Moebius Library: The Art of Edena

A companion volume to the critically acclaimed and New York Times best-selling World of Edena graphic novel, Moebius Library: The Art of Edena collects four fantastic Edena-related short stories and a motherlode of Moebius illustrations. A celebration of the imagery and creative enthusiasm Moebius held for his Edena universe and his characters Stel and Atan, the short stories "Seeing Naples," "Another Planet," "The Repairmen," and "Dying to See Naples" are collected here, as Moebius explores his imagination with two of his favorite characters. Working closely with Moebius Production in France, Dark Horse presents the second volume in the Moebius Library series Out-of-print stories and hard to find images--collected in an affordable hardcover! Timeless science fiction stories and illustrations from a celebrated master! The second volume in Dark Horse's Moebius Library series! The perfect companion volume to Moebius's World of Edena graphic novel. "I consider [Moebius] more important than Doré."--Federico Fellini

Moebius Library: The World of Edena

Working closely with Moebius Productions in France, Dark Horse is putting the work of a master storyteller back in print--with some material in English for the first time! Stel and Atan are interstellar investigators trying to find a lost space station and its crew. When they discover the mythical paradise planet Edena, their lives are changed forever. The long out-of-print Edena Cycle from Moebius gets a deluxe hardcover treatment! Moebius's World of Edena story arc is comprised of five chapters--Upon a Star, Gardens of Edena, The Goddess, Stel, and Sra--which are all collected here. A storyboard artist and designer (Alien, Tron, The Fifth Element, among many others) as well as comic book master, Moebius's work has influenced creators in countless fields. "Moebius is a master draftsman, a superb artist, and more—his vision is original and strong." —George Lucas

Moebius Library: Inside Moebius Part 3

Working closely with Moebius Production in France, Dark Horse presents the final part of Moebius's Inside Moebius series. In this third and most surreal volume, Jean "Moebius" Giraud exists in an expansive, magical desert locale within his subconscious. He not only meets and talks with several of his own creations--like Stel, Blueberry, Major Grubert, and Arzak--but he encounters versions of himself from multiple decades and argues with them about art and creativity. This final volume also features the last interview segment about this strange series between the artist and Isabelle Giraud. Translation by World of Edena translator Diana Schutz.

The Art of Moebius

A mysterious metallic virus has devastated the immense City-Shaft, and John Difool is going to have to once again transform himself into humanity's improbable savior!

The New Dream

The fantasy art of Charles Vess is acclaimed worldwide, his rich palette, striking compositions, and lavish detail second to none. Vess created memorable works for such best selling fantasy authors as Neil Gaiman, Susanna Clarke, Charles De Lint, and George R. R. Martin, as well as a who's-who list of publishers and clients. His art is breathtakingly singular while recalling the golden age of illustration, when paint and brush were the vessels that carried readers to distant lands, bygone ages, and realms of the imagination. Featuring a foreword by Susanna Clarke, author of *Jonathan Strange & Mr Norrell*.

Drawing Down the Moon: The Art of Charles Vess

The lush beauty of Canada's wildlife and landscape is brought to life in a colouring book along with excerpts from the country's greatest writers. Featuring 40 gorgeous illustrations paired with excerpts from some of Canada's most beloved poets and writers, *The Canadian Backwoods Colouring Book* will satisfy all your colouring needs throughout the year. Beginning in January, this book will take you through each month and season, exploring the wildlife and landscapes that define Canada.

The Canadian Backwoods Colouring Book

Tegneserier og tegninger.

Moebius 1/2

Jodorowsky and Moebius's internationally bestselling Sci-Fi saga *THE INCAL* comes to its phenomenal finale! Lowly class 'R' detective John Difool and his faithful companion, Deepo, are unwillingly hurled into yet another universe-saving mission, as their world is faced with the threat of an all-devouring metallic virus. Visionary storyteller Jodorowsky returns to the epic mythology he created with the late Moebius in the early 80s. For the conclusion of the legendary spiritual space adventure series, he partners with Eisner-winning artist Ladrönn.

Final Incal

Collects the first three sold-out monographs by Swedish illustrator, Kilian Eng.

Object Compendium

A collection of the dream-like science-fiction images and visual storytelling techniques of Jean Giraud ("Moebius"), including his wordless "pantomime" work and the character Arzach.

Arzach

The Sci-Fi masterpiece by Moebius and Jodorowsky about the tribulations of the shabby detective John Difool as he searches for the precious and coveted Incal.

The Fifth Essence - Planet DiFool

The duo of Alexandro Jodorowsky and Moebius lead us on a sensual and poetic journey, creating before us an erotic masterpiece. In "Angel Claws," frequent collaborators Alexandro Jodorowsky and Moebius ("The Incal," "The Eyes of the Cat") indulge their naughtier sides as they describe a young woman's quest for sexual awakening. Suggestive eroticism quickly evolves to metaphysical delirium.

Angel Claws

The unauthorized biography of Canada's most famous artist couple and the rivalry that drove them. She painted as if with pure light, radiant colours making quotidian kitchen scenes come alive with sublimated drama. He painted like clockwork, each stroke precise and measured with exquisite care, leaving no angle unchecked and no subtlety of tone unattended. Some would say Mary Pratt was fire and Christopher, ice. And yet Newfoundland's Frida Kahlo and Diego Rivera (or Jackson Pollack and Lee Krasner...) presented their marriage as a portrait of harmony and balance. But balance off the canvas rarely makes great art, and the Pratts' art was spectacular. As a youth at Mount Allison University in New Brunswick, Mary pursued her future husband, a prodigious art talent, and supported his determination to study painting instead of medicine. They married and removed themselves to a Newfoundland outport where his painting alone provided the means to raise a family. But as Mary's own talents became evident and she sought her own hours at the easel, when not raising their four children, and as rumours of Christopher's affair with a young model spread, the Pratts' harmonious

exterior slowly cracked, to scandal in Newfoundland and fascination across the country. A marriage ended, and gave way to a furious competition for dominance in Canadian art.

Art and Rivalry

In this Middle Grade foray into the 80's-nostalgia hit series from Netflix, when Erica's frenemy loses track of her mother's prized Parakeet, the two will have to work together to return the bird safe and sound, or deal with the consequences. They learn that even the toughest and smartest people need a little help now and then. Hawkins Indiana has been plagued by strange events for years now. With the Starcourt Mall's recent destruction, Erica has lost her favorite hangout spot and her "free Ice cream for life" deal at Scoops-Ahoy. To make matters worse, her brother is too busy for her and her mom won't let her play Dungeons and Dragons anymore. This is the story of an ambitious, bossy, brilliant ten-year-old dealing with boredom and the complexities of maintaining friendships through tough times. Written by Greg Pak (Stranger Things: Zombie Boys, Stranger Things: The Bully, Ronin Island) and Danny Lore (Queen of Bad Dreams, James Bond) with art by Valeria Favoccia (Stranger Things: Zombie Boys, Assassin's Creed), colors by Dan Jackson, and letters by Nate Piekos.

Stranger Things: Erica the Great (Graphic Novel)

The hilarious and epic early adventures of John DiFool and his concrete seagull, Deepo.

Before the Incal

The Complete adventures of John Difool continue as the investigation into the mysterious birth rate in the Red Ring continues. In this volume, John stumbles across several overwhelming obstacles including the involvement of the Prez, the robocops, and the Techno pope in a grand conspiracy, becoming a professional detective and falling in love. If all of this wasn't enough, this volume of the series also features tons of actions and the deaths of several characters. A must-read chapter in one of the most acclaimed sci-fi stories in the world.

Virtual Meltdown

A visual tour-de-force graphic novel from artist and writer Dave McKean (Black Dog, The Sandman). The Raptor, Sokol, flickers between two worlds: a feudal fantastical landscape where he must hunt prey to survive, and Wales in the late 1800s where a writer of supernatural tales mourns the passing of his young wife. He exists between two states, the human and the hawk. He lives in the twilight between truth and lies, life and death, reality and the imagination. World Fantasy, Harvey, British Science Fiction Association, and V+A Book Award winner Dave McKean's first creator-owned character is a wandering spirit for our times. This deluxe, oversized hardcover edition with an exclusive signed tip-in illustration is perfect for fans of Dave McKean's beautiful art who want to experience Raptor in large-scale glory.

The Incal: #1. Orphan of the city shaft

This massive collection features three classic Halo tales by some of the best writers and artists in comics. Halo: Uprising follows the Master Chief as he single-handedly takes on the Covenant's miles-long Forerunner Dreadnought as it makes its way to Earth! Then, join the ranks of the UNSC's meanest, most battle-hardened Marines in Helljumper, as a group of ODST respond to a remote science colony's SOS call and discover an enormous Covenant military presence! Finally, a UNSC ship encounters a strange phenomenon that sends it plummeting toward an unknown planet. The Spartan Black fireteam needs to unlock the secrets of an ancient Forerunner installation if they're going to survive the experience but, to complicate matters, they're not the only ones shipwrecked. Check out their story in Halo: Blood Line!

Raptor: a Sokol Graphic Novel Limited Edition

Written by Bartosz Sztybor (Witcher: Fading Memories, Jim Henson's The Storyteller: Sirens), art by Giannis Milonogiannis (Prophet, Ronin Island, Old City Blues, G.I. Joe), and colors by Roman Titov (Angel) comes a sci-fi pulp noir based on the hit video game Cyberpunk 2077! A hardboiled journalist bent on taking down the corrupt corporations of Night City finally gets his chance to do it. Drunk, cynical, and stubborn journalist Thompson is working hard to wake up the populace--keeping their eyes and ears closed to the filth and corruption of corporate-run Night City is a choice and he's going to blow their self-prescribed diversions to pieces. Somebody nuked the headquarters of a major corporation.

Rumor has it, it was the infamous Johnny Silverhands. The streets are buzzing that he's dead and his body remains at the bottom of the nuked tower. His job: find the body. But is he dead or is it just hearsay? The streets of Night City talk and a corporate downfall is just the beginning.

Halo: Legacy Collection

The Sci-Fi masterpiece by Mœbius and Jodorowsky about the tribulations of the shabby detective John Difool as he searches for the precious and coveted Incal—released for the first time ever in English in this Black & White Special Edition. John Difool, a low-class detective in a degenerate dystopian world, finds his life turned upside down when he discovers an ancient, mystical artifact called "The Incal." Difool's adventures will bring him into conflict with the galaxy's greatest warrior, the Metabaron, and will pit him against the awesome powers of the Technopope. These encounters and many more make up a tale of comic and cosmic proportions that has Difool fighting for not only his very life but for the survival of the entire universe.

Blueberry: Ballad for a coffin

The bullies from season one of hit Netflix series try to uncover the mystery of Eleven's psychic powers in this scary all-ages comic! Troy has been having nightmares about El ever since she embarrassed him in front of the school and broke his arm in season one. Powerless and anxious, Troy is determined to prove that what happened between him and El is only some form of trickery. That is until he and James encounter demodogs! Written by best-selling author Greg Pak (Mech Cadet Yu, The Incredible Hulk, Star Wars: Age of Rebellion) and drawn by Valeria Favocchia (Assassin Creed: Reflections, Doctor Who: The Tenth Doctor).

Cyberpunk 2077: Where's Johnny

The hunt for a long-missing costumed crimefighter has led investigator Jake Stevens down one blind alley after another, yielding only a scant handful of clues and a trail of dead bodies pointing to Stevens himself. Jake no longer knows who to trust, but he knows his business, and he races to place the final piece in the puzzle before the police take him down. But is it too late for the truth to save him?

The Incal Black & White Edition

A collection of drawings of monsters.

Stranger Things: The Bully (Graphic Novel)

"In exquisite and thoughtful detail, Mateu-Mestre lays out distinct approaches to drawing in the book's chapters--The Ballpoint Pen, Graphite Pencil, The Digital Way, and The Gray Scale--outlining the benefits and challenges of each, and specific digital editing techniques that can be applied to one's work in all the mediums to achieve the greatest results."--Publisher's description.

Cloaked #4

The very first graphic storytelling collaboration between two masters of the medium, Alexandro Jodorowsky and Moebius.

Sticky Monsters

Carbon and Silicon are the first of a new generation of robots meant to care for the aging human population. Raised in the protective cocoon of a laboratory, they are eager to discover the outside world but are dramatically separated during an escape attempt. Lost and alone, they will gather three centuries' worth of experiences, observing the last gasps of humanity facing the ecological, economic, and social disasters that they themselves have created. Faced with this declining world, will Carbon and Silicon manage to find their place? Born in a laboratory in Silicon Valley, two androids named Carbon and Silicon will witness the evolution of humanity. From this dawn of true artificial intelligence, the pinnacle of human achievement, they will directly witness ecological, economic, and cultural crises that alter civilization as we know it. Through their eyes, we rediscover our planet as it reaches the point of no return. The latest project by celebrated author Mathieu Bablet, this ambitious work addresses themes separating artificial intelligence from humanity. A fable about the ravages of capitalism and

the illusion of transhumanism. A cautionary tale spanning 300 years of frighteningly plausible future scenarios.

Framed Drawing Techniques

Moebius' and Alejandro Jodorowsky's Sci-Fi masterpiece collected in one epic volume. Lose yourself in the story that inspired many legendary filmmakers including George Lucas and Ridley Scott. John Difoool, a low-class detective in a degenerate dystopian world, finds his life turned upside down when he discovers an ancient, mystical artifact called "The Incal." Difoool's adventures will bring him into conflict with the galaxy's greatest warrior, the Metabaron, and will pit him against the awesome powers of the Technopope. These encounters and many more make up a tale of comic and cosmic proportions that has Difoool fighting for not only his very survival but also the survival of the entire universe.

The Eyes of the Cat

The Administration contacts Kyrii and Cibo, encouraging them to keep searching for the Net Terminal Gene which will stop the City from its intractable, chaotic growth. The Admin also warns them of the autonomous Safeguards, vicious entities that attempt to kill off any humans who access the Netsphere without the required Net Terminal Gene. Kyrii is attacked, and a group of humans who have settled on the outskirts of Toha Heavy Industries comes to his aid. Kyrii awakens with a newfound ability to read his surroundings, which allows him mere seconds to fend off an attacker lurking among the humans settlement. In the ensuing battle, Cibo makes a heavy sacrifice, but not before learning a startling truth about her traveling companion...

Carbon & Silicon

Discover the lineage of the galaxy's ultimate warrior, created by the legendary artist Moebius and film director Alejandro Jodorowsky ("El Topo, Santa Sangre" and "Holy Mountain"). Gimenez's lavish artwork fills every page with a stunning combination of action and drama, telling one of the most unique stories in comics today. DC Comics

The Incal

v. 2: "Contains material originally published in magazine form as Criminal Vol. 2 #4-7, Criminal: the sinners #1-5 and Criminal: the last of the innocent #1-4"--Title page verso.

BLAME! 2

Journey through the countryside in this magical realist debut from an underground Chinese cartoonist In Night Bus, a young woman wearing round glasses finds herself on an adventurous late night bus ride that constantly makes detours through increasingly fantastical landscapes. Meanwhile a young cartoonist returns home after art school and tries his hand at becoming a working artist while watching over his aging grandmother whose memory is deteriorating. Nostalgic leaps take us to an elementary school gymnasium that slowly morphs into a swamp and is raided by a giant catfish. Beetles, salamanders, and bug-eyed fish intrude upon the bus ride of the round-glasses woman as the night stretches on. Night Bus blends autobiography, horror, and fantasy into a vibrantly detailed surreal world that shows a distinct talent surveying his past. Nature infringes upon the man-made world via gigantism and explosive abundance—the images in Night Bus are often unsettling, not aimed to horrify, but to upset the balance of modern life. Zuo Ma is part of a burgeoning Chinese art comics scene that pushes emotion to the forefront of the story while playing with action and dreams.

The Metaborans

Moebius draws himself encountering his favorite characters--creations like Blueberry, Arzak, and Major Grubert--and also meets a younger version of himself! Working closely with Moebius Production in France, Dark Horse presents Inside Moebius, A six-part study with Inside Moebius Part 1 collecting the first two chapters in this fantastic exploration of a creator meeting his own creations. Dark Horse will release all parts to this exceptional, intimate series in 2018! This is the third volume in the Moebius Library hardcover series and the beginning of Moebius's most intensely personal project.

Criminal Deluxe Edition, Volume 3

This collection of Chris Samnee's Daredevil presents three versions of the work. The first book presents Daredevil Issues 23 - 27 in original art. Additionally, all of Chris' beautiful layouts will be printed here, again, scanned from the original art. The second book is a horizontal softcover, printing all Mark Waid's scripts. Lastly, Samnee's artistic technique involves drawing thumbnail breakdowns on the script pages themselves, so there is a third artistic version.

Night Bus

Working closely with Moebius Productions in France, Dark Horse is putting the work of a master storyteller back in print—with some material in English for the first time! Stel and Atan are interstellar investigators trying to find a lost space station and its crew. When they discover the mythical paradise planet Edena, their lives are changed forever. The long out-of-print Edena Cycle from Moebius gets a deluxe hardcover treatment! Moebius's World of Edena story arc is comprised of five chapters—Upon a Star, Gardens of Edena, The Goddess, Stel, and Sra—which are all collected here. A storyboard artist and designer (Alien, Tron, The Fifth Element, among many others) as well as comic book master, Moebius's work has influenced creators in countless fields. “Moebius is a master draftsman, a superb artist, and more—his vision is original and strong.” —George Lucas

Moebius Library: Inside Moebius Part 1

The Complete adventures of John Difoole continue as the investigation into the mysterious birth rate in the Red Ring continues. In this volume, John stumbles across several overwhelming obstacles including the involvement of the Prez, the robocops, and the Techno pope in a grand conspiracy, becoming a professional detective and falling in love. If all of this wasn't enough, this volume of the series also features tons of actions and the deaths of several characters. A must-read chapter in one of the most acclaimed sci-fi stories in the world.

Chris Samnee's Daredevil

The work of a visionary and iconoclastic feminist cartoonist—available in English for the first time The Sky is Blue with a Single Cloud collects the best short stories from Kuniko Tsurita's remarkable career. While the works of her male peers in literary manga are widely reprinted, this formally ambitious and poetic female voice is like none other currently available to an English readership. A master of the comics form, expert pacing and compositions combined with bold characters are signature qualities of Tsurita's work. Tsurita's early stories “Nonsense” and “Anti” provide a unique, intimate perspective on the bohemian culture and political heat of late 1960s and early '70s Tokyo. Her work gradually became darker and more surreal under the influence of modern French literature and her own prematurely failing health. As in works like “The Sky is Blue with a Single Cloud” and “Max,” the gender of many of Tsurita's strong and sensual protagonists is ambiguous, marking an early exploration of gender fluidity. Late stories like “Arctic Cold” and “Flight” show the artist experimenting with more conventional narrative modes, though with dystopian themes that extend the philosophical interests of her early work. An exciting and essential gekiga collection, The Sky is Blue with a Single Cloud is translated by the comics scholar Ryan Holmberg and includes an afterword cowritten by Holmberg and manga editor Mitsuhiro Asakawa delineating Tsurita's importance and historical relevance.

Moebius Library: The World of Edena

A mixture of humour, psychedelia, sex and space opera. The man from Ciguri is lost on an alternate Earth and desperately trying to find his way home, pursued by assassins sent on a vengeance mission by Sper Gossi.

The Incal: #2. John Difoole, class R detective

The Sky is Blue with a Single Cloud

Beginning Teacher's Field Guide

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

Collecting British Toby Jugs

Soul Midwives, a movement begun by Felicity Warner, has changed the face of modern holistic and spiritual palliative care in the UK and abroad. Soul Midwives are holistic and spiritual companions to the dying. They draw on traditional skills, now largely forgotten, applying them to our modern world to ease the passage of those who are dying. Their services are used within people's own homes, in hospices and in care homes. Anyone with an open and compassionate heart and a desire to help others can train to become a Soul Midwife. This book will guide you through the core principles and techniques of this practice.

Popular Science

Transformers: Identification and Price Guide is the ultimate reference for all Generation One (G1) Transformers figures released from 1984 - 1990. Featuring more than 1,200 color photographs, this unparalleled guide presents every character in robot and alternate modes with accessories. Individual character biographies are presented from the original Tech Specs and also include function, personal motto, and ability scores. Notes on character history - as presented in the Sunbow cartoon series and Marvel comic books - are complemented by expert commentary on character attributes and popularity on today's secondary market. Current values for all figures in varying condition grades assist collectors in determining the value of their collections. Collectors, toy dealers, casual fans, and everyone who

staged basement battles between the heroic Autobots and the evil Deceptions need an accurate identification and price guide to decipher the more than 300 G1 Transformers toys produced from 1984 - 1993. This is the definitive reference for your favorite "Robots in Disguise!"

The Academy

The #1 bestselling book on antiques and collectibles, this popular guide includes more than 50,000 items, with histories and background information on every subject. Hundreds of original photographs.

The Soul Midwives' Handbook

Presents a modern vision of anaesthesia, integrating technology and knowledge, to change how anaesthesia is taught and practised.

Transformers

A complementary volume to Dilly Fung's A Connected Curriculum for Higher Education (2017), this book explores 'research-based education' as applied in practice within the higher education sector. A collection of 15 chapters followed by illustrative vignettes, it showcases approaches to engaging students actively with research and enquiry across disciplines. It begins with one institution's creative approach to research-based education – UCL's Connected Curriculum, a conceptual framework for integrating research-based education into all taught programmes of study – and branches out to show how aspects of the framework can apply to practice across a variety of institutions in a range of national settings. The 15 chapters are provided by a diverse range of authors who all explore research-based education in their own way. Some chapters are firmly based in a subject-discipline – including art history, biochemistry, education, engineering, fashion and design, healthcare, and veterinary sciences – while others reach across geopolitical regions, such as Australia, Canada, China, England, Scotland and South Africa. The final chapter offers 12 short vignettes of practice to highlight how engaging students with research and enquiry can enrich their learning experiences, preparing them not only for more advanced academic learning, but also for professional roles in complex, rapidly changing social contexts.

Schroeder's Antiques Price Guide

Employing a practical and contextual approach, this student textbook covers developments in the self-regulation of corporate governance, which is becoming global due to the activities of the OECD and World Bank.

Personalized Anaesthesia

Treasures abound in the beautiful ceramic work of Charlotte Rhead and her brother William Hurton Rhead. This is the definitive work on this talented family and their highly collectible pieces. Beautiful photos and values listed in both pounds sterling and U.S. dollars.

Developing the Higher Education Curriculum

Make time for the things that really matter in life. Find balance and happiness in your daily life, the Scandinavian way, with The Scandinavian Guide to Happiness! There's a reason Finland, Denmark, Norway, Iceland, and Sweden consistently rank as the top 5 happiest countries on earth! Find out the secrets to their happiness and fulfillment in The Scandinavian Guide to Happiness, which shares centuries of Nordic wisdom, including: - Lykke: Happiness is all around you (Denmark) - Lagom: Just the right amount—not too much, not too little (Sweden) - Fika: Taking daily coffee breaks and other comforting rituals (Sweden) - Hygge: Coziness brings comfort, courage, and happiness (Denmark) - Sisu: Everyday courage, grit, and determination & acting rationally in the face of adversity These basic principles will help you see how to have a happy life without buying anything, changing yourself, or making any other crazy drastic changes! Topics include Simplicity, Happiness, Health & Wellness, Relationships, Nature-Inspired Living, and more. Full of inspiring, encouraging ideas—and charming illustrations!—this thoughtful Scandinavian guide is sure to put a happy glow on your life.

Hobbies

The Difficult Airway provides a comprehensive textual and visual coverage of how to deal with patients who have expected or unexpected difficult airways. The text begins with a description of the incidence and importance of the difficult airway and then describes the ASA Difficult Airway Algorithm created to facilitate the management of "difficult airways." The majority of the book features a comprehensive step-by-step approach to the rescue techniques listed as part of the ASA Algorithm. Noted experts in each of the techniques have been recruited by the book editors to present the information. Figures throughout the book illustrate important points and procedures. This is a wonderful resource for professionals in the health care field including anesthesiologists, intensive care physicians, emergency room physicians, nurses, and out-of-hospital first responders.

Company Law

This Open Access handbook published at the IAMG's 50th anniversary, presents a compilation of invited path-breaking research contributions by award-winning geoscientists who have been instrumental in shaping the IAMG. It contains 45 chapters that are categorized broadly into five parts (i) theory, (ii) general applications, (iii) exploration and resource estimation, (iv) reviews, and (v) reminiscences covering related topics like mathematical geosciences, mathematical morphology, geostatistics, fractals and multifractals, spatial statistics, multipoint geostatistics, compositional data analysis, informatics, geocomputation, numerical methods, and chaos theory in the geosciences.

Collecting Rhead Pottery

Indulge an appetite for beauty with this charming work on the Shelley Pottery—renowned for their fine English tableware and figurines in the 1920s and early 30s. This guide covers all the collectibles of the Shelley Pottery and provides values in both pounds sterling and U.S. dollars, and British pounds.

The Scandinavian Guide to Happiness

There is now a serious discussion taking place about the moment at which human beings will be surpassed and replaced by the machine. On the one hand we are designing machines which embed more and more human intelligence, but at the same time we are in danger of becoming more and more like machines. In these circumstances, we all need to consider: • What can we do? • What should we do? • What are the alternatives of doing it? This book is about the human-centred alternative of designing systems and technologies. This alternative is rooted in the European tradition of human-centredness which emphasises the symbiosis of human capabilities and machine capacity. The human-centred tradition celebrates the diversity of human skill and ingenuity and provides an alternative to the 'mechanistic' paradigm of 'one best way', the 'sameness of science' and the 'dream of the exact language'. This alternative vision has its origin in the founding European human-centred movements of the 1970s. These include the British movement of Socially Useful Technology, the Scandinavian movement of Democratic Participation, and the German movement of Humanisation of Work and Technology. The present volume brings together various strands of human-centred systems philosophy which span the conceptual richness and cultural diversity of the human-centred movements. The core ideas of human-centredness include human-machine symbiosis, the tacit dimension of knowledge, the system as a tool rather than a machine, dialogue, participation, social shaping and usability.

The Difficult Airway

The Handbook of Psychophysiology has been the authoritative resource for more than a quarter of a century. Since the third edition was published a decade ago, the field of psychophysiological science has seen significant advances, both in traditional measures such as electroencephalography, event-related brain potentials, and cardiovascular assessments, and in novel approaches and methods in behavioural epigenetics, neuroimaging, psychoneuroimmunology, psychoneuroendocrinology, neuropsychology, behavioural genetics, connectivity analyses, and non-contact sensors. At the same time, a thoroughgoing interdisciplinary focus has emerged as essential to scientific progress. Emphasizing the need for multiple measures, careful experimental design, and logical inference, the fourth edition of the Handbook provides updated and expanded coverage of approaches, methods, and analyses in the field. With state-of-the-art reviews of research in topical areas such as stress, emotion, development, language, psychopathology, and behavioural medicine, the Handbook remains the essential reference for students and scientists in the behavioural, cognitive, and biological sciences.

Handbook of Mathematical Geosciences

Autism spectrum disorders (ASDs) have been increasingly diagnosed in recent years and carries with it far reaching social and financial implications. With this in mind, educators, physicians, and parents are searching for the best practices and most effective treatments. But because the symptoms of ASDs span multiple domains (e.g., communication and language, social, behavioral), successfully meeting the needs of a child with autism can be quite challenging. Evidence-Based Practices and Treatments for Children with Autism offers an insightful and balanced perspective on topics ranging from the historical underpinnings of autism treatment to the use of psychopharmacology and the implementation of evidence-based practices (EBPs). An evaluation methodology is also offered to reduce the risks and inconsistencies associated with the varying definitions of key autism terminology. This commitment to clearly addressing the complex issues associated with ASDs continues throughout the volume and provides opportunities for further research. Additional issues addressed include: Behavioral excesses and deficits treatment Communication treatment Social awareness and social skills treatment Dietary, complementary, and alternative treatments Implementation of EBPs in school settings Interventions for sensory dysfunction With its holistic and accessible approach, Evidence-Based Practices and Treatments for Children with Autism is a vital resource for school psychologists and special education professionals as well as allied mental health professionals, including clinical child and developmental psychologists, psychiatrist, pediatricians, primary care and community providers.
