He Restoreth My Soul

Technology has accelerated our fascination with pleasure. Indeed, the power of pleasure has been underestimated, and Internet pornography is changing the world in a fundamental way. In this book, author Donald L. Hilton Jr., MD explores the destructive power of pornography addiction, not just from a moral and spiritual perspective, but with the scrutiny of modern science. Current research tells us that there is little difference in physical or chemical changes in the pleasure and control centers of the brain regardless of whether the addiction is "from a chemical or an experience," as stated in the journal Science. (Constance Holden, "Behavioral Addictions: Do They Exist? Science, 294 (5544) 2 November 2001, 980.) Relying on the latest research on addiction, and merging this knowledge with spiritual aspects of repentance and recovery, the author provides understanding and hope to those who seek healing and restoration of both body and spirit, which are the "soul of man."

What Can I Do about Him?

This book carefully walks someone struggling with pornography through the steps to recovery. Dr. Skinner discusses how pornography becomes a problem in the mind and how it becomes addictive. Then he teaches the reader how to rewrite the patterns in the mind. It closes with the key steps of recovery. Included in the book is a brief assessment tool "Assessing Pornography Addiction."

Treating Pornography Addiction

The author relates his journey out of addiction to pornography into recovery and freedom. He explains: Like Paul and Alma the Younger, who also spent a portion of their life in serious darkness and were delivered from it by Christ Himself, I am willing to allow my life to be an example of someone the Lord has rescued from the darkest abyss. Using the scriptures and teachings of Church leaders, Phil leads us through the process of coming unto Christ and having our burdens lifted. For those who have struggled with sexual addiction or any other overwhelming challenge, as well as for those who care about them, this book offers welcome help, guidance and hope.

Clean Hands, Pure Heart

Respect the Path is a gritty truth-telling companion book to any 12-Step Addiction Recovery effort for women. It is also a must-read for any woman who lives with or loves an addict and has suffered the abuses involved in such a relationship. Generally focused on the broad diversity of the Christian community, Michele pushes back on traditional Christian judgments about the "good or bad" direction anyone's path is currently taking. Working with women in over a thousand group and individual meetings has taught Michele that even the most depraved addict or the most horribly abused woman can find health and healing for her body, mind, and soul. "The Recovery path is grueling, exhausting, powerful, and glorious. Truth is, gloriousness can only come from growing out of that deprivation. Every path is

simply a valued, vital part of uncovering the magnificence that already existed within every woman. Work the path--believe that your path has value, no matter what! Yet valuing the path does not grant permission to stew in the juices of self-pity, blame, or self-righteous rationalizations. Rather, we dig deep for that dormant power of Queenship and go to work. We change ourselves and the world one day at a time. Respecting the path requires us to open our minds to new concepts and ideas about how we think about what we are thinking about." Michele has seen just as many lives brought to the brink of destruction by repetitive negative thinking patterns as by the ravages of any substance or behavioral addiction. Addiction patterns and negative thinking patterns can be overcome because the brain has a God-given healing power. God is in this work! Michele uses the term addiction in a broad non-condemning sense because ownership and accountability are essential to healing and finding the joy of Recovery. "The term addiction becomes our friend, our instructor--not a shame label--and it certainly does not define who we are. Rather, it is merely the path we have trod." Michele's favorite self-title is Addict-in-Recovery.

In *Traveling Soul*, Todd Mayfield tells his famously private father's story in riveting detail. Born into dire poverty, raised in the slums of Chicago, Curtis became a musical prodigy, not only singing like a dream but growing into a brilliant songwriter. In the 1960s he opened his own label and production company and worked with many other top artists, including the Staple Singers. Curtis's life was famously cut short by an accident that left him paralyzed, but in his declining health he received the long-awaited recognition of the music industry. Passionate, illuminating, vivid, and absorbing, *Traveling Soul* will doubtlessly take its place among the classics of music biography.

Godspell

This instant New York Times bestseller is an "inspiring and useful" (The Washington Post) guide to the art of leadership from David Gergen—former White House adviser to four US presidents, CNN analyst, and founder of the Harvard Center for Public Leadership. As nations careen from one crisis to the next, there is a growing cry for fresh leadership. Those in charge have relatedly fallen short, and trust in institutions have plummeted. So, what does great leadership look like? And how are great leaders made? David Gergen, a leader in the public arena for more than half a century, draws from his experiences as a White House adviser to four presidents, his decades as a trusted voice on national issues, and years of teaching and mentoring young people to offer a stirring playbook for the next generation of change-makers. To uncover the fundamental elements of effective leadership, Gergen travels the journeys of iconic leaders past and present, from pathbreakers like Ruth Bader Ginsburg, John Lewis, John McCain, and Harvey Milk to historic icons like Lincoln, John F. Kennedy, Winston Churchill, and Eleanor and Franklin Roosevelt, to contemporary game changers like Greta Thunberg, the Parkland students, and the Black Lives Matter movement. Leadership is a journey that starts from within, Gergen writes. A leader must become self-aware and then achieve self-mastery. You cannot lead others until you can lead yourself. As you start to leap into the world, you begin your outer journey, overcoming setbacks, persuading others, empowering them, and navigating crises—armed with a sense of history, humor, passion, and purpose. By linking lessons of the past with the ever-changing practice of leadership today, Gergen reveals the time-tested secrets of dynamic leadership. A "clarion call for lives dedicated to service and leadership" (Doris Kearns Goodwin, Pulitzer Prize—winning author of Leadership), Hearts Touched with Fire distills experience and wisdom of the past into an invaluable guide for leaders of our future

Slow Violence and the Environmentalism of the Poor

With a new afterword by the author, this classic analysis of Western liberal capitalist society contends that capitalism—and the culture it creates—harbors the seeds of its own downfall by creating a need among successful people for personal gratification—a need that corrodes the work ethic that led to their success in the first place. With the end of the Cold War and the emergence of a new world order, this provocative manifesto is more relevant than ever.

Mysticism

"The great pleasure of this book is the writing itself. Not only is it free of academic and 'lit-crit' jargon, it is lively prose, often deliciously witty or humorous, and utterly contemporary. Poetry's Afterlife has terrific classroom potential, from elementary school teachers seeking to inspire creativity in their students, to graduate students in MFA programs, to working poets who struggle with the aesthetic dilemmas Stein elucidates, and to teachers of poetry on any level." --- Beckian Fritz Goldberg, Arizona State University

"Kevin Stein is the most astute poet-critic of his generation, and this is a crucial book, confronting the most vexing issues which poetry faces in a new century." ---David Wojahn, Virginia Commonwealth University

At a time when most commentators fixate on American poetry's supposed "death," Kevin Stein's *Poetry's Afterlife* instead proposes the vitality of its aesthetic hereafter. The essays of *Poetry's Afterlife* blend memoir, scholarship, and personal essay to survey the current poetry scene, trace how we arrived here, and suggest where poetry is headed in our increasingly digital culture. The result is a book both fetchingly insightful and accessible. Poetry's spirited afterlife has come despite, or perhaps because of, two decades of commentary diagnosing American poetry as moribund if not already deceased. With his 2003 appointment as Illinois Poet Laureate and his forays into public libraries and schools, Stein has discovered that poetry has not given up its literary ghost. For a fated art supposedly pushing up aesthetic daisies, poetry these days is up and about in the streets, schools, and universities, and online in new and compelling digital forms. It flourishes among the people in a lively if curious underground existence largely overlooked by national media. It's this second life, or better, *Poetry's Afterlife*, that his book examines and celebrates. Kevin Stein is Caterpillar Professor of English and Director of the Creative Writing Program at Bradley University and has served as Illinois Poet Laureate since 2003, having assumed the position formerly held by Gwendolyn Brooks and Carl Sandburg. He is the author of numerous books of poetry and criticism. digitalculturebooks is an imprint of the University of Michigan Press and the Scholarly Publishing Office of the University of Michigan Library dedicated to publishing innovative and accessible work exploring new media and their impact on society, culture, and scholarly communication. Doctrinal Commentary on the BK of Mormon

Tackling the myth of a post-racial society Praised by a wide variety of people from Ta-Nehisi Coates to Zadie Smith, *Racecraft* "ought to be positioned," as Bookforum put it, "at the center of any discussion of race in American life." Most people assume racism grows from a perception of human difference: the fact of race gives rise to the practice of racism. Sociologist Karen E. Fields and historian Barbara J. Fields argue otherwise: the practice of racism produces the illusion of race, through what they call "racecraft." And this phenomenon is intimately entwined with other forms of inequality in American life. So pervasive are the devices of racecraft in American history, economic doctrine, politics, and everyday thinking that the presence of racecraft itself goes unnoticed. That the promised post-racial age has not dawned, the authors argue, reflects the failure of Americans to develop a legitimate language for thinking about and discussing inequality. That failure should worry everyone who cares about democratic institutions.
