ANNOTATION: In Discovering Lewis and Clark from the Air, aerial photographer Jim Wark and Lewis and Clark scholar Joseph A. Mussulman offer a fascinating new perspective on the Corps' historic journey. From Monticello in the east to Fort Clatsop on the Pacific coast, the wild continent the expedition crossed is revealed anew in breathtaking full-color photographs. Well-researched text accompanies each photo, including quotes from the explorers' journals. The view from above provides new information about the Corps' experience and stirs fresh wonder at their achievement.

Starbucks, Microsoft, Amazon.com, World Trade Organisation, grunge music - all concepts that have now become synonymous with Seattle. Selling Seattle: Representing Contemporary Urban America is the first book to examine the impact of Seattle on contemporary culture and to account for the city's rapid rise to fame and influence since the early 1990s. Interdisciplinary in approach - broaching current

debates from urban geography and interrogations of economic and cultural globalisation to cinema and media studies - this volume looks closely at the city's representation on film and television as well as in journalism and literature, and also considers the ways in which famous Seattle brands such as Microsoft, Starbucks and grunge worked to establish the city as a symbol of urban desire and fantasy in recent years. *Selling Seattle* is required reading for anyone who seeks to understand the contemporary American city, and the powerful trends that shape the urban landscape and its place in the popular imagination.

Michigan is a state filled with opportunities -- from industrial to agricultural, from recreational to cultural. From Ann Arbor's vibrant research university to the thirty-two hundred miles of shimmering Great Lakes shoreline, from vast, vibrant forests of the Upper Peninsula and its pristine lakes and woods to the dramatic skyline of Detroit, rising above the Detroit River, Michigan provides a constant visual feast for both residents and visitors alike. In more than one hundred gorgeous color photographs, every corner of the state is captured: the ever-changing Sleeping Bear Dunes and the rugged majesty of Pictured Rocks as well as many popular and diverse ethnic festivals, including the world-famous Tulip Festival in Holland. Here are the lumber and auto industries, the vineyards and farmlands, the bluffs and springs, and the remarkable waterways that make Michigan so magnificently distinct.
