"Salter's life and work bridged two continents and cultures and spanned the political turmoil of the mid-twentieth century. He survived both world wars, the rise of National Socialism in Germany, and permanent exile in a new land, but nothing halted his tireless and brilliant design work. Classic Book Jackets tells Salter's story and describes the innovative thinking he brought to his clients and students (including his designation of seven jacket types that are still valid today). It includes more than two hundred reproductions of his finest works as well as a complete catalog of his jackets, designs, and lettering jobs for the book trade."--BOOK JACKET.

Was haben der Fernsehmoderator Wim Thoelke, der Schriftsteller Joseph Breitbach und die Klostergründerin Paula Reinhard gemeinsam? Sie alle stammen aus dem Gebiet der alten preußischen Rheinprovinz. Frauen und Männer, die im Rheinland wirkten und lebten, werden in den "Rheinischen Lebensbildern" vorgestellt. In Band 20 werden außerdem porträtiert: Karl von der Salzgasse (gestorben 1213/14), Kölner Ritterbürger und Abt des Zisterzienserklosters Villers-en-Brabant; Hermann Löher (1595–1678), ein Gegner der Hexenverfolgung; Johann Friedrich Karg von Bebenburg (1648–1719) und sein Großneffe Friedrich Karl (1709–1773), Kurkölnischer Kanzler bzw. Reichstagsgesandter; der Natur- und Heimatforscher Philipp Wirtgen (1806–1870); der langjährige Oberbürgermeister von Solingen August Dicke (1859–1929); der Generalvikar des Erzbistums Köln Emmerich David (1882–1953); der Benediktinerpater und Mitbegründer des Salzburger Hochschulwochen Thomas Michels (1892–1979) sowie der Schriftsteller Stefan Andres (1906–1970). 12 Lebensbilder aus über 800 Jahren rheinischer Geschichte!

Die krisengeschüttelten Jahre zwischen dem Ende des Ersten Weltkriegs und dem Beginn der NS-Herrschaft in Deutschland wurden zu einer Glanzzeit der deutschsprachigen Literatur. Ihre Entwicklung erschließt Helmuth Kiesel in dieser großen Literaturgeschichte in drei Durchgängen: zunächst epochengeschichtlich, dann politik- und gesellschaftsgeschichtlich und schließlich gattungsgeschichtlich. Deutsche, österreichische und deutschschweizerische Verhältnisse werden gleichermaßen berücksichtigt. Krieg und Novemberrevolution erzwangen nicht nur große politische und soziale Veränderungen. Sie bewirkten auch eine Politisierung der Literatur, die diese Umgestaltung, die mit ihr verbundenen Auseinandersetzungen und die rasante Modernisierung der Lebensverhältnisse zeitnah abzubilden und kämpferisch zu beeinflussen versuchte. Diese sogenannte Zeitliteratur brachte eine Fülle von Gedichten, Dramen, Romanen, Reportagen und Essays hervor. Zugleich entstanden in dieser Epoche Meisterwerke wie Thomas Manns Zauberberg, Hugo von Hofmannsthals Turm und Alfred Döblins Berlin Alexanderplatz, in denen traditionelle Darstellungsformen mit avantgardistischen und medialen Techniken auf eine bis heute mustergültige und anregende Weise miteinander verbunden wurden.

Kurt Flasch ist ein großer Kenner der mittelalterlichen Philosophie und selbst ein bedeutender Philosoph. In den letzten Jahren hat er Preise über Preise bekommen, nicht nur für seine Fachforschungen. Herausgehoben wurden die Originalität seines Denkens und seiner Sprache, sein glanzvoller Stil und kämpferischer Witz. Weit über Fachkreise hinaus ist er zum Vermittler zwischen philosophischen Texten der Vergangenheit und dem heutigen Leser geworden. Polemik und Satire kommen bei ihm immer dann ins Spiel, wenn ihm «weihevolleres Gerede, parfümierter Qualm, modisch aufgeputzte Paradigmenwechsel oder auch schiere Unkenntnis der Quellen» begegnen. Das Buch nähert sich der Person Kurt Flasch und seinem Denken wie der Zoom einer Kamera. Beiträge von Freunden und Weggefährten und nicht zuletzt von Flasch selbst zeigen biographische, politische, philosophische und sprachkritische Aspekte seiner Arbeit. In zwei Interviews kann man miterleben, wie Kurt Flasch reagiert, formuliert und parliert. Mit Beiträgen von Karl Heinz Bohrer, Ursula Pia Jauch, Norbert Miller, Gustav Seibt, Michael Stolleis, Frank Hertweck und Ralph Dutli.

Les pervers narcissiques

Dans cet ouvrage, Christine Calonne, spécialisée depuis 26 ans dans l'aide aux victimes de pervers narcissiques, décrit la perversion narcissique et en retrace l'histoire. Elle dresse notamment les profils du pervers et de la victime, et propose de nombreuses pistes et réflexions : Quel traitement est possible pour la personnalité perverse et pour la victime ? Quelle prévention envisager pour s'en protéger ? Quelles sont les origines sociales de cette personnalité ? Pourquoi devient-elle un phénomène de société aussi important que la perversion narcissique ? Ce livre tente de répondre à ces questions et de proposer des pistes d'aide à la victime, à l'entourage comme aux intervenants sociaux.

Jesus Christ the Bearer of the Water of Life

Comment dépasser l'immobilisme et le silence... ? Voici deux cas juridiques, et plusieurs cas cliniques, à décrypter en premier degré. Mais à travers ces mêmes lignes, aussi se déchiffre le nécessaire profond cheminement du déploiement de soi, en scénario, comme je l'expérimentais alors au feu, « in vivo », pour psychiquement réussir à résister pendant tout le trop lent long temps de l'immobilisme juridique auquel je me trouvais malheureusement confrontée pendant vingt années, quant à la résolution de mon après-divorce. Résister par la voie haute du « SOI » interne (C. G. Jung) relatif de la psychanalyse des profondeurs, dont la grâce et l'aide de la Terre-Mère m'avaient gentiment pourvue, en Aide-toi et le ciel t'aidera, afin d'œuvrer à un degré meilleur, en plus élevé, alors emportée par de la lumière. Jusqu'à l'apparition, de deux ombres sombres de ténèbres qui arrivaient là à beaucoup détruire. Toujours sise dans l'attente de possibles résolutions juridiques... Qui, dès lors, pourra solutionner ?

Karma Bitch - Vous pouvez prendre en main votre destin !

Incarner une spiritualité badass

Nineteen-year-old Phaelan Lundgren, creator of the Dark Net website, Panacea, is en route from Oregon to Boston to continue her work on distributed systems at MIT when she meets up with her deceased mother's past. Is it possible that the drawing she holds of her mother's twenty-first and final sculpture in her "Crypto Chaos" series is the key to that past and to Phaelan's future? And if so, will she find the sculpture before the ghosts find her? ***** This book was written in the wake of the Silk Road Trial and during the 2016 presidential election campaign. Both of these events have been enough to make any sane person's stomach turn. However, I have been inspired by those who, like the characters in this book, live life on their own terms, without seeking permission to do what is right, regardless of whether it is legal. This is not a book for anyone who ever mouths the phrases: "I was just doing my job" or "That's just the way it is." I have no interest in appealing to them as they are not of the living. It is a book for anyone who believes in the innate freedom one has by definition of being Human. It is for anyone who refuses to be a victim, but instead integrates the darkness of their past, wielding it, by sheer force of their will, so that it becomes a light for their future.

Angels are the bridge between Heaven and Earth. After all, the term angel means "messenger of God." The angels can reach us and teach us, no matter how stressed, or afraid we are. In this nondenominational book, you'll read 10 comforting and inspiring messages in the collective voice of God's angels, who already know the questions in your heart. Here, received by lifelong clairvoyant Doreen Virtue, they deliver Divine wisdom on important topics such as: • Your true identity • Free will • Relationships • Healing • Spiritual and earthly fulfillment • . . . and many more This book can also give you guidance if you open it to a random page. Whatever you read upon doing so is a personalized message for you. 10 Messages Your Angels Want You to Know will help you develop an even clearer connection with Heaven. May the words in these pages open you to hearing God's guidance just for you.

10 Messages Your Angels Want You to Know

This text reviews what research on animals can tell us about the biological factors that control human sexual behavior and orientation.

The Biology of Homosexuality

'I was covered in blood, but it wasn't mine, so it was okay.' Edward is a hit man. He specialises in monsters. Vampires, shape-shifters, anything and everything. There are people like me, Anita Blake, who do it legally, but Edward doesn't sweat the legalities or, hell, the ethics. He is an equal opportunity killer. I may be one of the few friends that Edward has, but it's like being friends with a tame leopard. It may curl on the foot of your bed and let you pet its head, but it can still eat your throat out...

Obsidian Butterfly

This book is about the subtle energy of the life force, the pure consciousness beyond mind and the ecstatic experience of spiritual awakening. It also tells of physical collapse, psychic chaos, and personality upheaval, those elements of human transformation that uproot individuals to the core. It tells the stories of people, both ancient and modern, who have discovered and integrated an experience that pushes the edges of their sanity and their divinity. And it is a guide for survival and transformation. It appears that when people pray, meditate, or turn inward with great intensity to find God, what they may ultimately experience is the sat-chit-ananda of the ancient Indian scriptures. Sat is existence or beingness, the substance or essence that is all things. Chit is cosmic intelligence or knowledge that fills everything, a consciousness without personal identity. Ananda is ecstatic bliss. Indian pandits identify these three qualities as the essential nature of existence. Direct intuition of them becomes possible following the eruption of Kundalini energy, which is latent in each of us. This book is to help you recognize and support a unique, universal and ageless process related to spiritual experience and psychological wholeness and identified in ancient times as Kundalini awakening.

Kundalini's power lies dormant in humans until it is awakened. The awakened Kundalini expresses the primal divine impulse and ultimately joins the individual with the divine. The development of the book parallels the development of the Kundalini within. Part One exposes the awakening and unfolding of the Kundalini; Part Two describes the piercing of the energy centers and the stages of ascent through the body; and Part Three examines Kundalini's relation to sexual expression. The book provides a deep understanding of Tantra and of the underlying purpose of Tantracism. The author carefully considers the Caryakrama practices of sexual expression as a means of awakening and controlling Kundalini. Silburn draws together passages from the Trika, Krama, and Kaula systems ranging through Abhinavagupta and Lalla and provides both translation and commentary for them. Chapters on the Chakras, the Nadis, and on mantras further elucidate the topic and lead to a forceful conclusion: Kundalini is the source of ultimate human knowledge and power.

Discover how your greatest creative power is also your greatest spiritual power. "All of us possess some electrical and magnetic forces within, and, just like a magnet, we exert a force of attraction and repulsion... Between lovers that magnetic force is particularly powerful and its action has a far-reaching effect." - Samael Aun Weor In the heart of every religion there are teachings about intimate human relationships, a sacred knowledge about the transformative power of sex, which states that true spiritual mastery is a result of conquering base desires and transforming them into conscious virtues. Harnessing and transforming the most powerful forces within places us on a revolutionary path to spiritual awakening. Every birth is a magical act, performed through sex. Spiritual birth is no exception, and is accomplished through a divine form of sexuality. "The physical union of a man and a woman, in essence, is a supernatural act, a reminiscence of paradise, the most beautiful of all the hymns of praise dedicated to the Creator by the creature; it is the alpha and the omega of all creation." - Samael Aun Weor * Enter into the sacred mysteries hidden in all major religions * Learn to practice the ancient science that inspired Tantra, Alchemy, Taoism, and other traditions * Filled with lively, entertaining stories, and practical exercises and guidance for personal development

The Mystery of the Golden Blossom

Prologue Light Without light, you can't see. Those who believe only in what they can touch can't feel the light. Light powers life, flowers, oceans, animals, the earth, and your life. Light is such a beautiful word. It illuminates your body, your emotions, your thoughts, your soul. When you are in the dark, when you stumble, when you get lost, you panic, you fall, you give in. Thus, the blind can't lead the blind; you need someone that can see the light. Light is a vibration frequency that travels at an unreachable speed, and, as Einstein said, any matter that travels at its speed turns into energy. This means light is transformative. And if one day, when you give up on resisting, you stop believing you are just matter and ego and you want to let that light enter through the window of your thoughts and emotions and then it illuminates your darkness, your haze; you will certainly wake up and say: "I am a purely energetic being, made of atoms and particles that travel at the speed of light and shines like it. And as such, I have come to play my part, just going through life, to keep transforming myself, like light itself.

The Great Secret of Holy Death

A visceral space thriller—perfect for fans of *Arrival* and *The Martian*—following the sole survivor of a catastrophic accident in space that leaves her drifting in the void with only the voice of her estranged husband, a NASA scientist, to guide her back to Earth. Commander Maryam “May” Knox awakes from a medically induced coma alone, adrift in space on a rapidly failing ship, with little to no memory of who she is or why she’s there. Slowly, she pieces together that she’s the captain of the ship, *Hawking II*; that she was bound for Europa—one of Jupiter’s moons—on a research mission; and that she’s the only survivor of either an accident—or worse, a deliberate massacre—that has decimated her entire

crew. With resources running low, and her physical strength severely compromised, May must rely on someone back home to help her. The problem is: everyone thinks she's dead. Back on Earth, it's been weeks since Hawking II has communicated with NASA, and Dr. Stephen Knox is on bereavement leave to deal with the apparent death of his estranged wife, whose decision to participate in the Europa mission strained their marriage past the point of no return. But when he gets word that NASA has received a transmission from May, Stephen comes rushing to her aid. What he doesn't know is that not everyone wants May to make it back alive. Even more terrifying: she might not be alone on that ship. Featuring a twisting and suspenseful plot and compelling characters, *Across the Void* is a moving and evocative thriller that you won't be able to put down.

Beauty in the Broken – Die Schönheit im Zerbrochenen

Reveals the precise correspondences between specific emotional and mental tensions and the illnesses and traumas of the body • Explains how physical complaints--energetic disturbances that lead to ailments or chronic conditions--are your soul speaking to you • Shows how the body part affected as well as which side it is on pinpoints what your soul is trying to tell you and what you need to work through emotionally • Explains the Yin-Yang energetic correspondences of the body: the Yang axis of the shoulders, the Yin axis of the hips, and the Yin-Yang maternal/paternal connections Our body speaks. Physical complaints--allergies, fever, sore throat, inflammation, cysts, backache, migraines, sinus problems, sciatica, dizzy spells, and even cancer--are all signs of deep tensions inside of us are seeking expression. This is why, given the same genetic foundation, one individual develops a specific illness while another remains in good health. Drawing on 20 years of experience and several thousand individual consultations with patients, Michel Odoul shows the "proof" of this lies in the clear correspondences between emotional and mental tensions and specific ailments. The author reveals how every illness or trauma is a signal of incredible precision: The part of the body affected pinpoints what your inner being is trying to tell you and what you need to work through emotionally. Providing a reference grid of body-mind connections, he explains, for example, how skin conditions reflect difficulties with aggression from the outside world and knee problems indicate inflexibility or tension in relationships. He shows not only how each side of the body has specific meanings and connections to emotions, relationships, and family but also how the upper and lower halves of the body have specific connections--together forming four quadrants with unique Yin-Yang balances, where Yin represents emotional issues and Yang represents action/inaction. He also explores the role of the meridians of Chinese medicine in distributing emotional and mental energy throughout the body. Offering keys to decipher what the body is trying to tell us, the author shows that we can learn to see physical ailments not as something caused by chance or fate but as a message from our heart and soul. By releasing the energies and patterns they point to, we can return to a state of health and forward movement on our path through life.

The Bridgetower Sonata

In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.

The Little Book of Symbols

This book examines how modern French fiction writers have appropriated the ogre figure in order to evoke violence in all its voracity, as well as destructive time, which eats away the moments of our lives as the prototypical ogre of Western literature, Cronus, devoured his own children. The ogre is a ubiquitous figure that appears not only in mythology and literature, but in real life. For French authors haunted by the horrors of World War II, it symbolizes the abominations of the Nazis and their French collaborators, whose memory has been rekindled in recent years, initiating a national malaise that historians have come to call the "Vichy Syndrome." For other writers, the ogre is the sexual deviate who preys upon the innocent. This ogre too has roots in recent history: it began to appear in the 1970s, coinciding with the rise of French feminism, when violence towards women and children finally began to be openly confronted. Jonathan F. Krell teaches modern and contemporary French literature and business French at the University of Georgia.
