Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test of time. The many thousands of books in our collection have been sourced from libraries and private collections around the world. The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original. Our readers see the books the same way that their first readers did decades or a hundred or more years ago. Books from that period are often spoiled by imperfections that did not exist in the original. Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work. We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality, but also providing value to every one of our readers. Generally, Trieste books are purchased singly - on demand, however they may also be purchased in bulk. The American Colleges and Universities in the Great War, 1914-1919

This book tells the fascinating, and largely forgotten, story of Oxford's part in the Great War. The University City became a military training camp as soldiers and officer cadets occupied men's colleges left virtually empty as undergraduates enlisted. Public buildings were converted into military hospitals where many war casualties were treated. The City also took in Belgian and Serbian refugees. Oxford dons engaged in vital war work, and academic life largely depended upon the women's colleges. Local industries, including Morris's new car factory at Cowley, converted to war production, and women made munitions or replaced men in other work. Fear of invasion sparked the formation of a Dad's Army,

and a black-out protected the City from air raids. Civilians, especially women, supported the war effort through fund-raising and voluntary work. They also cultivated war allotments as food shortages led to communal kitchens and rationing.??This expert account shows a civilian population coping with anxiety during a titanic struggle in which college heads and the humblest citizens were afflicted equally by the loss of loved ones.

The American Colleges and Universities in the Great War 1914-1919 - War College Series

Excerpt from The American Colleges and Universities in the Great War, 1914-1919: A History The lack of adequate interpretation of the part which the American colleges, both Northern and Southern, played in the Civil War has long seemed to me a public and an academic misfortune. The possibility of filling this lack lessens with each passing year. The share which the American college and university had in the World's War was at least as significant and impressive as that which the Civil War represents. Early, therefore, in the great struggle, I began to collect materials for its academic history. These materials include evidences furnished directly by hundreds of institutions, as well as the more typical sources of books, pamphlets, and newspapers. To each college officer, who has thus graciously and generously aided me, I am grateful. This history, concerned with a small social and educational group, has yet largest relations. For it helps to prove that the higher education, in the person of its teachers and students of successive generations, trains men for the service of the nation. World War One changed the course of history. And not only on a global scale as borders shifted and battles raged, but on a local level, when sons failed to return home, and whole villages were emptied of their young men. Oxford was no exception. Many of its young scholars left the dreaming spires to become junior officers, with 170 joining the local Oxford and Buckinghamshire Light Infantry Regiment before the end of 1914. University buildings were turned from places of study into hospitals and cadet training centres. No college was left untouched. An Oxford College at War is the story of one college's experience of the war: Corpus Christi, one of the smallest and oldest Oxford colleges, lost a number of its students. Based on the moving accounts contained in the College Roll of Honour of those who fell in the Great War, this book looks not only at students' deaths, but also at the role of Corpus - as an exemplar Oxford College - in the War, and the wider role played by the University. From those fighting on the front and on the home front, to the aftermath of the War for survivors and those left behind, An Oxford College at War provides an unparalleled insight into the extraordinary bravery and everyday courage of citizens and students alike.

Men of War

Why, despite the appalling conditions in the trenches of the Western Front, was the British army almost untouched by major mutiny during the First World War? Drawing upon an extensive range of sources, including much previously unpublished archival material, G. D. Sheffield seeks to answer this question by examining a crucial but previously neglected factor in the maintenance of the British army's morale in the First World War: the relationship between the regimental officer and the ordinary soldier.

Madman, tyrant, animal—history has given Adolf Hitler many names. In *Mein Kampf* (My Struggle), often called the Nazi bible, Hitler describes his life, frustrations, ideals, and dreams. Born to an impoverished couple in a small town in Austria, the young Adolf grew up with the fervent desire to become a painter. The death of his parents and outright rejection from art schools in Vienna forced him into underpaid work as a laborer. During the First World War, Hitler served in the infantry and was decorated for bravery. After the war, he became actively involved with socialist political groups and quickly rose to power, establishing himself as Chairman of the National Socialist German Worker's party. In 1924, Hitler led a coalition of nationalist groups in a bid to overthrow the Bavarian government in Munich. The infamous Munich "Beer-hall putsch" was unsuccessful, and Hitler was arrested. During the nine months he was in prison, an embittered and frustrated Hitler dictated a personal manifesto to his loyal follower Rudolph Hess. He vented his sentiments against communism and the Jewish people in this document, which was to become *Mein Kampf*, the controversial book that is seen as the blue-print for Hitler's political and military campaign. In *Mein Kampf*, Hitler describes his strategy for rebuilding Germany and conquering Europe. It is a glimpse into the mind of a man who destabilized world peace and pursued the genocide now known as the Holocaust.

'May the eyes of Canada never be blind to that glorious light which shines upon our young national life from the deeds of those "who counted not their lives dear unto themselves"'. When World War I broke out in the summer of 1914, the Canadian chaplain Frederick George Scott volunteered for service despite his fears. He spent four long years in the trenches on the western front, where he developed close bonds with his fellow soldiers and sought to maintain his faith while the world around him collapsed into chaos. In evocative language befitting his background as a poet, Scott lays bare the horrors of modern warfare. Filled with heart-wrenching descriptions and tragic detail, *The Great War as I Saw It* is a powerful meditation on the Canadian experience during World War I and an important look into the life of the ordinary soldier.

Leadership in the Trenches

Young Janey Rowland lived in Linden Mews, in the flat over the garage. She was the housekeeper's daughter, the chauffeur's daughter, and even though she was a bright and sensitive child, she had been taught to know her place when it came to going round to the big house - the Marchant house - in Linden Square. But the two families - on the surface separated by a gulf of birth, wealth and breeding - were deeply involved and reliant on each other. Old secrets, old emotions, seethed beneath the respectable facade they preserved between them. And then the war came. As the barriers between the Marchants and the Rowlands began to crumble, so Jane - quiet, beautiful, and with a great capacity for love - began to become more and more the hub of the wealthy Marchant family, the one on whom they all depended, the one who had to unravel and solve the emotional disasters left over from the past.

Now this acclaimed work has been completely revised and updated to reflect current developments in the world of American letters. For the sixth edition, editors James D. Hart and Phillip Leininger have updated the *Companion* in light of what has happened in American literature since 1982. To this end, they have revised the entries on such established authors as Saul Bellow, Norman Mailer, and Joyce Carol Oates, and they have added more than 180 new entries on novelists (T. Coraghessan Boyle, Tim O'Brien, Louise Erdrich, Don De Lillo), poets (Rita Dove, Weldon Kees), playwrights (Wendy Wasserstein, August Wilson), popular writers (Stephen King, Louis L'Amour), historians (James M.
