

The Global Politics Of The Environment

[#global environmental politics](#) [#international environmental policy](#) [#climate change governance](#) [#environmental diplomacy](#) [#geopolitics of environment](#)

This domain explores the intricate interplay between global political structures, national interests, and environmental challenges. It delves into how states, international organizations, and non-state actors negotiate, conflict, and cooperate on issues like climate change, biodiversity loss, and resource management, shaping the future of our planet through policy and power dynamics.

Readers can explore journal papers covering science, technology, arts, and social studies.
