Cassie is a little girl like you have never read about before in a children's book. Cassie lives in the real world. She knows and understands she is not a fairytale princess. In fact, poor little Cassie lives in poverty, like so many children do today. Cassie is desperate for a better life, but she doesn't know how or where to find it. Not only that, but she is scared. You see Cassie's whole life is changing. She is going to start school and she is terrified of what awaits her there. I truly believe this book has the potential to change a generation. Children all over the world will relate to Cassie and will be inspired and encouraged to believe that miracles can and do happen. In the process of reading this book they will be made aware of their own self worth. If there is a child in your life who could use some encouragement, show them how important they truly are to you and introduce them to Cassie. I know they will become instant friends!

The New Southern Girl

Much has been written about America's troubled teens, particularly endangered teenage girls. Works like Mary Pipher's *Reviving Ophelia* and many others have contributed to the general perception that contemporary young women are in a state of crisis. Parents, educators, social scientists, and other concerned individuals worry that our nation's girls are losing their ambition, moral direction, and self-esteem as they enter adolescence--which can then lead them to promiscuous sex, anorexia, drug abuse, and at the very least, declining math scores. In spite of evidence to the contrary in life and literature, this bleak picture is seldom challenged, but a good place to begin may be with recent literary representations of young women, fictional and autobiographical, which show proud young women who are highly focused and use their brains and good humor to work toward satisfying adult lives. This book addresses the ways in which 12 women writers use their heroines' stories to challenge commonly held and frequently damaging notions of adolescence, femininity, and regional identity. The book begins with a chapter on sociological and literary theories of adolescent female development. This chapter also includes theoretically informed discussions of young adult fiction and Southern literature. Chapters that follow focus on adolescent heroines in the novels and autobiographies of the contemporary Southern women writers Anne Tyler, Bobbie Ann Mason, Josephine Humphreys, Dorothy Allison, Kaye Gibbons, Tina Ansa, Janisse Ray and Jill McCorkle and young adult writers Katherine Paterson, Mildred Taylor and Cynthia Voigt. Instructors considering this book for use in a course may request an examination copy [here](#).

Connecting The Pieces: A Family's Life Story

Cassie Gomez's family's life story unravels through her niece, Allie, in "Connecting The Pieces". Connecting the pieces of her aunt's life story and that of her father's is going to be a solemn road for Allie. The journey to "Connecting The Pieces" starts by learning and experiencing the love story of Allie's grandparents. Despite the peaceful life they show from the outside, there is a shadow in their past that continues to linger in their lives today? "If you knew the end result, would you do it again?" This is the question that Allie will have to live with to learn about guilt, regret, patience, forgiveness, eternal love, and being a family. If you could open the door to that past with Allie, would you walk towards the darkness to find out? Or would you let Allie do it alone? In the end, will you adore and love Allie and appreciate her bravery or would you turn back that clock to spare her? Enjoy!

Cassandra Jones is the new girl at school. She's been uprooted from her beloved state of Texas and relocated to the hillbilly Ozarks of Springdale, Arkansas. She wonders if she will like her teacher or if she will have any friends. She can only hope school won't be harder than it was back home. Life Lessons

As a special education teacher for 20+ years, I've been given a gift every day--my students. Each one has given me the opportunity to see the world as they see it. And what an interesting world it is! For example, I enjoyed watching students celebrate the first day of school in different ways. One student in particular celebrated the first day decked out in a princess dress and tiara. She began the year as royalty! By the end of the year, everyone in the hall knew her name and would greet her with a "Hi, Cassie." She actually was royalty to her newfound friends! Her positive attitude and joyful approach to each day was infectious. She seemed to know when someone needed their spirits lifted and she would always oblige with a hug or squeeze of the hand. I wrote this first book in the series "Life Lessons" to celebrate my amazing young friend, Cassie. I taught her life skills, and in return she gave me something even more precious-- a reminder of what life is really all about. I hope you enjoy Cassie's life lessons!

Our First Day of School

I want to mention to the kids going to school for the first time school can be exciting and fun. School is what the child makes it to be.

Created around the world and available only on the web, internet "television" series are independently produced, mostly low budget shows that often feature talented but unknown performers. Typically financed through crowd-funding, they are filmed with borrowed equipment and volunteer casts and crews, and viewers find them through word of mouth or by chance. The fifth in a series focusing on the largely undocumented world of internet TV, this book covers 573 children's series created for viewers 3 to 14. The genre includes a broad range of cartoons, CGI, live-action comedies and puppetry. Alphabetical entries provide websites, dates, casts, credits, episode lists and storylines.

The Leader of the Lost People

Suicide is something that can occur in any country in the world. However this tragic phenomenon is all too common in certain areas of Australia. Today in Australia and in most of the world, there remains a major stigma attached to suicide. But as tragic as the act itself may be, for every one person who commits suicide, there are many others left behind. The Continuing Ripples of Living Beyond Suicide tells the stories of some people who have also lost someone to suicide. Author Kaylene Donohue is all-too-familiar with this tragic phenomenon and the kind of pain and suffering it inflicts on the living. Having lost her first cousin, younger brother, and even three of her own children to suicide, Kaylene, like too many of those left behind, struggled to pick up the pieces and move on with her life. However, she was so moved by the support she received from the Standby Team and her support group, close family and friends that she was ultimately inspired to take action. This book is her effort to try and help others realize that there are many specialized counselors available to provide ongoing assistance to those in need and that there is indeed hope for life. The author's ongoing passion for giving strength to those who have been left behind is the primary motivation behind this heartfelt book.

Life was anything but idyllic for Esther as a child. She grew up in Honduras in a small home built from driftwood collected along the beach from shipwrecks. With ten children in the house, food was scarce. But what her family lacked in material possessions, they made up for in love and a deep faith in God. At the tender age of seven, Esther was sent to live with a couple to work as their housemaid. What was done in love to provide Esther with food and better living accommodations turned into a twelve-year nightmare of physical and verbal abuse--something she kept hidden from her parents out of respect for their instruction to obey her employer. When Esther secured her freedom, she turned away from God and decided to do things her way. Sadly, her decisions led to more heartache and trials. The freedom she sought ended in other forms of slavery. Could she ever find true freedom? Did God hold the answer? Journey with Esther as she recounts her childhood, the lessons her parents taught her, her quest to come to America, two abusive marriages, and God's never-failing love and forgiveness in A Storm Within. Although her life has been battered by many storms, God has always been beside her.

Sex on Summer Sabbatical Who knew it would be so hard to get a twenty-something man to have sex? Forced by her employer to take a three month sabbatical, workaholic Tori Warren makes a checklist of things to accomplish that will make the time off worthwhile. Get into the best shape of her life. Have the most fun of her life. Oh, and have the best sex of her life with a no-strings holiday affair. Sexy young Adam Cross comes into her life at just the right time. A physical trainer with a loving-life personality, he should work nicely in helping her meet all three goals. He'd be especially perfect for the best sex. Now if he would only just cooperate... Adam learns of her calculating plans involving him soon after beginning to date Tori. But by then he's realised he wants much more than to be the means to an end for her. If he can only hold out until the end of the summer, maybe he'll have time to convince her that the best sex comes with strings... Falling for the Other Brother Erica had been planning to break it off with Trevor—he was really too young for her, after all. But it's hard to use that excuse when the man she's really interested in is Trevor's twin, Colin. Her biological clock ticking, a chance conversation leads Erica to Trevor, a former sperm donor, who helps convince her to move ahead with her plans. But he adamantly refuses to be her donor, in fact he's pulled all his past donations, for a reason he won't discuss. Their subsequent relationship, while hot, just drives home the different goals the two have. When Colin returns from overseas, his problem with intimacy still looming large, he never dreamt he would meet his ideal partner in Erica. Only two things stand in their way—her relationship with his brother, and the fact she wants children...the one thing he can no longer provide. Winter's Thaw Sometimes in the depths of winter, warmth can force an unexpected bloom. In shock after the death of her ex-husband, Maggie Winter gives in to her need for comfort with a near stranger, but immediately regrets her impulsive act. With her young daughter to raise alone, it's time to start acting her age. Something about Maggie puts all of Nick's protective instincts on high alert, but that isn't all he feels for her. So when she makes it clear she needs space, he isn't put off by her cool act and has no problem biding his time. However, when the slow simmer between them stretches on, it's just a matter of time before one of them decides to turn up the heat. Spring Training With two diverging careers on the line, Teri and Aaron are torn between the right thing to do...and what feels so right to them. With a son who's played since he could walk, Teri lives, eats and breathes baseball. She was almost more excited than Emery when his invitation to a minor league team's training camp came. But excited doesn't begin to describe her reaction to Em's new mentor, Aaron Reynolds. A spring fling? Just the ticket. Fighting a chronic injury, Aaron is biding his time until he can return to the majors. Being assigned a mixed-up rookie to babysit is fine with him, especially one that comes with a sassy, sexy camp follower like Teri.

But he soon finds he has his hands full...trying to keep Emery on the straight and narrow...and trying to keep his liaison with Teri strictly physical.

Masterplots II.

Full-time marine biologist and part-time heartbreaker Liv Cucinelli knows that there are plenty of fish in the sea. So why can't she seem to escape the lure of the one woman she hates the most? When Liv is unexpectedly reunited with Mira Butler—the homophobic princess who ruined Liv's college career—the last thing she wants is to spend even a second in the company of her former nemesis. Having loathed Mira for years, she's not prepared to forgive her, let alone pursue a friendship. But Mira, who is oblivious to the destruction she caused, refuses to leave Liv alone. Once Liv learns the truth about their shared past, she begins to see there is more to Mira than she could have ever anticipated. Can they overcome their stormy history to become friends? Or maybe even more?

Seasoned Women: A Box Set

The numerous anti-bullying programs in schools across the United States have done little to reduce the number of reported bullying instances. One reason for this is that little attention has been paid to the role of the media and popular culture in adolescents' bullying and mean-girl behavior. This book addresses media role models in television, film, picture books, and the Internet in the realm of bullying and relational aggression. It highlights portrayals with unproductive strategies that lead to poor resolutions or no resolution at all. Young viewers may learn ineffective, even dangerous, ways of handling aggressive situations. Victims may feel discouraged when they are unable to handle the situation as easily as in media portrayals. They may also feel their experiences are trivialized by comic portrayals. Entertainment programming, aimed particularly at adolescents, often portray adults as incompetent or uncaring and include mean-spirited teasing. In addition, overuse of the term "bully" and defining all bad behavior as "bullying" may dilute the term and trivialize the problem.

Bait and Switch

As Cassie enters her last year at Walker Elementary, she's pretty sure she has it made. She has a best friend (finally!), excellent grades, and everything she needs to rule the school. Things unravel fast, however, when she forgets her homework the very first week of school. As if that weren't enough, her best friend soon ditches her, leaving Cassie feeling just as lost as when she moved in. And then she offends a boy in the neighboring class and he turns the whole grade against her. Will Cassie make it through her sixth grade year? Or will she beg her parents to take her back to Texas? Contains episodes 1-7.

What Makes the World Turn

Cassie despised rudeness. Every new job brought challenges. She discovered the parents often needed more training than the children. The nanny wanted no sympathy for her scars. Her aunt and a three-legged cat had taught her to love. She simply wanted people to respect others. She had a way to get their attention. Madam wishes to speak with you, Melvin said in his stiff way. Cassie brought the child down the front stairs. She passed through the elaborate dining room and entered the kitchen. She left the upstairs maid to watch Joey. Yes, Madam. She stood close to the pompous woman. I see the uniforms fit nicely. We do prefer starch, but we can overlook that. However, that hair that hair. You must do something with it! The uncaring attitude was more than Cassie could take. She reached to the crown of her head, yanking the wig upward. In a flash, it was extended at the end of the nannys long arm. Herewhat shall I do with it? She went to care for the child, while the butler and maid revived Madam.

Bullies and Mean Girls in Popular Culture

"If you are a teacher looking for a proven way to help and inspire more students, a coach searching for more effective practices to support teachers, or a school leader working to create positive, systemwide change, then this book is for you. It is a book of wish craft—a way to craft, or to make real, our most important wishes for our students." —From the foreword by Harvey F. Silver How many times have you been stumped by a student's failure to learn? You tried everything in your tool kit, but nothing worked. Now what if there were a process that would help you pinpoint the student's specific need and design an action plan to swiftly remedy the problem? In *Solving Academic and Behavior Problems*, Margaret Searle and Marilyn Swartz offer just that. This process, based on the positive psychology of appreciative

inquiry, builds on what is working with students to address what is not working. It's a system of support that helps general education teachers partner with specialists and parents to learn new ways to enrich academic, social-emotional, and behavioral growth through structured conversations and a series of productive meetings of 30 minutes or less. Using more than 25 video clips, Searle and Swartz walk you through the six basic steps of the appreciative inquiry problem-solving process: 1. Connect with team members and stakeholders. 2. Review the meeting focus/concern. 3. Share a story that details when you successfully addressed the concern. 4. Establish a goal using a concise "DATA" framework. 5. Design an action plan. 6. Commit to an action. The authors also outline how to use five whys to uncover hidden barriers to student achievement when learning isn't improving. Each chapter contains links to online video examples, activities, reflection questions, scenarios, handy tools, and tips from practitioners. A great resource to strengthen RTI and MTSS plans and invaluable to teachers, support staff, and administrators alike, *Solving Academic and Behavior Problems* provides the kind of insights and guidance that expand and sharpen educators' capacity to help all students learn.

Walker Wildcats Year 2: Age 11

"Throughout her childhood, Safiya Sinclair's father, a volatile reggae musician and militant adherent to a strict sect of Rastafari, became obsessed with her purity, in particular, with the threat of what Rastas call Babylon, the immoral and corrupting influences of the Western world outside their home. He worried that womanhood would make Safiya and her sisters morally weak and impure, and believed a woman's highest virtue was her obedience. In an effort to keep Babylon outside the gate, he forbade almost everything. In place of pants, the women in her family were made to wear long skirts and dresses to cover their arms and legs, head wraps to cover their hair, no make-up, no jewelry, no opinions, no friends. Safiya's mother, while loyal to her father, nonetheless gave Safiya and her siblings the gift of books, including poetry, to which Safiya latched on for dear life. And as Safiya watched her mother struggle voicelessly for years under housework and the rigidity of her father's beliefs, she increasingly used her education as a sharp tool with which to find her voice and break free. Inevitably, with her rebellion comes clashes with her father, whose rage and paranoia explodes in increasing violence. As Safiya's voice grows, lyrically and poetically, a collision course is set between them"--

Valley of Shadows

Ten years go by, and Jack and Bree return home for a visit. Bentley enters the story and brings joy to everyone. Faith and the ladies spend some time at the bar. Bree gets rushed to the hospital, where bad news awaits the whole family. Jack's life is thrown upside down when he gets all he wants. He makes a move that will forever change him. Faith meets someone and receives excellent news. Cassie comes to grips with bad news.

Solving Academic and Behavior Problems

Open your eyes to the wonder God has waiting for you. In the midst of our busy schedules and the constant distractions our culture offers us, it can be difficult to feel God and see the way he's working in our lives. He is the creator of the universe, the author of salvation, the beginning and end of everything that is--but that doesn't mean he's far away. The truth is, God is revealing himself to us all the time, in even the littlest details of our everyday. If we can only slow down and open our eyes to see it, we can begin to catch glimpses of him wherever we are and whatever our circumstances may be. In *A Minute of Presence for Women*, spend a year retreating with God--and awaken your heart to his wonder all around you.
