My Black Is Beautiful

My Black Is Beautiful by Dr. Morris B Clarrington is a wordless picture book that depicts the beauty of various hues of black skin tones. It is intended to foster a sense of ethnic pride in young black children, helping them to perceive the beauty in themselves while living in a world saturated with Eurocentric imagery, physical traits, and features dominating as the standard for beauty. The stunning drawings demonstrate to the globe that people of African descent come in a wide range of black and brown skin tones, from extremely dark and melanated to the fairest of skin tones. The pictures in this book will show the regal beauty of the various tones of black skin, much like the lovely assortment of colors in a rainbow. Children can spend hours poring over the images and writing their own stories. This wordless story, delivered visually through art, will undoubtedly inspire imagination and creativity.

My Black Is Beautiful

My black is beautiful, NOT, judging on how much work some people go through to be everything but black. But why would anyone want to be something other than what they are? We have learned in American history that people were killed because the color of their skin, lynched with no consequences to the murders for the color of their skin, discriminated against because the color of their skin, non-educated and less educated. One of the greatest gifts in the world may just be the sense of site. unfortunately, some are born without it and some eventually lose their site in due time from this reason to that reason. I've often sat by myself wondering, how life would be if site was not a gift majority of society is blessed with. From what I know, people have been treated differently, treated unfairly, treated inhumane just from the color of their skin for so long, some people have come to accept that's just life. I am not one of those people who have accepted that's just life. My whole entire life I have embraced the skin tone that I was born with. Black is beautiful to me. With that said, that does not mean what I'm told, what I hear, what I read, what I watch, what I've experience as a black person has always been beautiful. It saddens me sometimes to see how we as black people is portrayed in some instances. I guess it doesn't benefit anyone when there are black people who are ok how they are portrayed when portrayed negatively. I remember watching an old-school cartoon when I was younger thinking why is Betty Boop so popular. But she has and she is still for a very long time now. As I got older, in my thirties, I just so happen to come across a betty boop cartoon on a DVD of multi cartoons I bought for my kids to watch. On this Betty Boop cartoon was a black cartoon person with big lips, black skin, nappy hair and big eyes. I was immediately offended that the creator of this cartoon was able to make what some consider an attractive white cartoon girl, but showed the black person looking so homely. The thought of the cartoon while I put these thoughts on paper offends me. That's what society been putting out there for years without thinking that image and many other images of how black people are portrayed would have an effect on me and possibly others. if we all were blind and couldn't see no color

on anyone, no one would be judged or treated a certain way just because of their color. Color isn't the only reason people are treated differently, but it is one that stands out with me because I've personally had to endure example after example of being treated negatively just because of the color of my skin. Let me be clear when I say, that's not a good feeling and that feeling has the possibility to grow into something with much more negative energy than that which created that feeling in the first place. My black is beautiful, not was my way of sharing my perspective on what's goes through my mind at times. Current events sometimes trigger these thoughts and often it's something from my past comes to mind and during reflecting, I make a conscience effort to write these thoughts down. I like to believe that I'm not the only person that share my skin color, shares my sentiments as well. Maybe this was way to share with those that don't look like me, how those that do look like me feel, or have feel during this incident or another

My Black Is Beautiful, Not

I feel that it is extremely important that children can identify with their culture and I wanted to promote that in this very book. In this children's book I incorporated stereotypes, stigmas, and history of the African American so that the reader can see the beauty from all of it. We have to learn to embrace the stereotypes and stigmas that divide us as people so it can unite us together. I also wanted the young reader to understand that Africa is a positive not a negative. History doesn't begin at slavery nor does it end there. With incorporating these things in the form a children's book I feel that it will reach the reader on a different conscious level.

Black is Beautiful

The poetry book is filled with inspirational thoughts about life and faith and finding the strength to move forward with your life.

The Essence of Love

Stacy created this book in response to the many African-American women that approach her on a daily basis. These women ask her questions about her hair and express that they would like to do something similar to their hair. "It's impossible to give a stranger on the street the knowledge and experience you have gained for years." Stacy decided to put it in writing. Initially it was going to be a website but that didn't work out. She is now glad that it didn't. The book is a self help, inspirational book designed to hopefully change the negative thinking African-Americans have about their God given hair. The book contains some poetry written by the author. It also shares many of the author's ups and downs when she transitioned from CROP (Chemically Relaxed Or Pressed) hair to an African inspired hairstyle. The book presents four aspects that African-American women will likely have to go through. She hopes that African-American women will realize how beautiful their hair truly is without it being straightened. The four aspects the book presents are listed below in brief summaries. Spiritual Transformation: A good start to begin the transformation from CROP hair to natural is to get quiet before God and simply ask Him for direction regarding your hair. It will be difficult hearing from God if you're not in a quiet place or if your mind is not quiet (full of stress and worries). Take deep breaths and close your eyes. Meditate on the scripture found in Genesis 1:31. God did not make a mistake with your hair. He purposely made our hair different from all of the other races. I don't know any other race of people whose hair is as unique as ours. And yet we will bend over backwards to straighten it. Remember, every thing that God made was good. Every thing. Mental Transformation: Become cognizant of your own language when describing your hair or someone else's hair texture. Control the atmosphere in your home by surrounding yourself with pictures of beautiful women with African inspired hairstyles. I have seen some beautiful natural hairstyles on packages of hair products. Instead of throwing the package away, hold on to it for inspiration. Look at these pictures everyday. Physical Transformation: You may have to take baby steps if you have worn your hair straight for most of your life. A baby step could be to give your weave a break. If you don't wear weaves then start letting your relaxer grow out. When you finally transition your hair, celebrate it. If you wear make-up put it on with your new hairstyle. Put your accessories on and your favorite outfit. Stand in front of the mirror alone with no distractions. Ask yourself what do you see? Don't ask anyone else until you have decided what you think about it. If you do ask someone, ask a close loved one. Say a simple prayer before you leave your house. Ask God to give you a boost in your security level with your new look. You will come to a point when you will not need to pray for confidence regarding your appearance. Emotional Transformation: Surround yourself with people who are more concerned with the inner you. Superficial people make superficial friends. Remember, people do not like change. People will not accept change or won't be able to see your beauty if you can't see it

for yourself. If you ever come to the point where you feel the need to backslide because of what “they say”, look at the person that is being negative. Do you admire their personal style? Do they have a personal style or are they wearing the same styles as everybody else? I can honestly say that every negative comment, look or snare always, always came from someone whose style (clothes, hair, etc.) I did not personally think much of. Although this book is written for African-American women the book has a universal message. The message is to be yourself.

Black Young Woman's Thoughts

Jimi Sheryl Bufkin, born Jimmie Shirl Harrison, in Fort Worth, Texas, has been writing poetry since the third grade. Jimi has resided in the Reno/Sparks, Nevada, area for over forty-six years. She is the mother of two daughters and three grandsons. Jimi's poetry writing started with letters to God. She never shared her poetry with others until Connie Davis-Myles, a friend, let her read “I know Why the Caged Bird Sings” by Maya Angelou. She was so inspired that she compiled a collection of her works and decided to publish her own book by the age of thirty. At age sixty-two, she has now self-published her sixth book. Jimi's love affair with words and the color purple has made her one of Reno's recognizable poets. She has recited in schools in Washoe County, the Veteran's Hospital in Reno, the University of Nevada-Reno, as well as for private banquets and organizations. She has also taught poetry workshops. She writes about homelessness, love not found, loneliness, and love for her fellow human beings. She hopes to leave a legacy with her poetry. She donates a copy of her publications to local libraries; she wants everyone to be able to savor the message in her work. She writes on a regular basis. She feels it is an outlet for stress. Her way of giving back something to the world is devoting her life to the future, our young people. One of the highlights of her life was opening for Maya Angelou in 1994 at Lawlor Events Center in Reno, Nevada, for a crowd of over thirty-two hundred people.

CaShawn Thompson crafted Black Girls Are Magic as a proclamation of Black women's resilience in 2013. Less than five years later, it had been repurposed as a gateway to an attractive niche market. Branding Black Womanhood: Media Citizenship from Black Power to Black Girl Magic examines the commercial infrastructure that absorbed Thompson's mantra. While the terminology may have

changed over the years, mainstream brands and mass media companies have consistently sought to acknowledge Black women's possession of a distinct magic or power when it suits their profit agendas. Beginning with the inception of the Essence brand in the late 1960s, Timeka N. Tounsel examines the individuals and institutions that have reconfigured Black women's empowerment as a business enterprise. Ultimately, these commercial gatekeepers have constructed an image economy that operates as both a sacred space for Black women and an easy hunting ground for their dollars.

My Black Is Beautiful

In 1920 W.E.B. Du Bois cited the damnation of women as linked to the devaluation of motherhood. This dilemma, he argues, had a crushing blow on Black women as they were forced into slavery. Black womanhood, portrayed as hypersexual by nature, became an enduring stereotype which did not coincide with the dignity of mother and wife. This portrayal continues to reinforce negative stereotypes of Black women in the media today. This book highlights how Black women have been negatively portrayed in the media, focusing on the export nature of media and its ability to convey notions of Blackness to the public. It argues that media such as rap music videos, television dramas, reality television shows, and newscasts create and affect expectations of Black women. Exploring the role that racism, misogyny and media play in the representation of Black womanhood, it provides a foundation for challenging contemporary media's portrayal of Black women.

MacKenzie is the new kid in class. Instead of just being another student, she teaches her classmates that all colors are beautiful, especially her favorite color, black! In the world we live in today, this message is a relatable and necessary reminder that all colors are beautiful and should be embraced. Celebrating and protecting one, does not diminish the beauty of any, rather it preserves the distinction and possibility of all.

In recent decades, historically white institutions have advanced their focus on diversity, equity, and inclusion practices within their organizations. Today, many organizations feature diversity practitioners within their workforce. Despite this, many historically white institutions such as education, business, and healthcare organizations still face systemic racism from within. In the wake of the dual pandemics of COVID-19 and systemic racism, it is essential for historically white institutions to listen to the experiences of Black women diversity practitioners so that they may implement the necessary changes to promote a more diverse, inclusive, and equitable environment. The Experiences of Black Women Diversity Practitioners in Historically White Institutions centers on Black women's experiences before, during, and after the dual pandemics at historically white higher education, corporate America, and healthcare institutions and how these experiences have affected their ability to perform their jobs. The stories and research provided offer crucial information for institutions to look inward at the cultures and practices for their organizations that directly impact Black women diversity practitioners. Covering topics such as guidance in leadership, Black woman leadership, and mindfulness training, this premier reference source is an essential resource for higher education staff and administration, Black women diversity practitioners, administration, leaders in business, hospital administration, libraries, students and educators of higher education, researchers, and academicians.

Promoting Black Women's Mental Health celebrates the strengths and complexities of Black women in American life. Many misunderstand and mis-characterize Black women and underappreciate their important contributions to families, communities, and the nation. In this book, a team of Black women mental health practitioners and scholars discuss a range of conditions that impact Black women's self-concepts and mental health. Drawing on a study of Black women across the United States, authors explore the social determinants of Black women's mental health and wellness and Black women's girlhood experiences. The book also explores Black women's stereotypes, their traumas, how they shift in relationships, and images that affect their racial and gender identity development. The book draws on scholarly and popular sources to present Black women's strength and challenges. Authors include commentary, case examples, reflection questions, and resources to improve practitioners' capacities to help Black women clients to recover, heal, and thrive.

Kentucky Simply Beautiful

Experience the unbridled spirit of Kentucky-the birthplace of Muhammad Ali, land of the Kentucky Derby and world-famous horse farms, and home of the famed Bluegrass Region. Prolific photographer Adam Jones captures the rich natural and cultural history of the Bluegrass State in fine color photography. With

stunning skyline shots of Louisville and Lexington, misty images from the Kentucky River Palisades, and solemn scenes recalling the state's Civil War history, Kentucky Simply Beautiful is picture perfect.

Kentucky by Design

The Index of American Design was one of the most significant undertakings of the Federal Art Project—the visual arts arm of the Works Progress Administration. Part of President Franklin D. Roosevelt's New Deal, this ambitious initiative set out to discover and document an authentic American style in everyday objects. The curators of the Index combed the country for art of the machine age—from carved carousel horses to engraved powder horns to woven coverlets—created by artisans for practical use. In their search for a true American artistic identity, they also sought furniture designed by regional craftsmen laboring in isolation from European traditions. Kentucky by Design offers the first comprehensive examination of the objects from the Bluegrass State featured in this historic venture. It showcases a wide array of offerings, including architecture, furniture, ceramics, musical instruments, textiles, clothing, and glass- and metalworks. The Federal Art Project played an important role in documenting and preserving the work of Shaker artists from the Pleasant Hill and South Union communities, and their creations are exhibited in this illuminating catalog. Beautifully illustrated with both the original watercolor depictions and contemporary, art-quality photographs of the works, this book is a lavish exploration of the Commonwealth's distinctive contribution to American culture and modern design. Features contributions from Jean M. Burks, Erika Doss, Jerrold Hirsch, Lauren Churilla, Larrie Currie, Michelle Ganz, Tommy Hines, Lee Kogan, Ron Pen, Janet Rae, Shelly Zegart, Mel Hankla, Philippe Chavance, Kate Hesseldenz, Madeleine Burnside, and Allan Weiss.

Life at Nazareth Academy and College - Nazareth, Kentucky

Take this wonderful journey back to the 1950's and learn all about what life was like at a Catholic boarding school and college! This compilation of letters written during the 1950's gives a detailed look inside Nazareth Academy and College in Nazareth, Kentucky. The following comment is from the author of the actual letters included in this book: I was given the opportunity to attend Nazareth Academy in 1951 and stayed for six years, graduating from Nazareth College in 1957. I consider this one of the greatest blessings of my life. Even after fifty plus years, the values and education I received from the Sisters of Charity of Nazareth are a part of my daily life. My stepmother, Rhoda Martin, saved all the letters I wrote home, an entire six years worth! I had so much fun "remembering" the people and events I had long forgotten. The letters give a glimpse into what life was like as a student in the Academy and College in the 1950's.

The simple yet striking lines of Shaker design grace much of the furniture we see in high-end department stores, and beautiful examples of it adorn the pages of Architectural Digest and House Beautiful. How did this style evolve from its origins in a humble, small religious community to the international design phenomenon it is today? This illustrated study explores the emergence of the Shaker style and how it was vigorously promoted by scholars and artists into the prominence it now enjoys. The heart of the Shaker style lies in the religious movement founded in the eighteenth century, where Stephen Bowe and Peter Richmond begin their chronicle. From there, the authors chart the evolution of the style into the twentieth century—particularly in the hands of design media, scholars, and art institutions. These Shaker "agents" repositioned Shaker style continuously—from local vernacular to high culture and then popular culture. Drawing on a rich array of sources, including museum catalogs,

contemporary design magazines, and scholarly writings, *Selling Shaker* illustrates in detail how the Shaker style entered the general design consciousness and how the original aesthetic was gradually diluted into a generic style for a mass audience. A wholly original and fascinating study of American design and consumption, *Selling Shaker* is a unique resource for collectors, scholars, and anyone interested in the cultural history of a design aesthetic.

More than 30 years ago, Walker Raines lost the woman he loves. Now he has clandestinely orchestrated what he hopes will appear to be an accidental meeting in very romantic circumstances: aboard the beautiful *Delta Queen* during a leisurely four-day spring cruise from New Orleans to Natchez. He has

chosen the setting very carefully. This stately steamboat has been a dynamic symbol for both of them all their lives. Now it will witness their reunion -- and the secrets that have kept them apart. The Delta Queen is a National Historic Landmark, a 70-year-old steamboat that sails the Mississippi River and its tributaries. Not a reconstruction, she is the genuine article, a sternwheeler that has worked these rivers for half a century. Being aboard is like visiting in a fine old Southern home, where the parlors are filled with brass and crystal, mahogany and Old English oak, where the meals are legendary, a rocking chair is always available and the company is genteel. Walk her decks with us now, while the journey is under way. Hear the towboats whistle as she goes by. Pilots sometimes even lean out their doors and shout, "Hellllo to The Del-ta Queeeeen!" They love her out here, because she is a working girl. They know her from New Orleans to Minneapolis/St. Paul, from St. Louis and Louisville to Cincinnati and Pittsburgh, from Galveston and Little Rock to Memphis, Nashville and Chattanooga. And yet she seldom stays anywhere more than a few hours. She is always on the go, from Louisiana's Bayou Country to the icy northern reaches of the Canadian border. No wonder they flirt with this tough little prom queen. She has won the hearts of millions. And she has witnessed countless love stories in her travels. This is but one of them. Delta Queen: A Novel, produced by Bowen Books, is a contemporary, intelligent love story in the new tradition of Bridges of Madison County, The Notebook and A Message in a Bottle. Readers who liked those books will love this one. And for anyone who has ever been a passenger on The Delta Queen, or who has always dreamed of being a passenger, this story is for you.
