Elementi di organizzazione internazionale

Il volume analizza la fattispecie della complicità di Stati nell'illecito internazionale, regolata dall'art. 16 del Progetto di articoli sulla responsabilità internazionale degli Stati e dall'art. 58 del Progetto di articoli sulla responsabilità delle organizzazioni internazionali. Il lavoro è suddiviso in due parti: nella prima, si svolge un esame in merito allo status consuetudinario della norma e, soprattutto, una accurata indagine in ordine agli elementi della fattispecie illecita in considerazione. Viene ricostruito, inoltre, il quadro delle conseguenze giuridiche della complicità. La seconda parte è dedicata alla complicità di Stati nell'illecito di organizzazioni internazionali. In questa sede si analizza, in primo luogo, la partecipazione statale all'illecito derivante da un atto normativo contrario agli obblighi internazionali dell'organizzazione internazionale che lo adotta. In secondo luogo, si esaminano i profili di complicità degli Stati nell'illecito commesso da organizzazioni internazionali nel corso di missioni di peace-keeping.

Elementi di diritto dell'organizzazione internazionale

Manuale di diritto comunitario.

Le organizzazioni internazionali come strumenti di governo multilaterale

In Non-Governmental Interests in Regional Organizations: The Role of Parliamentary, Socio-Economic and Territorial Institutions, Elisa Tino aims at analysing the unexplored phenomenon of institutional multipolarism of regional organizations, namely the trend to establish institutions representing non-governmental interests.

Il diritto delle organizzazioni internazionali. Parte speciale

Questa raccolta di saggi è stata concepita e realizzata da un gruppo di allievi di Umberto Gori, eminente rappresentante della prima generazione di studiosi di Relazioni internazionali in Italia, costantemente impegnato su molteplici fronti di ricerca – dalle organizzazioni internazionali alla teoria delle relazioni internazionali, dagli studi strategici all'analisi previsionale. Si è voluto dunque rendere onore alla sua brillante carriera raccogliendo gli scritti di quei suoi allievi che, a loro volta, si sono dedicati alla ricerca e all'insegnamento e che riconoscono un debito intellettuale nei suoi confronti. Il volume è organizzato attorno a tre temi generali, attinenti agli interessi di Gori: il sistema internazionale nella sua duplice

articolazione tra competizione e collaborazione; la politica estera e la governance regionale; l'ordine internazionale contemporaneo.

Lezioni di organizzazione internazionale

International Organizations (IOs) are a most striking phenomenon in contemporary international law. Many complex issues have arisen since the emergence of these organizations due, in part, to their increasing prevalence, ever-changing nature, and nuanced diversity. This volume aims to explore new solutions to some of these issues and focuses specifically on problems derived from recent legal developments in IO praxis.
