Reportage Illustration

The power of reportage drawing is in the immediacy of the images that are created and the feeling of the illustrator's presence on location. Comparable in some ways to photojournalism, reportage illustrators are acting as visual journalists, proactively creating narrative work about issues and subjects, translating what they witness into handmade imagery. There is evidence that illustrations connect to people in powerful ways whether they are drawings created while embedded with troops in Afghanistan, documenting during a courtroom trial or recreating the energy of the crowd at a rock concert. This area of applied illustration also provides career opportunities for students and takes them out of the classroom and into different environments and situations. With practical information about tools, techniques and coping in various situations as well as inspirational interviews and advice from reportage artists working in the field, this book will fill a gap in this growing market.

Everyday Sketching and Drawing

Everyday Sketching and Drawing offers an easy-to-follow, 5-step formula, which teaches beginner-friendly techniques for learning the skills necessary to make drawing and sketching an everyday habit. For those who have always wanted to or tried and failed to learn to draw it provides simple step-by-step instruction, plus easy-to-follow practice exercises, and provides the motivation and inspiration readers need to be successful. For those who already draw, Everyday Sketching and Drawing offers another technique to add to their drawing arsenal. Why do so many adults come to view drawing as difficult or fraught with anxiety? Traditional art instruction is often bogged down with jargon, rules, and admonishments that unintentionally stifle the joy of drawing for its own sake. Steven Reddy's new and easy approach to drawing instructs sketchers to document their unique and compelling lives in realistic yet playful sketches that record the places, spaces, and objects that help define them as individuals. He reminds artists to slow down, notice, and attend to the sketch-worthy scenes and subjects that are unstaged and always there in our everyday lives. He offers a versatile technique that can lead to a skill that fills sketchbooks with the visual details that differentiate one life from another. This approach is a meditative, relaxing alternative to academic concerns about perspective, proportion, and accuracy. Reddy encourages artists to capture in whimsical but detail-specific illustrations their unique, subjective interpretation of their visual surroundings. Steven Reddy's drawing method produces extremely detailed and realistic scenes of objects and scenes in everyday life in a relatively short period of time (60 minutes to 3 hours or more, depending on the sketcher's preference). Modifying a technique utilized by Old Master oil painters, the drawings pass through 5 clearly articulated stages where each step focuses on one visual concept at a time.
