The Kip

Meet Marissa and her teammates; strong diverse girls reaching their goals! Marissa is a gymnast, violinist, and chess player. This summer she is busy in an orchestra, chess tournament, and learning her Level 4 gymnastics skills. In the past, doing all three activities has been a snap for Marissa. She is hardworking and smart. But this summer she can't seem to get her kip, a difficult skill on bars. If she doesn't learn a kip she won't be competing Level 4 in the fall with her friends at Perfect Balance Gymnastics Academy. As the summer progresses, it's not looking good. Everyone else is getting their kip except for Marissa. What will she do if her friends move on without her? Perfect Balance Gymnastics Books teach girls to be kind to each other, flexible in life, courageous, strong, and most of all, confident. The books set the reader in the world of gymnastics. The characters are relatable and have age-appropriate challenges. Each book explores a major life lesson that empowers girls to understand their own inner strengths. Perfect Balance Gymnastics Books increase reading level from 2nd grade to 6th grade as the series progresses. The Kip is the 5th book in the series and is a 3rd/4th grade reading level. The Kip appeals to 8-12 year-olds. Perfect Balance Gymnastics Books are chronological, but each story can stand alone.

I've Got This!

Strong diverse girls reaching their goals.

Brothers Have Talent, Too

Perfect Balance Gymnastics Books are fiction stories that teach girls to be kind to each other, flexible in life, courageous, strong, and most of all, confident.

Score Out

Carmen Alvarez is new to competitive gymnastics, and it isn't quite what she expected. Her Level 4 season is having a rough start with silly mistakes and several falls. Carmen continues to work hard. But just when she has competition figured out, she learns she must score a 34.00 All-Around to be eligible for Level 5. What will Carmen do if her season ends without getting the coveted 34.00 All-Around? Can she talk her family and coaches into letting her attend one more meet to try to get the score? And if she can get to another meet, will she be able to score out? Perfect Balance Gymnastics Books teach girls to be kind to each other, flexible in life, courageous, strong, and most of all, confident. The books set the reader in the world of gymnastics. The characters are relatable and have age appropriate challenges. Each book explores a major life lesson that empowers girls to understand their own inner strengths. The main characters in this book range from 3rd-6th grade and the reading level is 4th/5th grade.

Nothing Better Than Gym Friends

Perfect Balance Gymnastics Books are fictional gymnastics stories that teach girls to be kind to each other, flexible in life, courageous, strong, and most of all, confident.

My Book of Gymnastics

Learn your back springs from your bridges in this first gymnastics book for young fans and future Olympians. Meet the stars of the gymnastic world in this sports book, from Simone Biles to Max Whitlock, and find out how they train and perfect routines to take to the floor and wow the judging panel. With tons of photos and step-by-step illustrations, this book breaks down some of the complicated moves used in gymnastics routines, covering both simple and high-level gymnastics. Parallel bars, the pommel horse, and other key pieces of equipment are profiled alongside how they're used. The differences between rhythmic, acrobatic, and artistic gymnastics are explained with the help of exciting photos of expert gymnasts. Introducing world-champion individuals and international teams, this guide is great for kids that are obsessed with gymnastics.

Courage to Fly

Trista Thompson is enjoying a fun summer before entering 5th grade. She is training for Level 5 at Perfect Balance Gymnastics Academy and gets to attend a gymnastics camp with her friends. For the first time in her gymnastics career she is learning her new skills in plenty of time for testing day at the end of summer. Just when Trista feels great about her progress, she has a major setback. Can she overcome her challenges and fears to reach her goal of making the Level 5 team? Perfect Balance Gymnastics Books teach girls to be kind to each other, flexible in life, courageous, strong, and most of all, confident. The books set the reader in the world of gymnastics. The characters are relatable and have age appropriate challenges. Each book explores a major life lesson that empowers girls to understand their own inner strengths. *Courage to Fly* is written at a 5th/6th grade reading level and appeals to 9-13 year-olds.

Tumbling

For fans of *Make It Or Break It*, a novel about the road to Olympics for the world's most elite gymnasts. Work harder than anyone. Be the most talented. Sacrifice everything. And if you're lucky, maybe you will go to the Olympics. Grace lives and breathes gymnastics—but no matter how hard she pushes herself, she can never be perfect enough. Leigh, Grace's best friend, has it all: a gymnastics career, a normal high-school life... and a secret that could ruin everything. Camille wants to please her mom, wants to please her boyfriend, and most of all, wants to walk away. Wilhelmina was denied her Olympic dream four years ago, and she won't let anything stop her again. No matter what. Monica is terrified. Nobody believes in her—and why should they? By the end of the two days of the U.S. Olympic Gymnastics Trials, some of these girls will be stars. Some will be going home with nothing. And all will have their lives changed forever.

The Level 4 & 5 Collection

Trista and her teammates are back; strong diverse girls reaching their goals! ***Four great stories in one BIG book!*** Join the Perfect Balance Gymnasts for their Level 4 and 5 seasons in this 4-book collection. Follow seven gymnasts as they face the challenges of learning a kip, scoring out, and overcoming fear. All four stories explore the life lessons of gymnastics, where hard work and solid friendships create grace and confidence for life. Perfect Balance Gymnastics Books teach girls to be kind to each other, flexible in life, courageous, strong, and most of all, confident. The books set the reader in the world of gymnastics. Gymnastics Drills and Conditioning Exercises

Drills and exercises for training gymnasts in the vault, tumbling, bars, and dance exercises.

Keeping The Promises

No one, not even god can write a perfect end for you! Unless he is dying. Mighty and irreplaceable as they are, words are lethal weapons that change lives... by sometimes linking two hearts and sometimes shattering everything irreparably. But when they are woven into promises, the change lasts forever. He had almost lost himself when she brought him back to life with her promises. Dying from a dreadful tumour, every night before they went to sleep, she took a portion of his heart and soul as promises. For better or worse, he'd have to keep the promises for the rest of his life. On his journey of fulfilling those promises, his bond is strengthened with all those who, like him, are keeping their promises. What were those amusing, surprising and painful promises they all kept? Can you live and die...both at the same time? Meet the girl who changed the lives of the people she loved, and those who find their true selves in Keeping the Promises.

Charlie Rangers

They were the biggest Ranger company in Vietnam, and the best. For eighteen months, John L. Rotundo and Don Ericson braved the test of war at its most bloody and most raw, specializing in ambushing the enemy and fighting jungle guerillas using their own tactics. From the undiluted high of a "contact" with the enemy to the anguished mourning of a fallen comrade, they experienced nearly every emotion known to man--most of all, the power and the pride of being the finest on America's front lines.

Sweetblood

Sixteen-year-old Lucy Szabo is Undead -- at least according to her own theories about vampirism. Lucy believes that the first vampires -- with their pale skin, long teeth, and uncontrollable thirst -- were dying diabetics. And she should know. She's a diabetic herself. When Lucy becomes involved with Draco -- a self-proclaimed "real" vampire she meets in the Transylvania Internet chat room -- her world begins crashing down around her. Caught up in late-night parties and Goth culture, she begins to lose control of her grades, relationships, and health. Lucy realizes she needs to make some important choices, and fast. But it may already be too late.

Dance is the Secret Event

At age 10, Paige Green is the oldest girl on the Level 3 Team at Perfect Balance Gymnastics Academy. In practice she struggles to fit in. Paige secretly likes dance class and wants to beat her teammates and win the All-Around at the State Meet. But at State her team is falling apart and Paige learns that winning as a team is more important than the individual All-Around. Can she step up as a leader and pull this group together? Or is it too late? Perfect Balance Gymnastics Books teach girls to be kind to each other, flexible in life, courageous, strong, and most of all, confident. The books set the reader in the world of gymnastics. The characters are relatable and have age-appropriate challenges. Each book explores a major life lesson that empowers girls to understand their own inner strengths.

Your First Triathlon

A lively and personal book that returns the city to political thought Cities shape the lives and outlooks of billions of people, yet they have been overshadowed in contemporary political thought by nation-states, identity groups, and concepts like justice and freedom. The Spirit of Cities revives the classical idea that a city expresses its own distinctive ethos or values. In the ancient world, Athens was synonymous with democracy and Sparta represented military discipline. In this original and engaging book, Daniel Bell and Avner de-Shalit explore how this classical idea can be applied to today's cities, and they explain why philosophy and the social sciences need to rediscover the spirit of cities. Bell and de-Shalit look at nine modern cities and the prevailing ethos that distinguishes each one. The cities are Jerusalem (religion), Montreal (language), Singapore (nation building), Hong Kong (materialism), Beijing (political power), Oxford (learning), Berlin (tolerance and intolerance), Paris (romance), and New York (ambition). Bell and de-Shalit draw upon the richly varied histories of each city, as well as novels, poems, biographies, tourist guides, architectural landmarks, and the authors' own personal reflections and insights. They show how the ethos of each city is expressed in political, cultural, and economic life, and also how pride in a city's ethos can oppose the homogenizing tendencies of globalization and curb the excesses of nationalism. The Spirit of Cities is unreservedly impressionistic. Combining strolling and storytelling with cutting-edge theory, the book encourages debate and opens up new avenues of inquiry in philosophy and the social sciences. It is a must-read for lovers of cities everywhere. In a new preface, Bell and de-Shalit further develop their idea of "civicism," the pride city dwellers feel for their city and its ethos over that of others.

The Spirit of Cities

When 15-year-old newcomer Amalia Blanchard makes a splash with her beam routine in front of the entire U.S. national team, veterans like Ruby Spencer-whose 2012 Olympic dreams were dashed due to an injury just a month before the Games-and Emerson Bedford-a two-time world champion set to run the show in Rio-start to take notice. With preliminary competitions to get through before the team trials, all three have something to prove, as Emerson struggles to maintain her queen bee status, Ruby tries to show everyone she is still a contender, and Amalia hopes she has what it takes to stand out in a talented field. Finding Our Balance follows these extraordinary teenage girls through heartbreak, triumph, and everything in between as their lifetime of training comes down to a single summer that will change their lives forever.

In a version of the 1999 book rewritten for a middle-grade audience, "Trevor McKinney, a twelve-year-old boy in a small California town, accepts his teacher's challenge to earn extra credit by coming up with a plan to change the world. His idea is simple: do a good deed for three people and instead of asking them to return the favor, ask them to 'pay it forward' to three others who need help"--

A groundbreaking text and reference book on twenty-first-century classical physics and its applications This first-year graduate-level text and reference book covers the fundamental concepts and twenty-first-century applications of six major areas of classical physics that every masters- or PhD-level physicist should be exposed to, but often isn't: statistical physics, optics (waves of all sorts), elastodynamics, fluid mechanics, plasma physics, and special and general relativity and cosmology. Growing out of a full-year course that the eminent researchers Kip Thorne and Roger Blandford taught at Caltech for almost three decades, this book is designed to broaden the training of physicists. Its six main topical sections are also designed so they can be used in separate courses, and the book provides an invaluable reference for researchers. Presents all the major fields of classical physics except three prerequisites: classical mechanics, electromagnetism, and elementary thermodynamics Elucidates the interconnections between diverse fields and explains their shared concepts and tools Focuses on fundamental concepts and modern, real-world applications Takes applications from fundamental,

experimental, and applied physics; astrophysics and cosmology; geophysics, oceanography, and meteorology; biophysics and chemical physics; engineering and optical science and technology; and information science and technology Emphasizes the quantum roots of classical physics and how to use quantum techniques to elucidate classical concepts or simplify classical calculations Features hundreds of color figures, some five hundred exercises, extensive cross-references, and a detailed index An online illustration package is available

The definitive source for the groundbreaking ideas of the "Spectrum of Teaching Styles" introduced by Mosston and Ashworth and developed during 35 years in the field. This book offers teachers a foundation for understanding the decision-making structures that exist in all teaching/learning environments and for recognizing the variables that increase effectiveness while teaching physical education. In this thoroughly revised and streamlined edition, all chapters have been updated to include hundreds of real-world examples, concise charts, practical forms, and concrete suggestions for "deliberate teaching" so that teachers can understand their classrooms' flow of events, analyze decision structures, implement adjustments that are appropriate for particular classroom situations, and deliberately combine styles to achieve effective variations. As in prior editions, individual chapters describe the anatomy of the decision structure as it relates to teachers and learners, the objectives (O-T-L-O) of each style, and the application of each style to various activities and educational goals. For physical education teachers.

Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control – from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed “beguiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

At age 20, American gymnast Shawn Johnson is a four-time Olympic gold and silver medalist; a national- and world-champion athlete. Already a popular role model to all ages, in 2009 she captured the national spotlight again when she won the widely popular *Dancing with the Stars*. Yet Shawn is no stranger to hard work and adversity. Her loss of the major gymnastics prize everyone expected her to win in Beijing, the all-around Olympic gold medal, was the loss of a dream she'd worked for since childhood. And later, she suffered a staggering injury in a skiing accident that forced her life to a halt and made her rethink what was really important. She wasn't sure who she was anymore. She wasn't sure what her goals were. And she wasn't sure she was satisfied with where she was with her faith and God. Could she find the right kind of success in life—the kind that doesn't involve medals or trophies, but peace, love, and lasting joy? This is the amazing true journey of how the young woman who won an Olympic gold medal on the balance beam became even more balanced.

Over its life the Review printed seminal writing on free market and conservative topics by remarkably mature students and by Russell Kirk, Ludwig von Mises, George Stigler, Benjamin Rogge, and other already established men. What characterized the Review writers was their rigor of thought and concern for principles, features that coexist naturally. —Chronicles Initially sponsored by the University of Chicago Chapter of the Intercollegiate Society of Individualists, the *New Individualist Review* was more than the usual “campus magazine.” It declared itself “founded in a commitment to human liberty.” Between 1961 and 1968, seventeen issues were published which attracted a national audience of readers. Its contributors spanned the libertarian-conservative spectrum, from F. A. Hayek and Ludwig von Mises to Richard M. Weaver and William F. Buckley, Jr. In his introduction to this reprint edition, Milton Friedman—one of the magazine's faculty advisors—writes that the Review set “an intellectual standard that has not yet, I believe, been matched by any of the more recent publications in the same philosophical tradition.

New Individualist Review

In this thrilling new crime novel that ingeniously bridges Laurie R. King's Edgar and Creasey Awards—winning Kate Martinelli series and her bestselling series starring Mary Russell, San Francisco homicide detective Kate Martinelli crosses paths with Sherlock Holmes—in a spellbinding dual mystery that could come only from the "intelligent, witty, and complex" mind of New York Times bestselling author Laurie R. King.... Kate Martinelli has seen her share of peculiar things as a San Francisco cop, but never anything quite like this: an ornate Victorian sitting room straight out of a Sherlock Holmes story—complete with violin, tobacco-filled Persian slipper, and gunshots in the wallpaper that spell out the initials of the late queen. Philip Gilbert was a true Holmes fanatic, from his antiquated décor to his vintage wardrobe. And no mere fan of fiction's great detective, but a leading expert with a collection of priceless memorabilia—a collection some would kill for. And perhaps someone did: In his collection is a century-old manuscript purportedly written by Holmes himself—a manuscript that eerily echoes details of Gilbert's own murder. Now, with the help of her partner, Al Hawkin, Kate must follow the convoluted trail of a killer—one who may have trained at the feet of the greatest mind of all times.
