The Columbia Guide to American Indians of the Southwest

A major work on the history and culture of Southwest Indians, The Columbia Guide to American Indians of the Southwest tells a remarkable story of cultural continuity in the face of migration,

displacement, violence, and loss. The Native peoples of the American Southwest are a unique group, for while the arrival of Europeans forced many Native Americans to leave their land behind, those who lived in the Southwest held their ground. Many still reside in their ancestral homes, and their oral histories, social practices, and material artifacts provide revelatory insight into the history of the region and the country as a whole. Trudy Griffin-Pierce incorporates her lifelong passion for the people of the Southwest, especially the Navajo, into an absorbing narrative of pre- and postcontact Native experiences. She finds that, even though the policies of the U.S. government were meant to promote assimilation, Native peoples formed their own response to outside pressures, choosing to adapt rather than submit to external change. Griffin-Pierce provides a chronology of instances that have shaped present-day conditions in the region, as well as an extensive glossary of significant people, places, and events. Setting a precedent for ethical scholarship, she describes different methods for researching the Southwest and cites sources for further archaeological and comparative study. Completing the volume is a selection of key primary documents, literary works, films, Internet resources, and contact information for each Native community, enabling a more thorough investigation into specific tribes and nations. The Columbia Guides to American Indian History and Culture also include: The Columbia Guide to American Indians of the Great Plains Loretta Fowler The Columbia Guide to American Indians of the Northeast Kathleen J. Bragdon The Columbia Guide to American Indians of the Southeast Theda Perdue and Michael D. Green

The Indians of the Southwest

This focuses on the history, costume, and material culture of the native peoples of North America. It was in the Southwest – modern Arizona, New Mexico, and parts of California and other neighboring states – that the first major clashes took place between 16th-century Spanish conquistadors and the indigenous peoples of North America. This history of contact, conflict, and coexistence with first the Spanish, then their Mexican settlers, and finally the Americans, gives a special flavor to the region. Despite nearly 500 years of white settlement and pressure, the traditional cultures of the peoples of the Southwest survive today more strongly than in any other region. The best-known clashes between the whites and the Indians of this region are the series of Apache wars, particularly between the early 1860s and the late 1880s. However, there were other important regional campaigns over the centuries – for example, Coronado's battle against the Zuni at Hawikuh in 1540, during his search for the legendary “Seven Cities of Cibola”; the Pueblo Revolt of 1680; and the Taos Revolt of 1847 – and warriors of all of these are described and illustrated in this book.

Projects about American Indians of the Southwest

On Indian Ground: The Southwest is one of ten regionally focused texts that explores American Indian/Alaska Native/Native Hawaiian education in depth. The text is designed to be used by educators of native youth and emphasizes best practices found throughout the state. Previous texts on American Indian education make wide-ranging general assumptions that all American Indians are alike. This series promotes specific interventions and relies on native ways of knowing to highlight place-based educational practices. On Indian Ground: The Southwest looks at the history of Indian education within the southwestern states. The authors also analyze education policy and tribal education departments to highlight early childhood education, gifted and talented educational practice, parental involvement, language revitalization, counseling, and research. These chapters expose cross-cutting themes of sustainability, historical bias, economic development, health and wellness, and cultural competence. The intended audience for this publication is primarily those educators who have American Indian/Alaska Native/Native Hawaiian students in their educational institutions. The articles range from early childhood and head start practices to higher education, including urban, rural and reservation schooling practices. A secondary audience: American Indian education researcher.

Southwest Indians

When Spanish explorers came to the Southwest region of the United States in the 1600s, they found over 20,000 American Indians already living in the region. These American Indians were part of many different nations. They had their own languages and cultures, and they had developed ways to survive in the desert landscape. • Pueblo people lived in permanent villages made of adobe brick. • The Hopi had fifty different ways to cook and eat corn. • The Navajo created colorful pictures from sand, cornmeal, and pollen. Many American Indians still live in the Southwest. They make traditional jewelry, use their native languages, and run tourism programs at the Grand Canyon. Find out more about the history and culture of the native peoples of the Southwest.

Cycles of Conquest

"Traditions that began ten thousand years ago have survived and remain vital in the lives of the descendants of these ancient people. People of Legend surveys the terrain inhabited by each of six principal tribal groups, relates their creation myths and the history of their conquest, and presents a portfolio of 87 stunning photographs of the landscapes and peoples in the heartland of Native America."

"In southeastern Arizona, Annerino visits the Apache to photograph a coming-of-age ceremony in which a young girl is identified with White Shell Woman, the guardian spirit who watches over the tribe and protects its future. In the Sonoran desert of southwestern Arizona, an old Papago man points out ancient petroglyphs, familiar to him, uninterpretable to the anthropologist today. The Sierra Madre Mountains of northern Mexico are home to the Mountain Pima, where Indian men, their faces painted white, welcome the American photographer into their sacred ritual." "Further on the journey, a Hualapai guide takes Annerino down the Colorado, a trip the man's ancestors have taken for a thousand years. In the mesa country of northern Arizona, a Navajo elder reminisces about working for Army Intelligence during World War II. This cultural odyssey ends in the redrock country of New Mexico, home to Pueblo peoples such as the Zuni, Keresan, and Tewa, and the site of the largest traditional Gathering of Nations in the Southwest."--BOOK JACKET.
