FairTax: The Truth

The author of the #1 New York Times bestseller *The FairTax Book* offers a new look at the fast-growing populist tax reform movement that's poised to become a key campaign issue for 2008. In 2005, firebrand radio talk show host Neal Boortz and Georgia congressman John Linder teamed up to create *The FairTax Book*, the first book devoted to the FairTax movement they had been promoting for years. Riding the growing groundswell of popular support for the tax reform measure, *The FairTax Book* became an overnight sensation. As the election season heats up, Boortz and Linder return to add fuel to the fire with this radical follow-up. Talking back to the critics who have grossly misrepresented the simple principles behind the tax reform measure—which would abolish the IRS and replace it with a 23 percent retail sales tax on all new goods and services—Boortz and Linder:

- Debunk myths about the tax and answer critical charges—that it would bankrupt the economy, that it would leave poor people in the lurch, that the math doesn't work
- Offer new insights into aspects of the plan not originally covered
- Show the American voter that there's still hope of replacing our currently outdated, corrupt, and punitive income tax system with a simple plan that will revolutionize the way American pays for itself.

FairTax: The Truth LP

Wouldn't you love to abolish the IRS ... Keep all the money in your paycheck ... Pay taxes on what you spend, not what you earn ... And eliminate all the fraud, hassle, and waste of our current system? Then the FairTax is for you. In the face of the outlandish American tax burden, talk-radio firebrand Neal Boortz and Congressman John Linder are leading the charge to phase out our current, unfair system and enact the FairTax Plan, replacing the federal income tax and withholding system with a simple 23 percent retail sales tax on new goods and services. This dramatic revision of the current system, which would eliminate the reviled IRS, has already caught fire in the American heartland, with more than six hundred thousand taxpayers signing on in support of the plan. As Boortz and Linder reveal in this first book on the FairTax, this radical but eminently sensible plan would end the annual national nightmare of filing income tax returns, while at the same time enlarging the federal tax base by collecting sales tax from every retail consumer in the country. The FairTax, they argue, would transform

the fearsome bureaucracy of the IRS into a more transparent, accountable, and equitable tax collection system. Among other benefits, it will: Make America's tax code truly voluntary, without reducing revenue Replace today's indecipherable tax code with one simple sales tax Protect lower-income Americans by covering the tax on basic necessities Eliminate billions of dollars in embedded taxes we don't even know we're paying Bring offshore corporate dollars back into the U.S. economy Endorsed by scores of leading economists and supported by a huge and growing grassroots movement, the FairTax Plan could revolutionize the way America pays for itself. In this straight-talking book, Neal Boortz and John Linder show you how it would work—and how you can help make it happen.

The Fair Tax Book

Tom Foster is a retired Special Forces Officer and a combat veteran of the war in El Salvador. In Comments from a Tea Partier - I guess if you're not a Communist, you might be a mild Fascist, Tom vents his anger with our current politicians and identifies critical issues that should be the cornerstone of the 2010 elections. He makes a case for specific actions such as the repeal of the 16th Amendment and the passing of Fair Tax to bring prosperity to America. He shows how American foreign policy should be re-focused, offers a criterion for vetting the candidates for November 2010, identifies specific cuts to the federal government, and speculates as to our future if we are not successful in restoring our Republic. America has taken on many of the characteristics of a fascist state, and Tom like all the other Tea Party members fear additional loss of our individual liberty if the American people do not take our nation away from the statists in 2010. He is married to a gal from South Georgia, and has a son and daughter whom are both married and three grandchildren. Tom and his wife Deborah live in Columbus, Georgia with a Fair Tax sign boldly displayed in their front yard. Tom is currently hiking the Appalachian Trail to enjoy the beauty of America and expects to finish in time to help us prevail in November, 2010. De oppresso liber, Tom

The FairTax Fantasy_pb.indd

The Obama administration is not only attacking entrepreneurs and small business owners, it's launched a fundamental assault on the very concept of success. By denigrating all the qualities that make success possible—self-reliance, ambition, hard work, the pursuit of excellence—the administration is setting the stage for Big Government to step in and “guarantee” everyone’s success through socialist-style redistribution. Brash, direct, and unafraid, The War on Success tells you what’s at stake: nothing less than the survival of the American Dream.

Comments from a Tea Partier

There are two major ideologies at play in our country right now, and they are diametrically opposed. Conservatism is minimalism and personal; Liberalism is expansive and group think. Conservatism is about small government controlled by the governed and personal responsibility. Liberalism is about expanding government and the government acting as caregiver and lack of personal responsibility (victimhood). In this work, I examine the major issues of the day and contrast the two ideologies using logic and sound thinking to come to a reasonable conclusion. The issues include: Are gays born that way or is it a choice? Since Darwin's theory is still theory, why does all of science rest on it? Regarding our universe, is it only Darwin or creationism? Is popular science scientific? Gun control or self-defense? Why does the Supreme Court rule the way it does? The NEA—who's the priority, students or teachers? The ACLU—protector or protagonist? Do we still need affirmative action? Do Liberals live in their own alternate universe? Are Black leaders stuck in the past? What about the Tea Party Movement? What is the military's place in modern life? Are America's best days in the past? These and other questions are examined in A Conservative Writes about Damn Near Everything. I stopped writing so I wouldn't have to delete Damn Near. I assume you're at least as smart as I am and are looking for more information. I believe I've delivered. Let's continue the conversation so we can figure the best way to return our country to its rightful place as preeminent among nations. That's the brilliance and prescience of our founders, our inheritance, and as proud Americans, our work order. We gave those with a different view an opportunity to show us their brighter tomorrow. What we got was potted meat for filet mignon. The experiment failed. Let's scrap it and get back to what works so we can get back to work. Let those who think “profit” is a four-letter word get rid of theirs; we'll keep ours and expand it. That's what Conservatism does. Viva la difference.

The War On Success

This single-source reference will help students and general readers alike understand the most critical issues facing American society today. Featuring the work of almost 200 expert contributors, the Encyclopedia of Contemporary American Social Issues comprises four volumes, each devoted to a particular subject area. Volume one covers business and the economy; volume two, criminal justice; volume three, family and society; and volume four, the environment, science, and technology. Coverage within these volumes ranges from biotechnology to identity theft, from racial profiling to corporate governance, from school choice to food safety. The work brings into focus a broad array of key issues confronting American society today. Approximately 225 in-depth entries lay out the controversies debated in the media, on campuses, in government, in boardrooms, and in homes and neighborhoods across the United States. Critical issues in criminology, medicine, religion, commerce, education, the environment, media, family life, and science are all carefully described and examined in a scholarly yet accessible way. Sidebars, photos, charts, and graphs throughout augment the entries, making them even more compelling and informative.

A Conservative Writes About Damn Near Everything

This book provides research assistance for 99 current and provocative issues students can use to write a brief argumentative paper. In 2030, it is projected that 65 percent of the population will be over 65. The U.S. Government Census Bureau reveals that over an adult's working life, college graduates typically earn close to \$1 million more than high school graduates. About 43 percent of American families spend more than they earn each year. These three factoids represent a tiny fraction of the potential research subjects contained in 99 Jumpstarts to Research: Topic Guides for Finding Information on Current Issues, Second Edition, a completely revised follow-up to the original edition. Every jumpstart—each focused upon a current, timely issue—contains ideas for narrowing the topic, research keywords, suggested best books and databases, and Internet sites. This book supports both faculty and students in identifying compelling topics, effectively evaluating and selecting resources in today's information-overload world, and deriving enjoyment from the research and writing process.

Summary: The Fair Tax Book

For 42 years, nationally syndicated talk radio host and NYT bestselling author Neal Boortz has been entertaining, aggravating, enraging and captivating radio audiences. In his memoir, *Maybe I Should Just Shut Up And Go Away*, he looks back across the decades and shares the often-hilarious reality of what happens behind the scenes when you're a talk radio icon. Longtime friend with national radio greats Rush Limbaugh and Sean Hannity, he tells how those relationships began in the hot seat of competition. Tributes are included from Rush Limbaugh, Sean Hannity, Home Depot Founder Bernie Marcus and 2012 presidential nominee Herman Cain. Though early predictions by those who knew him in his youth cast Boortz as a sure prospect to become a preacher, he took a different route to educating the masses. Longtime listeners are certain to become enthusiastic readers as Boortz finally tips his hat to more than four decades of teeing up controversy, political education and general entertainment for audiences across the country to enjoy--and tells all they've been wanting to know but couldn't get anyone to share until now.

The Economist

The president of Forbes, Inc. presents his argument for a flat tax, suggesting that the new tax would be fair and efficient, with the new tax form being no bigger than a postcard and without any of the loopholes that currently exist.

Encyclopedia of Contemporary American Social Issues [4 volumes]

Making the Modern American Fiscal State chronicles the rise of the US system of direct and progressive taxation.

The FairTax book

64% of all Americans will retire below the poverty line. Only 2% will enjoy a life of wealth! We are working longer hours, suffering dangerous stress levels and carrying higher debt loads, yet we still only manage to live paycheck to paycheck. Financial worries are the #1 cause of sleep deprivation and marital problems. Do you feel frustrated and trapped in your daily routines? Are you desperately looking for solutions? This book will change you financial life forever!.

Don't wait. Start investing today!

Maybe I Should Just Shut Up and Go Away!

Talk-show host Boortz's in-your-face brand of Libertarian politics addresses nagging social and political issues, such as the true definitions of democracy and racism, and the Social Security system.

Flat Tax Revolution

This fast-paced book by Yale professors Michael Graetz and Ian Shapiro unravels the following mystery: How is it that the estate tax, which has been on the books continuously since 1916 and is paid by only the wealthiest two percent of Americans, was repealed in 2001 with broad bipartisan support? The mystery is all the more striking because the repeal was not done in the dead of night, like a congressional pay raise. It came at the end of a multiyear populist campaign launched by a few individuals, and was heralded by its supporters as a signal achievement for Americans who are committed to the work ethic and the American Dream. Graetz and Shapiro conducted wide-ranging interviews with the relevant players: members of congress, senators, staffers from the key committees and the Bush White House, civil servants, think tank and interest group representatives, and many others. The result is a unique portrait of American politics as viewed through the lens of the death tax repeal saga. Graetz and Shapiro brilliantly illuminate the repeal campaign's many fascinating and unexpected turns--particularly the odd end result whereby the repeal is slated to self-destruct a decade after its passage. They show that the stakes in this fight are exceedingly high; the very survival of the long standing American consensus on progressive taxation is being threatened. Graetz and Shapiro's rich narrative reads more like a political drama than a conventional work of scholarship. Yet every page is suffused by their intimate knowledge of the history of the tax code, the transformation of American conservatism over the past three decades, and the wider political implications of battles over tax policy.

The Will to Live

Do you have a great accountant? Someone who cares about you and is proactive in assisting you to achieve your goals? As fascinating and all-absorbing as accounting or accountants may be (NOT!), choosing an astute advisor in this area can make a Million Dollar difference to your life. Therein lies the reason for this short book. This book is NOT a "HOW TO" book – it is a "MUST DO NOW" book: 20 simple things you need to make sure your accountant has addressed with you. This book outlines a timeless approach to getting your financial universe sorted out and keeping it that way. Now, if your accountant hasn't helped you take control of your financial universe, start now and get him moving - or perhaps you had better get moving to a new accountant! Time is limited, death is certain - so the book is short, to the point and easy to implement. The money is in the doing.

Making the Modern American Fiscal State

FLY: Financially Literate Youth is the perfect handbook for every young person who wants to be armed with the financial knowledge and confidence to set themselves up for success as they chart the course of their life. Whether they are contemplating leaving the nest or are already beginning to spread their wings, this convenient and credible resource will have them prepared for all of life's milestones, as well as those times when things get rocky or uncertain. And what an uncertain world they're flying into – but with the right guidance they'll be prepared to overcome any obstacle and seize every opportunity! From the basics of opening a bank account, living within a budget and understanding debt to saving for those first big-ticket items, starting a job or striking out into the property market, FLY: Financially Literate Youth is the go-to reference guide for every situation life throws up. It also includes an inspirational chapter on mindset and goal-setting, finishing with the Top Ten Tips You Need to Succeed, including, 'Find Your Tribe', 'If You Don't Know, Ask', 'Be Patient, Be Opportunistic' and, of course, 'Spread Your Wings and FLY!'

The ABCs of Making Money

Tracing the disgraceful history of appeasement from the days of Neville Chamberlain and Jimmy Carter to the unrepentant leftists of the modern Democratic Party, Hannity reminds us of the menace of widespread attitudes of accommodation, and he pays tribute to the great leaders who have defended our country with strength, moral clarity, and courage.

Summary: The Fair Tax Book

Hopeful, Inspiring Message for Moms from Sarah Jakes Mary, the mother of Jesus, is a remarkable example of quiet, resilient faith and courage in the face of adversity. From the angel's first announcement of her pregnancy to the death and resurrection of her son, Mary was witness to our Lord and Savior in a unique and special way. And as a mother herself, she speaks to the modern-day mom in a way few have explored before. Writing in the form of letters, Sarah Jakes examines the life of Mary--and through Mary, Jesus--to better understand what a life of faith looks like. Maybe you struggle to trust God's will for your life. Perhaps you have fears and insecurities that keep you from realizing the joy God wants for you, or the thought of raising little ones overwhelms you. Through the example of Mary, discover the freedom that only true faith can bring.

The Everything Guide to Investing in Your 20s & 30s

"An impassioned call to all Americans to fight for equal representation." — Kirkus Reviews "This bracing report on the state of American politics offers valuable insights for the 2020 elections." — Publishers Weekly "A thoughtful, illuminating, nonpartisan, and pragmatic analysis of the changes needed to restore power to the public... In this bold and compelling book, Lessig both scrutinizes the laws and forces that led us to this point and guides us towards visionary changes that can reset and restore our faith in our democracy. Given the complexities of the tasks at hand, this a must-read and a much-needed wake up call." — Booklist "Lessig tells it with skill, citing a plethora of studies and historical examples to make a persuasive case about the unrepresentativeness of America's political institutions." — New York Time Book Review "Lessig paints a searing portrait of a defective political system that is nonetheless full of hope, community spirit, self-empowered individuals, and ways to fix what is broken." — Foreign Affairs "Lessig is right that a representative American democracy, desirable in itself, would also solve most of the problems that now seem insoluble. It is hard to imagine a more thoughtful and appealing companion in the hard work to move our system to where it ought to be: in our own hands." —

Timothy Snyder, bestselling author of *On Tyranny* and *The Road to Unfreedom* “Lessig, a leading proponent of campaign finance reform, now aims at something even bigger: fixing our broken system of representative democracy. This book is brimming with promising and provocative proposals to fix campaign finance, gerrymandering, the electoral college, the filibuster, and the mind-numbing effects of cable news and social media. It is a bold and bracing repair manual for government of, by, and for the people.” — Michael J. Sandel, bestselling author of *What Money Can't Buy* “Lessig is a modern-day Paul Revere with a warning we must heed: Our representative democracy no longer represents us. The change we need is deep and serious. And it can't be fixed with by one election, party, or politician. This urgent book offers not only a clear-eyed explanation of the forces that broke our politics, but a thoughtful and, yes, patriotic vision of how we create a government that's truly by and for the people. We ignore his alarm at our own peril.” — David Daley, bestselling author of *Ratf**ked* and *Unrigged* “Everything Lessig writes should be carefully read. Read it, consider it, and most important, act on it. Our democracy is at stake.” — Nancy MacLean, bestselling author of *Democracy in Chains* “The American experiment in representative government is on life support. In his brilliant book, Lessig provides the medical record and a recommended course of care to save the patient. Every American should read it ... stat!” — Roger McNamee bestselling author of *Zucked* “Full of original, provocative insights and surprising stories, this book is for all who seek to create effective democracy in America.” — Frances Moore Lappé, bestselling author of *Diet for a Small Planet* and coauthor with Adam Eichen of *Daring Democracy* “Lessig proposes the making of a nonpartisan politics to breathe life into the corpse of America's dysfunctional democracy. He does so with fierce and plainspoken clarity. A challenging work of the political imagination, unsweetened with pious cant.” — Lewis H. Lapham, editor and founder of *Lapham's Quarterly* “Lessig is the thinking man's popular reformer and this book is a powerful, patriotic and above all useful guide to the fixes for American representative democracy. Agree or disagree, it every citizen should read this book.” — Tim Wu, bestselling author of *The Curse of Bigness* “Lessig has long been the leading voice on how corruption undermines American democracy. In this book, he trains his trademark wit and incisiveness on an even bigger problem: Our political institutions, he shows, are deeply unrepresentative. Thankfully, Lessig has an original plan for how to build on the principles of the Founding Fathers to make our institutions serve all Americans.” — Yascha Mounk, author of *The People vs. Democracy* “American democracy is buckling under the weight of the public's deep cynicism. Lessig's book brings clarity to the many factors feeding this civic deterioration, from our warped campaign finance system to the increasingly balkanized media to the pernicious power of our 'vetocracy.' Charting a new course that can revitalize our Republic will demand a reckoning with these deep-seated challenges. This book is a clarion call to do just that.” — Representative John P. Sarbanes “This book is a tour de force by one of America's most interesting thinkers about democracy. Lessig finds democratic sclerosis not only in the institutions and arrangements of government, but also among we the people. Although Lessig considers familiar policy proposals such as campaign finance reform and breaking up social media monopolies, conventional reforms are far from enough to solve the problem of a democracy under extreme stress. He offers proposals aimed at getting us out of our silos, educated, organized, and deliberating toward a more perfect union.” — Richard L. Hasen, author of *Election Meltdown* “This book brilliantly diagnoses some of the fundamental ailments of American democracy. Lessig provides an original and illuminating analysis of how we have been led astray by our reliance on public opinion polling in a fractured media and social media landscape. This book is a must-read for anyone trying to understand — and indeed hoping to reclaim — our democracy.” — Deb Roy, Professor of Media Arts & Sciences, MIT and Co-founder & Executive Chairman, Cortico “In classic Lessig fashion, this book connects one of society's biggest challenges—the impact of technology on our society and democracy—to the evolution of our constitution to show how we've lost our voice in our system of government. But as the reader descends into a spiral of despair, he pulls them up with the hope of potential interventions that could successfully enact positive change.” — Joi Ito, Director, MIT Media Lab “Lessig has long been a leader in the fight to save our democracy. In this book, Larry again brings his characteristic, inspirational passion and insight to the most pressing challenge of our time—the fate of our Republic. His new insights into “unrepresentativeness” are a distinctive contribution to the national discussion—in particular, his contention that the problem is not just “they” but also “us”. If you're concerned about our democracy, it's a proverbial must-read. And along with his deep thinking, Larry brings a keen sense of humor and awareness of the absurd that made us wryly chuckle out loud.” — Katherine M. Gehl and Michael E. Porter, authors of *Why Competition in the Politics Industry Is Failing America: A strategy for reinvigorating our democracy.* “Lessig eloquently advances his diagnosis of our democratic condition. He then helps us understand how remedies might be possible. A book of lasting importance.” — James Fishkin, Stanford University professor and author of *Democracy When the People Are Thinking* “A sweeping analysis by one of America's most astute and

passionate political voices. Lessig shows how America suffers both from a dysfunctional government and from the deficiencies of an increasingly polarized and poorly-informed public. More importantly, he points us toward the reforms we need to repair our representative democracy by making elected officials more responsive to the public and making the public more worthy of responding to. A compelling new contribution to the most important discussion of our time.” — Martin Gilens, Professor of Public Policy, UCLA Luskin School of Public Affairs “Hard-hitting analysis... Lessig persuasively supports his argument that the U.S. political system is unrepresentative.” — EMissourian.com

The Terrible Truth About Liberals

Fact: the Millennial Generation will not be able to rely on pensions and social security in retirement. Instead, they will have to save and invest in the global stock market to meet their goals. When it comes to thinking about money, Millennials are, as a generation, different from their parents. They are skeptical of expert advice, yet more committed than baby boomers to passing wealth on to future generations. To build wealth, young people must start investing early and buck conventional market wisdom. Millennial Money will explain the most common mistakes that hurt investors' long-term returns and show why their investments in popular stocks or the hottest industry of the day have resulted in such underwhelming results. More importantly, the book will introduce a strategy that can help us overcome our shortcomings as investors. Armed with this strategy, Millennials can become the most successful investing generation in history.

Death by a Thousand Cuts

He was silently managing the crisis in India's banking sector then Now he shares these stories in his memoir It began from a modest house in one of the narrow lanes of the old city of Meerut. From being a probationary officer in the State Bank of India (SBI) in 1980 to its Chairman in 2017, Rajnish Kumar had an amazingly interesting journey in which he saw the many changes in India's banking sector that greatly impacted the country and its economy. As the Chairman of SBI, Kumar recounts, his term was rather momentous as the period-from 2017 to 2020-during which he shouldered this responsibility was rather unique under any circumstances. The Indian banking sector was going through one of its most tumultuous phases. The problem of non-performing loans (NPLs) had severely impacted the balance sheet and profitability of banks, especially those in the public sector. In the aftermath of demonetization, the YES Bank fiasco, the crisis in Jet Airways and NPLs, among others, The Custodian of Trust is a candid memoir by the former Chairman of India's largest commercial bank. Anecdotal, engaging and evocative, this book is an unputdownable memoir of a former banker.

Your Money, Your Choice

Why do people evade paying taxes? This is the central question addressed in this volume by Robert McGee and a multidisciplinary group of contributors from around the world. Applying insights from economics, public finance, political science, law, philosophy, theology and sociology, the authors consider the complex motivations for not paying taxes and the conditions under which this behavior might be rationalized. Applying theoretical approaches as well as empirical research, The Ethics of Tax Evasion considers three general arguments for tax evasion: (1) in cases where the government is corrupt or engaged in human rights abuses; (2) where citizens claim inability to pay, unfairness in the tax system, paying for things that do not benefit the taxpayer, excessively high tax rates, or where taxes are used to support an unpopular war; and (3) through philosophical, moral, or religious opposition. The authors further explore these issues by asking whether attitudes toward tax evasion differ by country or other demographic variables such as gender, age, ethnicity, income level, marital status, education or religion. The result is a multi-faceted analysis of tax evasion in cultural and institutional context, and, more generally, a study in ethical dilemmas and rational decision making.

FLY: Financially Literate Youth

You're going to earn plenty of money over your lifetime. Are you going to waste it on stupid crap that doesn't make you happy, or let it buy your freedom and your most audacious dreams? We never get an instruction manual about how money works. Most of what we learn about money comes from advertising or from other people who know as little as we do. No wonder we make such basic mistakes. No wonder we feel disempowered and scared. No wonder so many of us just decide to stick our heads in the damn sand and never deal with it. In Manage Your Money Like a F*cking Grown Up, Sam Beckbessinger tells it to you straight: how to take control of your money to take control of your life.

In this clear and engaging basic guide to managing your finances, you will learn: - How to trick your dumb brain into saving more, without giving up fun - How to make a bona fide grown-up budget - Why you need to forget what you've learned about credit - How to negotiate a raise - Why buying a house (probably) won't make you rich - The one super-simple investment you need With helpful exercises, informative illustrations (also: kittens) and straightforward advice, this book doesn't shy away from the psychology of money, and is empowering, humorous and helpful. The book you wish you'd had at 25, but is never too late to read.

Deliver Us from Evil

"Why have the wars in Afghanistan and Iraq lasted longer than any others in American history? One view is that the move to an all-volunteer force and drones have allowed the wars to continue almost unnoticed for years. *Taxing Wars* suggests how Americans bear the burden in treasure has also changed, with recent wars financed by debt rather than taxes. This shift has eroded accountability and contributed to the phenomenon of perpetual war"--

Dear Mary

The modern traffic system is ecologically unsustainable, emotionally stressful, and poses a physical threat to individuals and communities alike. Traffic is not only an ecological and social problem but also a political one. Modern traffic reproduces the rule of the state and capital and is closely linked to class society. It is a problem of power. At its core lies the notion of "automobility," a contradictory ideal of free movement closely linked to a tight web of regulations and control mechanisms. This is the main thesis of the manifesto *The Traffic Power Structure*, penned by the Sweden-based activist network Planka.nu. Planka.nu was founded in 2001 to fight for free public transport. Thanks to creative direct action, witty public interventions, and thought-provoking statements, the network has become a leading voice in Scandinavian debates on traffic. In its manifesto, Planka.nu presents a critique of the automobile society, analyzes the connections between traffic, the environment, and class, and outlines its political vision. The topics explored along the way include Bruce Springsteen, high-speed trains, nuclear power, the security-industrial complex, happiness research, and volcano eruptions. Planka.nu rejects demands to travel ever-longer distances in order to satisfy our most basic needs while we lose all sense for proximity and community. *The Traffic Power Structure* argues for a different kind of traffic in a different kind of world. The book has received several awards in Sweden and has been hailed by Swedish media as a "manifesto of striking analytical depth, based on profound knowledge and a will to agitation that demands our respect" (Ny Tid).

They Don't Represent Us

This new and updated edition of *The Flat Tax*—called "the bible of the flat tax movement" by Forbes—explains what's wrong with our present tax system and offers a practical alternative. Hall and Rabushka set forth what many believe is the most fair, efficient, simple, and workable tax reform plan on the table: tax all income, once only, at a uniform rate of 19 percent.

Millennial Money

Ballooning government? Millionaire welfare queens? Tort lawyers run amok? A \$330,000 outhouse, paid for with your tax dollars? John Stossel says, "Give me a break." When he hit the airwaves thirty years ago, Stossel helped create a whole new category of news, dedicated to protecting and informing consumers. As a crusading reporter, he chased snake-oil peddlers, rip-off artists, and corporate thieves, winning the applause of his peers. But along the way, he noticed that there was something far more troublesome going on: While the networks screamed about the dangers of exploding BIC lighters and coffeepots, worse risks were ignored. And while reporters were teaming up with lawyers and legislators to stick it to big business, they seldom reported the ways the free market made life better. In *Give Me a Break*, Stossel explains how ambitious bureaucrats, intellectually lazy reporters, and greedy lawyers make your life worse even as they claim to protect your interests. Taking on such sacred cows as the FDA, the War on Drugs, and scaremongering environmental activists -- and backing up his trademark irreverence with careful reasoning and research -- he shows how the problems that government tries and fails to fix can be solved better by the extraordinary power of the free market. He traces his journey from cub reporter to 20/20 co-anchor, revealing his battles to get his ideas to the public, his struggle to overcome stuttering, and his eventual realization that, for years, much of his reporting missed the point. Stossel concludes the book with a provocative blueprint for change: a simple plan in the spirit of

the Founding Fathers to ensure that America remains a place "where free minds -- and free markets -- make good things happen."

The Custodian of Trust

The Bob Dylan Encyclopedia is one of the most wide-ranging, informed, entertaining, provocative, and compulsively readable books ever written about popular music. It's the culmination of over thirty years of dedicated research and scholarship by Michael Gray. Inside these pages, you'll find a world of ideas, facts, and opinions. It's a world in which Baudelaire flows on from the Basement Tapes and A.S. Byatt looks out at the Byrds; in which Far from the Madding Crowd follows Ezekiel and Bob Geldof introduces Jean Genet; and in which Hank and William Carlos Williams stand side by side while J.R.R. Tolkien trails the Titanic. Most of all, of course, it's a world in which everyone and everything interconnects, in endlessly fascinating ways, with one of our greatest living artists: Bob Dylan. Click here to read an interview with Michael Gray: <http://www.continuumbooks.com/news/details.aspx?NewsID=202&ImprintID=2&CountryID=2&ReturnTypes=2> "Michael Gray... probably Dylan's single most assiduous critic." - New York Review of Books "Fans of Bob Dylan have a multitude of choices when it comes to biographies and retrospectives, but author Michael Gray outdistances them all with this voluminous collection of all things Dylan. ... Insightful and entertaining, Gray's tome will broaden appreciation of the artist, his influences and his legacy." -Publishers Weekly (starred review) "...has all you need to know, and more" -Richard Corliss, Time "This is no mere catalog of facts, but a work of oceanic immersion. It has wit, opinion, style, and asks to be read, not just consulted." -Village Voice "Deeply impressive...destined to be the most important Dylan book, bar none."-Gerry Smith, The Dylan Daily "Utterly idiosyncratic." -Janet Maslin, New York Times "Amazingly well-researched and surprisingly readable work." -Library Journal (starred review) "Door-stopping detail." -Toronto Star "Magnificent...won't just astonish readers with its detail about Dylan's work...contains so many insights and refutes so many myths about the rock 'n' roll era in general that it's invaluable as both a reference guide and a personality study." -Nashville City Paper "Comprehensive and up-to-date." -Slate

The Ethics of Tax Evasion

This is an indispensable collection of statutory and non-statutory materials relating to charity law in England and Wales. Revised to coincide with the implementation of the Charities Act 2011 – a major consolidation of the charity law - the Handbook is an essential reference source for charity lawyers, in-house lawyers, academics, charities and voluntary organisations and their trustees. Available as three paperback volumes, CD-ROM or both (the mixed media option). Statutes range from the Preamble to Charitable Uses Act 1601 to the Finance Act 2011. It also includes relevant provisions covering data protection, company law, gambling and lotteries, minimum wages, freedom of information, discrimination, tax and VAT, along with a wide range of statutory instruments and the latest SORP. New legislation since the second edition includes: Income Tax Act 2007 Corporation Tax Act 2009 Perpetuities and Accumulations Act 2009 Academies Act 2010 Bribery Act 2010 Corporation Tax Act 2010 Equality Act 2010 Charities Act 2011 Finance Act 2011 This edition is also available on CD-ROM, making more than 2000 pages of legislation and guidance portable and easy to search.

Manage Your Money Like a F*cking Grown-Up

In this selected collection of his syndicated newspaper columns, Walter Williams offers his sometimes controversial views on education, health, the environment, government, law and society, race, and a range of other topics. Although many of these essays focus on the growth of government and our loss of liberty, many others demonstrate how the tools of freemarket economics can be used to improve our lives in ways ordinary people can understand.

Taxing Wars

I've come to the conclusion that roughly 50 percent of the adults in this country are simply too ignorant and functionally incompetent to be living in a free society. You might think I'm off base, but every day around half the people in this country go out of their way to prove me right.—from Somebody's Gotta Say It Think you've got it all figured out? Think again. Neal Boortz—the Talkmaster, the High Priest of the Church of the Painful Truth—has been edifying, infuriating, and entertaining talk radio audiences for more than three decades with his blend of straight talk and twisted humor. Now, the author of the smash number one bestseller The FairTax Book returns to gore every sacred cow in the pasture, from the subversive agendas behind children's books to the scam artists behind "High Art." In Somebody's

Gotta Say It, Boortz warms up for the coming political season with a preemptive strike in "the War on the Individual": "The Democrats' theme for 2008 will be 'The Common Good.' I can't speak for you, but I am an individual. Government exists to protect my rights, not to order my life. And I damn sure don't exist to serve government." He takes on liberal catchphrases like giving back ("Nobody—especially not the evil, wretched rich—actually earns anything anymore. Why do liberals think this way? Because they find it impossible to acknowledge that people work for money"), our rampant civic idiocy ("We are not a democracy. Never were. Weren't supposed to be. And we shouldn't be"), and Big Brother ("We have smoke-free workplaces. We have drug-free school zones. I say let's start establishing government-free oases, where we can be free to leave our seat belts unbuckled, and peel the labels off anything we choose"). And somehow, along the way, he finds room for pop quizzes, cat-chasing contests, and an answer, once and for all, to the eternal question, "Neal, why don't you run for president?"—in a chapter called "No Way in Hell." Full of irresistible wisecracks and irrefutable libertarian wisdom, Somebody's Gotta Say It is one man's response to America at a time when the government overreaches, the people underperform—and the truth hurts.

Traffic Power Structure

Studies in the Economics of Aging is the fourth book in a series from the National Bureau of Economic Research that addresses economic issues in aging and retirement. Building on the research in The Economics of Aging (1989), Issues in the Economics of Aging (1990), and Topics in the Economics of Aging (1992), this volume examines elderly population growth and government spending, life expectancy and health, saving for retirement and housing values, aging in Germany and Taiwan, and the utilization of nursing home and other long-term care.
