### Nazis in Newark

"Well researched, readable, and very interesting" --Choice "Nazis in Newark is a model local history that reaches well beyond the border of Essex County, New Jersey, to the national and international arenas. By recounting so many sides of the complicated encounter between Nazis and Jews in Newark, Warren Grover has fashioned a world of street politics, boycotts, Nazi louts and Jewish bruisers that is as compelling and telling in its detail as any grand tome on the supposed failures and successes of American Jewish resistance to the Holocaust... I recommend Nazis in Newark. I intend to use it as a cornerstone of my teaching for some time to come." --Professor Michael Alexander The Jewish Quarterly Review "Very few people today realize that the U.S. mainland was the scene of battles against the Nazis. Warren Grover has produced an outstanding work on this subject. The writing is incisive, the ideas are both original and insightful and the thesis masterfully developed and executed. Must reading for anyone interested in American history and ethnic studies." --William B. Helmreich, CUNY Graduate Center and author of The Enduring Community "Thanks to tenacious research and deft story-telling, Warren Grover has put the politics of extremism in one city in the shadow of Fascism, Nazism and Communism, and has thus illuminated the terrible dilemmas of the 1930s. His book also compels the reader to consider an historical anomaly: champions of the Third Reich come across as victims whose civil liberties were infringed, and the gangs of Newark responsible for these violations tended to be Jewish. Such ironies make Nazis in Newark worth the interest of anyone intrigued by ethnic conflict and political violence in urban America." --Stephen Whitfield, Max Richter Professor of American Civilization, Brandeis University "In this fast-paced, thorough study of anti-Nazism in Newark, scholar Warren Grover tells th

### Gangsters Vs. Nazis

The stunning true story of the rise of Nazism in America in the years leading to WWII—and the fearless Jewish gangsters and crime families who joined forces to fight back. With an intense cinematic style, acclaimed nonfiction crime author Michael Benson reveals the thrilling role of Jewish mobsters like Bugsy Siegel in stomping out the terrifying tide of Nazi sympathizers during the 1930s and 1940s.

Goodreads Top Nonfiction of 2022 “[A] masterpiece. One of the most rivetingly relevant reads I’ve ever encountered.” —Jon Land, Providence Journal As Adolph Hitler rose to power in 1930s Germany, a growing wave of fascism began to take root on American soil. Nazi activists started to gather in major American cities, and by 1933, there were more than one-hundred anti-Semitic groups operating openly in the United States. Few Americans dared to speak out or fight back—until an organized resistance of notorious mobsters waged their own personal war against the Nazis in their midst. Gangland-style. . . . In this thrilling blow-by-blow account, acclaimed crime writer Michael Benson uncovers the shocking truth about the insidious rise of Nazism in America—and the Jewish mobsters who stomped it out. Learn about: \* Nazi Town, USA: How one Long Island community named a street after Hitler, decorated buildings with swastikas, and set up a camp to teach US citizens how to goosestep. \* Meyer Lansky and Murder Inc.: How a Jewish mob accountant led fifteen goons on a joint family mission to bust heads at a Brown Shirt rally in Manhattan. \* Fritz Kuhn, “The Vest-Pocket Hitler”: How a German immigrant spread Nazi propaganda through the American Bund in New York City—with 70 branches across the US. \* Newark Nazis vs The Minutemen: How a Jewish resistance group, led by a prize fighter and bootlegger for the mob, waged war on the Bund in the streets of Newark. \* Hitler in Hollywoodland: How Sunset Strip kingpin Mickey Cohen knocked two Brown Shirts’ heads together—and became the West Coast champion in the mob’s war on Nazis. Packed with surprising, little-known facts, graphic details, and unforgettable personalities, *Gangsters vs. Nazis* chronicles the mob’s most ruthless tactics in taking down fascism—inspiring ordinary Americans to join them in their fight. The book culminates in one of the most infamous events of the pre-war era—the 1939 Nazi rally in Madison Square Garden—in which law-abiding citizens stood alongside hardened criminals to fight for the soul of a nation. This is the story of the mob that’s rarely told—one of the most fascinating chapters in American history and American organized crime. “A must-read.” —Larry Alexander, New York Times bestselling author of *Biggest Brother: The Life of Major Dick Winters, the Man Who Led the Band of Brothers* “A fascinating and entertaining read.” —The Epoch Times

#### Newark Minutemen

#1 bestseller and soon to be motion picture, *Newark Minutemen* has bridged generations. The epic based-on-true story of forbidden love and unholy heroism is set against the backdrop of an America ripped apart by the Great Depression and on the brink of war. Newark, NJ, 1938. Millions are out of work and robbed of dignity. A shadow Hitler-Nazi party called the German-American Bund that is led by an American Fuhrer threatens to swallow democracy. In this dangerous time of star-spangled fascism, a romance forms between the Jewish boxer, Yael and the daughter of the enemy, Krista. But 1930s America pulls them apart as Krista’s people want Yael’s dead. Then Yael is recruited by the mob to go undercover for the FBI against her people and bring down the German-American Bund. Author Leslie K. Barry captures an authentic and brave portrait of a lost America searching for identity, preserving legacy and saving its soul. It is a heartbreaking novel that crosses generations as it honors the fragility of freedom.

#### Swastika Nation

In the late 1930s, the German–American Bund, led by its popinjay dictator Fritz Kuhn, was a small but powerful national movement in pre-World War II America, determined to conquer the United States government with a fascist dictatorship. They met in private social halls and beer garden backrooms, gathered at private resorts and public rallies, developed their own version of the SS and Hitler Youth, published a national newspaper and—for a brief moment of their own imagined glory—seemed poised to make an impact on American politics. But while the American Nazi leadership dreamed of their Swastika Nation, an amalgamation of politicians, a rising legal star, an ego-charged newspaper columnist, and denizens of the criminal underworld utilized their respective means and muscle to bring down the movement and its dreams of a United Reich States. *Swastika Nation* by Arnie Bernstein is a story of bad guys, good guys, and a few guys who fell somewhere in-between. The rise and fall of Fritz Kuhn and his German-American Bund at the hands of these disparate fighters is a sometimes funny, sometimes harrowing, and always compelling story from start to finish.

#### The Plot Against America

‘He captures better than anyone the collision of public and private, the intrusion of history into the skin, the pores of every individual alive’ Guardian ‘Though on the morning after the election disbelief prevailed, especially among the pollsters, by the next everybody seemed to understand everything...’

When celebrity aviator, Charles A. Lindbergh, wins the 1940 presidential election on the slogan of 'America First', fear invades every Jewish household. Not only has Lindbergh blamed the Jews for pushing America towards war with Germany, he has negotiated an 'understanding' with the Nazis promising peace between the two nations. Growing up in the 'ghetto' of Newark, Philip Roth recounts his childhood caught in the stranglehold of this counterfactual nightmare. As America sinks into its own dark metamorphosis and Jewish families are torn apart, fear and uncertainty spread. Who really is President Lindbergh? And to what end has he hijacked America? \_\_\_\_\_

'Many passages in *The Plot Against America* echo feelings voiced today by vulnerable Americans - immigrants and minorities as alarmed by Trump's election as the Jews of Newark are frightened by Lindbergh's' *New Yorker* \*\*ONE OF THE GUARDIAN'S 100 BEST BOOKS OF THE 21st CENTURY\*\*

### Summary of Michael Benson's *Gangsters vs. Nazis*

Please note: This is a companion version & not the original book. Sample Book Insights: #1 The Jewish migration to America began in the nineteenth century, and by the 1920s, there were four million Jews in the country. While some Jews' lives were dominated by Old World religious practices, there were also teenaged boys who sought to avoid a life of shopkeeping or factory drudgery and instead pursue careers in crime. #2 The Jewish gangsters that the boys admired were not afraid of danger, and they were often the danger. They were not cowering behind a desk, they were wading into fights and tossing people on their ears into the street. #3 Jewish gangsters and their Italian cousins ruled the underworld, and many young Jewish boys found a brotherhood in the gangs. As the fascist menace grew in New York, Meyer Lansky became the nation's top Jewish gangster. #4 Fascist ideology is based on the belief that a dictator is better than an elected one because many voters are enemies of the people and need to be oppressed. It requires a strong leader and a weaker scapegoat. In Germany, Hitler became the dictator and Jews the scapegoat.

### Mafia Allies

How the rise and ultimate defeat of Fascism in Italy affected the Mafia—a provocative and little-known chapter in the history of WWII, and of organized crime.

### Between Dignity and Despair

*Between Dignity and Despair* draws on the extraordinary memoirs, diaries, interviews, and letters of Jewish women and men to give us the first intimate portrait of Jewish life in Nazi Germany. Kaplan tells the story of Jews in Germany not from the hindsight of the Holocaust, nor by focusing on the persecutors, but from the bewildered and ambiguous perspective of Jews trying to navigate their daily lives in a world that was becoming more and more insane. Answering the charge that Jews should have left earlier, Kaplan shows that far from seeming inevitable, the Holocaust was impossible to foresee precisely because Nazi repression occurred in irregular and unpredictable steps until the massive violence of November 1938. Then the flow of emigration turned into a torrent, only to be stopped by the war. By that time Jews had been evicted from their homes, robbed of their possessions and their livelihoods, shunned by their former friends, persecuted by their neighbors, and driven into forced labor. For those trapped in Germany, mere survival became a nightmare of increasingly desperate options. Many took their own lives to retain at least some dignity in death; others went underground and endured the fears of nightly bombings and the even greater terror of being discovered by the Nazis. Most were murdered. All were pressed to the limit of human endurance and human loneliness. Focusing on the fate of families and particularly women's experience, *Between Dignity and Despair* takes us into the neighborhoods, into the kitchens, shops, and schools, to give us the shape and texture, the very feel of what it was like to be a Jew in Nazi Germany.

### The Mafia at War

The Mafia is the most powerful criminal organisation the world has ever known. This book tells the epic story of how the Mafia was nearly destroyed by Mussolini, prospered in the US, struck a secret wartime deal with the US government, and then backed a bloody rebellion that nearly turned Sicily into an independent Mafia realm. It shows how Lucky Luciano won his freedom thanks to mobster help in WWII; how Jewish gangsters clashed with Nazis on the streets of New York; how Mafiosi nearly issued contracts to kill top Nazis including Hitler; how British bobbies patrolled the deadly streets of Palermo; and how Mafia-backed bandits conducted a guerrilla war for Sicilian independence. *The Mafia at War* is a provocative account of how a criminal organisation exploited the grim realities of World War II to

revive its fortunes and dominate global crime. 'A fascinating and compelling work on three of the most evil movements of the 20th century. It ought to be required reading for anyone looking for insights into the period.' Richard Hammer

### The Jewish Enemy

The sheer magnitude of the Holocaust has commanded our attention for the past sixty years. The extent of atrocities, however, has overshadowed the calculus Nazis used to justify their deeds. According to German wartime media, it was German citizens who were targeted for extinction by a vast international conspiracy. Leading the assault was an insidious, belligerent Jewish clique, so crafty and powerful that it managed to manipulate the actions of Roosevelt, Churchill, and Stalin. Hitler portrayed the Holocaust as a defensive act, a necessary move to destroy the Jews before they destroyed Germany. Joseph Goebbels, Minister of Propaganda, and Otto Dietrich's Press Office translated this fanatical vision into a coherent cautionary narrative, which the Nazi propaganda machine disseminated into the recesses of everyday life. Calling on impressive archival research, Jeffrey Herf recreates the wall posters that Germans saw while waiting for the streetcar, the radio speeches they heard at home or on the street, the headlines that blared from newsstands. *The Jewish Enemy* is the first extensive study of how anti-Semitism pervaded and shaped Nazi propaganda during World War II and the Holocaust, and how it pulled together the diverse elements of a delusory Nazi worldview. Here we find an original and haunting exposition of the ways in which Hitler legitimized war and genocide to his own people, as necessary to destroy an allegedly omnipotent Jewish foe. In an era when both anti-Semitism and conspiracy theories continue to influence world politics, Herf offers a timely reminder of their dangers along with a fresh interpretation of the paranoia underlying the ideology of the Third Reich.

### Hitler's Plans for Global Domination

"It is high time that this extremely important, well researched, and soundly argued book on the real goals of Adolf Hitler be made accessible to the English-speaking public. At a time when one can still see foolish assertions about his wanting to revise the 1919 peace settlement, it will be especially useful for Americans to read about his concept of world domination and plans to implement it." . Gerhard Weinberg, University of North Carolina, Chapel Hill What did Hitler really want to achieve: world domination. In the early twenties, Hitler was working on this plan and from 1933 on, was working to make it a reality. During 1940 and 1941, he believed he was close to winning the war. This book not only examines Nazi imperial architecture, armament and plans to regain colonies but also reveals what Hitler said in moments of truth. The author presents many new sources and information, including Hitler's little known intention to attack New York City with long-range bombers in the days of Pearl Harbor."

### Baseball, Nazis & Nedick's Hot Dogs: Growing Up Jewish in the 1930s in Newark

In his memoir, the longtime Newark resident and local sportswriter, now in his nineties and still active as a columnist for the New Jersey Star-Ledger, looks back on his first two formative decades of life.

### Germany Must Perish!

This March 1941 book-written by a New Jersey Jewish-German émigré-caused a storm in Germany and America with its open advocacy of the physical extermination of all Germans and Germany itself. This was to be achieved through a process of mass sterilization, and the physical dismemberment of that country. Arguing that Nazism was in fact just another expression of militant Germanism, the author said that the Germans would never change and the only way to end the ongoing struggle was to end Germany and the German people. Because of Kaufman's claimed links to the policy advisors of the American president, Nazi Propaganda Minister Joseph Goebbels used the book to help encourage Germans to fight to the last. Ironically, significant sections of Kaufman's book, despite being dismissed as the work of a loner, came true. At least 12 million Germans were expelled from their land following the end of the war, and their deportation became the single largest transfer of any population in modern European history, and one-third of German territory was ethnically cleansed of Germans and permanently seized. Although the sterilization plan was never implemented, the collapse in the German birth rate, predicted by the author, has occurred, and even this part of the plan seems set to become reality. As the author wrote: "Of course, after complete sterilization, there will cease to be a birth rate in Germany. At the normal death rate of 2 per cent per annum, German life will diminish at the rate of 1,500,000 yearly. Accordingly in the span of two generations that which cost millions of lives

and centuries of useless effort, namely, the elimination of Germanism and its carriers, will have been an accomplished fact." A SENSATIONAL IDEA!-Time Magazine A PLAN FOR PERMANENT PEACE AMONG CIVILIZED NATIONS! -New York Times This is an exact reproduction of the 1941 original, digitally reprocessed to the highest standards.

### Not Me

Not Me is a remarkable debut novel that tells the dramatic and surprising stories of two men—father and son—through sixty years of uncertain memory, distorted history, and assumed identity. When Heshel Rosenheim, apparently suffering from Alzheimer's disease, hands his son, Michael, a box of moldy old journals, an amazing adventure begins—one that takes the reader from the concentration camps of Poland to an improbable love story during the battle for Palestine, from a cancer ward in New Jersey to a hopeless marriage in San Francisco. The journals, which seem to tell the story of Heshel's life, are so harrowing, so riveting, so passionate, and so perplexing that Michael becomes obsessed with discovering the truth about his father. As Michael struggles to come to grips with his father's elusive past, a world of complex and disturbing possibilities opens up to him—a world in which an accomplice to genocide may have turned into a virtuous Jew and a young man cannot recall murdering the person he loves most; a world in which truth is fiction and fiction is truth and one man's terrible—or triumphant—transformation calls history itself into question. Michael must then solve the biggest riddle of all: Who am I? Intense, vivid, funny, and entirely original, Not Me is an unsparing and unforgettable examination of faith, history, identity, and love.

### Boardwalk Gangster

For the first twenty-five years of his criminal career, Charles "Lucky" Luciano was a vicious mobster who rose to become the multimillionaire king of the New York underworld. For the next twenty-five years of his life, Luciano was a legend---but a fake master criminal without real power, his evil reputation manipulated and maintained by the government agents who had put him behind bars. Drawing on secret government documents from archives in the United States and Europe, this myth-busting biography tells the real story from Luciano's early days as a top hit man for the Mob to his exploits running sex and narcotics empires. His criminal career abruptly ended with conviction and imprisonment, but his reputation was only enhanced by rumors that he was winning World War II for the Allies in Sicily and the Mediterranean. Now, for the first time, author Tim Newark exposes the truth about what Luciano really did do to help the Allies in the war. With his expulsion from the United States after the war ended, Luciano returned to Italy. He was reputed to have overseen a massive transatlantic narcotics network and became the arch-villain for international law enforcement agencies. But Newark reveals how Luciano really spent his twilight years. Lucky Luciano: The Real and the Fake Gangster turns accepted Mafia history on its head with an extraordinary story that has never been told before.

### Defying Hitler

An absolute classic of autobiography and history - one of the few books to explore how and why the Germans were seduced by Hitler and Nazism. 'If you have never read a book about Nazi Germany before, or if you have already read a thousand, I would urge you to read DEFYING HITLER. It sings with wisdom and understanding' DAILY MAIL Sebastian Haffner was a non-Jewish German who emigrated to England in 1938. This memoir (written in 1939 but only published now for the first time) begins in 1914 when the family summer holiday is cut short by the outbreak of war, and ends with Hitler's assumption of power in 1933. It is a portrait of himself and his own generation in Germany, those born between 1900 and 1910, and brilliantly explains through his own experiences and those of his friends how that generation came to be seduced by Hitler and Nazism. The Germans lacked an outlet for self-expression: where the French had amour, food and wine, and the British their gardens and their pets, the Germans had nothing, leading to a tendency towards mass psychosis. The upheaval of post-WWI revolution, factionalism and inflation left the Germans addicted to excitement and action: Hitler provided this, and more.

### The Fruits of Fascism

The West German "economic miracle," Simon Reich suggests, may be best understood as a result of the discriminatory economic policies of the Nazi regime. Reich contends that ideological and institutional characteristics originating under fascism were sustained despite Germany's return to democracy and heavily influenced the economic success of its automobile industry. By contrast, the

liberal economic policies of the British state led in time to the decline of an industrial sector that in 1930 had closely resembled its German counterpart. Through detailed comparative histories of German and British automobile firms, Reich challenges traditional explanations of the divergent performances of the two nations' economies and sheds new light on the relationship between state policy and economic success in pre- and postwar Europe. Liberal, nondiscriminatory British policies favorable to multinational investment contributed significantly to the decline of domestic firms, he argues, so that eventually multinationals could threaten the health of the entire British economy by investing elsewhere. The Nazi state, however, thwarted the development of American subsidiaries and fostered a core of producers, government officials, bankers, and labor union leaders.

### The Mafia at War

Drawing on a wealth of eyewitness accounts, contemporary reports, and declassified intelligence documents, some never published before, *The Mafia at War* reconstructs the relationships between the Mafia and Allied intelligence organizations. Discover how Jewish gangsters clashed with Nazis on the streets of New York; how Mafiosi nearly issued contracts to kill top Nazis, including Hitler; how Mafia-backed bandits conducted a guerrilla war for Sicilian independence; and how Eisenhower was happy to arm the Mafia during the Allied invasion of Sicily. Uncovering the extraordinary secrets of this collaboration, Newark provides crucial insight into both the history of World War II and how the Mafia came to dominate global crime in the post-war world.

### Tapping Hitler's Generals

These transcripts of wiretapped conversations between Nazi officers reveal “a fascinating—and chilling—insight into the German view of the war” (*Financial Times*). Between 1939 and 1942, the British Directorate of Military Intelligence created a number of POW interrogation camps in and around London where they secretly recorded private conversations between senior German staff officers. In this extraordinary work, historian Sonke Neitzel examines these transcripts in depth and presents the private thoughts, opinions, and secrets of Nazi officers during the Second World War. These transcripts address important questions regarding the officers' attitudes towards the German leadership and Nazi policies: How did the German generals judge the overall war situation? From what date did they consider it lost? How did they react to the attempt on Hitler's life in July 1944? What knowledge did they have of the atrocities? By turns insightful and horrifying, this unprecedented research is a must for any serious scholar of the period. “A goldmine of information about what the German High Command privately thought of the war, Adolf Hitler, the Nazis and each other.” —*Daily Mail*

### Seducing and Killing Nazis: Hannie, Truus and Freddie: Dutch Resistance Heroines of WWII

This is the astonishing true story of three teenage Dutch girls, Hannie Schaft and sisters Truus and Freddie Oversteegen, that has inspired many throughout the world. When Nazi Germany invaded the Netherlands in World War II, these girls took up arms against the enemy by seducing high-ranking Nazi officers, luring them into the woods and killing them. They provided Jewish children with safe houses and gathered vital intelligence for the resistance. They did what they did “because it had to be done.” Above all, they tried to remain human in inhuman circumstances. Hannie Schaft was executed by the Nazis three weeks before the end of the war and became the icon of female Dutch resistance. Truus and Freddie Oversteegen survived the war, but were forever haunted by the demons of their past.

### Loss & Legacy: The Half-Century Quest To Reclaim A Birthright Stolen By The Nazis

Jochen Gronner wanted justice: to reclaim a landmark store that had been confiscated from his family by the Nazis, and to restore his family's good name in the German town of Ilmenau. His journalist son, Sam A. Gronner, tells his compelling and moving story with pride and restraint. And Sam's quest to document his father's story is a riveting read all its own. “*Loss & Legacy* is a book that highlights both a significant chapter of the Holocaust and the Second Generation's need to come to terms with their parents' ordeals.

### In the Godfather Garden

*In the Godfather Garden* is the true story of the life of Richie “the Boot” Boiardo, one of the most powerful and feared men in the New Jersey underworld. The Boot cut his teeth battling the Jewish gang lord Abner Longy Zwillman on the streets of Newark during Prohibition and endured to become one of the

East Coast's top mobsters, his reign lasting six decades. To the press and the police, this secretive Don insisted he was nothing more than a simple man who enjoyed puttering about in his beloved vegetable garden on his Livingston, New Jersey, estate. In reality, the Boot was a confidante and kingmaker of politicians, a friend of such celebrities as Joe DiMaggio and George Raft, an acquaintance of Joseph Valachi—who informed on the Boot in 1963—and a sworn enemy of J. Edgar Hoover. The Boot prospered for more than half a century, remaining an active boss until the day he died at the age of ninety-three. Although he operated in the shadow of bigger Mafia names across the Hudson River (think Charles "Lucky" Luciano and Louis "Lepke" Buchalter, a cofounder of the Mafia killer squad Murder Inc. with Jacob "Gurrah" Shapiro), the Boot was equally as brutal and efficient. In fact, there was a mysterious place in the gloomy woods behind his lovely garden—a furnace where many thought the Boot took certain people who were never seen again. Richard Linnett provides an intimate look inside the Boot's once-powerful Mafia crew, based on the recollections of a grandson of the Boot himself and complemented by never-before-published family photos. Chronicled here are the Prohibition gang wars in New Jersey as well as the murder of Dutch Schultz, a Mafia conspiracy to assassinate Newark mayor Kenneth Gibson, and the mob connections to several prominent state politicians. Although the Boot never saw the 1972 release of *The Godfather*, he appreciated the similarities between the character of Vito Corleone and himself, so much so that he hung a sign in his beloved vegetable garden that read "The Godfather Garden." There's no doubt he would have relished David Chase's admission that his muse in creating the HBO series *The Sopranos* was none other than "Newark's erstwhile Boiardo crew."

#### Joachim Prinz, Rebellious Rabbi

Joachim Prinz (1902–1988) was one of the most extraordinary and innovative figures in modern Jewish history. Never one for conformity, Prinz developed and modeled a new rabbinical role that set him apart from his colleagues in Weimar Germany. Provocative, strikingly informal and determinedly anti-establishment, he repeatedly stirred up controversy. During the Hitler years, Prinz strove to preserve the self-respect and dignity of a Jewish community that was vilified on a daily basis by Nazi propaganda. After immigrating to the United States in 1937, he soon became a prominent rabbi in New Jersey, drawing thousands to his unpredictable sermons. Prinz's autobiography, superbly introduced and annotated by Michael A. Meyer, offers a fascinating glimpse into the life and personality of this unconventional and influential rabbi.

#### Louis Bamberger

Louis Bamberger (1855-1944) was the epitome of the merchant prince as public benefactor. Born in Baltimore, this son of German immigrants built his business - the great, glamorous L. Bamberger & Co. department store in Newark, N.J. - into the sixth-largest department store in the country. A multimillionaire by middle age, he joined the elite circle of German Jews who owned Macy's, Bloomingdale's, and Filene's. Despite his vast wealth and local prominence, Bamberger was a reclusive figure who shunned the limelight, left no business records, and kept no diaries. He remained a bachelor and kept his private life and the rationale for his business decisions to himself. Yet his achievements are manifold. He was a merchandising genius whose innovations, including newspaper and radio ads and brilliant use of window and in-store displays, established the culture of consumption in twentieth-century America. His generous giving, both within the Jewish community and beyond it, created institutions that still stand today: the Newark YM-YWHA, Beth Israel Hospital, and the Newark Museum. Toward the end of his career, he financed and directed the creation of the Institute for Advanced Study at Princeton, which led to a friendship with Albert Einstein. Despite his significance as business innovator and philanthropist, historians of the great department stores have paid scant attention to Bamberger. This full-length biography will interest historians as well as general readers of Jewish history nationally, New Jerseyans fascinated by local history, and the Newarkers for whom Bamberger's was a beloved local institution.

#### Hitler's Furies

A history of German women in the Holocaust reveals their roles as plunderers, witnesses, and actual executioners on the Eastern front, describing how nurses, teachers, secretaries, and wives responded to what they believed to be Nazi opportunities only to perform brutal duties.

#### Encyclopedia of the Holocaust

Encyclopedia of the Holocaust is a comprehensive, authoritative one-volume reference that provides reliable information on this ignoble and frightening episode of modern history. It features eight essays on the history of the Holocaust and its antecedents, as well as coverage of such topics as the history of European Jewry, Jewish contributions to European culture, and the rise of anti-semitism and Nazism. The essays are followed by more than 650 entries on significant aspects of the Holocaust, including people, cities and countries, camps, resistance movements, political actions, and outcomes. More than 300 black-and-white photographs from the archives at Yad Vashem bear witness to the horrors of the Nazi regime and at the same time attest to the invincibility of the human spirit. Best Specialist Reference Work of the Year - Reference Reviews UK

### Philosophy of Antifascism

On January 20th, 2017, during an interview on the streets of Washington D.C., white nationalist Richard Spencer was punched by an anonymous antifascist. The moment was caught on video and quickly went viral, and soon “punching Nazis” was a topic of heated public debate. How might this kind of militant action be conceived of, or justified, philosophically? Can we find a deep commitment to antifascism in the history of philosophy? Through the existentialism of Simone de Beauvoir, with some reference to Fanon and Sartre, this book identifies the philosophical reasons for the political action being enacted by contemporary antifascists. In addition, using the work of Jacques Rancière, it argues that the alt-right and the far right aren't a kind of politics at all, but rather forms of paramilitary mobilization aimed at re-entrenching the power of the state and capital. Devin Shaw argues that in order to resist fascist mobilization, contemporary movements find a diversity of tactics more useful than principled nonviolence. Antifascism must focus on the systemic causes of the re-emergence of fascism, and thus must fight capital accumulation and the underlying white supremacism. Providing new, incisive interpretations of Beauvoir, existentialism, and Rancière, he makes the case for organizing a broader militant movement against fascism.

### Lucky Luciano

Charles 'Lucky' Luciano was a vicious mobster who rose to become the multimillionaire king of the New York underworld. He was a legend - but also a fake master criminal without real power, his reputation manipulated and maintained by the government agents who had put him behind bars. Drawing on secret government documents from archives in America and Europe, this myth-busting biography tells Luciano's real story, from his early days as a top hit man for the mob to his exploits running sex and narcotics empires and revelations about his trip to Nazi Germany to set up a drugs importing racket. His career abruptly halted by imprisonment, Luciano's reputation was enhanced by rumours that he was helping to win the Second World War for the Allies in Sicily and the Mediterranean. Through painstaking research, Newark exposes the truth about what Luciano really did during the war. Expelled from the US in 1946, Luciano returned to Italy, where he was reputed to head a massive transatlantic narcotics network. In a complex conspiracy, he became a victim of the far greater powers around him, and Newark provides evidence that, at one time, he was even working as a Cold War agent, helping the US government fight Communism in Sicily. Lucky Luciano: Mafia Murderer and Secret Agent turns accepted Mafia history on its head with an extraordinary story that has never been told before.

### Roth after Eighty

Roth after Eighty offers a retrospective reading of the career and works of American author, Philip Roth. Drawing on eleven original essays from experts in the field of Roth studies from several national perspectives, this collection argues for a consideration of Roth's “retirement” as another phase of his career.

### The Bastard Brigade

Scientists have always kept secrets. But rarely in history have scientific secrets been as vital as they were during World War II. In the midst of planning the Manhattan Project, the U.S. Office of Strategic Services created a secret offshoot - the Alsos Mission - meant to gather intelligence on and sabotage if necessary, scientific research by the Axis powers. What resulted was a plot worthy of the finest thriller, full of spies, sabotage, and murder. At its heart was the 'Lightning A' team, a group of intrepid soldiers, scientists, and spies - and even a famed baseball player - who were given almost free rein to get themselves embedded within the German scientific community to stop the most terrifying threat of the war: Hitler acquiring an atomic bomb of his very own. While the Manhattan Project and other

feats of scientific genius continue to inspire us today, few people know about the international intrigue and double-dealing that accompanied those breakthroughs. *Bastard Brigade* recounts this forgotten history, fusing a non-fiction spy thriller with some of the most incredible scientific ventures of all time.

### Hitler's American Friends

A book examining the strange terrain of Nazi sympathizers, nonintervention campaigners and other voices in America who advocated on behalf of Nazi Germany in the years before World War II. Americans who remember World War II reminisce about how it brought the country together. The less popular truth behind this warm nostalgia: until the attack on Pearl Harbor, America was deeply, dangerously divided. Bradley W. Hart's *Hitler's American Friends* exposes the homegrown antagonists who sought to protect and promote Hitler, leave Europeans (and especially European Jews) to fend for themselves, and elevate the Nazi regime. Some of these friends were Americans of German heritage who joined the Bund, whose leadership dreamed of installing a stateside Führer. Some were as bizarre and hair-raising as the Silver Shirt Legion, run by an eccentric who claimed that Hitler fulfilled a religious prophesy. Some were Midwestern Catholics like Father Charles Coughlin, an early right-wing radio star who broadcast anti-Semitic tirades. They were even members of Congress who used their franking privilege—sending mail at cost to American taxpayers—to distribute German propaganda. And celebrity pilot Charles Lindbergh ended up speaking for them all at the America First Committee. We try to tell ourselves it couldn't happen here, but Americans are not immune to the lure of fascism. *Hitler's American Friends* is a powerful look at how the forces of evil manipulate ordinary people, how we stepped back from the ledge, and the disturbing ease with which we could return to it.

### Secret Armies

DigiCat Publishing presents to you this special edition of "Secret Armies" (The New Technique of Nazi Warfare) by John L. Spivak. DigiCat Publishing considers every written word to be a legacy of humankind. Every DigiCat book has been carefully reproduced for republishing in a new modern format. The books are available in print, as well as ebooks. DigiCat hopes you will treat this work with the acknowledgment and passion it deserves as a classic of world literature.

### Human Cargo

A new edition of this seminal book, now with a new introduction by the author on the current crisis. How can society cope with the diaspora of the twenty-first century? Is there a difference between 'good' asylum seekers and 'bad' economic migrants? What happens to those whose applications are turned down? Caroline Moorehead has visited war zones, camps and prisons from Guinea and Afghanistan to Australia and Italy. She has interviewed emigration officials and members of the United Nations High Commission for Refugees while investigating the fates of the millions of people currently displaced from their homes. *Human Cargo* is both a remarkable exploration into the current crisis and a celebration of the courage of ordinary people.

### The Enduring Community

From its founding in the late seventeenth century, Newark, New Jersey, was a vibrant and representative center of Jewish life in America. Geographically and culturally situated between New York City and its outlying suburbs, Newark afforded Jewish residents the advantages of a close-knit community along with the cultural abundance and social dynamism of urban life. In Newark, all of the representative stages of modern Jewish experience were enacted, from immigration and acculturation to upward mobility and community building. *The Enduring Community* is a lively and evocative social history of the Jewish presence in Newark as well as an examination of what Newark tells us about social assimilation, conflict and change. Grounded in documentary research, the volume makes extensive use of interviews and oral histories. The author traces the growth of the Jewish population in the pre-Revolutionary period to its settlement of German Jews in the 1840s and Eastern European Jews in the 1880s. Helmreich delineates areas of contention and cooperation between these groups and relates how an American identity was eventually forged within the larger ethnic mix of the city. Jewish population in politics, the establishment of Jewish schools, synagogues, labor unions, charities, and community groups are described together with cultural and recreational life. Despite the formal and emotional bonds that formed over a century, Jewish neighborhoods in Newark did not survive the postwar era. The trek to the suburbs, the erosion of Newark's tax base, and deteriorating services accelerated a movement outward that mirrored the demographic patterns of cities across America. By the time of the Newark riots in 1967,

the Jewish presence was largely absent. This volume reclaims a lost history and gives personalized voice to the dreams, aspirations, and memories of a dispersed community. It demonstrates how former Newarkers built new Jewish communities in the surrounding suburbs, an area dubbed "MetroWest" by Jewish leaders. The Enduring Community is must reading for students of Jewish social history, sociologists, urban studies specialists, and readers interested in the history of New Jersey. The book includes archival photographs from the periods discussed.

### America in the Thirties

In this new addition to the America in the Twentieth Century series, Sullivan and others present a detailed look into life in America during the 1930s. Beginning with the events leading up to The Great Depression, America in the Thirties presents the themes and events that shaped America during this decade. President Roosevelt's New Deal, the Dust Bowl and life during the Great Depression, domestic life, and America's foreign policy are some of the many issues covered in this highly readable, concise manuscript. Throughout the text, the authors also provide commentary on the role of various societal groups such as women, immigrants, African Americans, Asian Americans, Native Americans, and Latino Americans. The America in the Twentieth Century series presents the major economic, political, social, and cultural milestones of the decades of the twentieth century. Each decade is treated in individual books: thus far, books focusing on 1920s, 1940s, 1950s, 1960s and 1970s have been published. This latest addition to the series, focusing on the tumultuous 1930s, will provide logical links to the previously published books in the series.

### Ghetto

A New York Times Notable Book of 2016 Winner of the Zócalo Public Square Book Prize On March 29, 1516, the city council of Venice issued a decree forcing Jews to live in il geto—a closed quarter named for the copper foundry that once occupied the area. The term stuck. In this sweeping and original account, Mitchell Duneier traces the idea of the ghetto from its beginnings in the sixteenth century and its revival by the Nazis to the present. As Duneier shows, we cannot comprehend the entanglements of race, poverty, and place in America today without recalling the ghettos of Europe, as well as earlier efforts to understand the problems of the American city. Ghetto is the story of the scholars and activists who tried to achieve that understanding. As Duneier shows, their efforts to wrestle with race and poverty cannot be divorced from their individual biographies, which often included direct encounters with prejudice and discrimination in the academy and elsewhere. Using new and forgotten sources, Duneier introduces us to Horace Cayton and St. Clair Drake, graduate students whose conception of the South Side of Chicago established a new paradigm for thinking about Northern racism and poverty in the 1940s. We learn how the psychologist Kenneth Clark subsequently linked Harlem's slum conditions with the persistence of black powerlessness, and we follow the controversy over Daniel Patrick Moynihan's report on the black family. We see how the sociologist William Julius Wilson redefined the debate about urban America as middle-class African Americans increasingly escaped the ghetto and the country retreated from racially specific remedies. And we trace the education reformer Geoffrey Canada's efforts to transform the lives of inner-city children with ambitious interventions, even as other reformers sought to help families escape their neighborhoods altogether. Duneier offers a clear-eyed assessment of the thinkers and doers who have shaped American ideas about urban poverty—and the ghetto. The result is a valuable new estimation of an age-old concept.

### The True Story of Hansel and Gretel

A poignant and suspenseful retelling of a classic fairy tale set in a war-torn world, for readers of The Tattooist of Auschwitz, We Were the Lucky Ones, and Lilac Girls In the last months of the Nazi occupation of Poland, two children are left by their father and stepmother to find safety in a dense forest. Because their real names will reveal their Jewishness, they are renamed "Hansel" and "Gretel." They wander in the woods until they are taken in by Magda, an eccentric and stubborn old woman called a "witch" by the nearby villagers. Magda is determined to save them, even as a German officer arrives in the village with his own plans for the children. Louise Murphy's haunting novel of journey and survival, of redemption and memory, powerfully depicts how war is experienced by families and especially by children.

### The Famous, the Familiar and the Forgotten

The book that brings America's gateway city to life. Newark, New Jersey, is not only one of the oldest cities in the country but also a place that notable Americans from all walks of life have called home. Among the famous are Thomas Edison, Aaron Burr, Sarah Vaughan, Whitney Houston, Jerome Kern, Shaquille O'Neal, Queen Latifah, Allen Ginsberg, Amiri Baraka, Jackie Gleason, Eva Marie Saint, Rod Steiger, Frankie Valli, Joe Pesci, and Wyclef Jean. Familiar names include the likes of Ed Koch, Dutch Schultz, Washington Irving, Fanny Brice, and Marvin Hagler. And then there are those who enjoyed their moment in the spotlight but have mostly faded from memory, like silent film star Harold Lockwood, Wimbledon champ Ted Schroeder, TV cop David Toma, and opera diva Maria Jeritza. For the first time, *The Famous, the Familiar and the Forgotten* brings together in a single volume these celebrated personalities and many more just like them in a salute to the city that gave them their start or helped them along the way to renown. Included with entries are address listings. So come take a journey beginning with its founding in 1666 to a city with a roster of remarkable residents as impressive as any place in the country--Newark, New Jersey, home to history.

#### But He was Good to His Mother

#### Mendelssohn Is on the Roof

SS Officer Juliyus Schlesinger is ordered to remove the statue of the Jewish composer Mendelssohn from the roof of the Prague Academy of Music before an official concert. Unsure which of the statues is Mendelssohn, he tells his men to remove the one with the biggest nose. Unfortunately, this is the statue of Wagner.
