Our Little Czecho-Slovak Cousin

Unlike some other reproductions of classic texts (1) We have not used OCR(Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.

Our Little Czecho-Slovak Cousin

Our Little Finnish Cousin is a story by Clara Vostrovsky Winlow, where the protagonists can be said to Finnish culture, animals, cold winter weather and hot saunas where the Finns repose from hard days of work.

Our Little Czecho-Slovak Cousin

Czech American Timeline chronicles important events bearing on Czech-American history, from the earliest known entry of a Czech on American soil to date. This comprehensive chronology depicts the dazzling epic history of Czech colonists, settlers, as well as early visitors, and their descendants, starting in 1519, with Hernn Corts soldier Johann Berger in Mexico, and in 1528, the Jchymov miners in Haiti, through the escapades of Bohemian Jesuits in Latin America in the 17th and 18th centuries, the Bohemian and Moravian pioneer settlers in New Amsterdam (New York) in the 17th century and the extraordinary mission work of Moravian Brethren in the 18th century, to the mass migration of Czechs from the Habsburg Empire in the second half of the 19th and the early part of the 20th centuries and the contemporary exodus of Czechs from Nazism and Communism. Historically, this is the first serious undertaking of its kind. This is an invaluable reference to all researchers and students of Czech-American history, as well as to professionals and amateurs of Czech-American genealogy, and to individuals interested in immigration and cultural history, in general.

Our Little Slavic Cousins

Our Little Roumanian Cousin is a novella by Clara Vostrovsky Winlow. Winlow was an author known for weaving wholesome stories where a country or site with its cultural traditions formed a backbone for the story. Excerpt: "The farm-house at which they were staying looked attractive in its cleanliness. It had been recently whitewashed and the doors and window frames painted a bright blue. It was built entirely of timber. The roof consisted of thin strips of wood laid closely row upon row. Near the house were some fruit-trees and lilac bushes and a small flower garden in which basil and gilliflowers, so often mentioned in Roumanian folk songs, were conspicuous."

Our Little Cossack Cousin

Even though there exist only a few general studies on the subject of Czechoslovak American women, this is not, at all, a reflection of the paucity of work done by these women, as this publication demonstrates. This monograph is a compendium of notable American women with Czechoslovak roots, who distinguished themselves in a particular field or area, from the time they first immigrated to America to date. Included are, not only individuals born on the territory of former Czechoslovakia, but also their descendants. This project has been approached strictly geographically, irrespective of the language or ethnicity. Because of the lack of bibliographical information, most of the monograph comprises biobibliographical information, in which area a plethora of information exists. As the reader will discover, these women have been involved, practically, in every field of human endeavor, in numbers that surprise. On the whole, they have been noted for their independent spirit and nonconforming role.

Czech American Timeline

As pointed out in my last two publications, no comprehensive study has been undertaken about the American Learned Men and Women with Czechoslovak roots. The aim of this work is to correct this glaring deficiency, with the focus on immigration from the period of mass migration and beyond, irrespective whether they were born in their European ancestral homes or whether they have descended from them. Whereas in the two mentioned monographs, the emphasis has been on scholars and social and natural scientists; and men and women in medicine, applied sciences and engineering, respectively, the present compendium deals with notable Americans of Czechoslovak ancestry in arts and letters, and in education. With respect to women, although most professional fields were closed to them through much of the nineteenth century, the area of arts and letters was opened to them, as noted earlier and as this compendium authenticates.

Our Little Roumanian Cousin

Many of the fairies and spirits mentioned within this book come from regions where information on the fairies isn't readily available in English elsewhere. A few of these include; Mari-El – In the heart of an ancient forest which was so vast and isolated it allowed the people within to remain the last pagans in Europe. For the people of this land never converted to Islam or Christianity, and so to this day they still value the spirits of the forest. Their woodlands are filled with a dizzying array of spirits, from bathhouse spirits that appear as shooting stars to spirits which always run and move backwards. Brittany – One of the last remaining Celtic kingdoms, where many traditional Celtic ideas survived. Yet despite how popular Celtic beliefs are there isn't a lot of information or stories on these fairies available in English. Northern Italy and Austria – Wedged high in the mountains the tiny villages that dot this land were often the slowest to change, retaining ideas about the spirit world from a past long forgotten to most of us. Not so long ago there were still some people who would answer the shamans call, sending their soul out at night to join the kindly spirits in a battle against the darkness. Other people's will include, the Komi, Irish, English, Scottish, Welsh, German, the Scandinavian Countries, the Selkup, the Yakut, and many many more. Indeed there will be well over a thousand different fairies in this book, most of which you'll likely never have heard of.

Our Little Finnish Cousin

Like a word stuck on the tip of your tongue that you can't quite remember, fairy tales aggravate us with deeper meanings we're almost certain we know, but can't quite recall. For just enough of the old fairy faiths survive within them to tantalize us with their forgotten mysteries; teasing us with a hidden past filled with dark guardians to the underworld, bright and beautiful fairies, and long winters nights people feared would never end. There is still a mysterious heart to fairy tales, giving us a peek into a primal world, beckoning us to recall old traditions. This book will seek to explore these old traditions, to answer questions about the hidden origins of fairy tales. "From Celtic Fairies to Romanian Vampires," this book will take you on a journey to understand fairy tales which are likely far stranger and more beautiful than you ever imagined.

Notable American Women with Czechoslovak Roots

As the Czech ambassador to the United States, H. E. Petr Gandalovic noted in his foreword to this book that Mla Rechcgl has written a monumental work representing a culmination of his life achievement as a historian of Czech America. The Encyclopedia of Bohemian and Czech American Biography is a unique and unparalleled publication. The enormity of this undertaking is reflected in the fact that it covers a universe, starting a few decades after the discovery of the New World, through the escapades and significant contributions of Bohemian Jesuits and Moravian brethren in the seventeenth and eighteenth centuries, the mass migration of the Czechs after the revolutionary year of 1848, and up to the early years of the twentieth century and the influx of refugees from Nazism and communism. The encyclopedia has been planned as a representative, a comprehensive and authoritative reference tool, encompassing over 7,500 biographies. This prodigious and unparalleled encyclopedic vade mecum, reflecting enduring contributions of notable Americans with Czech roots, is not only an invaluable tool for all researchers and students of Czech American history but is also a carte blanche for the Czech Republic, which considers Czech Americans as their own and as a part of its magnificent cultural history.

Notable Americans of Czechoslovak Ancestry in Arts and Letters and in Education

"Covering the United States and Canada [with their possessions and neighbors] and containing the biographical and literary data of living authors whose birth or activities connect them with the continent of North America, with a press section devoted to journalists and magazine writers" (varies slightly).

Our Little Mongolian Cousin

Clara Vostrovsky Winlow (1876-after 1950) was an American author. Her works include: Barbora: Our Little Bohemian Cousin (1911), Our Little Servian Cousin (1913), Our Little Carthaginian Cousin of Long Ago (1915) Our Little Finnish Cousin (1918) and Our Little Yugoslav Cousin (1923).
