Absolute Value Equation

Absolute Value Inequality

Solve a Quadratic Inequality Using the Number Line

Solving Rational Inequality Using the Number Line

Finding the Slope between 2 Points

Find Equation of Perpendicular Line through a Given Point

Find Distance and Midpoint

Write Standard Equation of a Circle

Is y a function of x?

Evaluate Given a Piecewise Function

Find the Domain Given an Equation

Find the Range Given a Graph

Describe the Transformations Given an Equation

Find the Composition of 2 Functions
 Find the Inverse of a Function Given Equation
 Is the Graph 1 to 1?
 Find the Vertex of a Parabola Given Vertex Form
 Find the Vertex Given Standard Form of a Quadratic
 Find the Vertex Given Intercept Form of a Parabola
 Sketch the Polynomial Given Factored Form
 Describe the End Behavior of a Polynomial Given Equation
 Divide Polynomials Using Synthetic Division
 Find all the Zeros of the Polynomial Using Rational Root Thm
 Write a Polynomial with Integer Coefficients Given Imaginary Zeros
 Graph a Rational Function with Asymptotes, Zeros, Test Points
 Write an Inverse Variation Equation and Solve
 Compound Interest Word Problem
 Evaluate Logarithms
 Graph a Logarithmic Function
 Expand a Logarithmic Expression
 Condense a Logarithmic Expression into 1 Log
 Solve a Logarithmic Equation
 Compounding Continuously Word Problem
 Solve a System of Linear Equations
 Add, Subtract, and Multiply Complex Numbers
 Solve an Exponential Equation by Getting Bases Equal
 Solve an Exponential Equation by Using Logs
 Given a Table Decide Linear or Nonlinear
 Solve the Quadratic Equation Using Quadratic Formula
 State the Minimum Degree of Polynomial Given Graph
 Where is the Graph Increasing (Interval Notation)
 Graph an Exponential Equation with Transformations
 Solve a System of 3 Equations with 3 Variables

Test Strategy! Winning multiple choice strategies for any test

Learn and Practice Proven Multiple Choice Strategies for Reading Comprehension and Basic Math! If you are preparing for an exam, you probably want all the help you can get! Test Strategy is your complete guide to answering multiple choice questions! You will learn: Tips, Tricks and Short-cuts for fractions, decimals and percent. Powerful multiple choice strategies with practice questions - Learn 15 powerful multiple choice strategies and then practice. Complete Answer key for all practice questions with extensive commentary including tips, short-cuts and strategies. How to prepare for a multiple choice exam - make sure you are preparing properly and not wasting valuable study time! Who does well on multiple choice exams and who does not - and how to make sure you do! How to handle trick questions - usually there are one or two trick questions to separate the really good students from the rest - tips and strategies to handle these special questions. Step-by-step strategy for answering multiple choice - on any subject! Common Mistakes on a Test - and how to avoid them How to avoid test anxiety - how to avoid one of the most common reasons for low scores on a test How to prepare for a test - proper preparation for your exam will definitely boost your score! How to psych yourself up for a test - tips on the the all-important mental preparation! Learn what you must do in the test room Also included is How to Take a Test - The Complete Guide Let's face it: test-taking is really not easy! While some people seem to have the natural ability to know what to study, how to absorb and retain information, and how to stay calm enough while actually taking a test to earn a great score, most of us find taking tests to be sheer misery. This is one of the most important chapters! Here you will find out: How to Take a Test - The basics In the Test Room - What you MUST do Common Mistakes on a Test - And how to avoid them Mental Prep - How to psych yourself up for a test Maybe you have read this kind of thing before, and maybe feel you don't need it, and you are not sure if you are going to buy this book. Remember though, it only a few percentage points divide the PASS from the FAIL students. Even if our test tips increase your score by a few percentage points, isn't that worth it? Remember it only a few percentage points divide the PASS from the FAIL students. Why not do everything you can to increase your score?

HSPA Test Strategy

Learn and practice proven multiple choice strategies for paragraph comprehension, English grammar, word problems and Basic Math! If you are preparing for the HSPA, you probably want all the help you can get! HSPA Test Strategy is your complete guide to answering multiple choice questions! You will learn: Powerful multiple choice strategies with practice questions - Learn 15 powerful multiple choice strategies and then practice. Answer key for all practice questions with extensive commentary including tips, short-cuts and strategies. Many of REA's acclaimed Test Prep books are also available with our powerful, interactive test preparation software, called TESTware. Each TESTware package includes one of REA's comprehensive Test Prep books, plus timed, full-length, computerized tests that simulate the actual exams. By controlling the order of questions and enforcing time constraints, REA's TESTware makes test preparation more like the actual exams than ever. REA's TESTware automatically scores the user's performance, creates a detailed score report, and suggests areas for further study. When compared with other test prep book and software packages, REA's TESTware offers a number of significant advantages: -- Each book is accompanied by both Windows and Macintosh software. -- A quick, on-screen tutorial gets the user started right away. -- On-screen text is superior in quality. Graphics and mathematical symbols are sharp and clear, and reading passages are easy to read and scroll. -- Pause button allows students to use study time efficiently. -- Students can suspend tests and resume at any time. -- TESTware displays a list of questions featuring their answered or unanswered status, and allows students to mark questions for later review. -- TESTware has the ability to display multiple windows simultaneously, allowing students to view a list of questions, exam directions, questions, and explanations while testing. -- Unlimited toll-free customer and technical support via phone, fax, Internet, or America Online. In sum... REA's TESTware is extremely user-friendly, easy to install, easy to learn, easy to use, and exceptionally helpful.

InView(tm) Test Preparation Workbook

This timely book shows how award-winning secondary schools and districts are successfully using technology and making systemic changes to increase student engagement, improve achievement, and re-invigorate the teaching and learning process. Through in-depth case studies, we see how experienced school and district leaders use technology in curricular, administrative, and analytical ways to meet the needs of 21st-century learners, educators, and communities. These cases reveal important details addressed by the leadership of these schools and districts that go beyond what they did with technology to include changes in school culture, curriculum and teaching, uses of assessment data, financial considerations, infrastructure, and involvement with the community. Book Features: Successful models from schools/districts experienced with using technology as a lever for school improvement. Case studies from diverse schools/districts across the country that show "what works" and "how it works." A cross-case analysis that makes it easy to compare individual schools and identify common practices. Barbara B. Levin is a Professor in the Department of Teacher Education and Higher Education and Director of the Teachers Academy at the University of North Carolina at Greensboro. Lynne Schrum is Dean, College of Education and Human Services, West Virginia University. "Barbara B. Levin and Lynne Schrum offer their readers the distinct advantage of compressing into a single volume what it took me decades to learn. They not only present the big ideas of effective school leadership, but bring them alive through case studies that illustrate how those ideas manifest themselves in leaders' day-to-day behaviors. . . . I encourage you to use the ideas and practices you find here to

leverage technology to create schools in which all students and adults thrive.” —From the Foreword by Dennis Sparks, Emeritus Executive Director, National Staff Development Council (Learning Forward) Prepublication Reviews: “In Leading Technology-Rich Schools, the authors present a fascinating and exciting set of case studies that provide great insight into the ways leaders can support high-level innovation in schools. Importantly, their focus is on technology that enhances learning and teaching, rather than technology as an expensive school ornament. A must-read for those who study and practice educational leadership.” —Jeffrey S. Brooks, Associate Professor and Educational Leadership Program Coordinator, School of Education, Iowa State University, author of *Black School, White School: Racism and Educational (Mis)leadership* “This book is a precious gift for the vast majority of administrators who desperately need concrete examples of how to create, facilitate, and sustain technology-infused learning environments.” —Scott McLeod, Associate Professor and Founding Director, CASTLE, University of Kentucky “These rich illustrations of technology leadership in secondary schools show how a number of complex variables must come together to produce the key outcome of positioning educational technology as a support to teaching and learning. Examples of leadership practices that coordinate team members for interdependent work and invite teachers’ involvement should prove to be a valuable resource to practitioners and also provide insight to policymakers for how they can create supportive conditions for such work.” —Sara Dexter, Associate Professor, Department of Leadership, Foundations, and Policy, Curry School of Education, University of Virginia “Leading Technology-Rich Schools is a key advance in understanding how technology can best be integrated in today’s schools. These case studies of effective practice are sure to become required reading for those in leadership positions who are using technology for school improvement.” —Glen L. Bull, Samuel Braley Gray Professor of Education, Curry School of Education, University of Virginia “The rubber meets the road in this well-researched book with detailed stories of exemplary schools and school leaders that have leveraged technology as a key tool to make significant reforms stick. Through these vivid case studies, Levin and Schrum illuminate a dynamic and complex set of lessons learned to help all school leaders undertake transformations of their schools.” —L. Michael Golden, CEO, Educurious

Intro

Get 550 more great practice questions in our study guide: College Placement Test English Prep Study Guide by Exam SAM Available as PDF download or paperback Please see the links in the description below the video.

Instructions for Questions 1 to 10: Select the best substitute for the highlighted parts of the sentences. The first answer choice A is identical to the original sentence. If you think the original sentence is best, then choose A as your answer.

The correct answer is D. The sentence as written is an example of a run-on sentence. The word "but" correctly subordinates the second part of the sentence.

The correct answer is D. The phrase "With its sub-zero temperatures and frozen landscape" describes Siberia, so a clause beginning with the word "Siberia" needs to be placed after the comma. So the correct answer is: With its sub-zero temperatures and frozen landscape, Siberia can hardly be considered to be the ideal tourist destination.

Being frustrated and fed up, and tired from a hard week at work, she decided it was time to go away on vacation. A. Being frustrated and fed up, and tired from a hard week

The correct answer is D. This sentence has an error in parallelism. All of actions should be stated in the-ed (past simple) form in order to have the correct parallel structure, so D is the correct response.

The correct answer is C. The sentence describes an action that was completed in the past, so the past simple form ("promoted") is correct.

An outstanding military commander and statesman, George Washington having strictly avoided overstepping the constitutional limitations of presidential power.

The correct answer is B. The sentence as written is a fragment. Replacing the -ing form "having" with the past simple tense ("avoided") completes the sentence correctly since the action described in the sentence occurred in the past.

Dolomite, otherwise known as calcium-magnesium carbonate, is one of many minerals in sedimentary rock forming crystals and to be used for ornamental purposes. A. sedimentary rock forming crystals B. sedimentary rock formations of crystals

The correct answer is C. The sentence as written incorrectly implies that the rocks, rather than the minerals, form the crystals. Response C corrects this error by using the verb "to form."

Despite the fact he worked overtime several days in a row the congressman didn't finish his report on time. A. Despite the fact he worked overtime several days in

The correct answer is B. The highlighted part of the sentence is missing a relative pronoun ("that"). In addition, a comma needs to be placed before the grammatical subject of the sentence ("the congressman").

If text messaging while at the wheel you could be charged with dangerous driving in some states.

A. If text messaging while at the wheel B. While text messaging at the wheel, C. If you text message while at the wheel

The correct answer is C. Since the pronoun "you" is used in the second part of the sentence, the same pronoun is also required in the first part of the sentence. The sentence is describing a generalization, so the present simple tense ("message") is needed, rather than the continuous form ("messaging").

Geologists have noted that petroleum is a chemical compound consisting of a complex mixture of hydrocarbons, that appear to be formed from the bodies of long-dead organisms. No error

You should select the comma. Remember that a comma should not be used before "that" when forming relative clauses.

Magnetism occurs when a current is associated with a field of force and with a north-south polarity, which means that any substance tends to align themselves with the field. No error

You should select: themselves. The subject of this clause is "any substance," so the singular form of the pronoun (itself) should be used.

Charlemagne was crowned King of the Franks in 768, and for approximately 46 years afterwards, he engaged in a brutal conquest of Europe, including the campaign against the moorish people in Spain. No error

You should select: moorish. Moorish is a proper adjective, so it needs to be capitalized.

While both the Black Mountain Poets and the Beat Poets shunned social convention through their experimental art forms, the Black Mountain Poets were affiliated with the Black Mountain College in North Carolina, whereas the Beat Poets were concentrated in California. No error

You should select no error. The sentence contains no errors in grammar or usage.

Situated at the site where the Pacific Ocean meets the San Francisco Bay, the Golden Gate spanned by its now-famous bridge, which was completed in 1937. No error

You should select: spanned. The bridge spans the bay, so the passive verb form (is spanned) is needed in this sentence.

Although epiphytes are plants which used other plants for support, they are not parasitic because they have broad leaves that catch water as it drips through the canopy of the tropical forest. No error

You should select: used. The sentence is describing a scientific principle, so the present simple tense (use) is required.

Theoretically_ bacterial meningitis is far more serious than the viral form of the disease, even though viral meningitis, like any viral disease, can result in an infection for which antibiotics will be ineffective. No error

You should select the empty space. A comma should be placed after the word "theoretically" since this adverb is placed at the beginning of the sentence.

He was desperate to improve his grades before graduation; However, he could not, due to the constant distraction from after-school activities, see any academic progress. No error

You should select the semicolon. The word "however" forms a new sentence because it is capitalized, so a period needs to be used here, instead of the semicolon.

It is possible to predict when lightening will occur because sparks between clouds and the ground are accompanied by light before they are seen as lightening. No error

You should select: no error. The sentence contains no errors in grammar or usage.

Because it evaluates a horse's ability to execute defined movements, the equestrian disciplines of showjumping and dressage are set in a confined area with everything required for the events in place. No error

Answer 20 You should select: it evaluates. The subject of the sentence is "disciplines," which is plural, so the clause should use the plural form "they evaluate."

Rewrite each sentence provided by following the directions given for the formation of the new sentence. Remember that your new sentence should be grammatically correct and convey the same meaning as the original sentence.

You will succeed at college if you work hard. Rewrite, beginning with: Provided The next words will be

She is a good teacher because she is kind and patient. Rewrite, beginning with: Kind and patient Your new sentence will include

The correct answer is B. The phrase "kind and patient" modifies the word "teacher." Therefore, your new sentence will be: Kind and patient, she is a good teacher.

Apart from being rude, she is also stingy. Rewrite, beginning with: Besides The next words will be

The correct answer is A. The new sentence is constructed as follows: Besides being rude, she is also stingy. In sentences like this, you can just replace the phrase "apart from" with the word "besides."

The teacher became upset because the student was insolent. Rewrite, beginning with: Because of

The next words will be: A. being upset

More and more teenagers are developing type II diabetes. Rewrite, beginning with: Increasing The next words will be

The correct answer is C. The new sentence is: Increasing numbers of teenagers are developing type II diabetes. The word "increasing" needs to be followed by "numbers" or "amounts." We need to use "numbers" here because "teenagers" is a plural countable noun ending in s.
