The Book of Mystical Chapters

The early Christian monks of Egypt, Syria, and Palestine were the spiritual heroes of their age—fleeing the security of civilization for the desert, where they sought God in lives of prayer, contemplation, and radical simplicity. This book is a portable collection of their teachings, and those of their contemplative contemporaries, ranging from the fourth through the eleventh centuries. It is arranged to the traditional model of three ascending "books": Praktikos (practice), Theoretikos (theory), and Gnosis (knowledge). Each book consists of 100 "sentences"—aphorisms or thoughts. Each sentence is intended to be read

and meditated upon for an entire day—just as the monks themselves might have done as they went about their work.

A World Transfigured

2023 Catholic Media Association First Place Award, *Mysticism In A World Transfigured: The Mystical Journey*, Philip Sheldrake demonstrates the importance of the mystical dimension of religious belief and practice. Using the words of the great theologian, Karl Rahner, Sheldrake makes the case that the Christian of the future will be either a mystic or nothing at all. In our contemporary world, this judgment applies equally to other religions as well. After chapters on the meaning of "mysticism" and the connection between mysticism and beliefs, Sheldrake describes important dimensions of mystical writings, illustrated by a range of examples. These are "Love and Desire," "Knowing and Unknowing," "Wonder and Beauty," "Mysticism and Everyday Practice," and "The Mystic as Radical Prophet." Finally, the book briefly explores why mysticism fascinates so many people in our modern times.

Light from Light

In this revised edition of a longtime bestselling anthology of Christian mysticism, editors Louis Dupre and James Wiseman bring together selections from the writings of twenty-three of the most important Christian mystics, from Origen of Alexandria in the third century to Thomas Merton in the twentieth. This

edition retains most of the authors included in the first addition, but has replaced some authors from that edition with ones that will be of greater interest to readers today, e.g., Francis and Clare of Assisi, Francis de Sales and Jane de Chantal, and Evelyn Underhill. A general introduction discusses the place of mysticism within the Christian life as a whole, while individual chapter introductions place the mystical writers in their historical context and relate their works to others in the anthology. In addition, the editors have completely updated the bibliographies at the end of each chapter. Students and teachers of spirituality, as well as persons interested in their own spiritual growth, will welcome this popular revised resource, because it makes readily available in one volume major works by important Christian mystical writers. Like its predecessor, it is sure to be welcomed in the academic world and spiritual and devotional circles.

Genius of the Transcendent

Here, for the spiritual adventurers of our own age, is an accessible introduction to one of the most important of the Christian mystical writers. Jakob Boehme (1575–1624) was a humble shoemaker of Görlitz in eastern Germany who, in response to the visionary experiences that began for him as a teenager, wrote a series of theosophical treatises that explore the nature of God and humanity. His ability to give words to the ineffable has never been surpassed, and his influence can be felt in the generations of mystics who followed him, as well as in Pietists, German Romantics, Quakers, and American utopianists, among many others. Five of Boehme's most essential works are presented here in fresh translations that demonstrate why Underhill called him "one of the most astonishing cases in history of a natural genius for the transcendent."

Mystical Hope

In five interwoven meditations, *Mystical Hope* shows how to recognize hope in our own lives, where it comes from, how to deepen it through prayer, and how to carry it into the world as a source of strength and renewal.

Some Exponents of Mystical Religion

The chapters of this book were given as a course of Lectures on the Modern Era Lectureship Foundation, at the University of Southern California, in April, 1929. The opening chapter is a fresh attempt to reinterpret the nature and significance of mystical experience. It carries on and aims to clarify my position in this field of religion. The other chapters are in the main historical illustrations through great personalities of the meaning and value of the mystical approach to God. It is believed that each chapter adds something further to the interpretation of mystical experience given in the first chapter, so that the book is essentially one coherent whole. - From the Introduction

The New Big Book of Christian Mysticism

This revised and expanded edition offers a big possibility: the hope of achieving real, experiential union with God. "The Christian of the future will be a mystic—or will not exist." This word of warning from theologian Karl Rahner was uttered half a century ago, and today, Christianity is indeed in crisis. Is mysticism necessary for the survival of Christianity? What exactly is Christian mysticism? How can it be relevant in our crisis-ridden world? Questions like these inspire *The New Big Book of Christian Mysticism*, a newly updated edition from beloved spiritual teacher and bestselling author Carl McColman. *The New Big Book of Christian Mysticism* serves as both introduction and practical instruction for a living contemplative practice today. In addition to the overview of mysticism, spiritual and prayer practices in mysticism, the various types of mysticism in Christian tradition, and influential mystics through the millennia, this second edition offers an embodied understanding of the mystic life with a more diverse range of voices and perspectives, from Howard Thurman to Pauli Murray. It also includes new chapters and themes that address embodied mysticism, contemplation and social justice, and the ongoing relevance of Jesus's message of radical equality and inclusivity. This bigger book introduces both Christians and non-Christians to the contemplative tradition within Christianity, a tradition that has often been marginalized or cloistered (to the church's detriment). As a practice-oriented book, this is an invitation to embrace the mystical element within Christianity—a practice that can equip faithful persons with a joyful sense of divine intimacy, not just for personal benefit but as a foundation to a life of service and activism in the interest of justice. McColman's overview of mysticism shows how it has been practiced and lived through the centuries and will prove inspirational for today's seekers, regardless of their faith tradition. At its heart, Christian mysticism is an ancient practice that incorporates meditation, contemplation, worship, philosophy, the quest for enlightenment, the thirst for a better world, and the experience of divine presence.

Prayer Book of the Early Christians

Prayers and rituals from the ancient Church (especially early Greek Christianity), re-presenting them for the use of 21st-century Christians at home, in small prayer groups, cohorts, and house churches.

An Introduction to Christian Mysticism

This brief, accessibly written volume introduces key figures, texts, and themes of the mystical tradition and shows how and why the mystics can speak to the church today. Jason Baxter, an expert educator and storyteller, explains that the mystical tradition offers a more robust understanding of God than our current shallow conceptions. Featuring engagement with primary sources and suitable for use in a variety of courses, this book argues that the mystics have much to say to contemporary Christians searching for authentic modes of spirituality.

Christian Mystical Theology

Christian Mystical Theology: A Way of Life. Mystical theology as a way of life is Bible based. It includes single and married laypeople and the religious who were mystics known throughout centuries up to contemporary times. Mystics are messengers into the Christian and human communities from their divine encounter with Jesus. In chapter 1, "Committed Eros," Patricia writes about her dual marriages--her human marriage to Richard F. Frisch, fifty-three years, and her mystical marriage with Jesus, thirty-five years. "Committed Eros" shows her longing for faithful community development. Part 1 chapters also explain mystical theology, the language of the mystics, references for the enrichment, and in-depth exploration of mystics from the Bible up to contemporary mystics and the development of the Trinity. Part 2 flows from part 1 with examples from the Gospels and the Christian history of committed mystical friendships through the presence of Jesus. A unique understanding of Jesus and his mother's relationship to the incarnation becomes the basis for the following chapters regarding committed mystical, agape friendships. Church leadership, intellectual pursuits, and everyday life are finding balance and harmony. Harmony is rising through the mystics, contemplatives, and ordinary people who enjoy peace through prayerful participation in contemporary mystical theology. The book ends with the hope that everyone finds ways to share their prayer journey with the communities. 1

A Course in Christian Mysticism

Thomas Merton's lectures to the young monks at the Abbey of Gethsemani provide a good look at Merton the scholar. A Course in Christian Mysticism gathers together, for the first time, the best of these talks into a spiritual, historical, and theological survey of Christian mysticism—from St. John's gospel to St. John of the Cross. Sixteen centuries are covered over thirteen lectures. A general introduction sets the scene for when and how the talks were prepared and for the perennial themes one finds in them, making them relevant for spiritual seekers today. This compact volume allows anyone to learn from one of the twentieth century's greatest Catholic spiritual teachers. The study materials at the back of the book, including additional primary source readings and thoughtful questions for reflection and discussion, make this an essential text for any student of Christian mysticism.

The Kabbalistic Mirror of Genesis

A bold line-by-line reexamination of the first 3 chapters of Genesis that reveals the essential nature of mind and creativity • Deconstructs each line of Genesis chapters 1-3 with esoteric methods derived from the oral teachings of the Kabbalah • Reveals the sefirot, the Tree of Life, as the Divine blueprint of

the creative process • Explains how Genesis reveals the Divinity of mind and consciousness Hidden within the first three chapters of Genesis rests one of the greatest jewels of Western mystical literature. For millennia religious literalism has dominated our understanding of the Bible, imprisoning its subtle inner wisdom within the most coarse and superficial aspects of the narrative. Generations have been led to believe that Genesis 1-3 is only a primitive proto-cosmic history, a mythological explanation of the human moral disposition, a religious fairy tale. But by accepting the text as pure kabbalistic metaphor, the mystical content of Genesis springs forth, revealing the Divine nature of creativity as well as a new understanding of the human mind. Deconstructing each line of Genesis 1-3 with esoteric methods derived from the oral teachings of the Kabbalah, David Chaim Smith reveals how the ten sefirot, collectively known as the Tree of Life, are not simply a linear hierarchy. They are a unified interdependent whole with ten interactive functions, forming the template through which creative diversity manifests. Through acts of creation and creativity, the mind expresses its Divine nature. Through our Divine creative power, we are able to touch upon Ain Sof (the infinite), the lifeblood of all creative expression. Smith's line-by-line examination of Genesis 1-3 reveals a complete model not only of Divine creativity but also of the predicament of the human mind, of the Divine nature of consciousness as well as our inability to recognize the mind's Divinity. With this new interpretation, which removes the concept of a Creator God, we are able to transcend the contrasting notions of "being" and "non-being" at the heart of conventional habits of perception and awaken a new mystical understanding of Unity and the fathomless depth of Divinity.

Mystical Doctrines of Deification

The notion of the deification of the human person (theosis, theopoiësis, deificatio) was one of the most fundamental themes of Christian theology in its first centuries, especially in the Greek world. It is often assumed that this theme was exclusively developed in Eastern theology after the patristic period, and thus its presence in the theology of the Latin West is generally overlooked. The aim of this collection is to explore some Patristic articulations of the doctrine in both the East and West, but also to highlight its enduring presence in the Western tradition and its relevance for contemporary thought. The collection thus brings together a number of capita selecta that focus on the development of theosis through the ages until the Early Modern Period. It is unique, not only in emphasising the role of theosis in the West, but also in bringing to the fore a number of little-known authors and texts, and analysing their theology from a variety of fresh perspectives. Thus, mystical theology in the West is shown to have profound connections with similar concerns in the East and with the common patristic sources. By tying these traditions together, this volume brings new insight to one of mysticism's key concerns. As such, it will be of significant interest to scholars of religious studies, mysticism, theology and the history of religion.

The Mystical I

In this book, Goldsmith brings to readers the fullness of the Christ message that is relevant and timely. He shows that this son of God is I and that I stands at the door and knocks. The Mystical I provides a deep experience for those searching for the true Self.

At the Lighting of the Lamps

The Christians, from the very outset, committed their theology and prayer to the form of the song. The hymnal elements in the New Testament are among the earliest of all strands, some of them composed within a decade of the death of Jesus. From the third century onwards it was their custom to light the lamps of the house when dusk fell, and sing a hymn, for the onset of evening marked the new liturgical day in the earliest centuries. This collection of some of the most charming of the hymns of the Early Church presents the original Greek and Latin verse with a facing translation and a pronunciation guide for the Byzantine Greek. They range from simple chants such as the Phos Hilaron, comparing Christ to the "cheerful light" of a lamp, to sophisticated pieces by some of the great rhetoricians such as Gregory Nazianzen, Ambrose, Synesios, and Romanos. This is a book that will delight both academic and church readerships.

Egyptian Mystics

Egyptian alchemy and Sufism, with a coherent explanation of fundamentals and practices. This book explains how Ancient Egypt is the origin of alchemy and present-day Sufism, and how the mystics of Egypt camouflage their practices with a thin layer of Islam. The book also explains the progression of the mystical Way towards enlightenment, with a coherent explanation of its fundamentals and practices.

It shows the correspondence between the Ancient Egyptian calendar of events and the cosmic cycles of the universe. This Expanded Edition of the book is divided into four parts containing a total of 13 chapters and five appendices. Part I: The Hidden Treasure consists of two chapters: Chapter 1: Egyptian Mysticism and Islamized Sufism will cover the differences between dogmatic and mystical routes and how ancient Egypt is the source of Sufism and alchemy. Chapter 2: The Treasure Within will cover the limitations of humans' organ of perceptions and how to find realities with such limitations. Part II: Transformation From Dust To Gold consists of five chapters—3 through 7: Chapter 3: The Alchemist Way will cover the source of alchemy as being Ancient Egypt; and the progression along the alchemist way; and the role of a guide in the process. Chapter 4: The Purification Process will cover both outer and inner purifications through the process of living in the world. Chapter 5: Basic Practices will cover general practices by the Egyptian mystics to increase their awareness of the real world. Chapter 6: The Way to Revelations will cover the methods by which a mystical aspirant can find knowledge through revelations. Chapter 7: The Heavenly Helpers will cover the role and duty of those who attained super natural powers, to help others on earth. Standing in God's Holy Fire

The Orthodox Byzantine tradition is still often undervalued and misunderstood in the Western churches. Standing in God's Holy Fire is a vivid introduction to the leading figures, key themes and values of this living and ancient form of Christian spirituality, which has endured and survived a recent history of systematic persecution.

Resume

2014 Reprint of 1928 Edition. Full facsimile of the original edition. Not reproduced with Optical Recognition Software. American writer, educator, theologian, and feminist pioneer EMMA CURTIS HOPKINS (1849-1925) may well be the most important woman in the history of religion in the United States. Influenced by Mary Baker Eddy and her "Christian Science," Hopkins developed the more metaphysical philosophy of "New Thought," an early "New Age" outlook that encouraged its adherents to tap the latent powers of their potent minds. Known as "the teacher of teachers," Hopkins inspired her students, many of whom went on to become influential leaders of the New Thought movement, to give full expression to their creative genius. In "High Mysticism," considered by many one of the greatest works of mysticism every written, Hopkins encourages us all to live life with a greater awareness of the mystery and power of the universe as it is seen through the wisdom of Jesus Christ. No bleak call to celebrate Jesus' suffering or pain, this is a glorious expression of the power within us to triumph over loss, sin, and death to find new avenues to joy. "Resume" is the practice book for "High Mysticism." These practice guidelines were first offered in 1892 to her advanced students at Chicago Theological Seminary and were modified over the years until their final presentation in 1918.

Western Mysticism

With over 300 quotations, this book invites the reader to delve into the writings of the great contemplatives and mystics of the past two thousand years. The Little Book of Christian Mysticism provides a user-friendly, insightful, and potentially life-changing introduction to the essential teachings of the greatest mystics in the western wisdom traditions, past and present, including Francis of Assisi, Hildegard of Bingen, Thomas Merton, Evelyn Underhill, Meister Eckhart, Teresa of Avila, John of the

Cross, and Julian of Norwich. Readers can use this book to initiate themselves into this visionary and ecstatic spiritual lineage, and they can also use it as a book of daily meditations. Small enough to fit in one's pocket or handbag, this is truly a user-friendly introduction to this venerable body of wisdom.

The Little Book of Christian Mysticism

Mysticism is Evelyn Underhill's timeless manual, which offers thorough and rich guidance to the principles of mystical Christianity. A classic since its publication in 1911, Mysticism remains an authority on its subject. Despite more modern works providing a more updated or formal analysis of Christian mysticism, none do so with the passion and splendour with which Underhill tackles the subject. Having herself had spiritual experiences, the author mentions that such events inspire those who feel them to action rather than to continual idle reflection of the divine. This publication is derived from treasured 12th edition, renowned for its mindful revisions and additions Underhill appended. In reaction to earlier reviews, additional notes are appended to clarify some of the deeper passages and aid the comprehensive flow of the chapters.

Mysticism

The Christian mystics are the treasure of Western civilization—yet they remain little known among those of us who are potentially their spiritual heirs. Andrew Harvey's anthology confronts us with the mystics in their own words, to show us how well they serve, even now, as guides for the spiritual life—and to challenge our preconceived ideas about the path of Christianity. He has chosen selections that represent all eras of the Christian tradition, as well as the amazing range of people who have embodied it, people like Francis of Assisi, Meister Eckhart, Julian of Norwich, Teresa of Avila, Thomas Merton, Bede Griffiths, and many others.

Teachings of the Christian Mystics

The Teachings of The Order of Christian Mystics Awaken the Inner Life. THE MYSTIC LIFE An introduction to mysticism and a clear exposition of its meaning, its scope and its importance in the daily life. Just the thing to place in the hands of one who is beginning to aspire and think for himself. Contents Contains chapters on How Mysticism Solves the World's Problems. The Path of Discipleship. Illumination. The Mystic Christ. Recommendations for Daily Living."

The Mystic Life

Ascensions on high took many forms in Jewish mysticism and they permeated most of its history from its inception until Hasidism. The book surveys the various categories, with an emphasis on the architectural images of the ascent, like the resort to images of pillars, lines, and ladders. After surveying the variety of scholarly approaches to religion, the author also offers what he proposes as an eclectic approach, and a perspectivist one. The latter recommends to examine religious phenomena from a variety of perspectives. The author investigates the specific issue of the pillar in Jewish mysticism by comparing it to the archaic resort to pillars recurring in rural societies. Given the fact that the ascent of the soul and pillars constituted the concerns of two main Romanian scholars of religion, Ioan P. Culianu and Mircea Eliade, Idel resorts to their views, and in the Concluding Remarks analyzes the emergence of Eliade's vision of Judaism on the basis of neglected sources.

An Anthology of Christian Mysticism

Timothy Radcliffe introduces this masterly short guide to Eckhart's mystical teaching - perfectly pitched for those interested in spirituality and theology. Richard Woods writes as a passionate advocate of Eckhart's relevance to issues and challenges facing intelligent people today with emphasis on religious understanding, belief, action and human suffering. The fruit of more than ten years of reflection, *Meister Eckhart: Master of Mystics* explores a set of related themes bridging Eckhart's medieval world and our own turbulent times - women's role in spirituality and church life, global climate change and the sacredness of Creation, the meaning of detachment, the blind alleys of spiritual 'technology', the meaning of contemplation and the place of prayer, Eckhart's views on art and spirituality, his daring insights into the challenges of pain and suffering, and Eckhart's relevance for wider and deeper encounter among world religions. Other chapters investigate Eckhart's wide-ranging sources and his revolutionary approach to the redeeming mission of Jesus Christ.

Practical Mysticism is a book written by Evelyn Underhill and first published in 1915. In this book Underhill sets out her belief that spiritual life is part of human nature and as such is available to every human being. Underhill's practical mysticism is secular rather than religious, since "it is a natural human activity. In this short work there is an attempt to prove that all humans, even non-religious, have an innate spirituality within them. The chapters understand what is mysticism, the world of reality, the preparation of mysticism, meditation and memory, and mystical life. *Practical Mysticism* is a book written by Evelyn Underhill and first published in 1915. Practical Mysticism

"Patience, mercy, peacemaking, simplicity, humility. When we cultivate these qualities our life will become immensely rich. Beneath all our layers of ignorance, we can uncover our essential nature: our Original Goodness. According to the ""Perennial Philosophy"" found in all religions, this divine essence can be realized, and is the supreme goal in life. This unbroken awareness of the presence of God in all creatures is the mark of the mystic. For one who grasps these principles with an open heart, life takes fire with purpose."

Christian Mysticism in the Elizabethan Age

Mysticism is Evelyn Underhill's timeless manual, which offers thorough and rich guidance to the principles of mystical Christianity. A classic since its publication in 1911, *Mysticism* remains an authority on its subject. Despite more modern works providing a more updated or formal analysis of Christian mysticism, none do so with the passion and splendour with which Underhill tackles the subject. Having herself had spiritual experiences, the author mentions that such events inspire those who feel them to action rather than to continual idle reflection of the divine. Although presented as a textbook, Evelyn Underhill's masterwork does not adhere to the traditional principles of logical presentation the reader expects to see in such a format. Instead, Underhill makes a point of opposing and contrasting her views on mysticism to that of contemporary psychologist William James. In contrast to the four pillars of rational explanations devised by James, Underhill creates her own much different emphasis: Firstly, she proposes that mysticism is practical, not theoretical - it requires action on the part of the seeker. Secondly, there is nothing scientific about mysticism - it is based purely upon spiritualism. Thirdly, mysticism is pursued, and happens because of, love between those experiencing the event and the divine forces they perceive. Lastly, mysticism is a significant psychological experience which individuals

identify as a turning point in their attitude to life and the world. This publication is derived from the book's 12th edition, which is treasured for the mindful revisions and additions Evelyn Underhill appended to the original text. In reaction to earlier reviews, additional notes are appended to clarify some of the deeper passages and aid the comprehensive flow of the chapters.
