Lights in the Night

In this charming picture book for young children, the magic of Shabbat is celebrated through light. As the sun goes down on a Friday evening and darkness descends, different sources of light welcome in the Sabbath: candles, lanterns, the moon and stars, fireflies, nightlights and then the next morning, the sunrise. Told in gently rhythmic rhyming couplets and beautifully illustrated throughout, this is an enchanting exploration of light and dark, and a journey through the various rituals and delights of Shabbat.

Lights Day and Night

A charming and captivating exploration of the science of light. Where does light come from? How does it work? What is it made of? A girl and her cat find answers to these questions on a summertime journey of scientific discovery. The pair identify loads of examples of light, while exploring many fascinating

topics: natural and artificial light; uses of light; opaque, translucent and transparent objects; absorbed, reflected and refracted light; and how the eye sees light. It's a gentle yet comprehensive introduction to light and all its mysteries. From stars in the sky to fireworks over a lake, our inquisitive guides shine a light on ... light!

Ella's Night Lights

If you look very carefully at the night sky, you might spot a teeny-tiny sparkle out of the corner of your eye, a whisper of a tinkling trail. That's Ella. Ella has always dreamed of seeing the sunrise. But with her delicate gossamer wings, she can only come out at night. So, when the moon is high, she collects as many shimmering beams of light she can find - a twinkle from a star, the glow from a lamp post. With her light, she guides lost and lonely animals and finds friendship in Fox and Owl. And, together, Ella's animal friends know just how to return her kindness.

All the Lights in the Night

Moses and his little brother Benjamin find a way to celebrate Hanukkah during their dangerous emigration to Palestine.

Night Lights

While preparing for bedtime, a little girl and her dog note all the different kinds of lights that brighten up the night, from headlights to moonlight.

The Lights That Dance in the Night

In this wonderfully festive picture book, Yuval Zommer imagines the Northern Lights' fleeting journey from space to Earth and how they weave a special magic for the animals and people living in the frozen lands below.

Light in the Night

A young boy visits his aunt in a cabin in Alaska. He wonders how they will celebrate Christmas without electric lights. His aunt, who is a science teacher, tells him about the greatest light show, the aurora borealis. She explains the science behind the colors found in these northern lights.

Night Lights of the North

A charming and captivating exploration of the science of light. Where does light come from? How does it work? What is it made of? A girl and her cat find answers to these questions on a summertime journey of scientific discovery. The pair identify loads of examples of light, while exploring many fascinating topics: natural and artificial light; uses of light; opaque, translucent and transparent objects; absorbed, reflected and refracted light; and how the eye sees light. It's a gentle yet comprehensive introduction to light and all its mysteries. From stars in the sky to fireworks over a lake, our inquisitive guides shine a light on ... light!

Lights Day and Night

A simple introduction to the stars.

Lights at Night

Live life on the edge of sanity. Trevor, an orphan at thirteen, bounced around the Far-east searching for something, trouble was he didn't understand what. Wracked with insomnia and tired of traveling the world, he'd returned home to be more "normal" and took a job from his older brother, he failed at normal. When world events reignite his pursuit of the inexplicable to a sleepy West Texas town, his world took a turn to the bizarre and unimaginable. Caught between fantasy and reality, Trevor must face his greatest fears and admit some things can't be explained. Unseen forces drive him to his destiny. Will Trevor be able to discover what created the Lights in the Night and get the girl, or lose his grip on sanity? Don't miss Lights in the Night, the first of the Ostinato series by Greg Alldredge. If you like tales with quirky characters and a metaphysical search for hard to answer questions, then this Speculative Fiction will have you turning the pages! Come check it out!

Kites, Level 11

Night and day, light and darkness, shape our world: light signifies life, knowledge and all that is good, while darkness suggests death, ignorance and evil. And yet the darkness of the night allows not only nightmares but also dreams, it allows transformations unthinkable in the light of day. The present volume examines the interconnections of night and illumination across a broad range of literary texts.

The Stars

Earth at night, as the photos and essays of this book showcases, is an electric planet, glittering with billions of lights for all the solar system to see.

Lights in the Night

A deeply panoramic tour of the night, from its brightest spots to the darkest skies we have left. A starry night is one of nature's most magical wonders. Yet in our artificially lit world, three-quarters of Americans' eyes never switch to night vision and most of us no longer experience true darkness. In *The End of Night*, Paul Bogard restores our awareness of the spectacularly primal, wildly dark night sky and how it has influenced the human experience across everything from science to art. From Las Vegas' Luxor Beam -- the brightest single spot on this planet -- to nights so starlit the sky looks like snow, Bogard blends personal narrative, natural history, science, and history to shed light on the importance of darkness -- what we've lost, what we still have, and what we might regain -- and the simple ways we can reduce the brightness of our nights tonight.

Dark Nights, Bright Lights

Betty loves her night-time stories, especially the one about Cosmo: a bear that is afraid of the dark. So when Cosmo comes to life, it is the perfect opportunity for Betty to help him overcome his fear and show him the beauty of the night. With a lantern in one hand and Cosmo's paw in the other, join Betty on a wonderful adventure that will light up every child's story time!

Lights of Mankind

Printed with glow-in-the-dark ink and illustrated with cut-paper artwork, each of these cozy bedtime board books feature a die-cut moon that, once charged by light, literally shines over each page. Set on a bedside table, the glowing city scenes and nighttime critters in each book make for perfect bedtime reading. Full color.

The Stars: Lights in the Night Sky

Rana is brushing her teeth when the lights go out, leaving her in a darkness as wide as an ocean... But when the lights go on again Rana misses the warm, cosy darkness.

The End of Night

A dazzling visual contrasts between the late night atmosphere and the colourful creatures who roam the land in the late hours.

The Light in the Night

From the New York Times bestselling author of the Tradd Street series comes a stunning novel about a young single mother who discovers that the nature of friendship is never what it seems.... Recently divorced, Merilee Talbot Dunlap moves with her two children to the Atlanta suburb of Sweet Apple, Georgia. It's not her first time starting over, but her efforts at a new beginning aren't helped by an anonymous local blog that dishes about the scandalous events that caused her marriage to fail. Merilee finds some measure of peace in the cottage she is renting from town matriarch Sugar Prescott. Though stubborn and irascible, Sugar sees something of herself in Merilee—something that allows her to open up about her own colorful past. Sugar's stories give Merilee a different perspective on the town and its wealthy school moms in their tennis whites and shiny SUVs, and even on her new friendship with Heather Blackford. Merilee is charmed by the glamorous young mother's seemingly perfect life and finds herself drawn into Heather's world. In a town like Sweet Apple, where sins and secrets are as likely to be found behind the walls of gated mansions as in the dark woods surrounding Merilee's house, appearance is everything. But just how dangerous that deception can be will shock all three women....

City Lights

While certain ecological problems associated with artificial night lighting are widely known—for instance, the disorientation of sea turtle hatchlings by beachfront lighting—the vast range of influences on all types of animals and plants is only beginning to be recognized. From nest choice and breeding success of birds to behavioral and physiological changes in salamanders, many organisms are seriously affected by human alterations in natural patterns of light and dark. *Ecological Consequences of Artificial Night Lighting* is the first book to consider the environmental effects of the intentional illumination of the night. It brings together leading scientists from around the world to review the state of knowledge on the subject and to describe specific effects that have been observed across a full range of taxonomic groups, including mammals, birds, reptiles and amphibians, fishes, invertebrates, and plants. *Ecological Consequences of Artificial Night Lighting* provides a scientific basis to begin addressing the challenge of conserving the nighttime environment. It cogently demonstrates the vital importance of this until-now neglected topic and is an essential new work for conservation planners, researchers, and anyone concerned with human impacts on the natural world.

The Night the Lights Went Out

Based on acclaimed singer-songwriter Ellis Paul's Christmas song, this hilarious tale focuses on an inevitable part of the holiday season—lights! Year after year, the neighbors on one suburban street try to outdo one another with their holiday decorations, until one night their efforts take out the world's power grid. Once the neighborhood is dark, though, they're finally able to clearly see the stars above—a simple, perfect Christmas show. Includes free downloadable mp3.

Lights Out, Night's Out

A child observes the different lights of daytime and nighttime, including morning sunlight, flames on birthday candles, and the streetlight in front of the house.

The Night the Lights Went Out

A gripping and deftly plotted narrative of family and belonging, *Lights All Night Long* is a dazzling debut novel from an acclaimed young writer "Lights All Night Long is utterly brilliant and completely captivating. . . . One of the most propulsive, un-put-downable literary novels I've read in ages."--Anthony Marra, author of *A Constellation of Vital Phenomena* Fifteen-year-old Ilya arrives in Louisiana from his native Russia for what should be the adventure of his life: a year in America as an exchange student. But all is not right in Ilya's world: he's consumed by the fate of his older brother Vladimir, the magnetic rebel to Ilya's dutiful wunderkind, back in their tiny Russian hometown. The two have always been close, spending their days dreaming of escaping to America. But when Ilya was tapped for the exchange, Vladimir disappeared into their town's seedy, drug-plagued underworld. Just before Ilya left, the murders of three young women rocked the town's usual calm, and Vladimir found himself in prison. With the help of Sadie, who has secrets of her own, Ilya embarks on a mission to prove Vladimir's innocence. Piecing together the timeline of the murders and Vladimir's descent into addiction, Ilya discovers the radical lengths to which Vladimir has gone to protect him—a truth he could only have learned by leaving him behind. A rich tale of belonging and the pull of homes both native and adopted, *Lights All Night*

Long is a spellbinding story of the fierce bond between brothers determined to find a way back to each other.

Ecological Consequences of Artificial Night Lighting

You may have heard of ships. You may have also heard of the sea and the night. But did you realize there's nothing more beautiful than a ship and its lights on the sea at night? In warm and witty prose, this picture book's narrator asks the reader to consider the splendor of glowing lights cast by ships on a shimmering waterway. Meet a trawler, a steamship, a RoRo, an exploratory vessel and more across richly illustrated pages, alive with the glowy, otherworldly nighttime scenes of boats as seen from a child's perspective. Includes a 29" X 18" full-color fold-out poster.

The Night the Lights Went Out on Christmas

For almost twenty-one years, Queen Aetheria has been ruling over the kingdom of Asinia. Since the king's death, she has been terrorizing the citizens of Asinia with her cruelty. Three years into her reign, the First Tree's light shone on the kingdom, announcing the birth of a new royal child. But Aetheria had not given birth. The citizens of Asinia felt a flicker of hope that this new royal child might bring peace to Asinia. That child, Leora Hallowell, is now eighteen and is ready to end Aetheria's reign of terror. A new day is dawning for Asinia. Will Leora's light be enough to banish the darkness of the queen's reign?

The Night the Lights Went Out

Feminist Legal Theory is just over a decade old in the United States and is even younger in most other countries. Here, Francis Olsen presents the best articles from within this burgeoning field. Drawing on literature which is extremely rich and varied, these volumes include articles from a range of leading legal scholars and feminists. Two volumes.

The Night of the Lights

Satellite images acquired at night provide a visually arresting perspective of the Earth and the human activities that light up the otherwise mostly dark Earth. These night-time light satellite images can be compiled into a geospatial time series that represent an invaluable source of information for both the natural and social sciences. Night-time light remote sensing has been shown to be particularly useful for a range of natural science and social science applications, including studies relating to urban development, demography, sociology, fishing activity, light pollution and the consequences of civil war. Key sensors for these time-series include the Defense Meteorological Satellite Program's Operational Linescan System (DMSP/OLS) and the Suomi National Polar-orbiting Partnership Satellite's Visible Infrared Imaging Radiometer Suite Day/Night Band (Suomi NPP/VIIRS DNB). An increasing number of alternative sources are also available, including high spatial resolution and multispectral sensors. This book captures key methodological issues associated with pre-processing night-time light data, documents state of the art analysis methods, and explores a wide range of applications. Major sections focus on NPP/VIIRS DNB processing; inter-calibration between NPP/VIIRS and DMSP/OLS; applications associated with socio-economic activities, applications in monitoring urbanization; and fishing activity monitoring. The chapters in this book were originally published as a special issue of the International Journal of Remote Sensing.

Day Lights, Night Lights

Describes some of the many lights that shine through the night--traffic lights, lightning, spotlights, flood lights, and others.

Night Lights

A remote cabin. A family on edge. They are not alone. It was meant to be a family bonding exercise: two weeks in a mountain cabin on the outskirts of a former gold-mining town. These days, Wooralla's only claim to fame is a retro diner called The Flying Saucer and a dusty museum dedicated to the area's history of UFO sightings. Owen knows it's all bogus, but at least it gives him something to do. Half a day into their holiday, Owen's family is already bickering. By day two, his little sister is sick. On the third night, they witness peculiar lights in the sky. By day nine they are fleeing, too panicked to grab their phones, belongings, even the family dog. Owen doesn't know what they're running from, he only knows he needs to keep his little sister safe. But how can he tell anyone about his dad's erratic behaviour?

Weird howling from deep in the bush? Strange entities hiding in the trees? How does he explain what was real and what wasn't when he doesn't even know himself? In Owen's search for answers, nothing is as it seems. And what he'll uncover is beyond anything he imagined. YA thriller for teens aged 13+

Lights All Night Long

Why be afraid of the dark when there is so much to see? W.H. Beck brings the glowing world of bioluminescence to light in this young non-fiction picture book illustrated with stunning photographs.

The Lights and Types of Ships at Night

A young boy learns about the meaning of Sukkot while overcoming his fear of the dark.
