrissian comes to him with reports of a new Sith menace. After Lando's daughter was stolen from his arms, he searched the stars for any trace of his lost child. But every new rumor leads only to dead ends and fading hopes-until he crosses paths with Ochi of Bestoon, a Sith assassin tasked with kidnapping a young girl. Ochi's true motives remain shrouded to Luke and Lando. For on a junkyard moon, a mysterious envoy of the Sith Eternal has bequeathed a sacred blade to the assassin, promising that it will answer the questions that have haunted him since the Empire fell. In exchange, he must complete a final mission: Return to Exegol with the key to the Sith's glorious rebirth-Rey, the granddaughter of Darth Sidious himself. As Ochi hunts Rey and her parents to the edge of the galaxy, Luke and Lando race into the mystery of the Sith's lingering shadow and aid a young family running for their lives.

### Star Wars Inquisitor: Rise of the Red Blade

This short novel, set after the events of *The Book of Deacon*, follows the blessed and cursed life of Jade Rinton. Stripped of her family and kept in a tall tower by a fierce dragon due to the scheming of a mysterious stranger, Jade seems to be living in a twisted fairy tale. She soon learns, though, that fate has its own ideas of who should play each part, and that family is where you find it.

### Sigmund Romberg

The eternal existence of the Universe rests on three orbs. One was stolen. And the other two are in peril. The Orbs of Power were created when the world was young to sustain life in all creation; each contains the forces within the Maker's innate self: Omnipresence, Omniscience, and Omnipotence. When the Orb of Omnipresence fractures and explodes as the Archangel fights the Demon who attempts to steal it, the fragments fall and scatter between Earth and the realm of Dyrge'Or - two worlds existing on the Blue planet without knowledge of the other - causing both dimensions to merge and fight for space, and the shards to latch on to the mortals below. Kyle Drummond never expects an ordinary, uneventful day in his native Toronto to end with an unlikely catastrophe. When he regains consciousness after a terrifying lightning bolt strikes him, he finds himself in a strange habitat with an archangel and a maiden from an unknown land. Kyle realizes that everything he knew about himself is just the tip of what he is destined to be. Freija, an erudite from Dyrge'Or, has remained a maiden all her life until she finds love with shy, unassuming Kyle. Yet if they succeed on a quest to hunt for the scattered orb fragments and manage to put the balance back on Earth and Dyrge'Or, she is doomed to never see Kyle again. Omnipresence: The Rise of the Gatekeeper is the first book of The Orbs of Power. It is the story of how a guileless mortal transcends to become The Gatekeeper, and the journey that defines his destiny. ### The Cherry Red Shadow

This book constitutes the refereed proceedings of the 9th International Symposium on Algorithms and Computation, ISAAC'98, held in Taejeon, Korea, in December 1998. The 47 revised full papers presented were carefully reviewed and selected from a total of 102 submissions. The book is divided in topical sections on computational geometry, complexity, graph drawing, online algorithms and scheduling, CAD/CAM and graphics, graph algorithms, randomized algorithms, combinatorial problems, computational biology, approximation algorithms, and parallel and distributed algorithms.

### Red Shadow

Are we alone in the Universe? We live in Multiverses, and in a mirrored world. We are oblivious to the Shadow World that exists within and among us. The Red Society is a secret institution that controls the Shadow Economy and Shadow Politics of the world since life began on Earth. The Society breached the contract with the rise of the Demi God, Lord dDamon, around three million years ago. He led the Red Society and revolted against the One Designer, Messiah and Messenger, The Lord Shiva. Shiva lives in the sixth dimension. The opening of the Third Eye technology created mass destruction. Lord dDamon was defeated and turned into a shadow that travels in space, existing only in the fourth and the fifth dimensions. The 21st Century saw the rise of the Messenger who would fight the Red Society. Aadi is the prophesized Shadow Prince who leads the Khoji Clan against the Red Society and stops them from making the Great Escape into the Punarcimiento, a virtual man made planet. Will Aadi get stuck in the new world where lying is the new truth? Can he outlast the illusion of Time and Religion? Can he save Mother Earth?

### Star Wars: Shadow of the Sith

Rogue Derelict is pulse-pounding side-story set in the universe of Lindsay Buroker's Fallen Empire Series. In the chaos following the fall of the empire, Benita Castor wants nothing more than to live a nice quiet life. She thought she made all the right decisions. What could be safer than becoming an accountant? Where could she be more secure than the industrial fringe of the empire's most civilized planet? Yet somehow, she finds herself in the employ of a crime boss and is shipped off to audit a recent acquisition in a forgotten corner of the system. Her new assignment is an old Kirian space station being developed by Nori Veshcha, an enterprising woman with big plans for the relic. Nori is overflowing with ambition, innovative ideas, and confidence—though her crew leaves something to be desired. Her chief technician, Blick Mathson, is a man more familiar with collecting debts than repairing ships. The only other crew member, her personal valet Lefty Hammermill, is a dim-witted but well-meaning grunt with secondhand cybernetics. Not much of a workforce to tackle the task of converting a centuries-old hunk of junk into a cutting-edge resort, but Nori is nothing if not determined. At first, the assignment has the makings of an unpleasant but uneventful enterprise, even if Nori is somewhat overly cool, Blick is a bit overly warm, and Lefty is just overly Lefty. When a second relic of a bygone era makes an unscheduled arrival and its crew assumes Benita is their Kirian commander, she and the others realize the echoes of the past could have grave consequences for their future. Can a mismatched skeleton crew on a

malfunctioning space station rise to the challenge, or will a remnant of history remind the system that some threats aren't gone, they're simply forgotten?

### Jade

Artificial Evolution is the third book in the Big Sigma series, building upon the story and characters introduced by Bypass Gemini and Unstable Prototypes. Lex, Michella and Squee are once again joined by the mercenaries Silo and Garotte. Along the way they'll need plenty of help from mad engineer Karter Dee and his AI Ma. After butting heads with the megacorporation known as VectorCorp it was only a matter of time before Lex Alexander and his girlfriend Michella Modane would face the consequences. It is remarkable what a single corporate agent with the resources of a multi-global conglomerate can do to a person's career. In the space of a few days Lex is looking for work and Michella is feeling pressure from the network to ease off the hard-hitting stories. Not one to be silenced, Michella quickly hatches a plan to continue her investigations under the guise of a fluff story about a so-called extraterrestrial, and who better to be her personal driver than Lex? Meanwhile, mercenaries Silo and Garotte are still nipping at the heels of the terrorist group known as the Neo-Luddites. Rumors of an attempt to secure a devastating weapon bring the pair to a forgotten little planet in an undeveloped corner of the galaxy. Circumstances require that local authorities lay claim to the terrorists' apparent target, but what sort of threat could one gangly collection of anatomical curiosities pose to the galaxy? The answer to that question will put our heroes to the test and leave a whole world hanging in the balance.

### Omnipresence

Entwell Origins: Ayna is a spin-off novella in the popular Book of Deacon setting. Ayna Reedwind is of the most powerful wizards in her world, but such was not always the case. She began life as a simple fairy. In her earliest days she was tiny, frightened, and unsure. This is the story of how, through trial and tragedy, she found her way to the one place in the world where she could unlock her true potential, the hidden village of Entwell.

### Algorithms and Computation

In this, the finale of the Book of Deacon Trilogy, Myranda and the Chosen face their greatest challenges yet. Time is running out, and the Generals are growing desperate. Through victory and defeat, reunion and betrayal, neither the heroes nor their foes will rest until they have seen their task through to the end. The only question is, will it be the end of a war, or the end of times?

### Red Shadows (book Two of the Legend of Fenn Aquila)

The Adventures of Rustle and Eddy is a standalone, deep-sea adventure in the Book of Deacon setting. A little curiosity can be a dangerous thing. Rustle should have been content in his little pond, hidden away from the world where hopefully nothing exciting would ever happen. But the sea was so near, with all of its mysteries and secrets. He couldn't help but sneak away from time to time and gaze upon the surface, wondering what lay beneath. Little did he know that on this fateful day, there was something equally curious staring back. Eddy was a merman. Just as mermaids were blessed with the ability to travel to the surface, he was blessed with the ability to travel to the depths. Together, all of the sea was theirs to explore, but it seemed only the maids ever found something exciting. A few words of magic, and an awful lot of optimism, brought him to the surface in search of adventure. To his delight, he found Rustle. Together, to the fairy's woe and the merman's delight, they soon find themselves on the adventure of their lives. But now that fate has turned its eyes to them, can they survive what it has in store?

### The Rise of Lord dDamon

In a place untouched by the Perpetual War, a new conflict threatens to ignite. Generations of war have been put to rest. The D'Karon scourge has been wiped away. All that remains for Myranda, Deacon, and the other Chosen is the long, slow road to recovery for their weakened kingdom. It is no small task, as dark magic has taken a terrible toll on the land. Crops struggle to grow. The scars of war are slow to fade. But from across the sea comes hope. The haughty King Mellawin presides over the kingdom of Sonril. His people, the elves of South Crescent, have grown concerned with their place in history. Fate left the prophecy in the hands of the mortals of Tressor and the Northern Alliance. And now the legendary unseen tormentors from North Crescent, the Aluall, have spilled the blood of their people.

Mindful that his subjects have come to doubt him, King Mellawin comes to the Northern Alliance with an offer. In exchange for the service of the Chosen, he shall provide a treatment to heal the land. Myranda, Deacon, Ivy, Myn and the others shall be the first of their people to set foot on the Crescents since before the Perpetual War... Or so they believe. But what they find there will reveal long-hidden secrets of their history, and threats they could never have imagined. The Crescents is the fifth epic entry in The Book of Deacon Saga, from Joseph R. Lallo, author of the Big Sigma series and Free-Wrench.

### Rogue Derelict

The D'Karon Apprentice is the long awaited sequel to the acclaimed epic fantasy, The Book of Deacon Trilogy. It is a direct follow up to The Battle of Verril. It has been months since the Chosen finally defeated the D'Karon and the Perpetual War came to an end. Once warriors, Myranda, Deacon, Ivy, and Ether must now take on the role of diplomats in the ongoing task of preserving the unsteady peace between the lands of Tressor and the Northern Alliance. Generations of war have left a deep distrust between the people on both sides of the border, and any sign of treachery or hostility could cause a new war to flare. If that happens, the weakened Northern Alliance will have little hope to survive against the military might of their neighbor to the south. A mysterious figure, long slumbering and forgotten, has stirred in the wake of the Chosen triumph. She is not pleased to find the D'Karon no longer answer her calls, and she sets out to find them once more. This woman, a powerful necromancer with deep knowledge of D'Karon magic and little concern for the world and its people, spreads chaos wherever she goes. Her bloody swath through the southern lands is just the spark the volatile world needs to take to flame once more. To keep their lands from descending back into a war that will claim the lives of untold thousands, Myranda, Deacon, and Myn must venture into the heart of Tressor. Escorted by a Dragon Rider named Grustim and surrounded by fear and distrust, the road ahead will not be difficult, but the chosen have fought too hard and lost too much to lose it all to this dark apprentice...
