The Unforgiven

In 1961, when Don Revie became manager of Leeds United, they were a struggling Second Division club. By 1974 they had won two League Championships, the Inter-Cities Fairs Cup (twice), the FA Cup and the League Cup; players like Jack Charlton and Billy Bremner were household names. Yet this was a team that inspired neither admiration nor grudging respect, but rather a deep and visceral loathing – matched only by the bellicose devotion of their own supporters. The undeniable artistry of players like striker Allan Clarke was overshadowed by a ruthless professionalism, epitomised in the scything tackles of Norman Hunter. Still, when Revie's Leeds United side were let off the leash – the 7-0 humiliation of Southampton is enshrined in Match of the Day mythology – their brilliance was compelling. At the heart of their outlaw status was the eccentric personality of Don Revie himself. Clad in his lucky blue suit, a man for whom team-building meant rounds of carpet bowls, here reigned less a football manager than, in his own estimation, the 'head of the family'. The aftermath of the Revie era is explored, including Brian Clough's infamous 44 days at the helm of the 'Damned United'. The Unforgiven is the definitive history of the most defiantly unconventional team in British football.

71/72

There was a season when the world's greatest footballers were all on show at British grounds. Best, Keegan, Charlton and Moore were joined by Pele, Cruyff, Beckenbauer and Eusebio, while in the dugouts Clough, Shankly, Revie and Allison duked it out in the closest ever championship title race. That season was 1971/72. As Enoch Powell's rhetoric roared and American Pie topped the pop charts, Britain's footballing culture was simpler purer than the one we know today, with the game played for the public, not for TV companies. It was a time when players shared pints with fans, Topps football cards were schoolyard currency, Roy Race ruled the comic world and videoprinters saw footy devotees hold their collective breath every weekend. As well as covering the superstars, 71/72 is a treasure trove of tales of lesserknown names who added to that extraordinary season. Read about the Aldo Poy goal

that is still celebrated today, Toni Fritsch revolutionising the NFL, cricketering footballers and the OAP ball boy who rowed the River Severn.

The Biography of Leeds United

A warmly written history of Yorkshire's biggest football club! In *The Biography of Leeds United*, Telegraph journalist and lifelong fan Rob Bagchi writes the story of this famous club and chronicles a century of history that will educate, entertain and inform both old and new supporters. Packed with fresh stories about and from former players, managers and the money men, as well as the fans, the book is an affectionate and insightful portrait of a football club like no other. Leeds United were founded in 1919 to revive professional football in Yorkshire's biggest city following the expulsion of their fragile and bungling predecessors, Leeds City. A century on from their formation, a club that makes a virtue out of its many ups and downs in its own anthem, has endured a turbulent existence of crushing disappointment and conflict tempered by extraordinary, often mercurial, success. When United mark their centenary in October 2019, vivid recollections of their greatest days, the three league championships, FA Cup, League Cup and floodlit memories of nights of European glory will be celebrated throughout the vast fanbase. Elland Road icons John Charles, Billy Bremner, Jack Charlton, Peter Lorimer, Norman Hunter, Eddie Gray, Tony Currie, John Sheridan, Gordon Strachan, David Batty, Eric Cantona, Gary Speed and Lucas Radebe played for teams that were both revered and reviled, contributing to the club's fame throughout the world. Don Revie's team of the Sixties and Seventies propelled the club and city to unprecedented heights. But when they reached the top, they failed to plan and there was nowhere to go but down. The theme of the past five decades has been the struggle to get back, a story of great adventures, fleeting splendour, relegation and defiant, hard battles against authority, owners and self-sabotage.

Don Revie: The Biography

This is the definitive story of Don Revie, a player and manager who singlehandedly changed the face of English football but left behind a legacy shrouded in allegations of corruption and dishonesty. Whenever the greatest managers the game has ever produced are mentioned, names like Busby, Shankly, Paisley and Ferguson always trip off the tongue. Despite dominating the game in the late 1960s and 70s, there is clearly one name missing, the former Leeds United and England manager Don Revie. Don Revie was one of the most complex and controversial men ever to grace the game of football. As a player he was crowned footballer of the year and credited with creating the modern center-forward. As a manager, he took a Leeds United side languishing in the lower half of the second division and turned them, not only into league champions, but one of the most dominant sides in the country. In 1974, as Sir Alf Ramsay ran out of time as England manager, it was to Revie, that the Football Association turned. With England, Revie lost the magic touch he had at Leeds and became increasingly indecisive. Having failed to qualify for the European Championships in 1976 and on the brink of going out in the qualifying stages of the 1978 World Cup, Revie feared the sack. After negotiating a big money contract with United Arab Emirates Revie became the first man to walk out on the England job. Then came the backlash. Branded a traitor and banned from the game for 10 years, the press declared open season on Revie. Accused of offering bribes to throw matches, Revie's reputation was destroyed. Shunned by the football establishment, when he died just 12 years after walking out on England the FA did not even send a representative to his funeral. His death robbed him of the opportunity ever to rebuild his reputation as one of the most important figures ever seen in English football. The life and times of this multifaceted, enigmatic, pioneering football man, have still never been fully explored and explained in detail before. Based on exclusive interviews, this is the first biography to examine in depth the secrets of Revie's life. The book also reveal how today's football owes so much to Don Revie, in order to redeem the reputation of Don Revie for the first time ever, so that he can finally take his rightful place among the greats of the game.

We Are the Damned United

Brian Clough's forty-four-day tenure as manager of Leeds United in 1974 is one of the most infamous episodes in British football history. While the bestselling *The Damned United* was a fictional account of Clough's short-lived but controversial reign at the club, *We Are the Damned United* reveals the true story, as told by the players he managed at the time. It includes candid contributions from legendary names such as Peter Lorimer, Eddie Gray and Terry Yorath, who reveal what it was like to make the transition from the relatively smooth management style of Don Revie to a constant crossing of swords

with the outspoken Clough, who left the club flailing at the foot of the league upon his premature departure. *We Are the Damned United* tells it how it really was rather than how it might have been.

Don Revie

Don Revie was the football man about whom few were neutral. The Leeds United team he created was possibly the finest in the history of English league football, one of legendary endurance, its characters strong and unyielding. Yet it remained unpopular, for many felt its voracious pursuit of honours was hallmarked by cynicism and ruthlessness. This fascinating study of Revie, one of English football's most complex and controversial figures, examines the factors and influences that moulded him. In interviews with team-mates, the footballers he managed and others who worked alongside him, Andrew Mourant reflects on the many seemingly paradoxical aspects of Revie's nature. After depicting Revie's childhood living on the breadline in Middlesbrough, from which the game was his great escape, Mourant traces his development through playing days with five league clubs to management of Leeds United, England and beyond. He also considers the legacy Revie left Leeds: a craving for a return to the days of glory and triumph he engineered. It is a turbulent story of success and failure. The tragic nature of Revie's untimely death in 1989 through motor neurone disease served only to sharpen memories of his achievements. He continues to cast a shadow over Elland Road and remains the yardstick against whom all successors are judged. Amid the triumphs, near misses and traumas, his reign brought Leeds United an era of unparalleled prosperity and stability. The story of Revie's career is one of intense dedication, willpower and pursuit of the near impossible. For some it was an inspiration; while for others its darker elements tainted the success he brought to Elland Road and all he strove to achieve for England.

Leeds United: A History

The complete and definitive history of the Whites.

Dirty Leeds

There will never be another story like that of Leeds United Football Club in the 1960s. Out of grime and obscurity came Don Revie and Harry Reynolds, two self-made northerners and their handcrafted club, and this is their story, from their perspective. Revie's Leeds were like Marmite, loved by the faithful, reviled by the rest, forever branded Dirty Leeds for their uncompromising approach. Within five years, Leeds had been champions once, runners-up twice, FA Cup finalists once, semi-finalists twice and raised the League and Fairs Cups but are characterised as the ultimate example of serial bottlers. The partnership of Revie and Reynolds was made in heaven. Revie couldn't have succeeded at another club or without Reynolds - they transformed a dreary football club into an industrial giant, but never forgot the little people. The story of Revie, Reynolds and Dirty Leeds is truly unique. This is Dave Tomlinson's fourth book about Leeds United.

Jack and Bobby

The history of modern British football can largely be written through the stories of Jack and Bobby Charlton. Both were in the World Cup winning team of '66, and each has remained deeply involved in the game ever since. The book traces the parallel lives of Jack and Bobby Charlton, following them from their schooldays through to the present day. The brothers both played prominent roles in the finest hour of English football, the 1966 World Cup triumph. Each played for the dominant club of their era, and summed up the style of their respective teams. Bobby was at Manchester Utd during their glory days under Sir Matt Busby. He survived the Munich air crash and went on to become a fast, graceful attacker who set grounds alight with his power, speed and athleticism in a team that played free-flowing, attacking football. Jack came to professional football late, working in a coal mine before Leeds signed him. Don Revie's Leeds side was renowned for its uncompromising and physical style, and Jack was himself a tough, durable and aggressive defender, who once caused uproar by admitting he had a 'black book' with a list of footballing enemies who he would target on the pitch. The two retired from football in the same year, and since, the contrast between them has been marked. Bobby's forays into management at Wigan and Preston were distinguished only by their brevity, while 'Big Jack' took the Republic of Ireland team to an unprecedented level of success, reaching the quarter finals of the World Cup in 1994. Bobby has been a key figure in the ongoing success of Manchester United over the past decade, working on recruiting players and as an FA diplomat. But, despite their continued successes, the relationship between the two has been strained, sometimes barely even polite, and the

book will investigate the reasons for this, including in-depth interviews with many of those the two have been in contact with over the years.

Disrepute

An insightful account of the rise of Leeds United under Don Revie. Using explosively revealing and previously unpublished material written by the man himself, 'DisRepute' is the true fictionalised account of Revie's England.

Dirty Leeds

This is the story of Leeds United Football Club in the 1960s and how they were brought to prominence by Don Revie and Harry Reynolds, two self-made northerners. This is their story, from their perspective.

Revie

Don Revie remains one of football's most controversial and complex characters. Through the eyes of those who knew him best, family, friends, team-mates, players, colleagues and even a member of the royal family, this title tells how a child born in Middlesbrough in the depression-hit 1920s rose to the very top as both a player and manager.

Service Crew

Paris, 1975; Chelsea, 1984; Birmingham, 1985; Bradford, 1986; Bournemouth, 1990. Many of the most shocking incidents in British football history have involved the hooligan followers of one club: Leeds United. For 40 years they have run riot across the country, punching their way to international notoriety, yet they have remained the most secretive of all mobs. Journalist Caroline Gall spent two years interviewing participants from several generations to piece together the first ever history of the gangs, from the Shipley Skins to the youths of the present day. The apex of this hooligan army was the Service Crew, who adopted their name from the service trains they used instead of the heavily policed 'specials'. They emerged as the casual era dawned and, against the violent backdrop of the Miners' Strike, quickly became feared by their terrace foes. The police eventually launched Operation Wild Boar to take down the ringleaders, only to convict a small number of relative fringe players. Service Crew examines racism at Leeds, chronicles some of the worst incidents of football-related disorder in modern times, and charts the effects of drugs and the rave scene on the hooligans. It is the definitive story of football's most vilified fans.

Those Barren Leaves

Those Barren Leaves is a satirical novel by Aldous Huxley, published in 1925. The title is derived from the poem 'The Tables Turned' by William Wordsworth which ends with the words: Enough of Science and of Art; Close up those barren leaves; Come forth, and bring with you a heart That watches and receives. Stripping the pretensions of those who claim a spot among the cultural elite, it is the story of Mrs. Aldwinkle and her entourage, who are gathered in an Italian palace to relive the glories of the Renaissance. For all their supposed sophistication, they are nothing but sad and superficial individuals in the final analysis.

Promised Land

This is a book about football. It's about unconditional love for a club, even when it doesn't always seem to love you back. But it is also a book about much more than that. Anthony Clavane loves Leeds - certainly the football club, but also the city, and the tribes that make it. Now that he is an exile in the South, his frequent pilgrimages to the stadium speak for themselves. But he no less loves the rarely-glimpsed back-streets of his youth; and even has a feel for the long-gone slums where his ancestors once settled.

Leeds is his promised land; idealised and unreachable, yet still it defines him. 'Sports writing at its very best' Daily Telegraph

As Alan Rosenthal states in the preface to this new edition of his acclaimed resource for filmmakers, *Writing, Directing, and Producing Documentary Films and Videos* is "a book about storytelling—how to tell great and moving stories about fascinating people, whether they be villains or heroes." In response to technological advances and the growth of the documentary hybrid in the past five years, Rosenthal reconsiders how one approaches documentary filmmaking in the twenty-first century. Simply and clearly, he explains how to tackle day-to-day problems, from initial concept through distribution. He demonstrates his ideas throughout the book with examples from key filmmakers' work. New aspects of this fourth edition include a vital new chapter titled "Making Your First Film," and a considerable enlargement of the section for producers, "Staying Alive," which includes an extensive discussion of financing, marketing, festivals, and distribution. This new edition offers a revised chapter on nonlinear editing, more examples of precise and exacting proposals, and the addition of a complex budget example with explanation of the budgeting process. Discussion of documentary hybrids, with suggestions for mastering changes and challenges, has also been expanded, while the "Family Films" chapter includes updated information that addresses rapid expansion in this genre.

The Leeds United Story

This cutting-edge collection of articles provides the first organised reflection on the language of films and television series across British, American and Italian cultures. The volume suggests new directions for research and applications, and offers a variety of methodologies and perspectives on the complexities of "telecinematic" discourse – a hitherto virtually unexplored area of investigation in linguistics. The papers share a common vision of the big and small screen: the belief that the discourses of film and television offer a re-presentation of our world. As such, telecinematic texts reorganise and recreate language (together with time and space) in their own way and with respect to specific socio-cultural conventions and media logic. The volume provides a multifaceted, yet coherent insight into the diegetic – as it revolves around narrative – as opposed to mimetic – as referring to other non-narrative and non-fictional genres – discourses of fictional media. The collection will be of interest to researchers, tutors and students in pragmatics, stylistics, discourse analysis, corpus linguistics, communication studies and related fields.
