The Immaculate Conception: Bitcoin vs Fiat Standard | Dr. Saifedean Ammous | EP 203 - The Immaculate Conception: Bitcoin vs Fiat Standard | Dr. Saifedean Ammous | EP 203 by Jordan B Peterson 1,060,899 views 2 years ago 1 hour, 58 minutes - This episode was recorded on September **8th**, 2021. Saifedean Ammous is an expert on Bitcoin with a PhD from Columbia ...

Introduction

What are hard monetary assets?

The argument for bitcoin being the best hard money ever created

"Bitcoin only has users... no admins. There is nobody with a master key" - Saifedean Ammous

How the Bitcoin network functions using "consensus parameters"

"The way that Bitcoin came about seems... virtually impossible to believe" - Jordan Peterson

Other schools of economics (Austrian) vs. the most common today (Keynesian)

"So the Austrian school of economics... tilts you more towards an appreciation of non-centrally controlled, distributed networks, and emphasis on the individual actor" - JP

Paul Samuelson and communist economic expectations of centralized planning post-WW2

Dr. Ammous' academic background

Climate change. The push towards central planning, implying certain people or groups know the exact

consequences and solutions to future economic developments

"I've been struck by the problem of unintended consequences and the irreducible complexity of things.

We can talk about the problem of climate change, but those words are incredibly deceiving" - JP

Highlighting the crucial role of the entrepreneur in Austrian economics

Saifedean reflects on the views held by the central bank, governments, and mainstream economists on money—as opposed to Bitcoin's structuring and the Austrian school of thought

"From the Austrian perspective, money is a product of the market and not the invention of the state.

The state's meddling in money... is irrational and cannot succeed for the same reasons central planning does not succeed" - SA

Overview of Dr. Ammous' book The Fiat Standard

Current inflation in Western democracies. The devastating effect of hyperinflation on the average person

"Money is an incredible technology for lowering our time preference" - SA

"The 20th century was a global trainwreck of watching the money preference rise. Generation after generation... witnessed their money devalue" - SA

Why some efforts in energy production are misguided

The Fiat Standard

Why are we allowing people to mine bitcoin?

The genius that went into the production of the Bitcoin code

The crazy reality of decision-making at climate change panels

Fiat-based currency jobs and the Zoom warriors disconnected from the physical world

"A lot of the problems of the 20th century, in my opinion, have their roots in highly inflationary fiat currency" - SA

Covering some of the common objections against Bitcoin

"We are always going to find more reasons to print money" - SA

Ammous' online learning platform

The growth of Saifedeen.com and the parameters attributed to its success

The possibility of decentralizing societal accreditation

"I've talked to seriously wise academics who know that there is almost zero financial knowledge in universities [today]... There is tremendous residual value, however, in the accreditation" - JP
