A Genealogical History of the Montgomerys and Their Descendants

D. B. Montgomery was the author of the General Baptist History and this book of genealogy.

The Montgomerys and Their Descendants

A genealogical history of the Montgomery Family originally published in 1903. It is supposed that there had existed at Eglinton Castle an account of the Montgomery family in Scotland, which was destroyed when that old pile was burnt by the Cunninghams in 1528. Therefore the work of William Montgomery, written between 1698 and 1704, is the earliest existing attempt to illustrate the family history, and it is especially valuable because treating of persons who came within the reach of his personal knowledge and events that had occurred during the period of his own life. Since these memoirs were written the compilations in this book have been made, intended by their authors chiefly to illustrate the genealogical history of the Montgomerys. This book is part of the Historical Collection of Badgley Publishing Company and has been transcribed from the original. The original contents have been

edited and corrections have been made to original printing, spelling and grammatical errors when not in conflict with the author's intent to portray a particular event or interaction. Annotations may have been made and additional contents may have been added by Badgley Publishing Company in order to clarify certain historical events or interactions and to enhance the author's content. Fonts have been changed from the original printing to make the book easier to read. Photos and illustrations from the original have been cleaned up, enhanced and enlarged for better viewing. Additional illustrations and photos may have been added by Badgley Publishing Company.

The McGavock Family

Excerpt from McMillan Genealogy History: A Record of the Descendants of John McMillan and Mary Arnott, His Wife, Who Were Born and Married in Scotland, Removed to the North of Ireland and Thence to Washington County, New York, About the Middle of the Eighteenth Century In preparing this work the authors have had the usual experience of genealogical writers. There have been difficulties to overcome, doubts to solve and many tangled threads to unravel. It has taken years of careful research and study, an endless correspondence and assiduous labor to accumulate, assort and record in proper position the subject-matter of the book. Yet it has been a "labor of love," and our only thought has been to produce a volume giving a complete record of our family and showing something of the lives of our ancestors; of their avocations, their families, their surroundings and their standing among their fellows. While making every effort to get the record of births, marriages and deaths absolutely correct, we have gone a little farther, and given short personal sketches of many persons and historical data that we trust will be interesting to the present generation and useful to posterity. Of course we do not claim that the work is perfect. Unfortunately many families do not appreciate the importance of keeping an accurate record of births, marriages, deaths and other events. Some families keep no record at all, and many others only very scant and incomplete. So, in compiling a work like this, one has to depend largely upon the memory of persons, which after the lapse of years is often uncertain. We also find that often members of the same branch of family do not agree in their records or in their recollections. We often receive several different statements as to date of certain events, each being strongly supported by different members of family. Sometimes all efforts to harmonize the different statements fail and the event has to be left in uncertainty. It is from the faulty and inaccessible records scattered over this country and in foreign lands, and from the uncertain memory of busy people that the authors have constructed this book. Hence it has not been possible to avoid errors. We are conscious of earnest, unremitting efforts to reach the exact truth in every instance and to give our friends a perfect record. Genealogy of the Tennant Family; Their Ancestors and Descendants Through Many Generations

From 1861 to 1865, the Civil War raged along the great rivers of the Ohio and Mississippi valleys. While various Civil War biographies exist, none have been devoted exclusively to participants in the Western river war as waged down the Mississippi to the mouth of the Red River, and up the Ohio, the Tennessee and the Cumberland. Based on the Official Records, county histories, newspapers and internet sources, this is the first work to profile personnel involved in the fighting on these great streams. Included in this biographical encyclopedia are Union and Confederate naval officers down to the rank of mate; enlisted sailors who won the Medal of Honor, or otherwise distinguished themselves or who wrote accounts of life on the gunboats; army officers and leaders who played a direct role in combat along Western waters; political officials who influenced river operations; civilian steamboat captains and pilots who participated in wartime logistics; and civilian contractors directly involved, including shipbuilders, dam builders, naval constructors and munitions experts. Each of the biographies includes (where known) birth, death and residence data; unit organization or ship; involvement in the river war; pre- and post-war careers; and source documentation. Hundreds of individuals are given their first historic recognition.

The McGavock Family: A Genealogical History of James McGavock and His Descendants From 1760 to 1903

The Mississippi River was a strategic priority for the Union army from the outset of the American Civil War. By controlling the Mississippi, the North's military forces could effectively split the Confederacy in two and create economic and logistical havoc for Confederate supply lines that relied on river transportation. A number of battles were fought for control of the Mississippi, and ultimately the combination of Union troops supported by Federal gunboats and armored paddle steamers culminated in the surrender of Port Hudson in July 1863 and Union dominance over the Mississippi waterways. The Battle of Memphis was one such fray waged for control of the Mississippi. It was a major victory for the Union, one that was over almost before it began because of luck and lessons the Union fleet learned at a hard-fought battle with the Confederate River Defense Fleet at Plum Point. Perhaps owing to its swift conclusion, the Battle of Memphis has not received the scholarly attention of other battles, such as Vicksburg and Forts Henry and Donelson. In *To Retain Command of the Mississippi*, Edward B. McCaul Jr. argues that the Battle of Memphis was pivotal in the Union's efforts to control the Mississippi River. The Union command, by narrowly escaping defeat at Plum Point, learned invaluable lessons about the Confederate River Defense Fleet and masterfully enacted those lessons in decisively defeating the Confederate fleet at Memphis. With the Confederacy's river forces severely crippled after the Battle of Memphis, the Union fleets pushed onward to eventual victory at Vicksburg. McCaul brings this pivotal river battle back into the American Civil War discussion by highlighting the Union gains and Confederate losses that led up to the Battle of Memphis and maintaining that had the battle gone differently, Grant's plans for taking Vicksburg would have been drastically altered. Edward B. McCaul Jr. is Assistant Dean for Curriculum and Assessment in the College of Engineering at The Ohio State University. He is the author of *The Mechanical Fuze* and *The Advance of Artillery in the Civil War*, and his articles have appeared in *Military History*, *Vietnam*, and *Aviation History*.
