This document remains one of the most requested materials in digital libraries online. By reaching us, you have gained a rare advantage.

The full version of Constitutions Governance is available here, free of charge.

The National Union Catalogs, 1963-

Behind the controversies that have marked the history of the idea of Economic Constitution emerges the highly political issue of the room for manoeuvre left to public authorities in the economic sphere. The notion thus encapsulates a fundamental tension: between democracy and rule of law, which model of legal ordering of the economy should prevail? From physiocrats to neo-liberals, from the Weimar Republic to European integration, from national constitutions to Global Governance, this collective book invites us to explore the genealogy of the controversial concept of Economic Constitution. The result of this interdisciplinary dialogue is a comprehensive reflection on the legal and political issues at stake in the current constitutionalization of the market order in Europe. Contributors are: Philippe Steiner, Guillaume Grégoire, Hugues Rabault, Peter C. Caldwell, Thomas Biebricher, Werner Bonefeld, Serge Audier, Vincent Valentin, Pieter van Cleynenbreugel, Xavier Miny, Frédéric Marty, Claire Mongouachon, Hans-Wolfgang Micklitz, Francesco Martucci, Michael Wilkinson, Hjalte Lokdam, Susanna Maria Cafaro, Peter Lindseth, Cristina Fasone, Pierre Nihoul, François Colly, Peter-Christian Müller-Graff, Tony Prosser, Damien Piron, Mahmoud Mohamed Salah, Stephen Gill, Thibault Biscarie, Sebastien Adalid, and Christian Joerges. Derrière les controverses qui jalonnent l'histoire de l'idée de Constitution économique émerge la question éminemment politique de la marge de manœuvre laissée aux autorités publiques dans la sphère économique. La notion cristallise ainsi une tension fondamentale : entre démocratie et État de droit, quel doit être modèle d'organisation et d'ordonnement juridique de l'économie? Des physiocrates aux néolibéraux, de la République de Weimar à l'intégration européenne, des constitutions nationales à la Global Governance, cet ouvrage collectif nous invite dès lors à explorer la généalogie du concept polémique de Constitution économique. Les auteurs ouvrent alors, à travers un dialogue interdisciplinaire constant, une réflexion globale autour des enjeux juridiques et politiques du processus actuel de constitutionnalisation de l'ordre de marché en Europe.

The Idea of Economic Constitution in Europe

The French Communist Party

French Communism, 1920–1972

Includes entries for maps and atlases.

The National union catalog, 1968-1972

The Haitian Revolution was a powerful blow against colonialism and slavery, and as its thinkers and fighters blazed the path to universal freedom, they forced anticolonial, antislavery, and antiracist ideals into modern political grammar. The first state in the Americas to permanently abolish slavery,

outlaw color prejudice, and forbid colonialism, Haitians established their nation in a hostile Atlantic World. Slavery was ubiquitous throughout the rest of the Americas and foreign nations and empires repeatedly attacked Haitian sovereignty. Yet Haitian writers and politicians successfully defended their independence while planting the ideological roots of egalitarian statehood. In *Awakening the Ashes*, Marlene L. Daut situates famous and lesser-known eighteenth- and nineteenth-century Haitian revolutionaries, pamphleteers, and political thinkers within the global history of ideas, showing how their systems of knowledge and interpretation took center stage in the Age of Revolutions. While modern understandings of freedom and equality are often linked to the French Declaration of the Rights of Man or the US Declaration of Independence, Daut argues that the more immediate reference should be to what she calls the 1804 Principle that no human being should ever again be colonized or enslaved, an idea promulgated by the Haitians who, against all odds, upended French empire.

National Union Catalog

Thanks to comparative tables and precise examples, this report offers an overall picture of the institutions guaranteeing access to information (IGAI) in OECD member countries. While it does not provide a comprehensive analysis of each of these institutions, it examines the legislation, the composition, and operation of the IGAI as well as their missions regarding the spontaneous disclosure and appeals following access to information requests.

Sur le Chemin du Socialisme

This challenging book takes a broad and thought-provoking look at the precautionary principle and its implementation, or potential implementation, in a number of fields. In particular, the essays within the book explore the challenges faced by public decision-making processes when applying the precautionary principle, including its role in risk management and risk assessment. Frameworks for improved decision making are considered, followed by a detailed analysis of prospective applications of the precautionary principle in a number of emerging fields including: nanotechnology, climate change.

CONSTITUTION OF ENGLAND OR AN

This collection of 16 essays by 19 contributors calls into question the notion of domestic justiciability across a wide range of human rights issues, such as health, human dignity, criminal justice, property

and transitional democracy. The authors offer critical analyses of a number of rights frameworks, focusing in considerable detail upon specific countries (e.g. Libya, Colombia, Ireland, the United Kingdom, Northern Ireland, South Africa, Nigeria, Zimbabwe, Kenya, India) and regions (e.g. Europe, Africa) to highlight the various challenges which continue to vex human rights advocates and scholars. In doing so they pinpoint some of the major tensions that still exist within developing and developed jurisdictions, via a myriad range of perspectives. The essays collectively present a diverse assortment of themes unified by a single 'golden thread' – that of the domestic interpretations given to human rights protections. They raise questions as to how such rights might be made substantive at the level of domestic implementation, and query the extent to which these rights can, or even should, be enforced by the courts. The potential strains in the relationship between human rights and the rule of law, is further called into question by another central theme: that of human dignity. A fundamental dilemma arises in respect of the extent to which a 'right' to dignity can best be promoted, protected or monitored by domestic decision-makers. Similar issues are apparent within the context of the protection of those human rights which increasingly tend to engage social, political or economic considerations and interests. Whilst these arguments are often framed principally in terms of 'rights,' the collective message that emerges from this book is that such rights may often be, in fact, essentially non-justiciable. Readers of this text will perhaps feel compelled to reflect carefully and fully upon what it tells us about human rights law generally, and the extent to which such rights may be truly amenable to adjudication by the courts.

Documents

"Proceedings, international seminar, Strasbourg, 13-14 June 1996."--T.p.

The British Library General Catalogue of Printed Books to 1975

Créée informellement en 1989, la conférence des pays éditeurs de documents diplomatiques a réuni à Paris en octobre 2005, à l'occasion de sa 8e session, une trentaine de délégations qui ont travaillé tant sur des questions de méthodologie que sur un thème historique, celui de la naissance et de l'évolution de l'Organisation des Nations unies. L'ensemble de leurs contributions est réuni dans ce volume, dont la direction des Archives du ministère français des Affaires étrangères, organisatrice de la réunion, a choisi de confier la publication aux éditions Peter Lang, qui publie déjà les Documents diplomatiques français. Le lecteur y trouvera les secrets de fabrication de cette collection et de ses homologues les plus anciennes, et en découvrira d'autres, plus récentes, voire en cours de création. Established unofficially in 1989, the International Conference of Editors of Diplomatic Documents brought together in Paris in October 2005, on the occasion of its 8th meeting, more than thirty delegations. The conference concentrated on the methodology of editing and publishing and chose to focus on the historical theme of the birth and development of the United Nations Organization. Reports and papers presented by the participants are gathered in the present proceedings, the publishing of which was entrusted by the Archives of the ministère des Affaires étrangères to Peter Lang Publishing Group, which is currently responsible for publishing the Documents diplomatiques français. The reader will find in this publication the trade secrets of the French series and of the earliest analogous series of diplomatic documents, as well as discover other more recent collections or even some in the process of being created.
