The Laskin Legacy

A collection of scholarly articles and personal reminiscences which examine the life and career of the late Bora Laskin, Former Chief Justice of the Supreme Court of Canada. It examines Laskin's contribution to legal education and scholarship; to jurisprudence in constitutional, administrative, labour, and private law; and to the Court itself.

My Life in Crime and Other Academic Adventures

Since his call to the Bar in 1960, Martin L. Friedland has been involved in a number of important public policy issues, including bail, legal aid, gun control, securities regulation, access to the law, judicial independence and accountability, and national security. *My Life in Crime and other Academic Adventures* offers a first-hand account of the development of these areas of law from the perspective of a man who was heavily involved in their formation and implementation. It is also the story of a distinguished academic, author, and former dean of law at the University of Toronto. Moving beyond the boundaries of conventional memoir, Friedland offers an extended meditation on public policy issues and significant events in the field of law, discussing their historical impact and predicting the course of their future development. Given his personal experience, there is no other person more suited to discuss these hugely important issues. Friedland puts the law and legal institutions into a wider context, looking at the role of personalities, politics, and pressure groups in the establishment of laws that continue to have tremendous importance for Canadians. *My Life in Crime and other Academic Adventures* reflects upon a life devoted to education, scholarship, and the law, and is an insider account of public policy issues that have come to shape life in this country in the twentieth century and beyond.

The Dickson Legacy

A commemoration of two significant dates, *The Supreme Court of Canada and its Justices* is also a colourful portrait and an indispensable reference book. A bilingual co-publication of Dundurn Press and the Supreme Court of Canada, the book contains biographies, with portraits or photographs, of every Justice appointed to the Court since its inception. *The Supreme Court of Canada and its Justices* also features a preface by Chief Justice Beverley McLachlin and a history of the Court by former Chief Justice Antonio Lamer. A succession list and a selected bibliography are included for researchers. A key section of the book deals with the Court's distinguished building, which was designed by renowned architect Ernest Cormier. Written by Professor Isabelle Gournay of the University of Maryland and France Vanlaethem of the Université du Québec à Montréal, this section is illustrated with Cormier's own watercolours and drawings, as well as current photographs. *The Supreme Court of Canada and its Justices* is a fitting commemoration of the Supreme Court's 125 years and its fiftieth year as the court of last resort in Canada.

The Supreme Court of Canada and its Justices 1875-2000

In any account of twentieth-century Canadian law, Bora Laskin (1912-1984) looms large. Born in northern Ontario to Russian-Jewish immigrant parents, Laskin became a prominent human rights activist, university professor, and labour arbitrator before embarking on his 'accidental career' as a judge on the Ontario Court of Appeal (1965) and later Chief Justice of Canada (1973-1984). Throughout his professional career, he used the law to make Canada a better place for workers, racial and ethnic minorities, and the disadvantaged. As a judge, he sought to make the judiciary more responsive to modern Canadian expectations of justice and fundamental rights. In *Bora Laskin: Bringing Law to Life*, Philip Girard chronicles the life of a man who, at all points of his life, was a fighter for a better Canada: he fought antisemitism, corporate capital, omnipotent university boards, the Law Society of Upper Canada, and his own judicial colleagues in an effort to modernize institutions and re-shape Canadian law. Girard exploits a wealth of previously untapped archival sources to provide, in vivid detail, a critical assessment of a restless man on an important mission.

Historian Frederic Bastien describes how Pierre Elliott Trudeau and Margaret Thatcher entered one of history's most unlikely marriages of convenience in order to repatriate the Canadian Constitution.

The Battle of London

Gerald Le Dain (1924–2007) was appointed to the Supreme Court of Canada in 1984. This collectively written biography traces fifty years of his steady, creative, and conciliatory involvement with military service, the legal academy, legislative reform, university administration, and judicial decision-making. This book assembles contributions from the in-house historian of the law firm where Le Dain first practised, from students and colleagues in the law schools where he taught, from a research associate in his Commission of Inquiry into the non-medical use of drugs, from two of his successors on the Federal Court of Appeal, and from three judicial clerks to Le Dain at the Supreme Court of Canada. Also reproduced here is a transcript of a recent CBC documentary about his 1988 forced resignation from the Supreme Court following a short-term depressive illness, with commentary from Le Dain's

family and co-workers. Gerald Le Dain was a tireless worker and a highly respected judge. In a series of essays that cover the different periods and dimensions of his career, *Tracings of Gerald Le Dain's Life in the Law* is an important and compassionate account of one man's commitment to the law in Canada. Contributors include Harry W. Arthurs, G. Blaine Baker, Bonnie Brown, Rosemary Cairns-Way, John M. Evans, Melvyn Green, Bernard J. Hibbitts, Peter W. Hogg, Richard A. Janda, C. Ian Kyer, Andree Lajoie, Gerald E. Le Dain, Allen M. Linden, Roderick A. Macdonald, Louise Rolland, and Stephen A. Scott.

The IBR, published again since 1971 as an interdisciplinary, international bibliography of reviews, it is a unique source of bibliographical information. The database contains entries on over 1.2 million book reviews of literature dealing primarily with the humanities and social sciences published in 6,820, mainly European scholarly journals. Reviews of more than 560,000 scholarly works are listed. The database increases every year by 60,000 entries. Cases and Notes on Land Law

The Supreme Court of Canada is always in the news. Whether the issue is Aboriginal fishing rights or the rights of same-sex couples, the Court often makes groundbreaking decisions on controversial topics. This book, a history of the Canadian Supreme Court, explains how the court slowly emerged as the powerful and influential institution it is today. Using 1949 as the year of birth for the modern Supreme Court, Peter McCormick traces the court's development from an institution of relatively minor importance to one that is central to Canadian society. McCormick discusses key cases and looks at the lasting influence of each Chief Justice. *Supreme at Last* is a unique portrait of a political institution whose power is on the rise.

The Honourable Fred Kaufman has been a distinguished figure in Canadian law for a half century. Born into a middle-class Jewish family in mid-1920s Vienna, Kaufman escaped to England on the eve of the Second World War. In 1940, he was interned as an 'enemy alien' and sent to Canada. Released in 1942, Kaufman stayed in Canada where he went on to university and law school in Montreal. Kaufman was called to the Bar of Quebec in 1955 and practiced criminal law for eighteen years, taking part in many of the famous cases of that period. In 1960, he secured the release of a young Pierre Elliott Trudeau from prison, and in 1973, Trudeau returned the favour by personally informing Kaufman of his appointment to the Quebec Court of Appeal, where he served for eighteen years, including one as Acting Chief Justice of Quebec. Since his retirement in 1991, Kaufman has led numerous commissions and inquiries, most notably the investigation into the wrongful conviction of Guy Paul Morin and the two-year reassessment of the Steven Truscott case. *Searching for Justice* is Kaufman's remarkable story in his own words. It is the tale of adversity overcome in a crucial period of Canadian legal history.

Richard Burdon, Viscount Haldane of Cloan, was a philosopher, lawyer, British MP, and member of the British cabinet during the First World War. He is best known to Canadians as a judge of the Judicial Committee of the Privy Council (Canada's highest court of appeal until 1949), in which role he was extremely influential in altering the constitutional relations between the federal Parliament and the provincial legislatures. Chafing under the British North American Act of 1867, which provided for a strong central government, the provincial governments appealed to the judicial Committee and were successful in gaining greater provincial legislative autonomy through the constitutional interpretations of the law lords. In *Viscount Haldane*, Frederick Vaughan concentrates on Haldane's role in these rulings, arguing that his jurisprudence was shaped by his formal study of German philosophy, especially that of G.W.F. Hegel. Vaughan's analysis of Haldane's legal philosophy and its impact on the Canadian constitution concludes that his Hegelian legacy is very much alive in today's Supreme Court of Canada and that it continues to shape the constitution and the lives of Canadians since the adoption of the Canadian Charter of Rights and Freedoms.

Viscount Haldane

As a judge, Beverley McLachlin has had an unequalled impact on Canadian life. She stands out for her unique ability to stand up for the values and beliefs that reflect the best of Canada and Canadians. As chief justice, she led the way to assisted suicide legislation, far greater recognition of aboriginal rights

and title, allowing safe injection sites for drug users and many other changes that have had a dramatic impact on Canadian life. Less well known is her work to modify the way the Supreme Court judges work together to emphasize collegiality and to encourage judges on the court to pay closer attention to real-world information about the issues they are considering. Her courageous action to defend the independence of the court and her own personal integrity when it was attacked by Stephen Harper — an incident discussed and documented fully in this book — underlines her strength of character and integrity. This book sketches Beverley McLachlin's experiences growing up in rural Alberta, attending university, becoming a lawyer and then a judge. At a time when governments were seeking qualified women for senior positions in Canada's courts, she was selected by politicians, both Liberal and Conservative, to fill progressively higher positions. Ian Greene and Peter McCormick focus on her time on the Supreme Court offering readers a balanced, informed perspective on the role she defined for herself, remarkable for her prodigious work and the clarity of her decisions. Their background as leading Canadian writers on the role of the judiciary in Canada allows them to offer an independent and readable appreciation of her contributions to Canadian life.

The High Court, the Constitution and Australian Politics

When Brian Dickson was appointed in 1973, the Supreme Court of Canada was preoccupied with run-of-the-mill disputes. By the time he retired as Chief Justice of Canada in 1990, the Court had become a major national institution, very much in the public eye. The Court's decisions, reforming large areas of private and public law under the Charter of Rights, were the subject of intense public interest and concern. Brian Dickson played a leading role in this transformation. Engaging and incisive, *Brian Dickson: A Judge's Journey* traces Dickson's life from a Depression-era boyhood in Saskatchewan, to the battlefields of Normandy, the boardrooms of corporate Canada and high judicial office, and provides an inside look at the work of the Supreme Court during its most crucial period. Dickson's journey was an important part of the evolution of the Canadian judiciary and of Canada itself. Sharpe and Roach have written an accessible biography of one of Canada's greatest legal figures that provides new insights into the work of Canada's highest court.

The Lubetkin Legacy

Dear Legacy Builder, I always ask the question, "How will I be remembered?" Your legacy will be shaped by how you act and what you pass down to others, whether at work or at home. This includes not only how you treat and inspire others, but also the financial situation in which you leave your family. Live your life in a way that makes you proud, leave for others with fun memories of you, and ensure a secure future for your family. All good men and women must accept responsibility for leaving legacies that will propel the next generation to heights we can only dream of. The first question is, "How will you define your values, worth, and global need in order to leave this world a better place than you found it? " Whatever your response, begin legacy-building today. Tomorrow will be too late. HRH Stephan Prince of Montenegro "Your story is the greatest legacy that you will leave to your friends. it 's longest lasting legacy you will leave to your heirs" - Steve Saint Your Personal Life is your individual legacy. This is important whether you are single or married, and whether or not you have children. Because who you are as an individual influences every other relationship in your life, we must exercise caution here. It all comes from your heart, whether it's your relationship with your spouse, how you interact with your children, how you run your business, how you manage your money, or how you act around your friends. I learned a long time ago that if I wanted to have quality relationships and leave a lasting legacy, I had to master the man in the mirror. He was the only thing preventing me from moving forward. He was the only one who could undo everything God had planned for me. As you work to protect your legacy, the first and most important area to manage is yourself. COUNTESS Ilona Parunakova Maya Angelou once said, "If you're going to live, you should leave a legacy. The Lawmakers

This book is a survey history that traces the evolution of Canadian citizenship and the role played by immigration in the development of Canada until 1977, when the last major amendment to the Citizenship Act was made. It begins with the story of the first great wave of European immigration in the early 1900s and continues by describing the arrival & contributions of successive waves of immigrants, the restrictive immigration acts of the first decade, the settlement of immigrants in the west, the slump in immigration after the First World War, the growth in Canadian nationalism, the Citizenship Act of 1947, the post-war rise in immigration, the liberalization of immigration policy, the admitting of waves of refugees since the 1950s, and the trail-blazing immigration initiatives of the 1970s.

Beverley McLachlin

A compilation of Irving Howe's interviews during the last fifteen years of his life, this book represents what could be viewed as the sequel to Howe's intellectual autobiography, *A Margin of Hope*, which took the story of his life only up to the late 1970s. Many of these interviews were never published and have existed only as personal tapes in the hands of such scholars and activists as Todd Gitlin and Maurice Isserman. Others were originally published in such venues as *The New York Times*, *The Jerusalem Post*, and the PBS documentary *Arguing the World*. Howe never organized his thoughts about the last fifteen years of his life, during which he gained renown for *World of Our Fathers*, received a MacArthur Fellowship, and became widely regarded as the leading left-liberal intellectual in the U.S. and, arguably, the leading literary critic in America following the deaths of Lionel Trilling and Edmund Wilson. During this time, Howe also struggled to redefine the American Left in an environment that discounted and marginalized it. Indeed, these interviews may have particular significance today, a period of new opportunities for the liberal Left, yet one in which it struggles to construct some coherent identity and compelling program. The editors worked with the full cooperation of Howe's family. His daughter, Nina, contributed an afterword and provided a number of illustrations and photos that have never before appeared in print. --Book Jacket.

Insiders and Outsiders celebrates the work of Alan Cairns, one of the most influential Canadian social scientists of the contemporary period. Few scholars have helped shape so many key debates in such a wide range of topics in Canadian politics, from the electoral system and federalism, to constitutional and Charter politics, to questions of Aboriginal citizenship. This volume contains engaging and critical analyses of Cairns' contributions by a diverse group of scholars--political scientists, legal scholars, historians, and policymakers, many of them leaders in their own fields. It includes assessments of his role as a public intellectual, his interpretation of Canada's electoral system, his views on federalism and on Canadian unity, his approach to Aboriginal/non-Aboriginal relations, and his writings on citizenship and diversity. The book will be of particular interest to students and scholars of Canadian politics, history, and society, especially those examining issues such as the Charter of Rights, Aboriginal politics, federalism, multiculturalism, political institutions, and political change. It should also be of interest to a larger public that follows the Canadian political scene, and that shares Cairns' concerns with broad questions of citizenship, diversity, and national unity.

Virginia Beach: Jewel Resort of the Atlantic, takes us back in time to the days when the sparkling resort strip of Virginia Beach drew crowds by the train-full. This new book takes readers back to the days when there were only summer cottages and inns at Virginia Beach. In days gone by, sea breezes and

incomparable landscapes created the backdrop for excursionists, and the wild country of Back Bay, Croatan, Sandbridge, and Fort Story was untouched. We follow the development of the resort as it changed to include grand hotels, clubs, nightlife, and watersports. Readers are invited to take a walk on the boardwalk of yesteryear and follow Virginia Beach through World War II and the big band era, to the fabulous fifties and the 1960s, when Virginia Beach formally incorporated as a city.

Fifty years in a law profession she loves, twenty-four of which were spent as judge, Nancy Morrison has stories to tell. It is very much a political book, focusing on the need for law reform. Entertaining, at times warm and witty, it is also a memoir that reminds us of dark days. Nancy Morrison's career spanned three provinces and two territories, as a lawyer, arbitrator and judge.

Ladd: the Life, the Legend, the Legacy of Alan Ladd

The year 2017 marked the 150th anniversary of Confederation and the 1867 Constitution Act. Anniversaries like these are often seized upon as opportunities for retrospection. This volume, by contrast, takes a distinctively forward-looking approach. Featuring essays from both emerging and established scholars, *The Canadian Constitution in Transition* reflects on the ideas that will shape the development of Canadian constitutional law in the decades to come. Moving beyond the frameworks that previous generations used to organize constitutional thinking, the scholars in this volume highlight new and innovative approaches to perennial problems, and seek new insights on where constitutional law is heading. Featuring fresh scholarship from contributors who will lead the constitutional conversation in the years ahead - and who represent the gender, ethnic, linguistic, and demographic make-up of contemporary Canada - *The Canadian Constitution in Transition* enriches our understanding of the Constitution of Canada, and uses various methodological approaches to chart the course toward the bicentennial.
