Love as Passion

In this important book Niklas Luhmann - one of the leading social thinkers of the late 20th century - analyses the emergence of 'love' as the basis of personal relationships in modern societies. He argues that, while family systems remained intact in the transition from traditional to modern societies, a semantics for love developed to accommodate extra-marital relationships; this semantics was then transferred back into marriage and eventually transformed marriage itself. Drawing on a diverse range of historical and literary sources, Luhmann retraces the emergence and evolution of the special semantics of passionate love that has come to form the basis of modern forms of intimacy and personal relationships. This classic book by Luhmann has been widely recognized as a work of major importance. It is an outstanding contribution to social theory and it provides an original and illuminating perspective on the nature of modern marriage and sexuality.

In a culture obsessed with dating, sex, and intimacy, the need for Elliot's freeing message is greater than ever. This beautifully repackaged edition will appeal to today's young people.

I have deep feelings for this guy, but he says I'm like a sister to him. What should I do?" "Why should a man still be expected to initiate romance?" "Isn't it okay to spend time together if we're just friends?" "If I never marry, will God take that desire away?" These are some of the many questions posed in letters to Elisabeth Elliot by readers of her bestselling book *Passion and Purity*. In this beautifully repackaged edition of *Quest for Love*, she responds with sound, biblical guidance, dusting off "antiquated" concepts such as commitment, integrity, honor, and servanthood, and showing how they still apply to dating and singleness today. Intertwined are hopeful true stories of discovering love through God's direction.

The Selfish Path to Romance

The Five Love Languages

Everything started with a great love. In fact, I believe that everything usually starts, somehow, through love. In my case, the greatest changes in my life came through the men that I have loved. Thanks to Life, I loved a lot, I loved profoundly and intensely, and all that I have learned, I learned by loving. Only by going through all the pains and all the pleasures of love, without the reservations of not loving out of fear of what would happen, or what other people would think, there I found within me the energy necessary to believe in dreams. The first big dream that I fulfilled three years ago was to walk the eight hundred kilometer trip of the Santiago's journey, an illuminating trek that I recommend to anyone that wishes to grow spiritually. This trip helped me understand new things about Life and about myself, and also helped me better appreciate its beauty. After this marvelous experience, I went through a very difficult time. The journey had given me the strength to endure that difficult time in my life. After all those beautiful and harsh experiences, my faith in life had increased by leaps and bounds. I then understood that either pleasure or pain are gifts given by Life to those who seek to find themselves. At that time in my life, full of gratitude and love for existence, I tried to find again a man with whom I had shared a beautiful love story. This was at the same time a heartbreaking and marvelous reunion. Sad, because time and distance made that love change, and we could not revive the sublime passion that had united us before. Marvelous because that passion that had been so special, even if it would not manifest itself between us as man and woman once again, but only for the fact that I saw him again, unleashed in me a process that was magical and irreversible. Ever since that encounter I became aware of the existence of another person inside of me. I realized then that She had always been present, but more that ever I had perceived Her clearly. At first, this new sensation was strange to me, even though it filled me with a sort of happiness unknown until then. I wondered if this phenomenon happened only to me, if I was finally going crazy, if I had to seek medical help. But it was so good that it just couldn't be a sickness! I resolved then to deepen my knowledge on the subject, and I came across vast literature that dealt with this kind of spirituality that had flourished in me. I began to understand that I had come into contact with what is called the "Higher Self"

Science of Passion

The PassionBook is the most famous work of erotica in the vast literature of Tibetan Buddhism, written by the legendary scholar and poet Gendun Chopel (1903-1951). Soon after arriving in India in 1934, he discovered the Kama Sutra. Realizing that this genre of the erotic was unknown in Tibet, he set out to correct the situation. His sources were two: classical Sanskrit works and his own experiences with his lovers. Completed in 1939, his "treatise on passion" circulated in manuscript form in Tibet, scandalizing

and arousing its readers. Gendun Chopel here condemns the hypocrisy of both society and church, portraying sexual pleasure as a force of nature and a human right for all. On page after page, we find the exuberance of someone discovering the joys of sex, made all the more intense because they had been forbidden to him for so long: he had taken the monastic vow of celibacy in his youth and had only recently renounced it. He describes in ecstatic and graphic detail the wonders he discovered. In these poems, written in beautiful Tibetan verse, we hear a voice with tints of irony, self-deprecating wit, and a love of women not merely as sources of male pleasure but as full partners in the play of passion.

The Passion of Love

A psychologist's view of the 3 essential core ingredients of love: intimacy, passion and commitment.

I Love You, But I'm Not In Love With You

An unlikely pair of voices-the world's most recognizable beauty icon and "America's rabbi"-comes together to diagnose how meaningful, passionate sex is on the decline in Western culture, and what is necessary to save it. Sex is dying in America. Inundated with sex and starved for it, obsessed with it yet clueless about it, we are slowly forgetting how to make love. The crisis of modern sexuality is seen in high divorce rates, in the degradation of sexuality through pornography, and tasteless displays of empty, counterfeit erotica. Most of all, it's seen in sexless marriages and platonic relationships where cybersex has become more addictive than the real thing. Sex has become so trivialized, coarsened, and vulgarized that couples no longer feel its pull. The once powerful and irresistible magnetism of sex is being diluted and drained. The authors propose replacing the 1960s' sexual revolution with a new sensual revolution, a rediscovery of intimacy that encourages and ennobles human relationships, elevates healthy lust, and gets us from looking up from the glowing screens of our smartphones to the people around us, most especially the people we love the most. Lust for Love embraces the idea that what our most important relationships need most is lust. It is necessary to rediscover what's sexy again, how to bring back romance, and to understand that in addition to love, we need lust to repair our unfulfilling sex lives and broken relationships. Lust for Love proposes a return to what lovemaking was always meant to be: a desire to know and experience another person in the deepest possible way.

It Starts with Passion

Cal Newport's clearly-written manifesto flies in the face of conventional wisdom by suggesting that it should be a person's talent and skill - and not necessarily their passion - that determines their career path. Newport, who graduated from Dartmouth College (Phi Beta Kappa) and earned a PhD. from MIT, contends that trying to find what drives us, instead of focusing on areas in which we naturally excel, is ultimately harmful and frustrating to job seekers. The title is a direct quote from comedian Steve Martin who, when once asked why he was successful in his career, immediately replied: "Be so good they can't ignore you" and that's the main basis for Newport's book. Skill and ability trump passion. Inspired by former Apple CEO Steve Jobs' famous Stanford University commencement speech in which Jobs urges idealistic grads to chase their dreams, Newport takes issue with that advice, claiming that not only is this advice Pollyannish, but that Jobs himself never followed his own advice. From there, Newport presents compelling scientific and contemporary case study evidence that the key to one's career success is to find out what you do well, where you have built up your 'career capital,' and then to put all of your efforts into that direction.

Radio

This volume derived from original presentations given at a conference in Atlanta, Georgia, under the auspices of the Center for Child Well-Being. Scholars, practitioners, public health professionals, and principals in the child development community convened to address a science-based framework for elements of well-being and how the elements might be developed across the life course. Integrating physical, cognitive, and social-emotional domains, *Well-Being* is the first scientific book to consider well-being holistically. Focusing on a set of core strengths grouped within these three domains, the book also includes a fourth section on developmental strengths through adulthood that broadly examines a continuum of health and development, as well as transitions in well-being. This volume takes a developmental perspective across the life course, describing foundational strengths for well-being--the capacities that can be actively developed, supported, or learned. These foundational strengths--problem solving, emotional regulation, and physical safety--are the positive underpinnings of early child health and development, as well as ongoing well-being across the life course. Working together and blending their respective disciplinary perspectives and expertise, 53 experts in psychology, sociology, child development, and medicine have contributed to the book.

Passion at Work

An exploration of our evolutionary inheritance shows how the patterns nature evolved from the past make our love lives simultaneously wonderful and miserable today

Love, Passion and Power:

This book is an introduction to three questions on love according to St. Thomas Aquinas (*Summa Theologiae* I-II, qq. 26-28). These three questions reflect on the nature of love (q. 26), the causes of love (q. 27), and the effects of love (q. 28). It is thus an introduction to the entire phenomenon of love, both as a bodily passion and an act of the will. The purpose is to present the Thomistic and broadly scholastic account of human and divine love from a philosophical and theological perspective. It aims to be a theological and philosophical study of the topic, useful both for a graduate/professional audience,

as part of an undergraduate or graduate course, and perhaps for the educated reader. The thesis of the book is that, contrary to contemporary conceptions, not all loves are created equal. Some loves perfect us and some loves corrupt us. The worth of a love depends on its object and end. St. Thomas thus presents an objective and teleological account of human and divine love that is of philosophical and theological interest. The method is broadly exegetical, presenting a careful reading of the text and supplying the philosophical and theological background which the text of Aquinas assumes. The scope of the work is limited to three questions (ST I-II, qq. 26-28). References to interpretative disputes of Aquinas and references to further resources in the secondary literature will be mostly limited to the footnotes, making the body of the text accessible to more readers.
