By combining all his research and ideas on what makes an effective presentation, Eric Fitzpatrick has compiled the 'Presentation Scorecard', which itemises all the things that a speaker needs to consider when making a presentation. He has summed up the key points with the acronym 'TRUE': the presentation should make your audience THINK, should be easy to REMEMBER and UNDERSTAND and should ENGAGE the audience. He outlines all the traps and pitfalls of making a presentation and how to avoid them, and details the tricks and techniques that will attract your audience's attention and convince them of your message. In straightforward chapters he addresses preparation, the structure of your presentation, the use of stories and humour, delivering the presentation, how to use slides and – more importantly – how not to. While the ideas in the book are focused on presentations, they are equally effective when giving speeches, pitching ideas, for one-to-one meetings and communicating in general.

## Persuade on Purpose:

The Challenge We are going to present (and prove) a number of concepts in this study that are new and even revolutionary to the student of speaking in new tongues. Among these concepts are: • All men have (passively) spoken in tongues from birth, even before they spoke in their native tongue. This includes non-Christians. • Speaking in tongues is a natural and normal thing to do. • People were (actively) speaking in tongues hundreds of years before Christ was born. • New tongues are not real languages

and cannot be understood by any man. They can be understood by God because of His power. • The believers in Acts Chapter Two were not speaking in new tongues. • Jesus spoke in new tongues. • By speaking in new tongues one can commune with God, heal the sick, and raise the dead. • You can learn to (actively) speak in new tongues, and do it at will. • Speaking in new tongues is for all intents and purposes gibberish. It is gibberish that only God (by His supernatural power) can understand. • A spiritual thing is not necessarily a supernatural thing. • Speaking in new tongues is a “merely spiritual” manifestation as opposed to a supernatural manifestation. • Speaking in new tongues is not “diversities of tongues”. • “Diversities of tongues” is both a spiritual manifestation and a supernatural manifestation. • Speaking in tongues is a co-operative effort between the spirit and the soul. Numbers. It is estimated that: • 600 million humans believe in the practice of speaking in tongues. • As of April 2006, 500 million humans practice speaking in tongues. • The number of those speaking in tongues has increased 168 million since 1988. • Denominations that promote speaking in tongues add 20 million converts to their pews each year. • 100 million Catholics identify with the Charismatic movement and speaking tongues. • If these statistics are true and continue. By 2025 there could be over 1.14 billion believers who practice speaking in tongues.

In this debut poetry collection by an award-winning fiction writer, the longing for God and the poignancy of family life echo each other's music. The traditional forms of sonnet, sestina, and villanelle punctuate more modern verse forms, this combination being only one of the strands binding past and present. Many of these poems may be read as confessions—of joy, of hurtfulness given or received, of awe at the inescapable reality of love. This volume comprises spiritual writing that remains firmly of this world, part apostasy, part song, reaching out for meaning from both the shifting landscape of Maryland's Chesapeake Bay and the interior places of the heart.
