Joe avert a disaster that could consume two worlds.

American Barbarian: the Complete Series

Told in vivid graphic novel form by a groundbreaking Eisner-nominated comics creator, the long-overdue biography of the legend who co-created Captain America, Iron Man, Black Panther, the Fantastic Four, the X-Men, and many more superhero favorites. "A fast-paced celebration of an underheralded legend within the comic-book industry."—Kirkus Reviews NAMED ONE OF THE BEST BOOKS OF THE YEAR BY LIBRARY JOURNAL This sweeping, full-color comic book biography tells the complete life story of Jack Kirby, co-creator of some of the most enduring superheroes and villains of the twentieth century for Marvel Comics, DC Comics, and more. Critically acclaimed graphic novelist Tom Scioli breathes visual life into Kirby's life story--from his days growing up in New York during the Great Depression and discovering a love for science fiction and cartoons to his time on the frontlines in the European theatre of World War II where he experienced the type of action and adventure he'd later imbue his comic pages with, and on to his world-changing collaborations at Marvel with Stan Lee, where the pair redefined comics as a part of pop culture. Just as every great superhero needs a villain to overcome, Kirby's story also includes his struggles to receive the recognition and compensation that he believed his work deserved. Scioli captures his moves from Marvel to DC and back again, showing how Kirby himself and later his family fought to preserve his artistic legacy. Drawn from an unparalleled imagination and a life as exciting as his comic book tales, Kirby's super-creations have influenced subsequent generations of creatives in the comics field and beyond. Now, readers can experience the life and times of a comics titan through the medium that made him famous.

De la tierra herida

Laura Infantino, una mujer con poderes mentales, y Santos, un asesino profesional enamorado de ella en secreto, viajan más allá del sistema solar al lejano planeta Próxima Centauri B para tratar de averiguar si los poderes de Laura proceden de una inteligencia alienígena o le han sido otorgados por Dios... Una mujer laica que dirige una iglesia, un satélite comunista, el hiperespacio, el Estado Islámico y la más revolucionaria tecnología se entrecruzan en esta historia ambientada en un hipotético siglo XXII.

La tierra herida

Publicar un texto como Tierra Herida no es una fácil decisión, porque supone compilar todo el dolor acumulado durante años al ver morir, de forma lenta pero inexorable, aquello que amas con pasión. Son artículos y post que fueron apareciendo en su momento en mi propio blog www.momentosparadiscrepar.es como actos de denuncia -o quizá debería decir, desahogo- de tanto maltrato ecológico como sufre mi tierra. Aunados y compilados todos ellos en una sola publicación, suponen una especie de testimonio, además de un clamor. Soy persona que intenta seguir una forma de vida que busca tener claro, en todo momento, qué es lo que está, y qué no, bajo mi control. Procuro centrarme en aquello que puedo controlar, y así tratar de alcanzar una serenidad que me permita vivir mejor. Pero eso no significa que lo que no está bajo mi control me resulte indiferente. Porque no todas las cosas tienen solución; la cuestión estriba en actuar como si la tuvieran; aunque, eso sí, intentando evitar la preocupación obsesiva de esperar el resultado externo que aún no ha ocurrido, y que probablemente nunca ocurrirá.

Poética de la tierra herida

Lanza de Amor is book without metric, that so called white poems or free poems. Lanza de Amor try those white poems in the terms of love. So these poems could be inspirational for crates love songs and even the poems dedicated to earth had been also this poetic mission. For furthermore this white poems are the work of some applied experience in anyway of the follow up explained.

Sanar la tierra herida

Es muy curioso el modo en que empleamos las palabras. Hay un diccionario secreto que cada uno guarda en su corazón, como un eco feliz o sombrío de un sonido que encierra significados difíciles de comunicar. Mientras suponemos que hablamos deslizándonos sobre un código compartido, todos guardamos sentidos propios que los demás ignoran. Esta sensible percepción impulsó una serie de encuentros convocados por un verbo: “comer”, “pensar”, “amar”. Se invitó a personas de diversas disciplinas a contar lo que esa palabra significaba para ellas. La experiencia resultó de una intensidad impensada, los significados estallaron, y por algún motivo –o por muchos– el encuentro “Comer” fue uno de los más convocantes y de los más intensos. Patricia Aguirre, Mónica Katz y Matías Bruera hicieron detonar muchas certezas, y así nació este libro. Aquí está la palabra impresa para acceder a ella con la pausa reflexiva que la lectura permite, para volver sobre estas ideas todas las veces que sea necesario. Para el disfrute, pues el pensamiento también es una forma de la belleza. Porque aunque tengamos la sensación de que vivimos atormentados por la estupidez, aún hay personas que pueden sustraerse a la trivialidad imperante, y lectores dispuestos a compartir esa vivencia.

Although organic farming and agroecology are normally not associated with the use of new technologies, it's rapid growth, new technologies are being adopted to mitigate environmental impacts of intensive production implemented with external material and energy inputs. GPS, satellite images, GIS, drones, help conventional farming in precision supply of water, pesticides, fertilizers. Prescription maps define the right place and moment for interventions of machinery fleets. Yield goal remains the key objective, integrating a more efficient use or resources toward an economic-environmental

sustainability. Technological smart farming allows extractive agriculture entering the sustainability era. Societies that practice agroecology through the development of human-environmental co-evolutionary systems represent a solid model of sustainability. These systems are characterized by high-quality agroecosystems and landscapes, social inclusion, and viable economies. This book explores the challenges posed by the new geographic information technologies in agroecology and organic farming. It discusses the differences among technology-laden conventional farming systems and the role of technologies in strengthening the potential of agroecology. The first part reviews the new tools offered by geographic information technologies to farmers and people. The second part provides case studies of most promising application of technologies in organic farming and agroecology: the diffusion of hyperspectral imagery, the role of positioning systems, the integration of drones with satellite imagery. The third part of the book, explores the role of agroecology using a multiscale approach from the farm to the landscape level. This section explores the potential of Geodesign in promoting alliances between farmers and people, and strengthening food networks, whether through proximity urban farming or asserting land rights in remote areas in the spirit of agroecological transition. La Tierra herida

In the great barranca known today as Copper Canyon, the small mining town of Batopilas once experienced a silver bonanza among the largest ever known. American investors, believing that Mexico offered an unexploited cornucopia, began purchasing mines in the Sierra Madre, seeking to expand their hold on natural resources outside U.S. borders. From 1861 until the Revolution of 1910, the men of the Batopilas Mining Company ruled the region using their wealth, armed might, and extensive connections. The technology, industrialism, and politics their interests brought to this remote community tied the Tarahumara, Yaqui, Mayo, and other peoples of the barrancas directly to the economies of the United States and China. Local society was revolutionized, and a dramatic tapestry of human interactions was created. Based on many volumes of mining company records, *The Silver of the Sierra Madre* exposes the mentality and methods of mine owners John Robinson and Alexander "Boss" Shepherd, vividly detailing their exploitation of the people and the natural resources of Chihuahua. Hart aptly demonstrates the human and financial losses resulting from President Porfirio Díaz's development programs, which relied on foreign investors, foreign managers, and foreign technology. This unprecedented work also provides a highly interesting ethnographic and social description of one of the least-known areas of Mexico. It is a tale of power and desperation, respect and arrogance, adventure and tragedy, and, ultimately, triumph and survival.

La tierra herida

Se d pleno conocimiento que el contenido de este libro puede producir algñ temor, o reacciones contrarias para las personas que no quieren poner sus vidas en paz con Dios el Creador, y con ellas mismas; pero tambien tengo claridad en saber que la mayor parte de lectores estarn de acuerdo por las siguientes razones: 1... En que este es el "tiempo de la verdad" y que no podemos darnos el lujo de seguir viviendo una vida engañada, equivocada, llena de dudas, confusiones; en oscurantismo, e ignorando el verdadero propsito establecido por Dios, con relacih al hombre, y en especial a su iglesia. Y que en este libro encontrarn mucha claridad de los acontecimientos del fin, que los podrn sacar de los laberintos de ti nieblas elaborados por Satans. Y 2...Que: tengamos claridad en lo que concierne con el propsito de Yahv Dios con relacih al acto ms importante de nuestra redencih, rescate y de nuestra salvacih. Y Para ello tener la plena seguridad y conocimiento de lo que es, y la importancia que tiene la Iglesia de Jesucristo con relacih a la iglesia del Anticristo, o gran Ramera como la apellida la palabra de Dios. 3... Y sobre todas las cosas: que anhelemos este dñ glorioso de la segunda venida de Nuestro Seor Jesucristo, para que terminando con la iniquidad, la maldad desaparezca por completo hasta los confines de la tierra; y que todos estemos preparados para cuando suene la final trompeta, seamos traspuestos "en un abrir y cerrar de ojos, para reunirnos con el Seor en el Aire". BENDICIONES DEL ALTISIMO

Lanza De Amor

This fascinating book provides a fully integrated explanation of the history of the modern world. Although the sheer complexity of society requires that it be studied from the standpoint of several social sciences (including Economics, Political Science, Sociology and Anthropology), using only the tools of just one of these is an obstacle to understanding the whole society, where social, economic and political conditions are interacting all the time. The book explains why and how modern communities have evolved from their pre-modern, Ancien regime, states in the early eighteenth century, to the early twenty-first century, where economic development had reached unprecedented levels. It shows that political revolutions have preceded economic revolutions, rather than the reverse, although there is a considerable degree of interaction between macroeconomic and political variables. Economic histories of the period neglect non-economic factors such as political and legal institutions, which from a wide perspective have a powerful impact on economic developments. The complexity of the world and of the times in which we live is overwhelming and growing. Professor Tortella provides an international approach and combines economic and social analysis with political, cultural, and scientific issues. Topics covered include: the Industrial Revolution capitalism and the West the First and Second World War the rise of communism and the era of Stalin the US depression and the Gold Standard social and class struggle

Cuba's Wild East: A Literary Geography of Oriente recounts a literary history of modern Cuba that has four distinctive and interrelated characteristics. Oriented to the east of the island, it looks aslant at a Cuban national literature that has sometimes been indistinguishable from a history of Havana. Given the insurgent and revolutionary history of that eastern region, it recounts stories of rebellion, heroism, and sacrifice. Intimately related to places and sites which now belong to a national pantheon, its corpus—while including fiction and poetry—is frequently written as memoir and testimony. As a region of encounter, that corpus is itself resolutely mixed, featuring a significant proportion of writings by US journalists and novelists as well as by Cuban writers.

Although the life of Federico García Lorca (1898–1936) was tragically brief, the Spanish poet and dramatist created an enduring body of work of international importance. This selection of 55 poems from a 1921 collection represents some of García Lorca's finest work. Imbued with Andalusian folklore, rich in metaphor and complex spirituality, they attest to the poet's popularity as one of Spain's most widely read authors.

Global Change is increasingly considered a critical topic in environmental research. Remote sensing methods provide a useful tool to monitor global variables, since they provide a systematic coverage of the Earth's surface, at different spatial, spectral and temporal resolutions. This book offers an analysis of the leading missions in global Earth observation, and reviews the main fields in which remote sensing methods are providing vital data for global change studies.

The Silver of the Sierra Madre

Concluding that the precautionary principle embodies customary international law is one thing. Determining what this means is quite another. That challenge is met by this work, which resolves a number of crucial questions concerning the scope of this principle of international environmental law; the conditions triggering a right or duty to take precautionary action; the measures to be taken; the allocation of the burden of proof; and the role of socio-economic factors. These questions are dealt with one at a time through the charting and analysis of patterns and common denominators in the extensive (inter)national practice of states regarding the precautionary principle. The hard legal core of the principle is thus gradually exposed. In the process, a realistic and accessible account is given of how and to what extent this general principle can and does direct the actions of states in concrete instances. Ultimately, this work sets out what it takes to act in conformity with the precautionary principle under general international law, and will be of interest to anyone involved with international law and environmental protection.

México Beyond 1968

En la presente obra te ofrecemos los capítulos dedicados a los Profetas Mayores del Antiguo Testamento: fueron ellos quienes dedicaron gran parte de sus vidas experimentando sufrimientos y penurias mientras inspirados por el Señor nos dejaban abundantes escritos sobre qué nos depararía el futuro y cómo se develaría el plan de Dios dentro de la historia humana. Como libro de estudio se diferencia de otros en que no es simplemente para saciar la curiosidad, sino adentrarnos en el futuro que apremia anunciándonos y explicando las profecías bíblicas al detalle. Es más que nada lo que el Espíritu Santo de Dios ha revelado, y fruto del estudio esforzado de todas las profecías bíblicas; es por tanto un libro dirigido a aquellos interesados en escudriñar--como se nos dice en San Juan 5:39--las profecías bíblicas, incluidas dentro del Plan de Dios, dedicándole tiempo, paciencia y mucha oración.

El Anticristo Y Su Babilonia

A stunning history of legendary treasure seekers and enigmatic natives in Mexico's Copper Canyon The Sierra Madre--no other mountain range in the world possesses such a ring of intrigue. In the Sierra Madre is a groundbreaking and extraordinary memoir that chronicles the astonishing history of one of the most famous, yet unknown, regions in the world. Based on his one-year sojourn among the Raramuri/Tarahumara, award-winning journalist Jeff Biggers offers a rare look into the ways of the most resilient indigenous culture in the Americas, the exploits of Mexican mountaineers, and the fascinating parade of argonauts and accidental travelers that has journeyed into the Sierra Madre over centuries. From African explorers, Bohemian friars, Confederate and Irish war deserters, French poets, Boer and Russian commandos, Apache and Mennonite communities, bewildered archaeologists, addled writers, and legendary characters including Antonin Artaud, B. Traven, Sergei Eisenstein, George Patton, Geronimo, and Pancho Villa, Biggers uncovers the remarkable treasures of the Sierra Madre.

Una mujer acaba de perder a su marido y vela el cadáver durante la noche. Sobre la mesilla hay un libro -la Biblia- que la esposa hojea. Va leyendo los párrafos subrayados por el hombre que se ha ido para siempre. Una oleada de recuerdos le viene a la mente y empieza un lento, desordenado monólogo en el que la vida pugna por hacerse real otra vez. La pobre vida llena de errores y torpezas, de pequeños goces e incomprensiones. ¿Ha conocido Carmen alguna vez a Mario? Escuchemos el irritante discurrir de la pequeña y estrecha mentalidad de la esposa. Otro hombre irá poco a poco descubriéndose, para todos menos para ella, con toda su desesperanza y su fe en la vida.

EL RAPTO, EL GOBIERNO MUNDIAL Y LA ¿GRAN TRIBULACIÓN?

La prórroga a la obediencia ha hecho que el mundo viva sumergido en una ola vertiginosa de engaños. Por desobediencia, sobre la tierra, se han levantado guerras, tumultos y destrucción; cuyo suelo grita de dolor y tiembla de espanto porque la vanidad la está destruyendo. Por consecuencia humana, la tierra está inficionada de maldad; el océano se ha salido de sus márgenes arrojando la tierra, cuyas olas entran por toda la zona terrestre; pidiendo cuenta, la naturaleza azota la tierra con furor, extrayendo la profanación que está incrustada en su suelo. No obstante, desde el cielo, un ángel se encuentra observando a través de la ventana que da al mundo, la cual por impetuosidad, descorre la cortina del cielo, presenciando al mundo ahogarse en una ola de desastre; como acto de benevolencia, decide liberar a la humanidad del sufrimiento. Al recibir el ángel el permiso de descender a la tierra y cumplir su misión de amor, es preparada por Moisés (su guía y mentor), a través de sus enseñanzas, aprende como viven los terrestres, sus vicios, amores y secretos... y cuando baja arregla la vida de estas personas, dejándoles, a su retorno al Cielo, el camino que necesitan seguir para encontrar la felicidad.

Leaving Mac Behind

"My first telegram came Sep. 3 1942 that my son was missing in action. And the next telegram came Aug. 18 1943 that he was Declared Dead. Till this day I do not know what happened to him." Mrs. Ann M. Lyons, August 7, 1957. Between 1942 and 1944, nearly four hundred Marines virtually vanished in the jungles, seas, and skies of Guadalcanal. They were the victims of enemy ambushes and friendly fire, hard fighting and poor planning, their deaths witnessed by dozens or not at all. They were buried in field graves, in cemeteries as unknowns, or left where they fell. They were classified as "missing," as "not recovered," as "presumed dead." And in the years that followed, their families wondered at their fates and how an administrative decision could close the book on sons, brothers, and husbands without healing the wounds left by their absence. 'Leaving Mac Behind' reconstructs the lives, last moments, and legacies of some of these men. Original records, eyewitness accounts, and recent discoveries shed new light on the lost graves of Guadalcanal's missing Marines--and the ongoing efforts to bring them home.

Lost Fleet

The Alliance woke Captain John "Black Jack" Geary from cryogenic sleep to take command of the fleet in the century-long conflict against the Syndicate Worlds. Now Admiral Geary's victory has earned him the adoration of the people--and the enmity of politicians convinced that a living hero can be a very inconvenient thing. The war may be over, but Geary and his newly christened First Fleet have been ordered back into action to investigate the aliens occupying the far side of Syndic space and to determine how much of a threat they represent to the Alliance. And while the Syndic Worlds are no longer united, individually they may be more dangerous than ever before. Geary knows that members of the military high command and the government question his loyalty to the Alliance and fear his staging a coup--so he can't help but wonder if the fleet is being deliberately sent on a suicide mission."

The Lost Fleet: Courageous

The Lost Fleet continues its perilous journey home. Badly damaged and low on supplies, the Alliance Fleet is raiding Syndic mines for raw materials—and Captain "Black Jack" Geary hopes they can continue to remain one step ahead of their enemies. But the Syndics are the least of Geary's worries when he learns of the existence of aliens with the power to annihilate the human race.

The Odyssey of Sergeant Jack Brennan

"Jack Brennan is a Marine Corps sergeant whose infantry squad has been cleared to return home from a grueling deployment to Afghanistan. A few years prior, Sergeant Brennan lost one of his closest friends—a young combat veteran—to suicide and has vowed to do everything in his power to keep his Marines from a similar fate. On their last night in-country, Brennan shares his version of The Odyssey to help prepare his squad for the transition back to the home front. By retelling Homer's epic about Odysseus' difficult journey home after the Trojan War, and weaving in the stories of contemporary Marines, The Odyssey of Sergeant Jack Brennan powerfully conveys the profound challenges today's veterans face upon returning from combat even as it tells the oldest war story of all time."

The Lost Fleet: Beyond the Frontier: Dreadnaught

Vulcan's Forge

It begins deep beneath the Pacific Ocean, where a nuclear bomb strikes at the fiery hot heart of the earth. Churning, spewing boiling lava, a volcano rises with unnatural speed from the ocean floor -- the source of a new mineral that promises clean, limitless nuclear power. It continues in hot spots around the globe: Hawaii, where a secessionist movement is about to turn violent and the American army may be asked to fire on U.S. citizens; Washington, D.C., where the subway system becomes the site of a running gun battle; the Far East, where disrupted diplomatic negotiations jeopardize world peace; a rogue Russian submarine, circling the infant volcano. Caught in the middle is Philip Mercer, a geologist and a one-time commando with shady contacts in all the right (or is it wrong?) places. When Mercer learns that the daughter of an old friend is being kept under armed guard in a local hospital, he vows to rescue her, not knowing that this is the first step in unraveling the fantastic secrets of Vulcan's Forge.

Spear of the Emperor

Great new novel from Aaron Dembski-Bowden chronicling the story of the Emperor's Spears, a Space Marine Chapter on the edge of destruction, last watchmen over the Elara's Veil nebula. Now, the decisions of one man, Amadeus Kaias Incarius of the Mentor Legion, will determine the Chapter's fate... The scattered worlds of the Elara's Veil nebula were once protected by the oath of unity sworn by three mighty Chapters of the Adeptus Astartes. The Star Scorpions were undone by flaws in their genetic coding. The Celestial Lions were ravaged by the Inquisition for sins they did not commit. Now, after hundreds of years, only the Emperor's Spears still keep their vigil. They are barbarian watchmen against the Outer Dark; bloodied but unbroken in their long duty. Amadeus Kaias Incarius, a brother of the Mentor Legion, is commanded to cross the Great Rift and assess the Spears' war-readiness, only to be drawn into the chaotic plight of a depleted crusade on the Imperium's benighted frontier. The decisions he makes, far from the God-Emperor's light, will decide the fate of the war-torn Chapter.

The small cemetery world of Certus Minor appeals to the Space Marines of the Excoriators Chapter for protection, but the force dispatched to deal with this grim threat is far too small and their losses against the renegades are high. Air Force Magazine

The Gurus came in peace, bearing gifts. They were a highly advanced, interstellar species who brought amazingly useful and sophisticated technology to the human race. There was, of course, a catch. The Gurus warned of a far more malevolent life form, beings who have hounded the Gurus from sun to sun, planet to planet, across the cosmos. Pundits have taken to calling them the Antagonists - or Antags - and they have already established a beachhead on Mars. In exchange for all they've done for us, the Gurus would now like our help. Enter Master Sergeant Michael Venn, a veteran Skyrine (a Marine who is specially trained for off-world combat) who is dropped onto the Red Planet with his band of brothers on a mission to take down as many Antags as possible. But from the moment they're dropped through the thin Martian atmosphere, their mission goes horribly, terribly wrong. From a group of female special ops

Skyrines with secret orders, to mysterious humans who've settled on Mars, to the overwhelming and highly-reinforced Antags themselves, Venn and his brothers will face impossible odds just to survive - let alone make it home alive.

War Dogs

A young fleet officer and a Marine stand together to defend their colony in the continuation of the powerful and action-packed Genesis Fleet saga from New York Times bestselling author Jack Campbell. In the three years since former fleet officer Rob Geary and former Marine Mele Darcy led improvised forces to repel attacks on the newly settled world of Glenlyon, tensions have only gotten worse. When one of Glenlyon's warships is blown apart trying to break the blockade that has isolated the world from the rest of human-colonized space, only the destroyer Saber remains to defend it from another attack. Geary's decision to take Saber to the nearby star Kosatka to safeguard a diplomatic mission is a risky interpretation of his orders, to say the least. Kosatka has been fighting a growing threat from so-called rebels--who are actually soldiers from aggressive colonies. When a "peacekeeping force" carrying thousands of enemy soldiers arrives in Kosatka's star system, the people of that world, including Lochan Nakamura and former "Red" Carmen Ochoa, face an apparently hopeless battle to retain their freedom. It's said that the best defense is a good offense. But even if a bold and risky move succeeds, Geary and Darcy may not survive it...

Raven Sharpe

George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In Why I Write, the first in the Orwell's Essays series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the 'four great motives for writing' – 'sheer egoism', 'aesthetic enthusiasm', 'historical impulse' and 'political purpose' – and considers the importance of keeping these in balance. Why I Write is a unique opportunity to look into Orwell's mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer's oeuvre. 'A writer who can – and must – be rediscovered with every age.' — Irish Times

Why I Write

In August 1943, to meet in secret with Major General Julian C. Smith and his principal staff officers of the 2d Marine Division, Vice Admiral Raymond A. Spruance, commanding the Central Pacific Force, flew to New Zealand from Pearl Harbor. Spruance told the Marines to prepare for an amphibious assault against Japanese positions in the Gilbert Islands in November. The Marines knew about the Gilberts. The 2d Raider Battalion under Lieutenant Colonel Evans F. Carlson had attacked Makin Atoll a year

earlier. Subsequent intelligence reports warned that the Japanese had fortified Betio Island in Tarawa Atoll, where elite forces guarded a new bomber strip. Spruance said Betio would be the prime target for the 2d Marine Division.

Desolation Island (Aubrey-Maturin, Book 5)

Wells, the famous, bestselling author of such sensations as *The Time Machine* and *War of the Worlds* had actually invented a time machine. When H.G. Wells showed his friends his fantastic time machine he never suspected that his college friend, Leslie John Stevenson, was in truth the Jack the Ripper. But, when Scotland Yard detectives show up at Wells's house looking for Stevenson, he steals the machine and flees to the future 1979 San Francisco. Knowing that he was responsible for the infamous murderer's escape, Wells pursues the Ripper into the future. Once in San Francisco, Wells realizes that he must now save a city, and a particular lovely young woman, from a new reign of horror at the hands of the feared Terror of Whitechapel.

Avenging Son

The publication of *Jarhead* launched a new career for Anthony Swofford, earning him accolades for its gritty and unexpected portraits of the soldiers who fought in the Gulf War. It spawned a Hollywood movie. It made Swofford famous and wealthy. It also nearly killed him. Now with the same unrelenting intensity he brought to his first memoir, Swofford describes his search for identity, meaning, and a reconciliation with his dying father in the years after he returned from serving as a sniper in the Marines. Adjusting to life after war, he watched his older brother succumb to cancer and his first marriage disintegrate, leading him to pursue a lifestyle in Manhattan that brought him to the brink of collapse. Consumed by drugs, drinking, expensive cars, and women, Swofford lost almost everything and everyone that mattered to him. When a son is in trouble he hopes to turn to his greatest source of wisdom and support: his father. But Swofford and his father didn't exactly have that kind of relationship. The key, he realized, was to confront the man-a philandering, once hard-drinking, now terminally ill Vietnam vet he had struggled hard to understand and even harder to love. The two stubborn, strong-willed war vets embarked on a series of RV trips that quickly became a kind of reckoning in which Swofford took his father to task for a lifetime of infidelities and abuse. For many years Swofford had considered combat the decisive test of a man's greatness. With the understanding that came from these trips and the fateful encounter that took him to a like-minded woman named Christa, Swofford began to understand that becoming a father himself might be the ultimate measure of his life. Elegantly weaving his family's past with his own present-nights of excess and sexual conquest, visits with injured war veterans, and a near-fatal car crash-Swofford casts a courageous, insistent eye on both his father and himself in order to make sense of what his military service meant, and to decide, after nearly ending it, what his life can and should become as a man, a veteran, and a father.
