Because of the Mediterranean Diet's focus on fruits and vegetables, it is often referred to as "the diet of health." In practice, the Mediterranean Diet is plenty restrictive. Mediterranean Vegetarian Cookbook

The bestselling author and internationally celebrated physician and expert on nutrition offers an appealing, approachable health solution—eat the foods you love to lose weight and get healthy. For years, we've been told that a healthy diet is heavy on meat, poultry, and fish, and avoids carbohydrates, particularly foods high in starch—empty calories harmful to our bodies. But what if everything we've heard was backwards? High in calories and cholesterol, animal fats and proteins too often leave you hungry and lead to overeating and weight gain. They are often the root causes of a host of avoidable health problems—from indigestion, ulcers, and constipation to obesity, diabetes, heart disease, and cancer. On the other hand, complex carbohydrates like whole grains, legumes, tubers, and other starches provide your body with essential proteins and nutrients that satisfy the appetite while simultaneously fighting illness. But Americans eat far too few calories from carbohydrates—only about forty percent, according to Dr. John McDougall, internationally renowned expert on nutrition and health, featured on the documentary Forks Over Knives. The Healthiest Diet on the Planet helps us reclaim our health by enjoying nutritious starches, vegetables, and fruits. McDougall takes on the propaganda machines pushing dangerous, high-fat fad diets and cuts through the smoke and mirrors of the diet industry. He offers a clear, proven guide to what we should and shouldn't eat to prevent disease, slow the aging process, improve our physical fitness, be kind to the environment, and be our most attractive selves. Featuring two dozen color photos and mouth-watering, easy-to-follow recipes for buckwheat pancakes, breakfast tortillas, baked potato skins, rainbow risotto, red lentil soup, green enchiladas,

dairy-free lasagna and pizza, and more, The Healthiest Diet on the Planet will help you look great, feel better, and forever change the way you think about health and nutrition.

The Healthiest Diet on the Planet

Offers 100 different delicious recipes based on the Mediterranean Diet Pyramid, which advocates for eating breads, grains, fruits, nuts, beans, cheese and olive oil daily, while keeping poultry and fish to a few times a week and red meat very sparingly. Original.

For years, nutritionists have claimed that the only way to lose weight was to eat less, count calories and cut out fat. Four decades later, one must admit that low fat diets are a total failure. While energy consumption has decreased, obesity has multiplied by 400%. Inspired by Atkins, opinion leaders declared carbohydrates the real evil. These leaders then switched from one extreme to another recommending low carb diets. However, aside from a temporary weight loss, people subsequently suffered from cardiovascular problems by eating too much fat. This is why the Montignac Method is the only perfectly balanced diet.
