The Elephant in the Spring

The Elephant in the Spring celebrating similarities - for interfaith families Each spring, adults and children alike celebrate special holidays. Some celebrate Easter. Others observe Passover. But what if

you live in a household that celebrates both? The Elephant in the Spring uses poetry and illustrations to help readers and their families recognize the similarities of some traditions observed and honored during Easter and Passover. Children in interfaith families will feel more included and special. The Elephant in the Spring also raises awareness and understanding in all children. The Elephant in the Spring is the perfect book for interfaith families who celebrate both seasonal holidays. Great fun for the whole family! -Alli West, Program Director of Connect We love The Elephant in the Room and are so excited to add this new book to our collection. Our children will be raised with both holidays and these books represent what we hope to impart to them. Our goal is to blend without compromising our core values and these books will be of great help to us and our family. -Bari & Alex We are a two-generational interfaith family. We taught our children, and now our grandchildren, what we always believed: respect for other religions is the basis for peace, love and happiness. The Elephant in the Spring promotes understanding and makes children in interfaith families feel special. These books are much needed in our diversified world. -Paula & Rick

The Elephant in the Room

This book brings together sixteen comic artists, all women, from India and Germany to explore how women see the world and themselves, and how that is similar and different across cultures. In the striking, surprising, often funny drawings featured here, the women take apart received ideas of identity, power, love, sex, family, and bodies, putting them to new purposes to yield a rich interweaving of the personal and the political. Bold, original, outspoken, and thought-provoking, The Elephant in the Room is the perfect tonic for our dark times: affirming and entertaining but never less than powerfully political. -- Provided by publisher.

The Elephant Family Book

Follows a herd of elephants through the round of its daily and seasonal activities and explores the relationship between this large animal and humanity.

The Elephant in the Room

It's been almost a year since Sila's mum travelled halfway around the world to Turkey, hoping to secure the immigration paperwork that would allow her to return to her family in the United States. The long separation is almost impossible for Sila to bear. But things change when Sila accompanies her father (who is a mechanic) outside their Oregon town to fix a truck. There, behind an enormous stone wall, she meets a grandfatherly man who only months before won the state lottery. Their new alliance leads to the rescue of a circus elephant named Veda, and then to a friendship with a unique boy named Mateo, proving that comfort and hope come in the most unlikely of places. A moving story of family separation and the importance of the connection between animals and humans, this novel has the enormous heart and uplifting humour that readers have come to expect from the beloved author of Counting by 7s.

The Elephant in the Room

The Elephant in the Room is a children's storybook with whimsical illustrations and rhyming verses of positive strategies for coping with grief and loss. The gender-neutral elephant character demonstrates the potential emotions that children may experience when faced with any type of loss such as death of a pet or a relative, a friend moving away, foster care, hospitalization, etc. This book can serve to initiate a discussion or to provide unconscious messages of love, power, and healing. The practical and realistic coping strategies are developmentally appropriate for young children in early childhood and are based in best practices according to research in children's literature and social-emotional development. It is recommended that the book be read daily, as needed, during traumatic events and that the adult wait patiently for the child to initiate a discussion. It is anticipated that The Elephant in the Room will serve as a transitional object for children experiencing grief and loss and that it will help them navigate their unique and individual journey towards healing, concurrently or in the years ahead. This book is a must-have for teachers, grief counselors, healthcare practitioners, therapists, social workers, and librarians. Additionally, it can serve as an important resource for families during difficult events.

We Are in a Book! (An Elephant and Piggie Book)

Gerald is careful. Piggie is not. Piggie cannot help smiling. Gerald can. Gerald and Piggie are best friends. In We Are in a Book! Gerald and Piggie discover the joy of being read. But what will happen when the book ends? Using vocabulary perfect for beginning readers (and vetted by an early-learning specialist), Mo Willems has crafted a mind-bending story that is even more interactive than previous Elephant & Piggie adventures. Fans of the Geisel Award-winning duo won't be able to put this book down--literally!

The Elephant Walk Cookbook

Presents the traditional cooking of Cambodia for the American table, including 150 recipes--Cover.

Tua and the Elephant

Ten-year-old Tua—Thai for "peanut"—has everything she needs at home in Chiang Mai, Thailand, except for one thing she's always wanted: a sister. In the market one day, Tua makes an accidental acquaintance—one with wise, loving eyes, remarkable strength, and a very curious trunk. And when Tua meets Pohn-Pohn, it's clear this elephant needs her help. Together, the unusual team sets off on a remarkable journey to escape from Pohn-Pohn's vile captors. From the bustling night market to the hallowed halls of a Buddhist temple and finally, to the sanctuary of an elephant refuge, this clever girl and her beloved companion find that right under their noses is exactly what each has been searching for: a friend.

The Lion and the Elephant

The habits of the lion and the elephant, with anecdotes of their pursuit, mainly in South Africa.

Ellie the Elegant Elephant

"Ellie the Elephant was the most Elegant Elephant of them all. She was beautiful in every season from winter to spring and summer to fall..." Follow Ellie's journey and the creatures she meets along the way as she learns an important lesson about inner beauty. This is the first book in the series: Lessons from the Land, Sea and Air! It's a fun, read aloud rhyming story with beautiful illustrations to capture the hearts and minds of little ones (and big ones, too!)

Zara the Elephant

Delightful animal stories in a handy shaped-book format. Age 3+

The Slightly Annoying Elephant (Read aloud by David Walliams)

Number one bestselling author David Walliams presents his very first picture book for children of 3 and up. Illustrated by artistic genius, Tony Ross, this eBook comes with audio hilariously read by the author himself.

How Kirsty Jenkins Stole the Elephant

Kirsty Jenkins adores the allotment her grandfather lovingly tends and, just before he dies, he asks Kirsty to look after it for him. But when horrible Mr Thomas from the council insists it must go to the next person on the waiting list, Kirsty is determined to find a way to keep her promise. After pleading with Mr Thomas and demonstrating at the council offices, Kirsty and her half-siblings undertake their most daring plan of all: to 'borrow' the stuffed elephant from the museum that Mr Thomas loves so much, in a last-ditch attempt to gain his attention and understanding. Perhaps this risky ruse might also shake Kirsty's dad from the quiet sadness he has fallen into ever since her grandfather died. A warm, funny and moving novel about family relationships, dealing with bereavement, green beans and marrows.

A book about Ottie Elephant in the town

This interactive first storybook follows Ottie Elephant on a fun adventure all around town. Explore colorful street scenes and enjoy surprises along the way — lift the flaps to see what's inside her basket and who's behind a window shade, make funny faces in the mirrored page, and touch the soft felt of Ottie's house.

Can You Move Like an Elephant?

Can you move like an elephant? Creep like a snail? Or spring like a deer? This imaginative, rhythmic text accompanied by Manja's bold, vibrant illustrations encourages children to stomp, swing, swoop or spring like animals.

Once upon a time there were elephants

A novella about a girl living in a remote mountain village who finds out there is more to the world than she imagines.

Rites of Spring

Looks at the origins and impact of World War I, discusses the premiere of Stravinsky's ballet, and analyzes public opinion of the period.

Benek and the Spring of Wisdom Collection of Stories

After a long sleepy winter, the trees, flowers, and animals are getting ready for a busy spring. Discover all the different ways nature wakes up when spring arrives in this fresh and fun story of a family exploring their garden. With further non-fiction information about animals and plants at the back, this picture book is the perfect introduction to the science behind spring.

Busy Spring

Rudyard Kipling's classic 'Just So' story, retold for young readers. According to this much-loved fable, elephants didn't always have long trunks - that is, until one day when the elephant's child could contain his curiosity no longer and stepped closer than he should have to the Crocodile. Also available as a hardcover reader in the Usborne Reading Programme.

How the Elephant Got His Trunk

Tradition is a central concept in the social sciences, but it is commonly treated as unproblematic. Dr. Boyer insists that social anthropology requires a theory of tradition, its constitution and transmission. He treats tradition "as a type of interaction which results in the repetition of certain communicative events," and therefore as a form of social action. Tradition as Truth and Communication deals particularly with oral communication and focuses on the privileged role of licensed speakers and the ritual contexts in which certain aspects of tradition are characteristically transmitted. Drawing on cognitive psychology, Dr. Boyer proposes a set of general hypotheses to be tested by ethnographic field research. He has opened up an important new field for investigation within social anthropology.

Elephant Woman

Human beings are primates, and primates are political animals. Our brains, therefore, are designed not just to hunt and gather, but also to help us get ahead socially, often via deception and self-deception. But while we may be self-interested schemers, we benefit by pretending otherwise. The less we know about our own ugly motives, the better - and thus we don't like to talk or even think about the extent of

our selfishness. This is the elephant in the brain. Such an introspective taboo makes it hard for us to think clearly about our nature and the explanations for our behavior. The aim of this book, then, is to confront our hidden motives directly - to track down the darker, unexamined corners of our psyches and blast them with floodlights. Then, once everything is clearly visible, we can work to better understand ourselves: Why do we laugh? Why are artists sexy? Why do we brag about travel? Why do we prefer to speak rather than listen? Our unconscious motives drive more than just our private behavior; they also infect our venerated social institutions such as Art, School, Charity, Medicine, Politics, and Religion. In fact, these institutions are in many ways designed to accommodate our hidden motives, to serve covert agendas alongside their official ones. The existence of big hidden motives can upend the usual political debates, leading one to question the legitimacy of these social institutions, and of standard policies designed to favor or discourage them. You won't see yourself - or the world - the same after confronting the elephant in the brain.

The Elephant in the Brain

When ten-year-old orphan Peter Augustus Duchene encounters a fortune teller in the marketplace one day and she tells him that his sister, who is presumed dead, is in fact alive, he embarks on a remarkable series of adventures as he desperately tries to find her.

The Magician's Elephant

Eddie the Elephant had a very important role in the upcoming Spring Parade at Bluebell Woods. He had to trumpet loudly to lead the parade through the woods. The only problem was - Eddie could not trumpet. An elephant who could not trumpet? How can that be? Will Eddie manage to fix his problem in time for the upcoming parade?

Spring and Summer School Celebrations

Welcome to beautiful Hope Island where the sea sparkles, the daffodils are blooming and a blossoming romance is just around the corner . . . Bella has always had a sunny outlook and caring nature, despite recently falling on hard times. When she finds a handsome homeless man on her doorstep, her kind heart tells her she must help him. So, she invites Isaac into her cottage and into her life in ways she could never have imagined...But Isaac is not what he seems. He's keeping a huge secret from Bella, yet he never expected to fall for this open, generous and charming woman. Bella can't ignore the chemistry between her and Isaac, but she's had her trust badly broken in her past. Will she run when she learns the truth about Isaac, or will he be the one man who can help Bella believe in love again? A gorgeously romantic and heartwarming story to completely lose yourself in. Perfect for fans of Jenny Colgan, Sarah Morgan and Ali McNamara. Read what everyone is saying about Spring at Blueberry Bay: 'OMG this is Holly's best book ever I haven't laughed so much in ages ... hilarious and endearing ... The chemistry is electric (and steamy too).' Goodreads 'I absolutely flew through this book ... A wonderful story that I have no doubt will leave you with a smile!' Rae Reads 'This is a hug in a book and I found it simply delightful' Goodreads 'Oh my! I think I've just fell in love with the amazing Isaac! The characters are just fantastic and incredibly loveable ... The book is jam packed with romance, passion and fun. This is one of the loveliest romances I've ever read' Goodreads 'This is probably the best Holly Martin book I've read so far! Fantastic, fantastic, fantastic' Stardust Book Reviews

The Elephant Who Couldn't Trumpet

Excerpt from Kari the Elephant It was not an easy job, as you see, to get twigs and saplings for Kari. I had to climb all kinds of trees to get the most delicate and tender twigs. As he was very fond of the young branches of the banyan tree which grows like a cathedral of leaves and branches, I was gathering some, one spring day in March, when I suddenly heard Kari calling to me in the distance. As he was still very young, the call was more like that of a baby than an elephant. I thought somebody was hurting him, so I came down from my tree and ran very fast to the edge of the forest where I had left him, but he was not there. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

Spring at Blueberry Bay

It's a brightly illustrated interactive book that really gets boys and girls moving! A picture showing elephants appears with text that asks: "Can you do what an elephant does? Deep in the jungle, the elephants go -- slow, slow, to and fro, swinging their trunks from side to side." Kids are challenged to move like an elephant . . . then like a slithery snake, and then like a swinging monkey. The colorful pictures that follow show a peacock, a snail, a big yellow butterfly, a springing tiger, a running deer, a herd of frightened animals, and a flock of flamingos. Finally, kids are asked if they can cuddle up and go to sleep like a small rabbit in its burrow. Here's an imaginatively illustrated volume that also makes a perfect bedtime story. Endpapers contrast Manya Stojic's vivid art with color photos of kids imitating the animals. (Ages 26)

Kari the Elephant (Classic Reprint)

When Erica Perkins wakes up on the morning of her tenth birthday, the last thing she expects is to find a very confused elephant sitting on her doorstep. So begins an unlikely friendship. But can a small girl and a rather large elephant learn to live together in a tiny terraced house? And when the dastardly owner of the local zoo plots to steal the elephant, will Erica be able to outsmart him?

Can You Move Like an Elephant?

This cheerful Elephant Notebook with its pretty spring design is the perfect spot for keeping notes, writing stories or making lists. It's 7x10 size fits neatly on a desk or table yet still provides plenty of writing space. There are 100 lined pages in total and the bright pink elephant design on the cover will brighten any desk or table. Notebooks make a wonderful gift. Perfect for: Mother's Day Gifts Housewarming Gifts Thank you Gifts Birthday Gifts Teacher Gifts

Erica's Elephant

"An Elephant's Life" provides a unique and fascinating immersion into the world of the African elephant, told by a leading field biologist who has been researching and photographing these animals in their natural habitat for nearly two decades. Here, for the first time, readers get a fuller picture of elephant society cast in a broader context.

Happy Elephant Spring Notebook

Join Marley Bear for a fun and interactive mini-adventure at the farm. Meet the animals and learn about the noises they make, touch a sheep's fluffy fur, and make funny faces in a mirror. And when you lift the flaps, you'll discover who's joining Marley on a hayride, who's hiding behind a haystack, who's playing with the pigs, and other surprises.

An Elephant's Life

An Elephant in the Garden is Simon Reade's new adaptation of Michael Morpurgo's best-selling children's novel. 1945. Dresden, Germany. Lizzie, her mother – and an elephant from the zoo, flee the Allied fire-bombing in the end-game of the Second World War. Escaping the Allies' advance from

the West – and also the advancing Russian armies from the East – this extraordinary trio of refugees meet: a downed RAF officer, cowering in a barn; a homeless school choir on the run and their Countess saviour, harbouring them from the Nazis; and the mechanised American cavalry, appearing over the horizon. It is Lizzie's story – but Marlene, the elephant, is the heroine. Plodding, obdurate, opportunistic, loadbearing, indestructible, cheering – Marlene embodies the stubbornness of the human will and how it will do everything to survive.

A book about Marley Bear at the farm

"I have counted, in the last ten miles three hundred sixty-two wagons, which in the States cost about \$120 each. The cause of so many wagons being abandoned, is to endeavor to save the animals and reach the end of the journey as soon as possible by packing through; the loss of personal goods is a matter of small importance comparatively." Between 1846 and 1869 more than 400,000 settlers took the perilous journey across the wide and wild spaces of the Western United States to settle in the coastal territories. James Abbey was just one of them and he kept a journal of the trip. The sheer determination, foolishness, or a combination of both that motivated pioneers to uproot their lives and families and risk it all is exemplified in Abbey's statement above. Once on the trail, there was often no going back and great sacrifices were exacted to reach the destination. This long-forgotten, out-of-print book is available for e-readers for the first time. Journey back in time with Abbey and find out just how hard it was, how much it cost in hard-earned dollars, and what the rewards were. He published this record, in his words: "Being a daily record of incidents of the trip over the plains, the desert, and the mountains, sketches of the country, distances from camp to camp, etc., And containing valuable information To emigrants. As to where they will find wood, water, and grass at almost every step of the journey." Be sure to LOOK INSIDE or download a sample.

The Behâristân (Abode of Spring)

For over two decades, Clues has included the best scholarship on mystery and detective fiction. With a combination of academic essays and nonfiction book reviews, it covers all aspects of mystery and detective fiction material in print, television and movies. As the only American scholarly journal on mystery fiction, Clues is essential reading for literature and film students and researchers; popular culture aficionados; librarians; and mystery authors, fans and critics around the globe.

An Elephant in the Garden

Being a baby elephant can be hard work. Babies must learn how to use more than 100,000 different muscles – and that's just in their trunk! Learn more about these cuties in this title for beginning readers.

California: A Trip Across the Plains in the Spring of 1850

Eva is a seventeen-year-old from Edmonton in 1979 who is experiencing a world of trouble at home. To escape the trouble, she decides to visit her family's homeland of Poland for the summer, staying with an older half-sister, Hanna, whose existence Eva has only recently discovered. In Communist Poland, she experiences a different way of living, one where the conveniences she has taken for granted do not exist. She finds, however, the rich cultural traditions both fascinating and compelling. She meets a mysterious, charming young man named Mark, who shows her around the city, but his anger and disenchantment disturb her. The first seeds of the Solidarity Uprising are starting to grow and the workers, peasants and intellectuals are beginning to unite under the leadership of the church. Eva's visit also takes place during the Papal visit to Poland which galvanized the people to strike their blow for freedom. Against this tumultuous backdrop, Eva learns about the resilience in herself and her politically maturing people.

Clues: A Journal of Detection, Vol. 38, No. 1 (Spring 2020)

When Noah goes Christmas shopping with his mum and baby sister, he has a brilliant time with his toy elephant, Oliver, playing peekaboo, hiding in a doll's house and dancing Oliver on tables. But suddenly disaster strikes, Oliver goes missing! And, oh dear, the department store is very big. Will Noah ever find his favourite toy again?

Warsaw Spring

Common Truths

Addresses the questions philosophers have asked for centuries about the ground for man's actions. Why be moral? What is law? What are the limits of coercion within a just and free society? These and similar questions are ancient yet timely; and today, as always, they demand answers. Explicates the historical, theoretical, legislative and juridical aspects of natural law doctrine. The essayists reveal the comprehensiveness and, consequently, the usefulness of natural law theory in deriving human solutions to the problems confronting contemporary society.

The Natural Law

Originally published in German in 1936, *The Natural Law* is the first work to clarify the differences between traditional natural law as represented in the writings of Cicero, Aquinas, and Hooker and the revolutionary doctrines of natural rights espoused by Hobbes, Locke, and Rousseau. Heinrich A. Rommen (1897-1967) taught in Germany and England before concluding his distinguished scholarly career at Georgetown University. Russell Hittinger is William K. Warren Professor of Catholic Studies and Research Professor of Law at the University of Tulsa. Please note: This title is available as an ebook for purchase on Amazon, Barnes and Noble, and iTunes.

Natural laws; or, The infallible criterion

Charles Rice, professor of the jurisprudence of St. Thomas Aquinas for the last twenty years at Notre Dame Law School, presents a very readable book on the natural law as seen through the teachings of Aquinas and their foundations in reason and Revelation. Reflecting on the most persistent questions asked by his students over the years, Rice shows how the natural law works and how it is rooted in the nature of the human person whose Creator provided this law as a sure and knowable guide for man to achieve his end of eternal happiness. This book presents the teachings of the Catholic Church in her role as arbiter of the applications of the natural law on issues involving the right to life, bioethics, the family and the economy. Charles Rice has produced a firmly grounded and accessible handbook which touches on the most important topics regarding natural law that will benefit readers of all backgrounds.

50 Questions on The Natural Law

Reproduction of the original: *Natural Law in the Spirritual World* by Henry Drummond

Natural Law in the Spirritual World

The *Natural Law Reader* features a selection of readings in metaphysics, jurisprudence, politics, and ethics that are all related to the classical Natural Law tradition in the modern world. Features a concise presentation of the natural law position that offers the reader a focal point for discussion of ancient and contemporary ideas in the natural law tradition. Draws upon the metaphysical and ethical categories put forth and developed by Aristotle and Aquinas. Points to the historical significance and contemporary relevance of the Natural Law tradition. Reflects on a revival of interest in the tradition of virtue ethics and human rights.

The Natural Law Reader

As an assistant to Dwight L. Moody, the great 19th-century evangelist, college science lecturer Henry Drummond found expression for his religious yearnings. But with this 1883 bestseller, he secured fame of his own by combining the spiritual and the scientific in one of the first great reconcilings of the natural and the soulful. By exploring such concepts as birth, growth, death, the environment, and eternal life from both the perspectives of both reason and faith, and demonstrating how the two standpoints are not mutually exclusive, Drummond offered readers hungry for a new understanding of the human experience a way to a new and thoroughly modern philosophy of life, one that continues to have a profound impact on readers today. Scottish evangelist HENRY DRUMMOND (1851-1897) also wrote the influential *The Ascent of Man* (1894), a Christian assessment of Darwin's impact on spirituality, and *The Greatest Thing in the World* (1880), a meditation on Scripture that continues to deeply move readers today.

Natural Law in the Spirritual World

Natural law theory is enjoying a revival of interest in a variety of scholarly disciplines including law, philosophy, political science, and theology and religious studies. This volume presents twelve original essays by leading natural law theorists and their critics. The contributors discuss natural law theories of morality, law and legal reasoning, politics, and the rule of law. Readers get a clear sense of the wide diversity of viewpoints represented among contemporary theorists, and an opportunity to evaluate the arguments and counterarguments exchanged in the current debates between natural law theorists and their critics. Contributors include Hadley Arkes, Joseph M. Boyle, Jr., John Finnis, Robert P. George, Russell Hittinger, Neil MacCormick, Michael Moore, Jeffrey Stout, Joseph Raz, Jeremy Waldron, Lloyd Weinreb, and Ernest Weinrib.

Natural Law in the Spiritual World

There are laws, rules, and facts so potent in this world, that they are capable to define and decide everything everywhere. These are the natural laws of this world, the spiritual laws of the universe, the supreme laws of the universe, and the higher laws. Along with the consensual laws and consensual orders of the lower worlds if you are there. The natural and spiritual laws of the universe are relatively easy to find and understand, since they are taught by most spiritual schools of thought, but will we also be able to find the supreme laws of the universe? Because since these are the highest, main, first laws ever, they should remain at the top of every law and knowledge in this world, and therefore they should remain capable to define and express everything in this world, including your unanswered questions about yourself, life, this world, and about your meaning and place in life and in this world. You must be familiar with the laws of the universe presented throughout schools of thought and used in famous documentaries as "The Secret," building on the famous law of attraction. There are seven laws of the universe, while all successful people consider them methodically, since these help them succeed in life. If you understand these natural, spiritual, and supreme laws of the universe, they help you develop, while remaining meaningful, fulfilling, and harmonious in life and in this world. There are seven laws of the universe, or twelve, or fourteen, depending on your school of thought, yet they include the same higher knowledge, as in the law of mentalism, the law of correspondence, the law of gender, the law of polarity, and the law of vibration. These laws are over five thousand years old, and this is the case only because the age of all written records stops at this specific time, for various reasons. Because if our records went further back in time, we found these laws of the universe mentioned everywhere. You may find the laws of the universe stated throughout old Egyptian, old Greek, and old Indian records. This book finds and explains the natural, spiritual, and supreme laws of the universe, helping you understand them, and through them, helping you understand everything in life and in this world. Since these laws help you differentiate between valid facts and misleading beliefs, when you match your lines of reasoning with the lines of causality determined by them.

Natural Law Theory

Our age is characterized by radical subjectivism. Which is to say: There is no agreement on any absolute standard of value. Indeed, there is no agreement even on truth itself. And as a matter of fact, the very concept of objective, absolute truth has been cast aside in favor of "truths" - your truth, my truth, whoever's truth. The result is the abandonment of the pursuit of truth at all, in favor of convictions, emotional appeals in favor of those convictions, and the pursuit of political power to put those convictions in practice. This state of affairs will come as no surprise to those, like Friedrich Julius Stahl, who track the way people think, who know that ideas have consequences and that thought eventually feeds into practice. This is especially the case with legal philosophy. Here is where theory and practice confront each other, where the rubber meets the road. And the history of legal philosophy is the history of ideas having consequences. This history can tell us a great deal about how we arrived at the current state of affairs. When we look at it, we find that the key player in this history is natural law. Once the mainstay of ethical and legal discourse, it is now a forgotten relic. But natural law paved the way for the triumph of subjectivism in the modern world. A strange thing, considering that natural law was supposed to embody an objective standard for judging man-made law. It ended up eliminating that standard. How this came about is the burden of *The Rise and Fall of Natural Law*. Natural law was born of the Greeks and Romans, adopted by the Christian church, and converted into the bulwark of Christian ethical and legal science. But along the way it became disengaged from the church; and when it did, it played a central role in secularizing Western civilization. Stahl follows this career, from its start in classical antiquity, through to its incorporation in the scholasticism of the Middle Ages, to its secularized versions in the Enlightenment, and culminating in the philosophy of Rousseau and the hard reality of the French Revolution. The subjectivist turn is especially emphasized in the work of Johann

Gottlieb Fichte, whose focus on enthusiastic conviction and the primacy of the subject makes him the prophet of the modern world. Although Fichte wrote at the turn of the 19th century, it is in our day that his orientation has triumphed. His story, and the stories of those leading up to him - the leading characters in "the Rise and Fall of Natural Law" - are crucial to understanding the genesis of the modern world.

Natural Laws of the Universe

Why do we demand happiness on terms that make happiness impossible? And what can we do about it? Acclaimed philosopher J. Budziszewski addresses these questions in the brilliantly persuasive book *The Line Through the Heart*, finding the answers in the natural law. The journey of exploration takes us through politics, religion, ethics, law, philosophy, and more, with Budziszewski as expert guide. While investigating the natural law and its implications, Budziszewski boldly confronts a wide range of contemporary issues, offering a newly integrated view of abortion, evolution, euthanasia, capital punishment, runaway courts, and the ersatz state religion built in the name of religious toleration. Written in Budziszewski's usual crystalline style, *The Line Through the Heart* shows that natural law is a matter of concern not merely to scholars but to everyone, for it touches how each of us lives, and how all of us live together. His profound examination of this subject helps us make sense of why habits that run against our nature have become second nature, and why our world seems to be going mad.

The Rise and Fall of Natural Law: Volume 1A of the Philosophy of Law: The History of Legal Philosophy

Natural law, according to Thomas Aquinas, has its foundation in the evidence and operation of natural, human reason. Its primary precepts are self-evident. Awareness of these precepts does not presuppose knowledge of, or even belief in, the existence of God. The most interesting criticisms of Thomas Aquinas's natural-law teaching in modern times have been advanced by the political philosopher Leo Strauss and his followers. The purpose of this book is to show that these criticisms are based on misunderstandings and that they are inconclusive at best. Thomas Aquinas's natural-law teaching is fully rational. It is accessible to man as man.

The Line Through the Heart

"This is the classic study of the history and continuing philosophical values of the law of nature. D'Entreves discerned three distinct sources that have contributed to the development of natural law: Roman law teachings, Christian beliefs regarding law, and egalitarian and revolutionary theories of the Enlightenment. Now regarded as a classic work, *Natural Law* has exercised considerable influence over the course of Anglo-American legal theory in the past forty years. The statements of Clarence Thomas during his 1991 Senate confirmation hearings show that the law of nature still holds powerful appeal in defining judicial rules. In the new introduction, Cary J. Nederman points out both the contemporary value and the historical significance of *Natural Law*. He also provides the biographical as well as intellectual context for d'Entreves' immense accomplishments. This volume is essential reading for students of legal history, political theory, and philosophy. It will also be of interest to historians. Few texts provide as concise or as cogent an introduction to natural theory as Alexander Passerin d'Entreves' *Natural Law: An Introduction to Legal Philosophy*.... Transaction Publishers has performed a genuine service by bringing out a new edition of *Natural Law*. D'Entreves' analysis is clear and penetrating, and will guide the student of natural law to further, fruitful study.—Mitchell Muncy, *The University Bookman*"--Google Books viewed May 18, 2021.

Natural Reason and Natural Law

In Section 1, I outline the history of natural law theory, covering Plato, Aristotle, the Stoics and Aquinas. In Section 2, I explore two alternative traditions of natural law, and explain why these constitute rivals to the Aristotelian tradition. In Section 3, I go on to elaborate a *via negativa* along which natural law norms can be discovered. On this basis, I unpack what I call three 'experiments in being', each of which illustrates the cogency of this method. In Section 4, I investigate and rebut two seminal challenges to natural law methodology, namely, the fact/value distinction in metaethics and Darwinian evolutionary biology. In Section 5, I then outline and criticise the 'new' natural law theory, which is an attempt to revise natural law thought in light of the two challenges above. I conclude, in Section 6, with a summary and some reflections on the prospects for natural law theory.

Natural Law

This is the classic study of the history and continuing philosophical values of the law of nature. D'Entreves discerned three distinct sources that have contributed to the development of natural law: Roman law teachings, Christian beliefs regarding law, and egalitarian and revolutionary theories of the Enlightenment. Now regarded as a classic work, *Natural Law* has exercised considerable influence over the course of Anglo-American legal theory in the past forty years. The statements of Clarence Thomas during his 1991 Senate confirmation hearings show that the law of nature still holds powerful appeal in defining judicial rules. In the new introduction, Cary J. Natural Law Theory

Raymond Wacks reveals the intriguing and challenging nature of legal philosophy, exploring the notion of law and its role in our lives. He refers to key thinkers from Aristotle to Rawls, from Bentham to Derrida and looks at the central questions behind legal theory, and law's relation to justice, morality, and democracy.

Natural Law

As Christians, we affirm that Scripture is our supreme guide to truth and righteousness. Some wish to go further and assert that it is our only guide. But how then can we account for the remarkable insight and moral integrity that many unbelievers seem to display? Indeed, how to account for the myriad ways in which believers themselves navigate the world based on knowledge and intuition not always derived from Scripture? Enter the doctrine of natural law. Frequently misrepresented as an assertion of the autonomous power of human reason or as a uniquely Roman Catholic doctrine, natural law has actually been an integral part of orthodox Christian theology since the beginning, and is even clearly asserted in Scripture itself. In this brief guide, David Haines and Andrew Fulford explain the philosophical foundations of natural law, clear up common misunderstandings about the term, and demonstrate the robust biblical basis for natural law reasoning.

Philosophy of Law

This book illustrates the deep roots of natural law doctrines in America's political culture. Originally published in 1931, the volume shows that American interpretations of natural law go to the philosophical heart of the American regime. The Declaration of Independence is the preeminent example of natural law in American political thought; it is the self-evident truth of American society. Benjamin Wright proposes that the decline of natural law as a guiding factor in American political behaviour is inevitable as America's democracy matures and broadens. What Wright also chronicled, inadvertently, was how the progressive critique of natural law has opened a rift between and among some of the ruling elites and large numbers of Americans who continue to accept it. Progressive elites who reject natural law do not share the same political culture as many of their fellow citizens. Wright's work is important because, as Leo Strauss and others have observed, the decline of natural law is a development that has not had a happy ending in other societies in the twentieth century. There is no reason to believe it will be different in the United States.

Natural Law

This major addition to *Ideas in Context* examines the development of natural law theories in the early stages of the Enlightenment in Germany and France. T. J. Hochstrasser investigates the influence exercised by theories of natural law from Grotius to Kant, with a comparative analysis of the important intellectual innovations in ethics and political philosophy of the time. Hochstrasser includes the writings of Samuel Pufendorf and his followers who evolved a natural law theory based on human sociability and reason, fostering a new methodology in German philosophy. This book assesses the first histories of political thought since ancient times, giving insights into the nature and influence of debate within eighteenth-century natural jurisprudence. Ambitious in range and conceptually sophisticated, *Natural*

Law Theories in the Early Enlightenment will be of great interest to scholars in history, political thought, law and philosophy.

American Interpretations of Natural Law

Is there such a thing as an objective law of morality? Natural law theorists maintain that there is, and Natural Law probes the history and implications of this powerful concept. Tracing the development of natural law from ancient times to the present, the book also examines the leading figures, transitions, and turning points in the idea's evolution, and brings a natural law approach to contemporary issues such as abortion, homosexuality, and assisted suicide.

Natural Law Theories in the Early Enlightenment

The cultural chatter about "rights" is often muddled. Are there really "rights"? What is their source? Can we really know where to draw lines, even legal lines? The law's moral basis is something that citizens "can't not know." Clarity does exist. And this truth is something that all people, especially attorneys must understand. In a cogent, but accessible way, Dr. Budziszewski sets forth the reality of the natural law-the higher law--and in doing so provides clarity and direction for those laboring in law and policy.

Natural Law

Presents a systematic, contemporary defence of the natural law outlook in ethics, politics and jurisprudence.

Natural Law for Lawyers

Translation of: Dio e la legge naturale: una rilettura di Tommaso d'Aquino.

Natural Law and the Nature of Law

Is knowledge of right and wrong written on the human heart? Do people know God from the world around them? Does natural knowledge contribute to Christian doctrine? While these questions of natural theology and natural law have historically been part of theological reflection, the radical reliance of twentieth-century Protestant theologians on revelation has eclipsed this historic connection. Stephen Grabill attempts the treacherous task of reintegrating Reformed Protestant theology with natural law by appealing to Reformation-era theologians such as John Calvin, Peter Martyr Vermigli, Johannes Althusius, and Francis Turretin, who carried over and refined the traditional understanding of this key doctrine. Rediscovering the Natural Law in Reformed Theological Ethics calls Christian ethicists, theologians, and laypersons to take another look at this vital element in the history of Christian ethical thought.

Natural Laws; Creation, Miracles, Providence, Prayer. A Lecture Delivered at the Request of the Young Men's Association in Connexion with the U.P. Congregation, Broughton Place, Edinburgh

Resorting to natural law is one way of conveying the philosophical conviction that moral norms are not merely conventional rules. Accordingly, the notion of natural law has a clear metaphysical dimension, since it involves the recognition that human beings do not conceive themselves as sheer products of society and history. And yet, if natural law is to be considered the fundamental law of practical reason, it must show also some intrinsic relationship to history and positive law. The essays in this book examine this tension between the metaphysical and the practical and how the philosophical elaboration of natural law presents this notion as a "limiting-concept"

Natural Law and Divine Miracle

Modern society is riven by social divisions: between conservatives and progressives; liberals and socialists; the mainstream and the rise of far-right political groups etc. Instead of truth, there are 'post-truth' and 'alternative facts'. In the wake of problems caused by untruthful politicians and world leaders, by Brexit and Covid, the need to repair or rebuild our communities has become paramount, but what kind of community should we build, and on what foundations? This book suggests that natural law is such a foundation. Natural Law and Modern Society presents a new theory of natural law, grounded in the thought of Saint Thomas Aquinas, aimed at answering questions relevant to the world of today: from the nature of morality and ethics to the theory of law, obligation and political authority; from the

domestic realm to international community. It seeks to elicit from the natural law tradition timeless truths concerning the human condition, in particular the social and political dimensions to human existence. This mode of existence, it argues, is not a problem to be resolved through some permutation of political institutions, but a predicament to be managed. At the heart of the book is the identification of a 'core morality': a set of moral requirements that are foundational to every society at all places and times, as distinct from those standards that are particular to this or that society at some time.

God and the Natural Law

A wide-ranging study of a concept which underpinned Renaissance literature and continues to absorb contemporary thinkers.

Natural Law and Natural Rights

Collects ten essays on Germain Grisez's writings. Topics include the scriptural basis of Grisez's revision of moral theology, contraception, Grisez's metaphysical work, capital punishment, and the political common good in Aquinas. The book includes a response by Grisez and Joseph Boyle, Jr. to the e

Rediscovering the Natural Law in Reformed Theological Ethics

Law underlies our society - it protects our rights, imposes duties on each of us, and establishes a framework for the conduct of almost every social, political, and economic activity. The punishment of crime, compensation of the injured, and the enforcement of contracts are merely some of the tasks of a modern legal system. It also strives to achieve justice, promote freedom, and protect our security. The result is a system that, while it touches all of our daily lives, is properly understood by only a few, with its impenetrable jargon, obsolete procedures, and interminable stream of Byzantine statutes and judgments of the courts. This clear, jargon-free Very Short Introduction aims to redress that balance, as it introduces the essentials of law and legal systems in a lively, accessible, and stimulating manner. Explaining the main concepts, terms, and processes of the legal system, it focuses on the Western tradition (the common law and the civil law), but also includes discussions of other legal systems, such as customary law and Islamic law. And it looks to the future too, as globalization and rapid advances in technology place increasing strain on our current legal system. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Contemporary Perspectives on Natural Law

"Human beings are a part of nature and apart from it." The argument of Natural Law and Justice is that the philosophy of natural law and contemporary theories about the nature of justice are both efforts to make sense of the fundamental paradox of human experience: individual freedom and responsibility in a causally determined universe. Professor Weinreb restores the original understanding of natural law as a philosophy about the place of humankind in nature. He traces the natural law tradition from its origins in Greek speculation through its classic Christian statement by Thomas Aquinas. He goes on to show how the social contract theorists adapted the idea of natural law to provide for political obligation in civil society and how the idea was transformed in Kant's account of human freedom. He brings the historical narrative down to the present with a discussion of the contemporary debate between natural law and legal positivism, including particularly the natural law theories of Finnis, Richards, and Dworkin. Professor Weinreb then adopts the approach of modern political philosophy to develop the idea of justice as a union of the distinct ideas of desert and entitlement. He shows liberty and equality to be the political analogues of desert and entitlement and both pairs to be the normative equivalents of freedom and cause. In this part of the book, Weinreb considers the theories of justice of Rawls and Nozick as well as the communitarian theory of MacIntyre and Sandel. The conclusion brings the debates about natural law and justice together, as parallel efforts to understand the human condition. This original contribution to legal philosophy will be especially appreciated by scholars, teachers, and students in the fields of political philosophy, legal philosophy, and the law generally.

Natural Law and Modern Society

This book critically and constructively explores the resources offered for natural law doctrine by classical thinkers from three traditions: Jewish, Christian, and Islamic. Three scholars each offer a programmatic essay on natural law doctrine in their particular religious tradition and then respond to the other two essays.

The Principles of Natural and Politic Law

This is the first full-length study of Vico's *Diritto Universale* to be written in English. This study places the work within the wider traditions of Roman legal scholarship and natural law, which Vico was confronting. Truth and Authority in Vico's Universal Law breaks new ground in the treatment of Aristotelian influences on Vico. It examines Vico's idea that a theory founded on the subjective right of the single individual cannot be the foundation of social relationships. This entails the investigation of Vico's refusal to endorse rationality as the basis of authority and political agreement conceived as «contract.» It traces a continuity between the *Diritto Universale* and Vico's major work, the *Scienza Nuova*.

The Fragrant Green Hotel

At the far end of one of the fabulous silver roads stands the Fragrant Green Hotel. For some, a universe away, for others, a single step. Those few who receive the extraordinary invitation to spend some borrowed time within its walls have only one thing in common. They are all dead. Despite its exotic location, a number of talented travellers find their way to its doors without perishing but the path is fraught with danger and the Fragrant Green is no place for the faint of heart. One of those Pathfinders is Baroness Covenay. A trailblazer of the silver roads and a regular guest at the mysterious hotel. Her adventures are numerous and remarkable, all part of the legend that is the Fragrant Green Hotel.

Chronicles of the Fragrant Green Hotel

At the far end of the fabulous silver roads stands the Fragrant Green Hotel. For some, a universe away, for others, a single step. Those few who receive the extraordinary invitation to spend some borrowed time within its vibrant walls have only one significant thing in common. They are all dead. Despite its exotic location, a number of talented travellers can find their way to its doors without perishing but the path is fraught with danger and the Fragrant Green is not a place for the faint of heart. One such Pathfinder is Baroness Covenay, a trailblazer of the silver roads and regular guest at the mysterious hotel; her remarkable adventures are very much part of the legend that is the Fragrant Green Hotel.

New Tastes in Green Tea

Lauded for its medicinal and healthful properties and low caffeine, green tea is said to help prevent cancer, maintain a healthy blood cholesterol, control high blood pressure and more. This inspiring new cookbook introduces ideas for incorporating green tea into a modern lifestyle.

Green Valley

DigiCat Publishing presents to you this special edition of "Green Valley" by Katharine Yirsa Reynolds. DigiCat Publishing considers every written word to be a legacy of humankind. Every DigiCat book has been carefully reproduced for republishing in a new modern format. The books are available in print, as well as ebooks. DigiCat hopes you will treat this work with the acknowledgment and passion it deserves as a classic of world literature.

Toto, I Don't Think We're in Golders Green Anymore!

If you are considering a new life in Israel then Toto, I Don't Think We Are in Golders Green Anymore is essential reading. This is an often humorous account about becoming a Jew and moving to Israel as a new immigrant. It is also the story of a relationship that didn't quite work out and about being gay in Israel. This book will give you a feeling for what it is really like to live in Israel; experience the sights, smells, tastes, the blood-vessel-popping frustration and the exhilaration of Aliyah. Meet a host of lovable characters such as cockroach-chomping kittens, snarling nudists, and ferocious rubber-stamp-wielding clerks with pig-stunning BO. The book explores Israeli norms and attitudes and describes places, politics and everyday experiences through English eyes.

12 MONKEYS & A GREEN JACKET

Green Travel Guide to Southern Wisconsin surveys the best green restaurants, lodgings, shops, and activities southern Wisconsin has to offer. Dine at independent, locally owned eateries that serve up delicious fare grown and raised by farmers right down the road. Overnight at peaceful inns that sponsor workshops on topics ranging from cheesemaking to sustainability. Scour markets that sell locally foraged mushrooms, berries, and syrups as well as arts and crafts created by local artisans. Bicycle through southern Wisconsin, stopping at small-scale farms where travelers are not only welcome but encouraged to visit. Honorable Mention, Foreword Magazine's Travel Guidebook of the Year

Green Travel Guide to Southern Wisconsin

This eBook version of the Green Guide Japan by Michelin captures the spirit of the country, from the Okinawa archipelago's sandy beaches to Honshu's forested slopes. This fully revised and expanded Green Guide Japan presents a country famous for its rich heritage, plentiful hot springs, state-of-art railway network and complex, delicious cuisine. Delight in Kyoto's shrines and temples, explore Nara's UNESCO World Heritage sites, and shop in Tokyo's eclectic boutiques. Discover historic pagodas, futuristic skyscrapers, peaceful villages and a varied flora and fauna. Wherever you go, Michelin's celebrated star-rating system makes sure you see the best Japan has to offer.

Green Mountain Gem

This first edition eBook of the Green Guide South Korea by Michelin delivers a country bristling with UNESCO World Heritage sites and its own National Treasures. Enjoy Seoul, an energetic modern city with ancient palaces, shopping malls and food stalls. Explore Buddhist temples, shamanist shrines and fascinating folk villages. Discover Korea's cultural heritage through its art, crafts, cuisine and markets. Visit its diverse landscapes from Seoraksan national park to the beautiful island Jeju-do and Suncheon's wetlands. Whatever you choose, Michelin's celebrated star-rating system makes sure you see the best of South Korea.

Egon Ronay's Cellnet Guide, Hotels & Restaurants ...

I can travel the world for free. All I have to do is pretend... Jasper wants his ex back, and the business titan plans to do it with the oldest method in the book: jealousy. That's where I come in. He'll pay for a once in a lifetime, round the world dream vacation, and all I need to do is pretend that I'm his boyfriend. Sign me up! Posing for Insta worthy pics is simple enough, but there's something Jasper doesn't know. I'm crazy about him. Jasper doesn't see me as anything more than the mayor's son — an athletic and earnest guy a dozen years younger than him. Now is my chance to prove he doesn't need his ex, he needs me. Jasper didn't get to the top without a few secrets of his own. When it all comes out I don't know how we'll handle the truth. Can we make this fake relationship real? Or will we drown in our own lies? "Fling" is a gay romance by Jaylen Florian, author of "Thirst" and "Bravado." Read now to see how this fake relationship will lead to true love!

Michelin Green Guide Japan

Britain's most famous hotel and restaurant guide, providing an honest opinion on thousands of the best places to stay and eat. Illustrated.

Michelin Green Guide South Korea

Read *The Case Against Fragrance* and you will never think about fragrance in the same way again. If you have been suffering fragrance in silence, you will know you are not alone.' Conversation Kate Grenville had always associated perfume with elegance and beauty. Then the headaches started. Like

perhaps a quarter of the population, Grenville reacts badly to the artificial fragrances around us: other people's perfumes, and all those scented cosmetics, cleaning products and air fresheners. On a book tour in 2015, dogged by ill health, she started wondering: what's in fragrance? Who tests it for safety? What does it do to people? The more Grenville investigated, the more she felt this was a story that should be told. The chemicals in fragrance can be linked not only to short-term problems like headaches and asthma, but to long-term ones like hormone disruption and cancer. Yet products can be released onto the market without testing. They're regulated only by the same people who make and sell them. And the ingredients don't even have to be named on the label. This book is based on careful research into the science of scent and the power of the fragrance industry. But, as you'd expect from an acclaimed novelist, it's also accessible and personal. The Case Against Fragrance will make you see—and smell—the world differently. When I was little, my mother had a tiny, precious bottle of perfume on her dressing-table and on special occasions she'd put a dab behind her ears. The smell of Arpege was always linked in my mind with excitement and pleasure—Mum with her hair done, wearing her best dress and her pearls, off for a night out with Dad. When I got old enough to have my own special occasions I also had my favourite perfume. I loved the bottles: those sensuous shapes. I loved the names and the labels, so evocative of all things glamorous. Kate Grenville is one of Australia's most celebrated writers. Her bestselling novel *The Secret River* received the Commonwealth Writers' Prize, and was shortlisted for the Man Booker Prize and the Miles Franklin Literary Award. *The Idea of Perfection* won the Orange Prize. Grenville's other novels include *Sarah Thornhill*, *The Lieutenant*, *Lilian's Story*, *Dark Places* and *Joan Makes History*. Kate lives in Sydney and her most recent works are the non-fiction books *One Life: My Mother's Story* and *The Case Against Fragrance*. 'One spritz of aftershave or perfume can leave other people retching and clutching their heads—you never see that in the ads.' Kaz Cooke 'Beginning with her own physical reaction to fragrance that begins with a headache a lot of us know ourselves, she investigates the fragrance industry and its side-effects and interweaves these facts with the personal to create an accessible work of non-fiction.' ArtsHub 'Fact-dense and extensively referenced, the book is a delight to read and never gets bogged down...While some of the science has been simplified, the book generally conveys the sense of it correctly...Well developed and thoughtful. Read *The Case Against Fragrance* and you will never think about fragrance in the same way again. If you have been suffering fragrance in silence, you will know you are not alone.' Conversation 'Grenville sets out to unlock the dark science—the volatile compounds, conspiracies and carcinogens—hiding in perfume, the ingredients of which are regularly listed as alcohol, water and the mysterious catch-all "fragrance".' New Statesman 'In this appealingly written exploration, Kate uncovers the dark side of the fragrance industry, from the carcinogens in after-shave to the hormone disruptors in perfume that mimic oestrogen.' Child 'An insightful and frightening book.' Readings 'Readable, interesting and informative.' Big Book Club 'Grenville expresses hope though that our society will find solutions to the fragrant violation of personal space based on courtesy and civility rather than on regulation and policy.' Australian Book Review 'You may be familiar with Australian novelist Kate Grenville's work but she enters new territory here. After exposure to perfumes and scents delivered ill-health her way, Grenville got curious as to why...The result is a fascinating (and worrying) exposé of the potentially damaging health effects of fragrances and the laxity of their regulation. Grenville digs into the science of scent as well as the intrigue of a multi-billion-dollar industry and makes it beautifully accessible in the process.' WellBeing 'The Orange Prize-winning novelist's discovery that she reacts badly to the artificial fragrances all around us led her to investigate what is in fragrances, what it does to people and whether it is properly tested for safety...The result is this accessible and personal book on the science of fragrance' Bookseller '[Grenville] raises valuable questions about the potentially harmful chemicals surrounding us every day and why we so unabashedly live in ignorance of them.' Reader's Digest UK, Best New Books to Read This Summer 'In some places, though, the danger [of fragrance] is beginning to be taken as seriously as passive smoking 30 years ago...it sounds silly, until you read Kate Grenville's explosive exposé and wonder why no one ever told you this stuff before.' Mail on Sunday 'An accessible, intelligent, seriously researched—and terrifying—book' Daily Mail UK

Fling

"But what is this scent of balmy air? What this ray of light in my tomb? I seem to see an angel, amid a scent of roses" sings Florestan in *Fidelio*, Beethoven's only opera. The role of scents, smells, fragrances, and odours in opera has long been neglected, just as how much opera and its stars have influenced the world of perfumery from the nineteenth century to the present day. In the first book-length study on the topic, Professor Mary May Robertson explores the relationship between opera, perfumes, and their respective protagonists in order to map out the previously undiscussed connection between

the two. Through compelling close readings of librettos and rigorous research through thousands of bottles of perfume, the reader will come to appreciate and recognise the influences and exchanges between operas and perfumes and their ultimate marriage in the previously unrecognised genre of Operatic Perfumes, which is to say, perfumes named after operas, composers, and their divas.

Egon Ronay's Cellnet Guide to Hotels, Restaurants and Inns in Great Britain and Ireland, 1987

The guide opens with a colour section introducing the region's highlights with some photography and essential information on the region's diverse attractions, from enjoying an Ayurvedic massage to exploring the ruins at Hampi. It offers comprehensive and practical advice on everything from finding the best places to stay and the most comfortable means of transport, to spotting elephants in the Cardamon Hills and negotiating Mumbai. It also provides an informative insight into South India's history, religions, architecture, music and dance. There are also maps and plans for every region and town.

The Case Against Fragrance

Before the arrival of Spanish and French explorers, Green Cove Springs was inhabited by various groups of the Timucua Indians. When Spain relinquished Florida at the end of the French and Indian War, British aristocrats established several large rice and indigo plantations. During the 1850s, Magnolia Springs become a popular winter resort when Dr. Nathan Benedict of New York established the first hotel around 1853. After the Civil War, the area become popular with northern citizens, and Magnolia Springs boasted of having the largest and most opulent hotel, while Green Cove Springs contained eight hotels and the famous spring from which the town drew its name. Since 1871, Green Cove Springs has been the county seat of Clay County. Over time, the town saw itself become a large winter resort and home to one the navy's largest mothball fleets after World War II. Today the hotels and navy are gone, but it remains the county seat with a thriving community and small-town charm.

The Marriage between Perfume and the Lyric Stage

"I bestow on you a special award - that of High Priestess of the Fragrance World with power of divination." Jean Pierre Lippman President, Christian Dior, On the occasion of the June 1985 Fragrance Foundation Awards Ceremony "In 'Spritzing to Success' Annette reveals how she deliberately and successfully transcended the fickle limitations of fashion and fragrance trends. She took a tiny industry under her wing and before she could count to ten (years) the fragrance world was spritzing to success with her." Carmen Dell'Orefice Legendary model "Annette Green was 'the Mother of Invention' creating the legacy of the Fragrance Foundation and the Wardrobe of Fragrance concept. Her mark upon the fragrance industry is immeasurable. A trail blazer in business, she is a role model to women everywhere." Marc Rosen Renown Beauty & Fragrance Package Designer "Thanks to the industry's 'unsinkable Molly Brown,' fragrance has become a universal language and the essence of the global economy." Burt Tansky, President, Bergdorf Goodman and Lawrence Aiken, President Sanofi Beaute and Chairman of the Fragrance Foundation at 1993 Fashion Institute of Technology ceremonies at which Annette Green was honored with its 'One Person Makes a Difference' annual award. "Annette Green has long been the workhorse of the Fragrance Foundation. Tonight she is our muse." Philip Shearer, President, Perfume and Beauty Division, Cosmair and Board Chairman, the Fragrance Foundation who announced the creation of the Annette Green Perfume Museum at the 1999 "FiFi" Awards ceremony. Annette Green brought the art and science of fragrance together as few industry leaders have done before her and since. For those of us with an academic interest in fragrance, she has been a champion of basic research and an enthusiast for the science of smell and its special connection to human pleasure. Gary Beauchamp, Ph. D. Distinguished Member, Director and President Emeritus Monell Chemical Senses Center

The Rough Guide to South India

A comprehensive hands-on guide to this vital role in the operation of a hotel. With insights from international industry experts and real-life case studies, it provides the reader with a comprehensive how-to guide to all elements of this essential role as well as the theoretical foundations and operational techniques.

Green Cove Springs

Anne Shirley is a fictional character introduced in the 1908 novel *Anne of Green Gables* by Lucy Maud Montgomery. The central character, Anne, an orphaned girl, made Montgomery famous in her lifetime and gave her an international following. The first novel was followed by a series of sequels with Anne as the central character. This collection includes: *Anne of Green Gables* (1908) *Anne of Avonlea* (1909) *Anne of the Island* (1915) *Anne's House of Dreams* (1917) *Rainbow Valley* (1919) *Rilla of Ingleside* (1921) *Chronicles of Avonlea* (1912) *Further Chronicles of Avonlea* (1920) *Anne of Windy Poplars* (1936) *Anne of Ingleside* (1939) *The Story Girl* (1911) *The Golden Road* (Sequel to *The Story Girl*, 1913) *Kilmeny of the Orchard* (1910) *The Watchman and Other Poems* (1916) *Collected Letters* *The Alpine Path: The Story of My Career*

The Green Bay Tree

Anne of Green Gables Novels and *Chronicles of Avonlea* are certainly the most beloved books of all time, classics of Children's/Young Adult Literature. They recount the adventures of Anne Shirley, an 11-year-old orphan girl who is mistakenly sent to Matthew and Marilla Cuthbert, a middle-aged brother and sister who had intended to adopt a boy to help them on their farm in Prince Edward Island. The books depict how this talkative, imaginative, red-headed girl makes her way with the Cuthberts, in school, and within the small town... Table of contents: *Anne of Green Gables* (1908) *Anne of Avonlea* (1909) *Anne of the Island* (1915) *Anne's House of Dreams* (1917) *Rainbow Valley* (1919) *Rilla of Ingleside* (1921) *Chronicles of Avonlea* (1912) *Further Chronicles of Avonlea* (1920) *Anne of Windy Poplars* (1936) *Anne of Ingleside* (1939) *The Story Girl* (1911) *The Golden Road* (Sequel to *The Story Girl*, 1913) *Kilmeny of the Orchard* (1910) *The Watchman and Other Poems* (1916) *Letters & Autobiography* *Collected Letters* *The Alpine Path: The Story of My Career*

Spritzing to Success with the Woman Who Brought an Industry to Its Senses

Much is known about Nixon's actual visit to China, but the story of how it all came together has never been told until now. The advance team conquered a monumental task. Welcome to a rare glimpse of the guarded intricacies and exacting details of White House travel.

Michelin's celebrated star-rating system makes sure you see the best of the French Riviera.

Anne of Green Gables - Complete Collection

Remarkable Hotels of Europe contains a collection of in-depth reports on hotels recognised by their prominent position at the forefront of the European hospitality industry. Although edited as a guide—with all strategic travel details and some photographs included—the ambition of this book is above all to introduce a more individual and comprehensive style of describing the finest of hotels compared to

those typical of today's travel guides. Aspiring connoisseurs will find investigative but passionately angled reviews focusing on history, architecture, atmosphere, service, clientele, interiors, setting, food, wine and more. Most likely, this pertinent documentation of each establishment's uniqueness will make these travellers eager to plan journeys or detours in order to experience for themselves. Finally, even sophisticated globetrotters, used to the choicest of accommodations, may enjoy a new rendezvous while reading appropriate stories and up-to-date information on such favourites as Paris Ritz, London's Dorchester and Brenner's in Baden-Baden.

The Green Stone

"A practical magazine dealing with houses, furniture and equipment, gardens." [sic]

China Calls

Extraordinary lives, tangled relationships, innovative art: the story of sisters Vanessa Bell and Virginia Woolf and their Bloomsbury Group.

Anne of Green Gables - Complete 14 Book Collection

A founder of contemporary social science, Max Weber was born in Germany in 1864. At his death 56 years later, he was nationally known for his scholarly and political writings, but it was the international reception of his oeuvre over the last forty years that has made him world-famous. "The Protestant Ethic and the Spirit of Capitalism," "The Economic Ethics of the World Religions" and his magnum opus, "Economy and Society," with its treatment of the relations of economics, politics, law and religion, belong to the great achievements of 20th-century social science. The groundwork for the posthumous Weber reception was laid by Weber's widow Marianne, a well-known feminist writer, who followed up her edition of his collected works with one of the greatest biographies in a generation that produced many important accounts of itself. Although unavailable in English until a decade ago, the importance of Marianne Weber's 1926 work had been widely understood. Sociologist Robert A. Nisbet called it "a moving and deeply felt biographical memoir." Historian Gerhard Masur cited the book as "the foundation of all further inquiries into Max Weber's life and influence." Beginning with Max's ancestry and early years, Marianne Weber guides us through his life as student, young lawyer, scholar and political writer, quoting liberally from his voluminous correspondence. Her account of his nervous breakdown after 1897, which curtailed his academic career but ultimately strengthened his creative energies, provides deep insight into some of the personal tensions that troubled him to the end. In addition to her perceptive personal and intellectual life before the First World War, describing many scholars, social reformers, politicians and literary figures within and beyond the famous Heidelberg circle of the Webers. The new introduction by Guenther Roth situates Marianne Weber's own role in the contemporary setting and discusses the current state of Weber research and of the international Weber reception. Harry Zohn is chairman and professor of the Department of Germanic and Slavic Languages at Brandeis University. He is the editor and translator of a dozen books, including *The World is a Comedy*. Guenther Roth is professor of sociology at the University of Washington. He co-edited *Weber's Economy and Society* and co-authored *Scholarship and Partisanship* (with Reinhard Bendix) and *Max Weber's Vision of History* (with Wolfgang Schluchter).

Michelin Green Guide French Riviera

I have been always drawn to stories. Indeed the stories in my life have been far more effective than any formal education. While all written materials have left my conscious and reside in the ether of my existence, stories are alive and keep reckoning in every relevant aspect. I wanted to share this joy with those who are like-minded. In this book, I will share the stories I have encountered in my own life. The events that made an impression in my mind and left a lasting effect on my heart.
